GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 h. on Thursday,  
the 15th August 1907, based on the Indian Daily Weather Reports  
of the period.**

The trough of low pressure has been south of its usual position during the week, and within it a depression began to form at the head of the Bay on the 11th: the depression developed slowly until the 14th when it was of moderate intensity and then moved westward, being in the neighbourhood of Sambalpur on the morning of the 15th. It increased the rainfall in Orissa but during its period of formation the winds from the Bay were prevented from penetrating freely into northeast India and the Gangetic plain, with the result that rainfall in these areas was scanty until the last day of the week. On this date the depression had advanced far enough westward to cause moderately heavy rain in the central portions of the country and of the United Provinces. In northwest India a disturbance of a very abnormal type began to affect Baluchistan on the 12th and appears to have passed eastward through the Punjab and Kashmir: it occasioned widespread and in some parts heavy rainfall in northeast Baluchistan, north Rajputana, the Punjab, the North-West Frontier Province and Kashmir, and probably snow on the higher ranges of the Himalayas. The Arabian Sea monsoon current carried abundant rain into Gujarat and the Deccan.

**Burma.**—Rainfall was general in the coast districts and local in the interior. Skies were moderately to heavily clouded and temperature was normal, except on the 13th when weather was considerably cooler than usual in Upper Burma.

**Northeast India, including Orissa.**—Rain fell in all parts of the division but was chiefly local in character except in the vicinity of the depression at the head of the Bay where

precipitation was general. Cloud was moderate to heavy everywhere on the 9th and 10th, but on the appearance of the depression cloud decreased in the northern districts of north-east India and skies were clear or only lightly clouded there. Temperature was approximately normal.

*The United Provinces, Central India and the Central Provinces.*—Nearly general rain fell throughout the week in the Central Provinces, and on the 10th in Central India and the United Provinces, but rainfall was only local in the last two areas during the remainder of the week. Skies were lightly to moderately clouded in the United Provinces and heavily clouded elsewhere. Temperature was nearly normal, except in the south of the Central Provinces where it was lower than usual.

*Northwest India.*—Rain occurred in all parts of the division and was nearly general in the Punjab on the 10th and 13th, in the Frontier Province on the 10th, in Rajputana on the 10th and 11th, in Gujarat on the 9th, 11th and 12th, in Sind on the 11th and in north-east Baluchistan on the 12th. Cloud was thick in Rajputana, Gujarat and lower Sind, and varied from light to heavy in other parts of the division. Temperature was practically normal throughout the week in Rajputana and Gujarat, but elsewhere the departures from the normal were determined by the distribution of rainfall.

*The Peninsula.*—Rainfall was nearly general on the west coast and local to general in the Bombay Deccan and Hyderabad. Skies were heavily clouded except in the south-eastern districts, and temperature was in defect in the Deccan and approximately normal elsewhere.

The week's rainfall was above the average over the greater part of the country, the only areas in which it was less than usual being Eastern Bengal and Assam, Bengal, Bihar, the west Himalayas and submontane districts and the Madras Presidency, excepting Malabar and the north Madras coast. The rainfall for the whole monsoon period from the 3rd May to the 15th August is still 20 per cent. or more in defect in the Indo-Gangetic Plain (West), the West Himalayas and Sub-Himalayas, the East Coast (South) and in the subdivisions of Burdwan, Darbhanga, Bahraich, Jubbulpore, Jhansi, Jaipur and Bellary. It is about 30 per cent. in excess in Hyderabad and the Bombay Deccan, and within 20 per cent. of the normal elsewhere.

The following summarises the chief rainfall amounts of the week, as reported at 8 h. each day :

|             |   |
|-------------|---|
| August 9th. | Sibsagar 2·36", Darjeeling 3·97", Jhansi 1·37", Rajkot 1·71", and Mercara 4·02".  |
| " 10th.     | Tavoy 4·05", Benares 1·25", Agra 2·16", Sirsa 1·03", Multan 1·86" and Bikaner 2·51".  |
| " 11th.     | Cuttack 2·48", Nowgong 1·84", Sutna 2·15", Seoni 4·70", Kurrachee 1·90", Hanumkonda 3·03" and Nizamabad 1·96".  |
| " 12th.     | Akyab 5·00", Bhamo 2·86", Cuttack 2·35", Lahore 1·54", Kurrachee 1·24", Quetta 0·98", Nizamabad 1·85" and Gulbarga 2·70".   |
| " 13th.     | Minbu 1·12", Sambalpur 4·84", Saugor 1·94", Ludhiana 1·85", Montgomery 4·65", Deesa 1·71", Ahmedabad 2·70", Surat 6·03", Ahmednagar 1·79", Belgaum 2·07", Bombay 5·07" and Mercara 3·85". |
| " 14th.     | False Point 4·60", Nowgong 2·33", Pachmarhi 6·10", Ludhiana 3·05" and Bikaner 2·17".  |
| " 15th.     | Sambalpur 5·14", Agra 4·30", Mainpuri 1·96", Chanda 2·22", Saugor 2·80", Dera Ismail Khan 1·13", Multan 2·00" and Kotah 2·32".  |

J. PATTERSON,  
for Director-General of Observatories.

J. WILSON,  
Secretary to the Government of India.

SIMLA;  
The 15th August 1907.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

## Season and Crop Prospects for the week ending Saturday, 10th August 1907.

**Burma.**—Agricultural operations are progressing satisfactorily in Lower Burma except in an area of 5,000 acres in the north of Tharrawaddy where transplanting is delayed owing to want of rain. In Thayetmyo the area ploughed for wet-weather paddy has largely decreased in the Thayetmyo sub-division owing to want of rain, and crop prospects are poor in some parts of the district. Crops are withering in Pakokku. In Mandalay the early wet-weather paddy will only be a 12-anna crop owing to want of ripening showers. The wet-weather paddy has failed in the Thabeitkyin township of the Ruby Mines district. More rain is badly wanted in Shwebo, Sagaing and Lower Chindwin. In Lower Chindwin paddy nurseries are withering and early sesamum has partially failed. Some nurseries have been destroyed in parts of the Singaing township of Kyaukse for want of rain. Rain is badly wanted in Meiktila, Yameihin and Myingyan. Altogether the present position in Upper Burma is unsatisfactory. The price of paddy has risen slightly in Henzada and Mergui; elsewhere it is stationary.

**Eastern Bengal and Assam**—The weather is hot and cloudy. There was slight to moderate rain in all districts. More rain is wanted in Dinajpur, Rangpur, the Khasi and Jaintia Hills, Goalpara and Kamrup. Plucking and manufacture of tea are in progress; prospects are poor in Cachar owing to prevalence of mosquito blight; they are fair to good elsewhere. Ploughing for and transplantation of winter rice and harvesting of early rice and jute are in progress. Prospects of standing crops are generally good, but early rice is being damaged by insects in parts of Lakhimpur. Gathering of potatoes in the Khasi Hills is still in progress and the outturn is very good. Prices of common rice:—Manipur 13½; Kohima 9½; Chittagong 9; Comilla 8½; Dacca, Noakhali and Silchar 8½; Faridpur and Pabna 8½; Mymensingh, Barisal, Rangamati, Malda, Sylhet and Gauhati 8; Dinajpur 7½; Bogra and Dhubri 7½; Tezpur and Dibrugarh 7½; Jalpaiguri, Nowgong, Sibsagar and Tura 7; Rampur Boalia 6½; Shillong 6½; Rangpur 6 and Aijal 5 seers per rupee. Prices have fallen in nine and remained stationary in the remaining districts.

**Bengal.**—The rainfall was general over the Province; it was heavy in Darjeeling, Cuttack and Puri; moderate in Hazaribagh, Ranchi and Palamau; and light elsewhere. Transplantation of paddy is still going on but more rain is needed in many districts for this operation. In some places the cutting of jute and of early paddy has commenced. The condition of the standing crops on the whole is satisfactory so far, but some damage by floods is reported from parts of the 24 Parganas and Darbhanga. Sugarcane is doing well. In Darbhanga the number of persons gratuitously relieved in the undeclared area is 224; and in the famine area 8,054; the number of persons on relief works is 3,556. The fodder and water-supply are insufficient everywhere. The price of common rice has risen in seven and fallen in six districts; it is stationary in the rest of the Province.

**United Provinces.**—Rain has fallen throughout the Provinces; it is sufficient in most districts for present needs but more rain is required, especially in Bahraich, Gonda and Gorakhpur. Sowings continue and in parts are nearing completion. Weeding is in progress and transplantation of late rice is going on, though in Azamgarh, Ghazipur and Ballia it is being delayed for want of rain. Some damage has been caused to the sugarcane crop by floods in low-lying lands in Bareilly. Fodder is scarce and dear in Hardoi, Kheri, Unao and Rae Bareilly. Supplies are adequate and prices continue stationary.

**Punjab.**—[Report not received.]

**North-West Frontier Province.**—Good rain, ranging from 1 to 3 inches, has fallen in Dera Ismail Khan and Hazara; in Peshawar and Bannu the rainfall has been light and partial; and in Kohat it is very deficient. The standing crops are in fair condition but more rain is needed, except in Hazara, for further autumn sowings and preparation of land for spring crops. Floods have occurred in the Kurram and Tochi rivers in the Bannu district and extensive irrigation from hill torrents in the Daman tract and from the Indus in the Kulachi tehsil of the Dera Ismail Khan district. The water-supply and fodder are sufficient. Cattle are in good condition. Owing to improved prospects prices are falling slightly. Prices—wheat 15½ to 20; maize 22 to 32½; gram 15½ to 23; and *bajra* 19 to 23½ seers per rupee.

**Jammu.**—There was good rain during the week. Prices are fluctuating. Prices—wheat from 12 to 20 and maize 19 to 33 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. Land is being prepared for autumn cultivation.

**Kashmir.**—The weather is bright with slight drizzles. Prices are almost stationary.

**Rajputana.**—The rainfall was general throughout Rajputana; the chief falls were:—2 inches 32 cents in Bikaner, 4 inches 64 cents in Marwar, 1 inch 91 cents at Jaisalmer, 8 inches 82 cents at Sirohi, 1 inch 93 cents in Mewar, 2 inches 53 cents in the Mewar Hill tracts, 2 inches 9 cents in Dungarpur, 3 inches 63 cents in Banswara, 4 inches 14 cents in Partabgarh, 4 inches 66 cents in Bundi, 2 inches 65 cents in Tonk, 7 inches 77 cents in Shahpura, 3 inches 2 cents at Kotah, 7 inches at Jhalrapatan city, 60 cents at Jaipur, 4 inches 83 cents at Kishangarh, 1 inch 72 cents in Alwar, 2 inches 32 cents at Karauli, 4 inches 34 cents at Bharatpur, 2 inches 38 cents in Dholpur, 7 inches 3 cents in Ajmer, and 6 inches 76 cents in Merwara. The heavy rainfall has been endangering some tanks in Kishangarh and damaging crops in one or two localities in the Ajmer district. Sowing and weeding operations continue. Cattle are generally in good condition except in parts of Mewar. Pasturage is sufficient. Prices are falling in Kishangarh, Alwar and Ajmer-Merwara; are rising in Jaisalmer and Bharatpur; and are practically steady elsewhere.

**Central India.**—There was general rain during the week. Sowings are in progress and weeding has started in Indore. Agricultural stock and pasturage are fair to good. Old stocks of fodder are exhausted in Indore. Prices are stationary in Gwalior, Bundelkhand and Indore; are high in Bhopal, Baghelkhand and parts of Malwa; and are falling in Bhopawar.

**Central Provinces.**—Rain fell throughout the Provinces; in some districts it was heavy. The principal falls (in inches) were:—Balaghat 19; Mandla 9½, and Damoh, Seoni and Betul each 7½ inches; the rainfall in the remaining districts ranged from 5½ inches in Saugor to ½ inches in Akola. A break in the rains now would expedite the completion of sowings in some of the northern districts and facilitate weeding and transplantation in the rice districts. Thinning operations continue in Chhattisgarh. The excessive moisture in Akola and in some districts of the Nagpur country is likely to damage the *juar* and cotton crops in low-lying lands. Preparation of land for sowings of spring crops continues in Betul and Amraoti; but operations are retarded elsewhere by continuous rain. Germination is reported to be good everywhere. Prospects are generally favourable. Fodder and water are adequate. Prices remained stationary in ten districts and fluctuated slightly elsewhere, exhibiting a tendency to rise. Prices still continue equal to or above the scarcity level in Bhandara, Wardha, Chanda, Balaghat, Mandla, Bilaspur, Drug, Buldana and Yeotmal.

**Native States.**—Udaipur had 8½ inches of rain, Jashpur 4½, Sakti 4, Ruigarh 3½, Raj-Nandgaon 3, Kawardha 2, and Chhuikhadan and Sarangarh 1 inch each. More rain is required in parts of Kawardha, Sarangarh and Raj-Nandgaon. Sowing of autumn crops still continues. Weeding, transplantation and thinning of rice are in full swing and germination is reported to be good. Prospects are generally favourable. Fodder and water are sufficient. There are no marked variations in prices.

**Bombay.**—Heavy rain fell during the week in parts of Gujarat, Khandesh, Poona, Satara, Palanpur, Cutch and Baroda and good rain in other districts, except in parts of Sholapur and the Karnatak where it was deficient. Inundation in Sind is still low though prospects are much improved owing to a rise of the river and the recent rainfall. Autumn sowing is retarded in parts of Gujarat, West Khandesh, Satara, Baroda and Cutch owing to excessive rain; it continues elsewhere. Transplantation is progressing in parts of Sind, Gujarat, the Konkan, Nasik, Ahmednagar, Poona, Satara and Rewa-Kintha. Seedlings are in good condition except in parts of Ahmedabad, Broach, Kanara, Poona, Satara, Palanpur and Cutch where they are slightly damaged by heavy rain. The fodder-supply is generally adequate. Agricultural stock is in good condition. Drinking water is sufficient. The supply of water for irrigation is sufficient except in parts of Nasik and Bijapur. The quantity of food-grains purchasable per rupee is in the Karnatak 19 to 33 per cent; in the Deccan 2 to 20 per cent; and elsewhere 13 to 36 per cent less than the normal. During the week ending the 3rd August 27 persons were relieved gratuitously in Belgaum.

**Hyderabad.**—Rainfall one inch 22 cents. Prospects continue good. Autumn and early rice crops are in fair to good condition and weeding is in progress. Early rice sowings continue in parts. Lands are being prepared for spring cultivation. Prices:—wheat 7½; rice 7½; and *juar* 16 seers per rupee.

**Mysore.**—There was good rain in Hassan, Kadur and Shimoga, and slight rain elsewhere. Prices of food-grains are generally steady. The standing crops are in good condition but more rain is needed in parts of Bangalore, Tumkur and Mysore. The prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

**Coorg.**—Rainfall 18 inches 47 cents. Transplanting of rice continues. Prices of food-grains are normal. Water and fodder are sufficient.

**Madras.**—The rainfall was very heavy in Malabar, South Canara, the Nilgiris and Vizagapatam littoral; good in Godavari, Kistna and Ganjam; none in Trichinopoly; and light to fair elsewhere. Irrigation supplies are sufficient, except in parts of Ganjam, Guntur, the Deccan, the Carnatic, North Arcot, Salem, Madura and Tinnevely. Ploughing, sowing, weeding and transplanting are in progress. The standing crops are generally fair but some in parts of Guntur, Bellary, Coimbatore, Madura and Tinnevely require more rain; and some in parts of Malabar have been damaged by heavy rain. Harvests are proceeding except in Godavari, Kistna, Guntur, Kurnool, Bellary, Tanjore, Malabar and South Kanara with outturn poor to normal. Pasture is sufficient except in parts of Vizagapatam, Bellary, Nellore, Madura and Tinnevely. Fodder is procurable. The condition of cattle is generally good. The price of rice is stationary in twelve districts; has fallen in four; and has slightly risen in seven. The prices of millets have fluctuated as follows:—*Ragi* is stationary in ten districts; has fallen in five; and has slightly risen in six. *Cholam* is stationary in three districts; has fallen in seven; and has slightly risen in four. *Cumbu* is stationary in five districts; has fallen in six; and has slightly risen in four.

The number of persons in receipt of relief during the preceding and present weeks in each province is shown in the following table:

| Name of province.                  | PRECEDING WEEK. (REVISED FIGURES.) |                    |               | PRESENT WEEK. |                    |               | Increase or decrease. |

GOVERNMENT OF INDIA.

FINANCE DEPARTMENT.

SEPARATE REVENUE.

Excise.

*Simla, the 15th August 1907.*

Resolution by the Government of India in the Finance Department No. 5086-Exc., dated the 15th August 1907.

Ordered that the foregoing Resolution be published for general information in the Supplement to the *Gazette of India*.

J. S. MESTON,

Secretary to the Government of India.

---

No. 5086-Exc.

*The 15th August 1907.*

RESOLUTION.

In a series of previous Resolutions the Government of India have dealt with the questions discussed in successive Chapters of the Excise Committee's Report. They turn now to the subject of Chapters XI and XII of that Report, and propose to deal in the present Resolution with

- (1) the number, location and licensing of liquor shops ;
- (2) the conditions under which liquor should be sold.

As the Committee have remarked, these matters are of the highest importance in their bearing on the Government's recognised policy of restricting the consumption of intoxicating liquors by fiscal measures.

I.—NUMBER, LOCATION AND LICENSING OF LIQUOR SHOPS.

2. Throughout India as a whole, as the statistics in paragraph 75 of the Committee's Report conclusively show, the proportion of shops to the population which they serve is extremely moderate. The distribution, however, is very uneven. On the one hand, there are areas where the facilities for supply are in excess ; on the other hand, in some areas they are so deficient as to provide a direct incentive to illicit practices. Among the former may be mentioned the Central Provinces (where, however, a thorough reform is now in progress), Behar and the eastern districts of the United Provinces in regard to *tari* shops, certain districts of Bengal in regard to *pachtwai* shops, and parts of Madras. Among the areas where the number of shops is insufficient to check illicit supplies, are some of the Bengal districts, certain districts of relatively large consumption in the United Provinces, and parts of Bombay (where the difficulty will become more acute when the District Monopoly system in that province is replaced by the system of Contract Distilleries). The considerations which, in the Government of India's opinion, must govern the decision as to the number of shops to be established in a given area are perfectly clear. If shops are allowed to be so sparse that each has a practical monopoly over a considerable area, prices will inevitably be raised and illicit practices encouraged ; this danger will be accentuated if the limit of private possession of liquor is reduced, as suggested in paragraph 12 below. On the other hand, while shops need not necessarily be so

limited in number as to make it impossible for a resident in a particular area to get his liquor except from one particular shop, it should only be possible for him to do so at the cost of considerable inconvenience, and he ought to have as little freedom of choice in the matter as possible. If two or more shops are equally convenient to any considerable number of persons, the fact affords what the Government of India would regard as *primâ facie* evidence that the number of shops in that particular area is excessive.

3. The Government of India are desirous that Local Governments, who have not recently examined the subject, should now investigate the number of shops required in their provinces with reference to the criteria indicated above and the more detailed criticisms of the Excise Committee. The Government of India, however, wish to guard against any possible misconception of these instructions. They do not suggest that there should be any addition to the total number of liquor shops in India. The investigation should aim at a redistribution where the present arrangement is uneven, and at a reduction where the number of shops is now in excess.

It is of course impossible to lay down a uniform standard even for a single large province, as different tracts differ materially in the distribution and density of the drinking population and the facilities for putting down illicit consumption where shops are sparse. The Committee's proposal (paragraph 234 of the Report) to consider separately, with reference to local conditions, a minimum and a maximum scale of shops for every tahsil or other convenient sub-division of a district, is one which has the approval of the Government of India; a similar scale might also be determined for each municipality. The determination of maximum and minimum numbers for each municipality and rural area would give the local authorities sufficient scope to provide for varying circumstances; but the margin between the minimum and maximum figure in each case must not be large.

4. The licensing authority in India, outside the Presidency towns, is the District officer; and the Excise Committee have carefully considered whether the existing practice calls for modification. In the granting of liquor licenses and the location of liquor shops, the extent to which public opinion can be ascertained, and the weight which should attach to such opinion as is expressed, are questions of no small difficulty. Local option, in the sense in which that term is generally understood, is quite impracticable in India. As the Government

of India wrote in 1890, it "would throw the whole Administration into confusion, and would in some places create an intolerable class tyranny which might have very serious political effects." The position has not materially changed since this was written; and it is impossible for the Government to lay aside its responsibilities for fixing, whether by itself or through its officers, the number and sites of liquor shops. The Government of India would be glad, however, to see local opinion consulted more systematically and recorded more definitely than is the case at present; and to that end they suggest for the careful consideration of Local Governments the following modifications in the present procedure, which are based to a certain extent on the Committee's recommendations.

5. The machinery which the Committee proposed for the licensing of shops in the Presidency and other large towns is a small local committee; and the Government of India think that a similar body might suitably be utilized for drawing up the maximum and minimum scales both in the Presidency towns and other large municipalities with a population exceeding, say, 10,000 or some other suitable figure to be fixed by the Local Government. The Committee in the Presidency towns and Rangoon might consist of (1) the Collector, the Excise Commissioner, or other Chief Revenue officer; (2) the Commissioner of Police; (3) the Chairman of the Corporation; and (4) the Municipal Commissioner or Commissioners for each ward separately. In other municipalities it might similarly consist of (1) the District officer; (2) the District Superintendent of Police; (3) the Chairman of the municipality; and (4) the members (or a selected member) for each ward separately. The precise constitution of the Committees must however in all cases be left to the discretion of the Local Government concerned, and there is no need for uniformity. These Committees might

prepare their proposals, or consider those of the Collector, once in three to five years and submit them to the Chief Revenue authority for the approval of Government, whose decision should be final. Whether a similar agency could be employed for rural areas, or even for small towns, appears to the Government of India to be somewhat doubtful. Members of District and Local Boards are rarely in a position to gauge the requirements of the rural population in the same way as the leading citizens of large towns can judge the number of shops required in the smaller and more densely populated areas with which they are familiar. The extension of the system outside the larger towns, however, is a matter which may be left to the discretion of Local Governments.

6. The exact position of shops for which licenses have been granted is a matter on which considerable diversity of opinion has been expressed, both by administrative authorities, and by those who interest themselves in temperance reform. The Government of India, however, are in general accord with the broad principles which the Committee (paragraph 237 of their Report) have recommended for observance in the selection of sites. They also approve of the Committee's further suggestions in the direction of notifying proposed sites with the object of ascertaining any local objections to them, and of obtaining the opinions of those who may be specially interested, such as railway authorities, Forest officers, and large employers of labour in tea gardens, mills and coal mines. In addition to these measures the Collector should, before each periodical auction or settlement in a large town, consult the local committee above described, if possible personally. Their advice for or against the location of a shop in a particular place where it is proposed to have it would be valuable; but the Collector's decision should be final, and the licensing of shop-keepers should also be left in his hands. Any police objection as to the character of applicants would of course be duly considered, as is already definitely required in the case of Presidency towns.

## II.—CONDITIONS OF THE RETAIL SALE OF LIQUOR.

7. On this important subject the Excise Committee have recorded a number of recommendations, which have the entire concurrence of the Government of India, and which they commend to the most careful consideration of Local Governments. It is impossible, within the limits of a Resolution, to enumerate the many details of a policy upon which the Committee's pronouncements are accepted by the Government of India; but the following matters may be selected for special reference.

*Shop premises (paragraph 247 of the Report).*—These should, as a rule, have only a single door opening into a public road. When special circumstances appear to justify it, however, provision may be made for a separate private bar, which should require a special license from the Collector; there need be no objection to a separate entrance to such a bar, provided it is labeled as such. Each shop should be so constructed that the interior, whether of a public or private bar, may be visible from its door-way, and it should not be a place of residence save for the vendor and his family or caretakers. The employment as shops of buildings such as the Committee describe at Amritsar, where the shops are turned into local club houses, should be put a stop to.

8. *Hours of sale (paragraph 248 of the Report).*—Shops should not be opened before sunrise and should ordinarily be closed not later than 9 P.M.; and in certain places, as in the Assam tea gardens, earlier closing hours may be laid down at the discretion of the local authorities. When for any reason a shop is kept open after ordinary hours, it should be under special license and on payment of a special fee. Shops should be liable to temporary closure, under the orders of the Collector, when troops are encamped or marching in the vicinity and in times of religious excitement or disturbance; and, as is required in Bombay, a shop-keeper should himself take the initiative in closing a shop when there is riot or disturbance in the neighbourhood.

9. *Persons who should not be allowed to sell liquor (paragraph 249 of the Report).*—Sale by minors (*i.e.*, in this connection, persons below the age of 14) and

diseased persons should be prohibited. As regards sale by women, the Government of India agree with the view taken by the Government of Bombay in 1905 that there is no necessity for its absolute prohibition, and that it will be sufficient to cancel the license and to refuse renewal in the case of any person who is found to allow the business of a refreshment room to be carried on in a manner which is open to reasonable suspicion. It is, however, ordinarily desirable to confine permission to a wife, daughter, or other near relative of the shop-keeper who is living with him; and there may, as the Committee indicate, be particular places in which it is desirable to forbid sale by women altogether. The Collector should in all cases have power to call for the names of persons employed or proposed to be employed in liquor shops, and to forbid sale by such as he may disapprove.

10. *Persons to whom liquor should not be sold (paragraph 250 of the Report).*—These should include :—

- (1) Sailors and the soldiers, and the members of their families, except when supplied at licensed houses, refreshment rooms and shops, which have been specially approved by the General Officer Commanding the Division (or Independent Brigade) or the Officer Commanding the Cantonment or Camp, and then only in respect to such liquors as shall be approved by the same authority in consultation with the local Excise authorities, and specified in the vendor's license.
- (2) Camp followers, policemen, Excise officers and railway servants when on duty.
- (3) European vagrants under escort of the police.
- (4) Insane persons.
- (5) Persons known or believed to be intoxicated.
- (6) Children (*i.e.*, in this connection, persons below the age of 14).

The Government of India agree with the Committee that sale to women may be prohibited by a Local Government in special areas where it may be thought necessary. But there should be no general prohibition.

11. *General conduct of shop premises (paragraphs 266 and 268 of the Report).*—Gambling and entertainments on shop premises should be forbidden. A shop-keeper's responsibility for drunkenness on his own premises should be insisted on, and the further provision (suggested in paragraph 11 of Government of India Resolution No. 7057-Exc., dated the 18th December 1906) that, in cases where drunkenness amounting to a public nuisance occurs in the vicinity of a shop, the shop-keeper should be liable to have his license cancelled, may also be useful in certain cases. It can of course, as the Committee point out, only be enforced in the case of villages with single shops, and a town shop-keeper could not be made "liable to lose his license every time a drunken man passed down the street in which his shop was situated". Orders prohibiting consumption on the premises are of doubtful efficacy, and the Government of India are not satisfied that they should be issued, except, of course, in cases of foreign liquor shops which have only a license for consumption off the premises. To enable a consumer to send for country spirit for consumption at home or in a friend's house would, in many cases, encourage drinking by making it possible to avoid the loss of credit which visits to the liquor shops would otherwise entail.

12. *Limits of retail sale and consequently of private possession (paragraph 251 of the Report).*—The circumstances of different provinces, and of different tracts within the same province, vary greatly, and in fixing the limits of private possession it is necessary to consider the drinking habits of the people, and also the number of shops. Where shops are sparse the amount which a consumer may obtain at one time must necessarily be larger than where they are numerous. An unnecessarily high limit, on the other hand, merely tempts the possessor to become an illicit vendor. While not wishing to lay down any general rule, the Government of India consider that a maximum limit of one gallon, whether in the case of country spirit, *tari* or foreign liquor, should not ordinarily be exceeded. But in any province in which the prescription of a smaller maximum in regard to country spirit or *tari* has not been found inconvenient, such smaller maximum may of course be adhered to.

The Government of India do not approve of the suggestion that shop-keepers and non-officials should have general powers to extend the limits of private possession. The power to grant special permits must rest with the responsible officers of Government and should not be entrusted to non-officials unconnected with the liquor trade. Shop-keepers should not be allowed to grant such permits, and consequently to sell more than the usual retail limit, except on special occasions, such as funerals and the like, which cannot be foreseen; and they should be required to report their action on every such occasion to the tahsildar (or other responsible Government officer) and be warned that any abuse of this privilege will debar them from holding shops thereafter.

13. *Regulation of the strengths of liquor sold (paragraphs 252, 253 and 256 to 259 of the Report).*—Country spirit in distillery areas should be sold at fixed strengths wherever there is an establishment capable of enforcing this condition without undue harassment of the shop-keeper. This is desirable, both in order to prevent fraud on the consumer by the watering of liquor, and also as a check on the utilization by country spirit vendors of foreign spirit, which is subject to different Excise conditions and is intended for a different class of consumers. Moreover, as the Committee observe (paragraph 299 of the Report), it is more difficult to produce illicit liquor that will pass detection when it is necessary to imitate precise strengths of licit spirit. The Committee's recommendations on this point may be summarized as follows :

- (1) There should eventually be two strengths, a low strength of 60° under-proof (approximately the lowest limit at which spirit, if properly manufactured, can keep and carry in good condition) and a higher limit of 30° under-proof.
- (2) Where spirit is at present sold at higher strengths, a reduction of the maximum strength should be carefully carried out so as not to provoke illicit practices. As a first step, the sales at proof strength in the United Provinces and the Punjab, at 20° under-proof in Madras, and at any strengths above 25° under-proof in Sind, Bengal, Eastern Bengal and Assam, Coorg, Ajmer-Merwara and Bangalore, should cease; and in provinces such as the United Provinces, where there is no provision for issue at a strength lower than 25° under-proof, arrangements should be made for issue at 50° under-proof for the present, to be reduced later to 60°.
- (3) In areas where weak spirit is now drunk, a small differentiation of duty in favour of the lower strength is desirable to prevent its displacement by the stronger liquor which is more profitable to the shop-keeper.
- (4) Shop-keepers should be required to maintain stocks of the weaker liquor for sale.

The Government of India accept the view that the absolute prohibition of the sale of country liquor above a low fixed strength will not be effective in preventing drunkenness, and they consider that the adoption of the above measures should tend to secure, as far as this is possible, the sale of a weak but at the same time wholesome spirit. They also agree with the Committee (paragraph 254 of the Report) that any adulteration of spirit by the vendor should be prohibited and should involve the cancellation of his license, and that samples of spirits as sold in the shops should be periodically sent up by Excise officers for analysis; and further (paragraph 255 of the Report) that, where adulteration or undue watering of spirit is believed to be prevalent, a shop-keeper may be required to keep a stock of liquor in sealed bottles.

14. *Regulation of prices (paragraphs 250 and 261 of the Report).*—In distillery areas it is desirable that minimum prices should be prescribed under a separate shop system in order to prevent reckless competition and to deter shop-keepers from undue efforts to clear off stocks towards the close of the period of the currency of their licenses. The enactment of maximum prices is, however, open to the objection that it exposes Government to the charge of making liquor

cheaper than it would otherwise be, and is justifiable only where one man has the monopoly of sale over a considerable area. The Government of India are in general accord with the further suggestions made by the Committee in this connection in paragraphs 262 to 265 of the Report.

15. *Official control (paragraph 267 of the Report).*—The Committee point out that however excellent regulations may be in themselves, they are useless unless there is a force which is capable of seeing that they are given effect to and which is duly instructed in that regard. They observe that in Assam the difficulty has been successfully met by the appointment of special Inspectors whose primary duty is the control of licensed premises and more particularly of drunkenness thereon, and they recommend the insistence in all provinces on the performance of similar duties by officers of the standing of Inspector or Darogha of Excise. They also suggest that a record should be maintained of convictions for drunkenness in places where it is punishable, as well as of action taken against licensees for permitting it, and that the subject should be noticed in the annual Administration Reports. The Government of India accept these proposals generally, but consider that the inspection of shops and control of drunkenness should be undertaken by the regular Excise staff of each province and not by a special agency appointed for that purpose only. On the question of adopting special measures with the object of discouraging the clandestine purchase of liquor by members of classes whose religion or caste forbids the use of alcohol, the Committee conclude (paragraph 269 of the Report) that nothing beyond the general measures already discussed is feasible from the Excise point of view ; and in this view the Government of India concur.

ORDERED that a copy of the foregoing Resolution be communicated, in continuation of Resolution No. 4341-Exc., dated the 11th July 1907, to all Local Governments and Administrations, with the request that they will report, as soon as possible, the extent to which they will be prepared to adopt the recommendations of the Committee in so far as they have been approved by the Government of India ; to the Home Department with reference to paragraphs 2 to 6, 9 and 10 ; to the Army Department with reference to paragraphs 10 (1) and (2) ; and to Major C. H. Bedford, I. M. S.

No. 6761-6781—181.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

TELEGRAPHS.

*Simla, the 14th August 1907.*

---

RESOLUTION.

READ—

The Administration Report of the Indian Telegraph Department for the year 1906-07.

ORDERED, that copies of the report be forwarded to His Majesty's Secretary of State for India, the Home and Finance Departments, the Accountant-General, Public Works Department, all Local Governments and Administrations and the Government of Ceylon, for information.

ORDERED, also, that the report be published in the Supplement to the *Gazette of India*.

B. ROBERTSON,

Offg. Secretary to the Government of India.

# ADMINISTRATION REPORT OF THE INDIAN TELEGRAPH DEPARTMENT FOR 1906-07.

## GENERAL REPORT.

Statistical information relating to the growth of the Department from its commencement up to date is given in a convenient form in Appendix D. General.

2. The capital account at the close of the year amounted to Rs. 9,87,56,349, the expenditure on that head in 1906-07 being Rs. 56,88,770, which includes Rs. 5,01,557, the outlay in the Public Works Department on telegraph buildings. Capital account.  
App. A and D.

3. The revenue earned having been Rs. 1,25,78,846, and the working expenses Rs. 96,63,075, the surplus amounts to Rs. 29,15,771, representing a return on capital outlay of 2.95 per cent. Revenue account.  
App. A and D.

4. As compared with the previous year the working expenses have increased by Rs. 6,77,290, as follows :— Working expenses.  
App. A and D.

|                  |     |     |     | Increase,<br>Rs. | Decrease,<br>Rs. |
|------------------|-----|-----|-----|------------------|------------------|
| General charges  | ... | ... | ... | ...              | 1,04,102         |
| Line maintenance | ... | ... | ... | 1,52,995         | ...              |
| Signalling       | ... | ... | ... | 6,28,397         | ...              |
|                  |     |     |     | <hr/>            | <hr/>            |
|                  |     |     |     | 7,81,392         | 1,04,102         |
| Net Increase     |     |     |     | 6,77,290         | ...              |

The decrease under general charges is due, principally, to a larger share of the establishment charges having been apportioned to capital works consequent on increased outlay during the year under this head. The increase under line maintenance is due to heavier repairs to lines having been executed in the year under review; and the increase under signalling, to the expansion of the department and the larger staff required to cope with the work, which has steadily increased since the introduction of the reduced inland tariffs in January 1904.

5. The receipts from all sources of revenue, which in the previous year aggregated Rs. 1,22,34,172, rose to Rs. 1,25,78,846 this year. The increase being made up as follows :— Receipts.  
App. A and D.

|   |     |     |     |     | Rs.      |
|---|-----|-----|-----|-----|----------|
| Message revenue   | ... | ... | ... | ... | 2,86,283 |
| Rent of wires and instruments leased to Railways and Canals |     |     |     |     | 49,079   |
| Rent of local and private lines and claims from guarantors  |     |     |     |     | 45,384   |
| Miscellaneous   | ... | ... | ... | ... | —36,072  |
|   |     |     |     |     | <hr/>    |
| TOTAL   |     |     |     | ... | 3,44,674 |

The value of telegrams has increased 3.04 per cent. and their number by 8.85 per cent. The increase in value is made up of an increase of Rs. 2,71,552 under paid telegrams and of Rs. 14,731 under *pro forma* value of news-free and concessional telegrams. Of the former account Rs. 15,001 represents a decrease in the value of State and Rs. 2,86,553 an increase in that of private telegrams.

6. Appendix E, and the diagram of curves immediately following it, show by figures and by curves, respectively, the variations that have occurred during the last 17 years in the number of paid telegrams and in the working charges. The working expenses are made up of charges to the two main heads, "Line maintenance" and "Signalling". Details of these charges for the past five years are shown on page 22 under "*Revenue charges*". As stated in paragraph 6 of Working charges  
per paid message  
App. A and E.

the Administration Report for last year there was a very large increase in the number of paid messages in 1904-05 following on a reduction in the inland tariff, without a corresponding increase in the signalling staff, with the result that, whereas the number of paid telegrams exceeded the totals for 1903-04 by 24·51 per cent., the working charges showed a rise of 1·61 per cent. only, resulting in a fall of Rs. 0·198, or 18 per cent., in the working expenses per message; the number of paid messages having been 90·98 lakhs, this drop represented a saving of Rs. 18·01 lakhs. The year 1905-06 had the disadvantage of being burdened with the cost of the permanent addition to the signalling staff engaged to cope with the increasing traffic, and included also extraordinary charges in connection with the visit of Their Royal Highnesses the Prince and Princess of Wales. Comparing the figures for the year with those of 1905-06 it will be seen that while the number of paid telegrams increased by 9·24 lakhs, or 8·83 per cent., the working charges per message fell from Rs. 0·859 to Rs. 0·848, a drop of Rs. 0·011, or 1·28 per cent., representing a saving of Rs. 1,16,000 on the 113·85 lakhs of paid telegrams handled.

Referring to the diagram of curves, it will be seen that the paid message curve for 1906-07 continues to show a very satisfactory movement upwards.

The cost of signalling, per message curve, shows a small drop in 1906-07, which by a reference to Appendix E, is found to be from Rs. 0·646 to Rs. 0·645 or Rs. 0·001, representing a fall of 0·155 per cent. The number of paid telegrams having been 113·85 lakhs, this drop represents a saving of Rs. 0·15 of a lakh—Rs. 15,000.

Telegraph offices.  
Para. 28.  
App. A and D.

7. On the 31st March 1907, there were 6,994 telegraph offices in India and Burma open for paid telegrams, of which 280 were departmental, 2,158 combined, 4,545 railway and 11 canal offices, as compared with an aggregate of 6,723 for the previous year, made up of 280 departmental, 2,029 combined, 4,403 railway and 11 canal offices.

Extensions.  
Paras. 35-40.  
App. A and D.

8. The system maintained by the Telegraph Department was augmented during the year by a net increase of 2,856 miles of line and 16,108 miles of wire, including cable, and at its close comprised 67,537 miles of line and 259,948 miles of wire and cable. Of the latter 81,401 miles were used by railways, 5,511 miles by canals, 7,944 miles were worked in connection with telephone exchanges and private lines, and 165,092 miles were for departmental purposes.

Telephones—Departmental.

9. The subscriptions to the Telegraph Department for telephone and similar services rendered during the calendar year 1906 amounted to Rs. 2,56,533, being an increase of Rs. 33,667 over the figures of the previous year. The average annual subscriptions for the past five years amount to Rs. 2,14,092.

With effect from the 1st of January 1907, uniform rates of Rs. 120, Rs. 135, and Rs. 150, for 8, 16 and 24 hour services, were introduced for all connections not exceeding two miles in length, to an exchange worked by the Telegraph Department, irrespective of the number of connections.

From the same date also the rates for internal installations were revised as follows :—

*Non-exchange connections.*

Rs. 45 per transmitter and receiver, per annum.

*Exchange connections worked by Telegraph Department.*

Rs. 90, 101 and 112, per connection per annum for 8, 16 and 24 hours' service respectively.

*Exchange connections not worked by the Telegraph Department.*

Rs. 75 per connection per annum.

The telephone system in Simla has continued to expand and the number of connections to the several exchanges has risen from 145 in 1904 to 266 in 1906, and the annual rental from Rs. 9,613 to Rs. 22,528 during these years. Female telephone operators employed on this system have continued to work satisfactorily.

In consequence of the expansion in the number of telephone subscribers on certain systems, it has been decided to introduce Central Battery telephone,

exchanges, which are almost universally used in modern exchanges of any size. Three such switch-boards' complete, of the latest type, with concomitant plant, have been obtained and one is now in course of erection at Cawnpore. It is anticipated that it will afford an improved service and, if this is found to be so, it is proposed to introduce similar central energy exchanges at Calcutta and Simla, and gradually elsewhere, when the number of subscribers is sufficient to justify the expense.

10. The gross earnings of the Telephone Companies, during the calendar Companies, year 1906 amounted to Rs. 6,23,607, being an advance of Rs. 43,688 over those of the previous year. Their average annual earnings during the past five years were Rs. 5,46,165.

### EVENTS OF INTEREST.

11. His Majesty the Amir of Afghanistan visited India during January, Amir's visit. February and March. A travelling staff composed of nine signallers and six peons, under the charge of a Traffic Sub-Assistant Superintendent, was organized to open camp telegraph offices and to strengthen the staff of existing offices wherever required. This staff opened 10 1st class camp telegraph offices styled "Amir's camp", at Landikotal, Peshawar, Sirhind, Agra, Aligarh, Cawnpore, Gwalior, Delhi, Hastings House, Calcutta and Lahore, 19 camp offices at wayside railway stations where the principal halts for meals, etc., were made, and strengthened the staff in 12 of the existing telegraph offices, at places visited by His Majesty and party.

For the State reception of His Majesty at Agra, in addition to the travelling staff, 32 signallers and eight peons were sent from other offices in India, and six clerks and 19 peons engaged locally, to strengthen the central telegraph office and to open five local camp telegraph offices. These five camp offices were receiving offices and treated as sub-offices of the central office. They were all connected to the central office by telephone for the regulation of the service of messengers. Messages booked at the camp offices were transferred by bicycle peons to the central office for transmission. Messages intended for persons in the camps were delivered by bicycle peons from the central office to the camp offices for distribution. The local traffic of the Agra office was numerically about double from the 1st to the 6th January; trebled from the 7th to the 15th, and became normal again about the 19th. The press traffic booked was very heavy, but the Wheatstone's automatic system proved of great assistance in its disposal, as also did the Baudôt system which worked regularly from 10 A. M. to 6 P.M. with Calcutta, and from 9 P.M. to 2 A.M. with Bombay.

The bulk of the troops assembled for the State reception were encamped at Bichpuri, between four and five miles, and at Sucheta, between two and three miles, distant from Agra. Military telegraph offices were opened at these places and at Agra Cantonments (about 600 yards from the Agra central telegraph office) by the Director, Army Telegraphs. Messages between the Departmental and Military systems were exchanged by hand at Agra Cantonments.

A central telephone exchange was opened near the Agra central telegraph office, to which there were 37 connections, as well as three trunk connections, to a subsidiary exchange in the Viceregal camp which had 16 connections. Besides these there were 28 direct connections. Altogether there were about 20 miles of posts and 134 miles of wire erected for telephonic communication in Agra.

12. Their Royal Highnesses the Duke and Duchess of Connaught visited Royal visit. Rangoon, Mandalay and Calcutta, during February and March, when special arrangements were made for the delivery of their telegrams and for the opening of camp telegraph offices at the principal places of halt while *en route* from Rangoon to Mandalay and back.

13. During July, information was received that a general strike among the signalling staff employed on the three railway systems terminating in Calcutta was anticipated and steps were accordingly taken by this Department, so as to be prepared to render all assistance possible. Strike among railway signallers.

On the 15th of July, the Traffic Superintendent, Eastern Bengal State Railway, intimated that the signallers on that railway, had given him 24 hours' notice

of resignation unless certain demands were complied with; and he enquired whether this Department could help him with signallers. Twenty-six telegraph masters and signallers were accordingly sent to the Sealdah station the next day, the 16th, and their presence had the effect of discouraging the strikers, and the strike collapsed that same evening.

At about the same time, the General Traffic Manager of the East Indian Railway intimated that he expected a strike of telegraph signallers on that railway; arrangements were immediately made to supply a sufficient number of men from the telegraph divisions contiguous to the East Indian Railway, to man all the principal stations between Howrah and Moghalsarai, and to hold a sufficient number in reserve in other divisions, in the event of it being necessary to render assistance on a more extended scale.

The strike on the East Indian Railway began on the 22nd of July and 74 men in all were lent to the railway on that day,—27 from the Calcutta office, 30 from the Bengal Division, 10 from the Calcutta Presidency Division and 7 from the United Provinces of Agra and Oudh Division. These men were all employed on the section from Howrah to Moghalsarai and their prompt despatch had the excellent effect of checking the strike and preventing its spread into the United Provinces.

In all, 187 men, including telegraph masters, signallers, military telegraphists, probationers and non-departmental signallers, were lent to this railway between the 22nd of July and the 10th October, the latter being the date of the return of the last signaller.

An anticipated strike among the signallers of the Bengal-Nagpur Railway did not take place, the signallers evidently being discouraged by the collapse of the movements on the Eastern Bengal and East Indian Railways.

The London Board of Directors of the East Indian Railway, expressed, through their Agent in India, their appreciation of the prompt and valuable assistance afforded by this Department, which averted an interruption of traffic and great inconvenience to the travelling public.

Reduction in  
foreign tariffs.

14. From the 1st October, inland State and private telegrams, addressed to more than one telegraph office, were required to be written on separate telegram forms, according to the practice in the United Kingdom and in other countries.

From the same date, the rules for foreign private telegrams were modified requiring such telegrams, written in any plain language other than plain English or the vernacular languages of India or Ceylon, to have a certificate signed by the sender to the effect, that the messages do not contain combinations or alterations of words contrary to the usage of the language, or if in Code language, that the words are not combinations of two or more words in plain language, contrary to the usage of the language. These certificates practically amount to calling the attention of the senders to the international rules on the subject.

Slight revisions were also made in the rules for foreign press telegrams from 1st January; Stock Exchange and market quotations being admitted in press telegrams at the reduced rates, and multiple press telegrams being admitted if addressed to newspapers in the same town. The charge to be collected on multiple press telegrams, for the additional copies to be delivered by the office of destination, being the same as that for ordinary private telegrams, *i. e.*, 50 centimes, or 5 annas, for each copy not containing more than one hundred words, the number of copies being equal to the number of addresses less one.

Reduction in  
rates for British  
foreign State tele-  
grams.

15. In paragraph 15 of last year's report it was stated that, the Eastern Telegraph Company and the Indo-European Telegraph Department, agreed to carry British, Indian and Colonial Government telegrams, exchanged between India and Europe, at half rates, and that the Indian Government had also reduced its terminal rate on such telegrams to half. Since then, the Indian Government have been invited to take part in the general reduction of rates for the transmission of British, Indian and Colonial Government telegrams conceded by the Cable Companies. The Indian terminal rates were accordingly reduced, from 1st July, to one-half for British, Indian and Colonial Government telegrams exchanged with places served by Cable Companies which carry such telegrams at half the

ordinary rates. From the 1st January, the Indian transit rate was reduced to half, for all British and Colonial Government telegrams transiting India.

16. The necessity for a more reliable telegraphic service between India and Burma, than that afforded by the existing land lines, has long been recognised and during the year, the question of laying a deep-sea cable from Madras to Cape Negrais, with a land line thence to Rangoon, was considered. The proposal was, however, not proceeded with, as it was held that the very heavy expenditure involved, could not be justified, in view of the fact that, as soon as the Sara Railway bridge is completed, it is hoped to be able to obtain a land route to Burma that will be far more reliable and easy of maintenance, than any of the existing ones. Communication with Burma.

From paragraph 41, it will be observed, that telegraphic communication between India and Burma *via* Assam, was interrupted from the 12th of July to the 8th of November, on account of the failure of all the four cables across the Brahmaputra near Jogigopa, and that telegrams were carried over the interrupted section and communication maintained by means of a continuous boat service. This break in the direct communication with Burma, coupled with the unsteadiness of the lines *via* the Arakan Coast, reduced the carrying capacity of the Burma wires by 50 per cent. and caused a serious congestion of traffic in the Calcutta and Rangoon offices. It was necessary, therefore, in order to bring the traffic within manageable proportions, to suspend the booking of all deferred traffic, between India and Burma, from the 28th of August to the 12th of November.

Serious apprehension was caused on the 3rd of November by a report of interruption of both the Madras-Penang cables, which necessitated a diversion of the Far East traffic *via* Moulamein and Kedah. Fortunately, communication was restored on one cable after an interruption of 13 hours' duration, otherwise it is possible, that the state of the Burma wires at the time, would have presented serious difficulties to the disposal of this additional and important international traffic.

17. Towards the close of the year, arrangements were in progress for the introduction of telegram forms with embossed stamps, to the value of four annas, one rupee and two rupees, for deferred, ordinary and urgent telegrams, respectively. The embossed telegraph stamps to be double headed, to admit of the upper halves appearing on the receipt portion of the form which would be granted to the sender as at present. These forms will be made up in packets of 20, eyeletted together or in bound packets, or blocks each containing 20 embossed stamp forms, interleaved with blank forms, and supplied with a loose piece of carbonic paper to each packet or block and will be available for sale to the public at a small charge, in addition to the denominated value of the embossed stamps. The introduction of these embossed stamp forms will, it is expected, result in reducing the time taken in the booking of telegrams and prove a convenience to the regular telegram-sending public, by obviating the necessity of their sending money to the telegraph office, with each telegram to be booked. Telegram forms with embossed stamps.

18. The Committee appointed by the Government of India, under Department of Commerce and Industry, Resolution no. 7550-7575-58, dated the 25th of September 1906, to investigate certain matters, detailed in paragraph 14 of the Resolution, relating to the Indian Telegraph Department and to submit proposals for the improved organisation thereof in all its branches, entered on their duties on the 28th of September 1906 in Simla and were still engaged on the same at the close of the official year. Telegraph Committee.

#### TRAFFIC.

19. The number and value of telegrams of each class are given in Appendix D. Amount and value of traffic.

The total paid traffic (excluding news-free and concessional telegrams) when compared with the previous year shows an increase of 924,049 or 8.83 per cent., in number and Rs. 2,71,552, or 2.93 per cent., in value. Compared with previous year.

Inland private traffic (including press) shows an increase of 811,665, or 9.55 per cent., in number, and Rs. 3,38,886, or 6.35 per cent., in value. Inland-Private.

**Inland—State.** In inland State telegrams there has been an increase of 33,539, or 3·91 per cent., in number and Rs. 4,176 or 0·26 per cent., in value.

**Foreign—Private.** Foreign private telegrams (including press and foreign transit traffic) show an increase of 78,949, or 7·23 per cent., in number with a decrease of Rs. 52,333, or 2·33 per cent., in the Indian share of their value. The decrease in the value is partly accounted for by the reduction of rates for foreign telegrams between India and Europe, which took effect from the 1st August 1905, as mentioned in paragraph 15 of last year's report and, to the reduction by one-half, of the Indian transit charges on British and Colonial Government telegrams transiting India, from 1st July as stated in paragraph 15. The revenue from foreign State telegrams transiting India is included under foreign private.

**Foreign—State.** Foreign State telegrams decreased by 104, or 0·65 per cent., in number and Rs. 19,177, or 26·11 per cent., in value. The decrease in the value is due to the reduction in the terminal rate for foreign telegrams and to the decision of the Government of India to charge half-rates on British, Indian and Colonial Government telegrams, exchanged between India and Europe from 1st August 1905 and to the further reduction in the rates for Government telegrams referred to in paragraph 15.

**Private—deferred.** The four-anna telegram is gaining in popularity with the public. There were 3,589,099 private four-anna telegrams booked, as compared with 2,951,457 the previous year, or an increase of 21·63 per cent. They formed 47·70 per cent. of the total deferred private traffic as against 43·42 per cent. the previous year.

**State—deferred.** State four-anna telegrams booked, numbered 43,433 as against 33,277 the previous year, or an increase of 30·51 per cent. The percentage to the total State deferred traffic was 6·51 as against 5·07 the previous year.

**Inland—Press.** 20. There were 59,850 inland press telegrams, containing 22,818,923 words, transmitted during the year, as against 43,871 telegrams, containing 16,173,509 words, during the previous year; or an increase per cent. of 36·42 in the number of telegrams and 36·85 in the number of words. The receipts from such telegrams increased by 41·25 per cent., namely, from Rs. 1,16,800 in the previous year to Rs. 1,64,986 in 1906-07. The increase is partly due to the visit of His Majesty the Amir of Afghanistan and the ceremonies in connection with the State reception of His Majesty at Agra.

**Foreign—Press.** 21. The foreign press traffic amounted to 7,160 telegrams containing 579,319 words as compared with 7,934 telegrams and 589,437 words during the previous year, or a decrease per cent. of 9·75 in the number of telegrams, and 1·71 in the number of words, respectively. The Indian share of the value was Rs. 38,191 as against Rs. 41,523, or a decrease of 8·02 per cent. The figures under foreign press represent the number of press telegrams to and from India, and the Indian share of their value transit traffic to and from countries to the east and west of India being excluded.

**News-free and concessional telegrams.** 22. The following statement shows the amount of news-free and concessional traffic during the year :

|   | No.           | <i>Pro forma</i> |                 |
|---|---------------|------------------|-----------------|

| 1906-07 | ...    | 259,648       | 1,95,784                           | 1,559          | 18,181 | 19,740        | 19,740 |

The Telegraph Department continued to receive the usual fixed fee of one rupee for each telegraphic money order advice exchanged between India and Ceylon throughout the year. For Indian advices the fixed fee of one rupee continued up to December 1905: these advices were classed as TMO and ranked for transmission as inland ordinary telegrams. From 1st January 1906 two rates were introduced, *viz.*, one rupee for advices classed urgent, or XMO, and eight annas for advices classed deferred, or DMO. The number and value of Indian advices during the year are shown below:—

|                           |     |     | No.     | Value<br>Rs. |
|---------------------------|-----|-----|---------|--------------|
| Classed as urgent, or XMO | ... | ... | 131,921 | 1,31,921     |
| „ deferred, or DMO        | ... | ... | 127,727 | 63,863       |
|                           |     |     | <hr/>   | <hr/>        |
| Total                     | ... | ... | 259,648 | 1,95,784     |

Signalling  
operations.

26. The following statement shows the total number of sent telegrams, *paid service* and *free*, the total number of signalling operations entailed in their despatch from the office of origin to destination, with the necessary repetitions at intermediate offices, and lastly, the average number of signalling operations per sent telegram, for the past five years:—

| Year.   | Total number<br>of sent telegrams<br><i>paid service</i><br>and <i>free</i> . | Total number<br>of signalling<br>operations. | Average number<br>of signalling<br>operations per<br>sent telegram. |
|---------|---|--|---|
| 1902-03 | 7,464,152   | 37,588,382                                   | 5.03  |
| 1903-04 | 8,037,985   | 40,452,138                                   | 5.03  |
| 1904-05 | 9,977,694   | 50,228,813                                   | 5.03  |
| 1905-06 | 11,578,870  | 56,048,978                                   | 4.84  |
| 1906-07 | 12,703,715  | 61,918,506                                   | 4.88  |

Communication  
with foreign  
countries.

27. Communication with Europe *via* Suez was maintained uninterruptedly throughout the year but some of the traffic had to be diverted *via* Teheran, as one of the Bombay-Aden cables was interrupted from 23rd June to 8th October, and another, developed a bad fault on the 30th June which reduced the speed of working until it was removed on the 9th October. The repairs to these two cables had to be delayed owing to the monsoon, which was the most severe experienced for many years. The Teheran route was interrupted for 108 hours against 513 hours in the previous year. The Turkish route was interrupted for 725 hours, as compared with 920 hours in the previous year. Details of the traffic which passed over these routes during the year are given in appendices B. and C.

Communication with Siam over the Moulmein-Bangkok line *viâ* Kanburi was interrupted for 24 days, as against 74 days, in the previous year beyond but was not interrupted within the Indian frontier. The line from Moulmein to Raheng *viâ* Myawaddy was interrupted for 19 days, as against 45 days in the previous year.

The land route to China was interrupted beyond the Indian frontier for 76 days, against 83 days in the previous year. There was only one interruption lasting 4 hours, within the Indian frontier.

28. The number of departmental and combined offices open on the 31st of March 1907, was 2,438, *viz.*, 74 first class, 619 second class, and 1,745 third class. In addition to these the Department technically supervised 4,311 railway and canal telegraph offices, of which 2,889 were open to the public for paid message traffic. There were also 1,935 telegraph offices controlled and supervised by railway companies, of which 1,667 were open to the public. Telegraph offices, paragraph 7.

29. On the 31st of March 1907, there were 45 Government Telegraph offices which were also meteorological observation offices. Meteorological Observation Offices.

30. At the close of the year the signalling establishment stood as follows:—

|  |                             |     |       | Signalling establishment. |
|--|-----------------------------|-----|-------|---------------------------|
| Traffic Sub-Assistant Superintendents            | ...                         | ... | 20    |                           |
| Departmental Telegraph Masters and Signallers... | ...                         | ... | 2,338 |                           |
| Unattached List                                  | { Warrant officers          | ... | 7     |                           |
|  | { Non-commissioned officers | ... | 13    |                           |
| Military Telegraphists                           | ...                         | ... | 611   |                           |
| Postal employés                                  | ...                         | ... | 2,761 |                           |
| Other non-departmental signallers                | ...                         | ... | 77    |                           |
| Total  |                             |     |       | 6,327                     |
| Total for 1905-06                                |                             |     |       | 5,962                     |

31. The number of volunteers on the rolls in the Department during the year was 905, being an increase of three over that of the previous year. Of this number 840 were efficient or extra-efficient and 65 non-efficient. By way of encouragement, prizes aggregating Rs. 1,300 were granted from the Fine Fund for proficiency in drill and shooting. Rifle Volunteers.

The "D" (Telegraph) company of the Bombay Volunteer Rifles, owing mainly to the efforts and encouragement of Mr. N. U. K. Leslie, Superintendent of the Bombay Office, attained a high state of efficiency both in drill and shooting. During the year, this company won the "Telegraph Officers' Challenge Shield", together with the "Brind Memorial" silver and bronze medals, the "Bayley Cup" for the most efficient company in the corps, the "Bayley Challenge Shield", "Nicholson Challenge Cup" and "Highland Challenge Cup" for shooting, the "Tenant Memorial Cup" for attendance at drills, and a marching competition, which establishes a record and amounts to this company winning every trophy possible for them to win.

32. Certificates of proficiency in telegraphy were granted to 318 soldiers, and at the close of the year 325 were under training. The corresponding numbers of the previous year were 216 and 280, respectively. Training of soldiers in telegraphy

33. The following statement shows the number of combined offices open at the end of each of the last five years, and the number and value of telegrams Post Office agency

sent from them as well as the total number of signalling operations during those years.

| Year.   | NUMBER OF COMBINED OFFICES. |            |                               |        | Number of paid telegrams. | Value of paid telegrams. | Total number of signalling operations. |
|---------|-----------------------------|------------|-------------------------------|--------|---------------------------|--------------------------|--|
|         | 1st class.                  | 2nd class. | 3rd class, and special hours. | Total. |                           |                          |  |
|         |                             |            |                               |        |                           | Rs.                      |  |
| 1902-03 | 10                          | 394        | 1,402                         | 1,806  | 2 711,595                 | 24,26,330                | 7,039,841                              |
| 1903-04 | 11                          | 404        | 1,444                         | 1,859  | 3,040,257                 | 25,12,934                | 7,831,468                              |

Training of postal employees in telegraphy.

34. Certificates of proficiency in telegraphy were granted to 520 postal employees, and at the close of the year 276 were under training. The numbers for the previous year were 472 and 265, respectively.

### EXTENSION AND MAINTENANCE OF LINES.

Extent of system. App. A. and D.

35. Appendix D. shows the mileage of line and wire maintained by this Department at the close of each quinquennial period from 1850-51 to 1894-95 and at the end of each year since. Appendix A. shows the purposes for which the line, wire and cable were used at the close of the years 1905-06 and 1906-07.

Additions during year.

36. The net increase in the extent of the system during the year was 2,856 miles of line and 16,108 miles of wire, including cable (*vide* paragraph 8).

37. The following were the principal lines constructed for Departmental use :—

Departmental works. New construction.

|   | Miles of lines. | Miles of wire. |
|---|-----------------|----------------|
| Tenali to Repali  | 28              | 28             |
| Nuzvid to Tiruvur   | 30              | 30             |
| Gudivada to Kaikalur  | 21              | 21             |
| Masulipatam to Avaingudda   | 23              | 23             |
| Habiganj to Markoli   | 28              | 28             |
| Amraoti to Morsi  | 34              | 34             |
| Yeotmal to Dharwa   | 27              | 27             |
| Kyaiklat to Moulmeingyun  | 37              | 37             |
| Tanda to Mukerian ( <i>via</i> Dasuya)  | 20              | 20             |
| Hoti Mardan to Swabi  | 28              | 28             |
| Shedbal to Athni  | 20              | 20             |
| Peermade to Kumili  | 21              | 21             |
| Hukitola to Balasore Government office (part of Calcutta-Madras second line). | 109             | ...            |
| Bannu to Kalabagh   | 68              | 84             |
| Tatta to Mirpur-Sakro   | 25              | 25             |
| Moulmein to Papun   | 149             | 156            |
| Karachi to Hyderabad Sind (second line)                                       | 107             | ...            |

Additional wires were erected on the following sections :—

Extra wires.

|   | Miles of wire. |
|---|----------------|
| Calcutta to Rangoon, on sections along railway (copper) ...   | 407            |

| For the Upper Chenab Canal :—                                 |                     |                   |                   |         |
| From Sambarial to Merala ...                                  | ...                 | 16                | 16                |         |

# Cables.

40. Twenty-three river cables, aggregating over 50 miles in length, were laid during the year either as new circuits or renewals. The following were the cables laid :—

|  |     |     |     |     |    |
|--|-----|-----|-----|-----|----|
| Across the Koladyne                                | ... | ... | ... | ... | 1  |
| " " Bhorelli                                       | ... | ... | ... | ... | 1  |

|  |     |     |     |     | —  |

## Interruptions to communication.

41. The interruptions to communication which occurred during the year are classified below according to the causes to which they were attributed :—

|  | No.   | Duration, Hours. |
|--|-------|------------------|
| <i>Preventable causes :—</i>               |       |                  |
| Faults on lines and cables                 | 336   | 4,235            |
| <i>Unpreventable causes :—</i>             |       |                  |
| Cyclones and exceptional storms            | 420   | 8,698            |
| Floods                                     | 161   | 5,133            |
| Lightning                                  | 101   | 2,013            |
| Fires                                      | 38    | 697              |
| Trees falling other than by cyclones, etc. | 387   | 5,839            |
| Birds and animals                          | 814   | 9,505            |
| Malice                                     | 197   | 2,681            |
| Other unpreventable causes                 | 643   | 9,208            |
|  |       | —                |
| Total on lines and cables                  | 3,097 | 48,009           |
| Faults in offices                          | 306   | 4,509            |
| Unknown causes                             | 710   | 7,018            |
|  |       | —                |
| Grand total                                | 4,113 | 59,536           |
| Total for 1905-06                          | 4,172 | 56,982           |
|  |       | —                |

## Compared with previous year.

Compared with the figures for the previous year, there were 59 less faults in 1906-07, but with an increase in aggregate duration by 2,554 hours, the percentages being 1·41 decrease in number and 4·48 increase in duration. The average duration of a fault rose from 13·65 hours in 1905-06 to 14·47 hours in 1906-07. Faults on lines and cables show an increase of 59 in number and 3,771 hours in duration, which works out to ·018 faults, and ·290 hours duration per mile of wire in departmental use, the figures for last year being ·019 and ·288 respectively.

## Preventable causes.

## Unpreventable causes.

Faults on lines and cables due to preventable causes show a satisfactory decrease from 511, lasting 6,168 hours to 336 lasting 4,235 hours, while those from unpreventable causes, show an increase from 2,527 lasting 38,070 hours to 2,701 lasting 43,774, the largest increases being due to floods, birds and animals.

In August 1906 there were very heavy floods in the Eastern Bengal Division. More or less the whole country east of Chooadanga on the main line to Goalundo, to the Pudda, and away north to the foot of the hills, was one vast sea of water.

In the Nagrakata and Kuch Bihar districts of the Dooars there were a number of interruptions lasting several days, which were rectified under great difficulties. The Jaldacca span between Ramshai Hat and Bamandanga was washed away and, as communication could not then be restored, the latter office had to be temporarily closed.

In addition to the actual damage caused by "washaways," there were interruptions at the following places in the Dooars caused by the submersion of the wires:—

Between Kalachini and Panabasti.

„ Luksam and Banarhat.

„ Chalsa and Nagrakata.

„ Ramshai Hat and Bamandanga.

Also in the vicinity of Kuch Bihar.

In these districts the railway was washed out for some 30 miles, what roads there were, were effaced and the greatest distress occurred throughout, owing to all food-stuffs having been more or less destroyed, to there being absolutely no communication with outside districts except by boat, and to the telegraph having been extensively damaged. Mr. Sowerby-Coo, the Divisional Superintendent, recognized this, and he and his officers did admirable work in restoring communication, thus permitting of Calcutta sending up provisions, which saved the situation.

Considerable damage was done at the same time on the northern section of the Eastern Bengal State Railway at the Teesta, between Haldibari and Julpai-guri. The railway was also a good deal damaged here.

At Sara and Damukhdia the flood water topped the banks of the Ganges and the cable house at Damukhdia was washed off its mound. At one time it was feared that all the cables might be lost.

The whole of the line from Chooadanga (mile 84), to Goalundo (mile 150), was standing in from 4 to 10 or 12 feet of water and had to be incessantly patrolled, as in many places there was fear of collapse. Considerable trouble was experienced at many places owing to boat's masts becoming entangled in the wires. The whole village of Goalundo was about 6 to 7 feet under water. The Nasirpur cable house at Goalundo had to be removed as there was danger of its falling into the river; fortunately the cables leading into this house were old and faulty, so their subsequent abandonment caused no inconvenience.

The Brahmaputra and Surma valleys were also flooded in the same month and in most places, where the telegraph line is in the plains, the posts were standing in from 2 to 9 feet of water. Between Jogigopa and Bagrihari the water rose in places to within two feet of the wires.

Communication between India and Burma *via* Assam was interrupted on the 12th of July through the collapse of a large span near Bagrihari, owing to the heavy and unprecedented floods aforementioned. When this span was re-erected, it was found that the cables across the Brahmaputra at Jogigopa were destroyed, and all attempts to communicate through them with the aid of vibrators and syphon recorders proved futile. Bank offices on both banks at Panchrattan and Jogigopa had eventually to be opened and messages carried across by country boats employed for the purpose.

Through communication by this route was not re-opened till the 8th of November, when the first new cable across the river was laid; a second cable being put through on the 12th of that month. The construction of a new line along the Eastern Bengal State Railway extension, between Golakganj and Gauhati, was pushed on and communication between Gauhati and Calcutta opened by this route on the 20th of March 1907.

An interruption occurred on the telegraph line to Gilgit between Minimarg and Astor caused by a heavy snow storm, and lasted from the 21st to the 28th of January. On the 23rd of January Mr. J. Carr, Telegraph Master in charge of Minimarg, left with 10 men on repair duty. At the Karshing dāk hut the party were overtaken by a snow-slip which buried seven of their number, Mr. Carr escaping by grasping the root of a tree. The suddenness with which the party were overtaken, caused a panic among those who escaped and it was some time before Mr. Carr could rally the men to the work of rescue. All were eventually rescued and only two in any way disabled.

**Faults in offices.** Faults in offices show an increase of 17 or 5·88 per cent. in number and 283 hours, or 6·69 per cent. in duration. This increase is probably due to stricter enquiry into the nature of faults made by Divisional Superintendents, by which those usually classed as unknown (see next paragraph), have been traced to offices.

**Unknown causes.** Faults due to unknown causes show a very satisfactory decrease of 135 or 15·97 per cent. in number and 1,500 hours or 17·61 per cent. in duration.

### ELECTRICAL.

**Wireless Tele-  
graphy.** 42. Wireless telegraphic communication between Diamond Island and Port Blair and between Saugor Island and the Pilot Steamer at the Sand Heads was maintained throughout the year. Some trouble was experienced during May and June on the Diamond Island—Port Blair section, due to atmospheric disturbances; the installations at Saugor Island and the Pilot Steamer were scarcely affected by these disturbances.

In November, experimental wireless installations were set up on the North-West Frontier at Peshawar and Landikotal. These were entirely successful and demonstrated the possibility of communicating by wireless telegraphy through intervening ranges of mountains running up to 6,700 feet above sea-level, and between places situated at widely different relative elevations. The distance between these places is about 24 miles.

The installation at Landikotal was visited by His Majesty the Amir of Afghanistan, both on his way from and back to Afghanistan. His Majesty evinced a keen interest in the working and sent and received several wireless messages.

**Baudôt system.** 43. Work by the Baudôt system has been continued with complete success. The system has now been extended to and is working between Calcutta and Rangoon with Akyab in translation and between Calcutta and Bombay with Agra in translation. The maximum number of messages disposed of on a single wire in one day of 19 hours by this system was 1,186—i.e., 62·4 messages an hour.\*

**Murray system.** 44. Work by the "Murray" system between Bombay and Calcutta was commenced in November 1906. Three experts were sent out from England to introduce the system and train the staff. It is a somewhat complicated system and the men who have to work it require careful training. The traffic disposed of by this means has, so far, been small, due chiefly to the inexperience of the punchers. The instruments themselves work well, both electrically and mechanically.

**Accumulators.** 45. New standard accumulator installations (for telegraph work only) were put down at Akyab and Delhi. These continue to be thoroughly successful.

The electrical energy for the accumulator plant in the central telegraph office, Calcutta, is supplied by Messrs. Kilburn and Company. On one occasion serious consequences were threatened by a fault in one of their mains and arrangements had to be made with the Calcutta Tramway Company for a supply of energy from their over head wires. Messrs. Kilburn and Company have now supplied alternate mains which will be available in case of any fault on the regular mains.

\* This rate is now constantly greatly exceeded, and speeds of from 70 to 100 messages an hour are common. On 2nd July 1907, between Calcutta and Agra 1,637 messages were disposed of on a single wire in 14½ hours, giving an average speed of 112·8 messages an hour; and on 10th July 1907, between Calcutta and Rangoon 1,192 messages were disposed of on a single wire in 11 hours, giving an average speed of 108·3 messages an hour.

46. The use of club tickers for delivering Reuter's press telegrams to various public offices, officials and newspapers, quickly and simultaneously, was extended in Simla and introduced in Calcutta. This system works well, but frequent thefts of the copper wire used on these circuits caused a good many interruptions. Club tickers.

47. Electric clocks were introduced in Simla for the first time. They were installed by Messrs. Hamilton and Company and subsequently made over to this Department on the 6th of December. Electric clocks.

Electric clocks have been installed in the Chaura Maidan Post Office and the Secretariat Post Office and connected up to the controlling apparatus in the Simla Telegraph Office. A large-dialed, two-faced, electrically-controlled and illuminated clock has also been fitted to the telegraph office building, on a bracket projecting over the Mall.

### STORES AND WORKSHOPS.

48. The store depôts at Bombay, Calcutta, Karachi, Madras and Rangoon, imported and exported 1,031,159 packages in all as compared with 944,112 in the previous year. About 508 tons of stores were conveyed between depôts in India by Government vessels, effecting a saving of Rs. 5,223. Unserviceable stores in depôts and agencies were sold and Rs. 16,329 realised thereby. The construction of a new export and import shed in the Telegraph Store Yard, Calcutta, at a cost of Rs. 16,559, was taken in hand on the 7th of March 1907. Store Branch.

Obsolete instruments, to the book value of Rs. 28,850, were scrapped during the year, the value of resulting scrap amounting to Rs. 750.

An improved system of inspections of store depôts was introduced. As a result of these inspections considerable improvements have been made in the arrangements for the proper storage and prompt issue of stores, and the depôts cleared of large quantities of obsolete and unserviceable stores.

49. A very satisfactory year's work has been done in the Workshops under the able management of Mr. O. Burne, Superintendent of Telegraphs, in charge. The total value of the outturn was the highest on record, being Rs. 15,29,200 as compared with Rs. 13,74,900 in 1905-06 and Rs. 12,12,600 in 1904-05. The value of the work on completed orders was Rs. 15,09,600 being an increase of Rs. 1,23,500 over the figures of the previous year. Workshop.

The total value of the outturn is made up of stores 77.93 per cent., labour 12.58, general charges, including salaries, interest on cost of buildings and plant, and all charges which cannot definitely be charged to any particular work, 7.68 per cent., machine rent including cost of electric power 1.81 per cent. Cost of manufacture.

An interesting feature is the reduction in working expenses over the previous year by Rs. 35,208, notwithstanding the increase in the value of the out-put by one and a half lakhs. This result was achieved principally by the application of labour saving devices and improvements in machinery, which has practically doubled the capacity of the Workshops.

### PERSONAL.

50. The large and steady growth of traffic during the year has thrown a heavy strain on the signalling establishment, particularly in the Presidency offices, and in most of the offices at the larger business centres. I am glad to be able to report that the extra work, which on many occasions has been most arduous, especially at night, has always been cheerfully accepted and most efficiently dealt with by the staff of all grades; and the officers in charge, the supervising staffs and the men of the offices indicated above, are deserving of the highest commendation.

The increase of staff has, of course, necessarily increased work all round. But the pressure has perhaps been felt nowhere more than in the Traffic Branch of my office. Mr. A. L. H. Palmer has been acting as Director of Traffic during the year, and I desire to bring specially to the notice of Government the good work that he has done and his untiring efforts and excellent organisation in foreseeing public requirements and providing efficiently for them.

Another officer, on whose shoulders has fallen no small share of the extra work due to the rapid expansion of the Department and to whose constant assistance, intelligent advice and unremitting hard work I am deeply indebted, is Mr. I. C. Thomas, Superintendent of Telegraphs and Personal Assistant, whose good service I desire to bring prominently to the notice of Government.

SIMLA;  
The 1st August 1907. }

S. H. C. HUTCHINSON,  
*Director General of Telegraphs.*

## APPENDIX A.

## Summary of Financial Results of the Indian Telegraph Department for the year 1906-07.

# The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, AUGUST 17, 1907.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

## PART II.

Notifications by High Court, Comptroller General, etc.

### GAZETTE OF INDIA.

#### NOTICE.

The 26th March 1907.

From the 6th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 30th March all notifications and other matter intended for publication in the *Gazette* should be addressed to the Officiating Publisher, at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

GOVERNMENT OF INDIA.  
DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 15th August 1907.

NOTIFICATIONS.

No. 2987 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 12th August 1907 :—

- No. 382 of 1907.—Geo. Brunton and Son, engineers, of Cochin, Malabar coast, British India. *Improvements in chain water lifts.*
- No. 383 of 1907.—L. K. Kirloskar, of Belgaum. *An improvement in hand chaff or fodder cutter.*
- No. 384 of 1907.—Herbert Lee, engineer, of Bowral street, Kensington, near Sydney, in the state of New South Wales, in the commonwealth of Australia. *An improved rotary engine.*
- No. 385 of 1907.—L. P. Declosets, civil engineer, of No. 40 C., Cowasjee Terrace, Lewis street, Rangoon, Burma. *A process for making fuel briquettes with paddy husk converted into powder or bran, saw, coal or charcoal dusts, etc.*
- No. 386 of 1907.—Robert Cooke Sayer, engineer, of 11 Clyde road, Redland, Bristol, England. *Vehicles for railways and roads.*
- No. 387 of 1907.—Earl Wellington Jenks Trevor, mining engineer, of 78 Palace Chambers, 9 Bridge street, Westminster, in the county of London, England. *Improvements in nutshell breaking and kernel extracting apparatus.*
- No. 388 of 1907.—Frederick Capel Brown, mine superintendent, of Komata, in the Provincial District of Auckland, and Colony of New Zealand. *Improvements in apparatus for the treatment of ores and for the electrolytic deposition of gold and silver and other metals from solutions containing said metals.*
- No. 389 of 1907.—Robert Grundy Brooke, engineer, of Upton Grange, Macclesfield, and George Percy Rossmore Fell, engineer, of Lynton, Heaton Norris, Stockport, both in the county of Chester, England. *Improvements in or connected with fluid pressure brake apparatus.*
- No. 390 of 1907.—William Thorn, engineer's fitter, of 1 Parr street, Exeter, in the county of Devon, England, and Marcus Frederick Mann, engineer's assistant, of Farleigh House, Exeter, in the county of Devon, England. *Improvements in automatic couplings for railway vehicles and the like.*
- No. 391 of 1907.—Ralph Scott, electrical engineer, of the city of Newark, county of Essex and state of New Jersey, United States of America. *Improvements in flaming arc lamps.*
- No. 392 of 1907.—Hugo Grob, electrical engineer, of 119 Schaffhauserstrasse, Zurich, Switzerland. *Apparatus for the electric lighting and heating of vehicles.*

No. 2988 P.—THE undermentioned design has been registered, under the provisions of the Inventions and Designs Act, 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma. This and other designs are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office, 2 Bankshall street, Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 18-D. of 1907.—William Rayndsford O'Moore Bennet, signal engineer, Nagda-Muttra State Railway, Panchpahar, Central India. *A roller guide for rodding used to work points on railways.*

No. 2989 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary

appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office, 2 Bankshall street, Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 616 of 1906.—Henri Pataud, civil engineer, of 15 Rue de la Federation, Paris, in the Republic of France. *Improvements in wheel fellys.* (Specification filed 3 August 1907.)

No. 323 of 1907.—Adolph Gustave Kaufman, mechanical engineer, of 133 Reade street, New York, in the county and state of New York, Benjamin Lazarus Weil and Berthold Weil, capitalists, both of 198 Broadway, New York, all in the United States of America. *Improvements in seals or closures for bottles and like receptacles.* (Specification filed 2 August 1907.)

No. 2990 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 56 of 1896.—George Alexander Dick. *Improvements in or connected with means or apparatus for compressing, squeezing, or squirting heated metals.* (From 7 August 1907 to 7 August 1908.)

No. 408 of 1901 —Alfred Smith and Simeon Jackson. *Improvements in means for automatically changing shuttles in looms on failure of weft.* (From 8 September 1907 to 8 September 1908.)

No. 227 of 1903.—Roland Hayes Gahagan. *An improved method of securing and fixing in position curved flooring and roofing plates.* (From 24 August 1907 to 24 August 1908.)

No. 2991 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorizing others so to do, has ceased:—

No. 429 of 1902.—A. C. Wernigg. *Improvement for a liquid fuel brass and malleable iron furnace.* (Specification filed 8 May 1903.)

No. 12 of 1903.—James Channon. *Improvements in seal locks specially applicable for strap buckles as of mail bags.* (Specification filed 6 May 1903.)

No. 106 of 1903.—William Jones. *An improved positive driving arrangement to be used in connection with the ring spinning frame generally employed for the production of cotton thread or yarn.* (Specification filed 5 May 1903.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of ₹50 for each of the above inventions.

No. 104 of 1902.—Franz Johan Emil Johansson. *Improvements in steam-engines or the like.* (Specification filed 9 May 1902.)

Fee in respect of the continuance of an exclusive privilege—

4 (b) After the expiration of the fourth year and before the expiration of the fifth year from the date of the filing of the specification—

The sum of ₹50 for the above invention.

#### NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively. Consolidated indexes for 1905 and for 1906, entitled "Inventions and Designs," are also on sale, price one rupee each. They contain a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in the year, together with lists of designs applications.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. A new and revised edition is now on sale. Royal 8vo volumes, paper cover, price one rupee or 1s. 6d. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Office, 2, Bankshall Street, Calcutta.

P. J. BRÜHL,

Offg. Secretary under the Inventions and  
Designs Act, V of 1888.

## BOARD OF EXAMINERS.

D. C. PHILLOTT, Lieut.-Col.,  
Secretary, Board of Examiners.

**EMPLOYMENT BUREAU—CIVIL ENGINEERING COLLEGE, SIBPUR.**

Sibpur, the 27th June 1907.

An Employment Bureau or Register has been started at this College for the supply of the following classes of employes :—

- |                              |                          |
|------------------------------|--------------------------|
| 1. Assistant Engineers.      | 5. Lower Subordinates.   |
| 2. Surveyors.                | 6. Electrical Engineers. |
| 3. Estimators and Draftsmen. | 7. Mining Engineers.     |
| 4. Upper Subordinates.       |                          |

At first it will be confined to ex-students of the College, later others may be registered. Forms of application for registration and copies of the Rules of the Bureau may be had on application at the Principal's office.

All old records are being destroyed ; it is therefore necessary that candidates wishing to have their names registered should apply without delay.

B. HEATON,  
Principal, C. E. College.

The following alteration in the name of a Railway Telegraph Office is notified :—

*On the East Indian Railway.*

" Madrak " instead of "Pai".

R. O. LEES,  
for Director, Traffic Branch.

**THE HONOURABLE THE AGENT TO THE GOVERNOR-GENERAL IN RAJPUTANA.****NOTIFICATIONS.**

Dated A. G. G.'s Camp, Rajputana, the 6th August 1907.

**No. 2395-18-II.**—The following rules, framed on the basis of those prescribed in the Resolution of the Government of India in the Finance Department, No. 3715-Exc., dated 30th June, 1905, for the custody, supply and sale of stamps and stamped papers in Abu, Anadra and the bazar at Kharari, including the road from Abu Sanitarium to the Abu Road Railway Station and to the bazar at Kharari, being the areas mentioned in the Notification of the Government of India in the Foreign Department, No. 1389-I.B., dated the 13th April, 1906, are published for general information.

**CENTRAL DEPÔT.**

1. Stamps for the aforesaid areas shall be supplied from the Central Depôt at Bombay on the indent of the officer in charge of the local depôt at Abu.
2. The Superintendent of Stamps at Bombay, on receiving an indent from the local depôt, shall have it examined to ascertain that it is such as to ensure the local depôt having a proper supply, and may comply with the indent in full or in part, as he thinks fit. If he thinks that the indent should be increased, he should request the officer who submitted the indent to submit a supplementary indent.

**LOCAL DEPÔT.**

3. There shall be a local depôt at Abu for the custody and sale of stamps.
4. The local depôt shall, unless the Honourable the Agent to the Governor General in Rajputana otherwise directs, maintain a supply of stamps not less than the probable consumption of ten months.
5. As soon as the number of stamps in the local depôt falls below the number issued from the depôt in the preceding twelve months, the officer in charge of the depôt shall prepare an indent for a supply equal to the probable consumption of six months. The indent shall show in separate columns for each denomination of stamp, of which a supply is required, the total of the balance in the local depôt, the quantity sold in the preceding twelve months, and the quantity indented for, which should be approximately one-half of the quantity sold in the preceding six months. This indent will be forwarded direct to the Superintendent of Stamps, Bombay.
6. If the supply of stamps in the local depôt should run short before the receipt of the supply from the Central Depôt the officer in charge of the local depot should indent for a supply from a neighbouring depôt, sending a copy of the indent to the Superintendent or Commissioner of Stamps of the Province or such other officer as the Local Government may direct.
7. As soon as possible after the arrival of a supply of stamps from a central depôt or from another local depôt, the officer in charge of the local depôt shall personally examine the outward appearance of the boxes or packets and satisfy himself that they bear no marks of having been tampered with. He shall then have the boxes or packets opened in his presence and the contents of each box or packet counted either by himself or in his presence, immediately on its being opened. In no case must a second box or packet be opened until the contents of the first have been completely examined and verified and placed in the proper receptacles as required by rule. The number and value of stamps received shall be compared by the officer in charge with the invoice submitted or with the passed indent and a receipt shall be sent not later than seven days after the arrival of the stamps to the officer who sent the stamps.
8. The officer in charge shall personally count with his own hands all stamps not received in sealed packets of the value of Rs25 and upwards. Stamps below the value of Rs25 which are not received in sealed packets with unbroken seals may be counted either by the officer in charge or in his presence. In the case of stamps received in sealed packets marked as containing a certain number of stamps, one packet in ten of each denomination shall be opened and counted at the time of receipt by the officer in charge or in his immediate presence. If all those counted be found correct, the remainder may be left, with seals unbroken, to be counted when given out from custody, under double lock. The officer in charge is responsible for observing any such instructions and for satisfying himself as to the number of stamps received before signing the receipt. The inside wrappers of packets of stamps which bear the initials of the officers through whose hands the packets passed before issue from England should invariably be preserved till the whole contents of the packets have been examined and found correct.
9. If any of the stamps received are found to be unfit for issue, they should be at once returned to the Superintendent of Stamps, Bombay. Stamps which are through any accident rendered unfit for issue at any time after receipt should be similarly returned to the Superintendent of Stamps, Bombay, as soon as their unfitness is discovered. The necessary entries on account of stamps so returned should be made in the monthly statement (Rule 17) and in the *plus* and *minus* memoranda (Rule 18).

10. Immediately after the stamps received have been counted, they shall be placed in proper receptacles in the store under double lock in the presence of the officer in charge arranged in parcels and packets containing known quantities, the amount and value of each denomination being entered at the same time in a register maintained to show the receipts and issues to and from the store under double lock. These entries shall be checked by the officer in charge at the time the stamps are deposited, and the correctness of the arithmetical calculations of additions to balance, as well as for the values compared with quantities,\* shall be verified and initialled by him at the time. The register shall then be placed with the stamps in the double lock receptacles and shall not be removed therefrom, nor shall any entries be allowed to be made therein except in the presence of the officer in charge.

11. The registers of receipts and issues of stamps from the store under double lock shall be in the form prescribed by the Punjab Government. They shall be kept in bound books as follows :—

- (1) Non-Judicial.
- (2) Postage stamps.
- (3) Foreign Bill stamps.
- (4) Hindi stamps.
- (5) Share transfer stamps.
- (6) General book.

\*N. B.—In all cases where stamp registers have to be checked, the actual check of quantities against values is a very important one; the correctness of the calculations of value must be tested in detail either by actual multiplication or by use of correctly prepared tables, and this check should never be omitted. This remark applies also to such of the following rules as prescribe a check of this kind. It is not necessary that the complete checking should be done by the officer himself. It will be sufficient if the officer personally checks 10 per cent. of the entries in each class of stamps, leaving the remaining entries in each class to be checked by a subordinate under his supervision.

The entries in these books should be made either by the officer in charge of the local depôt himself or by his Head Clerk at the time of putting in or taking out stamps, but in the latter event the entries must be personally checked off by the officer in charge as the stamps are put in or taken out. Every entry of receipt should correspond with the Invoice and should show from whence the stamps were received and every entry of issue should be vouched for by a passed *ex-officio* vendor's indent. A balance should be struck after each entry at the time of receipt or issue and attested by the signature or initials of the officer in charge who shall invariably be present during the whole time that the store under double locks or any part of it remains open.

12. The Head Clerk of the Magistrate's office, Abu, or such other officer as the Honourable the Agent to the Governor-General, Rajputana, may direct shall be the *ex-officio* vendor of stamps in the local depôt. Sales to the public or to licensed vendors shall not be made direct from the stores under double lock, such sales being made by the *ex-officio* vendor from the supply entrusted to him for this purpose, to be kept by him under single lock, as prescribed in the following rules :—

13. The stock to be made over to the *ex-officio* vendor to be kept by him under single lock should ordinarily be sufficient for the probable demand of one month. The *ex-officio* vendor will maintain a register of receipts and issues from single lock in the same form as the double lock register, and on a fixed date near the beginning of each month he will prepare an indent for the quantity for the month in a form showing the balances in his hands, an average month's consumption and the quantity required. When this indent is presented to the officer in charge, he will examine the single lock register, check the correctness of the arithmetical calculations made therein and compare the balance shown with the actual balance in the *ex-officio* vendor's hands. If he approves the indent, he shall then give out the quantity required from the store under double lock, check the correctness of the entries made in the double lock register, see that they correspond with those made in the single lock register, initial both registers and return the double lock register into the double lock store. When it is necessary to issue stamps from the store under double lock more than once in one day, the above checks need only be applied at each time of issue to the particular descriptions of stamps issued. But at the end of each day the officer in charge should verify the whole balance of stamps in *ex-officio* vendor's hands and check his registers. The same procedure shall be followed if any stamps should be required at any intermediate date.

14. From the stock so made over to his charge and kept by him under single lock, the *ex-officio* vendor shall sell stamps to the public and to licensed vendors for cash. He shall maintain the single lock register in the form mentioned in the preceding paragraph in English, or in Urdu or Hindi if he is not sufficiently acquainted with English, entering therein both in quantities and values the receipts from double lock, the daily sales and balance in his hands of each denomination at the end of each day. He shall pay monthly to the officer in charge of the local depôt the cash received by him for stamps sold, the amount realised on account of each of the two descriptions of stamps, General and Postage, being paid in separately. The officer in charge shall pay quarterly the amounts so received into the Ahmedabad Treasury. The *ex-officio* vendor's register shall be balanced daily and the balance shall be attested by the initials of the

officer in charge. Before signing this register the officer in charge shall see that all issues from the store under double locks have been brought to credit, and that the values of stamps written off as sold have been credited in the cash accounts. At the close of the last working day of each month, an abstract showing briefly the transactions of the month and containing (1) opening balance, (2) receipts during month, (3) sales during month, and (4) closing balance, should be entered in the register after the last entry. The officer in charge shall verify the entries and certify that he has personally examined and counted the stamps of all descriptions in store, and that the transactions during the month have been correctly recorded.

15. Ordinary postage stamps (including half-anna and one-anna unified stamps) shall be sold for cash from the local depôt to officers in charge of post offices, to persons licensed to sell general stamps under the rules framed under the Indian Stamp Act, 1899 (II of 1899), as applied to the aforesaid areas, and to the public; provided that the value sold to any one person at any one time shall not be less than Rs 5 and shall not include any fraction of a rupee, and that embossed envelopes and post cards shall be sold in complete packets only. No discount is allowed on such sales.

(RETURNS TO THE SUPERINTENDENT OF STAMPS, BOMBAY.)

16. On the last open day of September and March each year, the officer in charge of the local depôt will count, or have counted in his presence, the stamps in his depôt, both those under double lock and those under single lock. He will attach to the monthly statement for September and March rendered to the Superintendent of Stamps, Bombay, a certificate in the following form:—

I do hereby certify that I have personally examined and counted, or had counted in my presence, the stamps of all descriptions in store in this local depôt on the <sup>September</sup><sub>March</sub> 190 , and found by actual calculation of numbers and values, not less than 10 per cent. of the entries having been checked by me personally, that the value of each description is as stated in the margin, and the amounts agree with the balances shown in the monthly statement for <sup>September</sup><sub>March</sub>, to which this certificate is attached. (If there is any difference, add "with the exception of the following differences" . . . . the explanation of which is as follows.)

17. Monthly statements showing the receipts and issues of the local depôt shall be prepared by the officer in charge and forwarded in the first week of the succeeding month to the Superintendent of Stamps, Bombay, separate statements being prepared for general and postage stamps.

These statements shall show for each denomination of stamps the values of the balance in hand, at the beginning of each month, of the quantities received from the Superintendent of Stamps, Bombay, or other officer during the month, of the quantity sold during the month and of the balance in hand at the end of the month.

18. The officer in charge of the local depôt shall forward to the local Accountant General or Comptroller such returns of the receipts and sales of stamps as the Comptroller General may direct, in the form of *plus* and *minus* memoranda or otherwise.

The 8th August 1907.

No. 2413.—It is hereby notified that Assistant Surgeon Ishan Tosh Mittra, who was holding medical charge of the civil station of Beawar, was transferred on Foreign Service to the Bharatpur State, with effect from the 31st August 1906 (afternoon).

Remarks by the Administrative Medical Officer, North-West Frontier Province, on the general health of the Municipal Towns during the week ending Saturday, the 20th July 1907.

\* Births and deaths in Municipal Towns.—In the 11 Municipal Towns, 58 births were registered (33 males and 25 females), giving a death-rate of 25 per mille of population.

Deaths reported from plague during the week in the districts including all Municipal Towns—Peshawar 74, Hazara 1, and Dera Ismail Khan 1.

A. M. CROFTS, Lt.-Col., I.M.S.,  
Administrative Medical Officer, North West Frontier Province.

Peshawar, the 1st August 1907.

## NORTH-WEST FRONTIER PROVINCE—MEDICAL DEPARTMENT.

Weekly Return of Births and Deaths registered at the undermentioned Municipal Towns in the North-West Frontier Province during the week ending Saturday, the 27th July 1907.

Remarks by the Administrative Medical Officer, North-West Frontier Province, on the general health of the Municipal Towns during the week ending Saturday, the 27th July 1907.  
 Births and deaths in Municipal Towns.—In the 11 Municipal Towns, 55 births were registered (32 males and 23 females), giving a birth-rate of 17 per mille of population; 84 deaths were registered (46 males and 38 females), giving a death-rate of 25 per mille of population.  
 Deaths reported from plague during the week in the districts including all Municipal Towns:—Peshawar 33, Hazara 2.

A. M. CROFTS, Lt.-Col., I.M.S.,  
 Administrative Medical Officer, North-West Frontier Province.

Peshawar, the 6th August 1907.

## ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

I.—Under section 5, Chapter XXVIII of the new Regulations of the University, the following revised Rules for the management of the University Library have been adopted by the Syndicate :—

1. The Library is for the use of Resident Fellows of the University and of Resident Registered Graduates, and they alone have the privilege to use it, subject to the present rules and to such further rules and orders as may be agreed to by the General Committee under Regulation 5(1).

2. (a) Persons who are neither Resident Fellows of the University nor Registered Graduates may receive special permission from the Syndicate to use the Library for the purpose of Literary or Scientific Research. Such permission will be granted only on the recommendation of the Executive Committee.

(b) In recommending any person to the Syndicate under this rule the Executive Committee shall specify in writing, for the information of the Syndicate, the grounds on which they base their recommendation.

3. Subject to the exceptions specified in Rule 5, Resident Fellows, Resident Registered Graduates, and such other persons as are allowed to make use of the Library under Rule 2 and who reside at Calcutta may borrow and temporarily remove from the Library such books as they may require on the following conditions :—

(a) In this rule the term "volumes" shall include pamphlets and parts of works separately sewn.

(b) Resident Fellows will be entitled to take out up to ten volumes at a time.

(c) Under special circumstances Resident Fellows may, with the sanction of the Executive Committee, take out more than ten volumes.

(d) Resident Registered Graduates will be entitled to take out not more than four volumes at a time, and in order to be allowed this privilege will have to make a deposit of Rs. 25. The Registrar may, in the case of specially valuable books, and with the sanction of the Executive Committee, ask for a special deposit.

(e) Persons who are allowed to make use of the Library under Rule 2, and who reside at Calcutta, may take out books on the same conditions as Resident Registered Graduates.

(f) University Professors, Readers and Lecturers will, during the time they hold office, be entitled to the same privileges as Resident Registered Graduates.

(g) No book shall be issued and delivered except to the authorised borrower in person, or to some one having written authority from him to receive it on behalf of the authorised borrower.

(h) Every volume borrowed shall be returned to the Library within two calendar months of the date on which it was removed from the Library. In case any borrower fails to return any book within this period, a notice shall be sent to him by the Librarian calling for the return of the book.

(i) If a book called for under the previous section be not returned within one week after the receipt of the Librarian's notice, the person who has borrowed the book from the Library shall be subject to a fine of one rupee for each volume so retained, and to a further fine of an equal amount for each additional week that he may retain it after the expiration of the second week.

(j) Subject to the provisions of Rules 4, 5, 6 and 7, a book returned to the Library may be again borrowed by the same person, provided that no other Fellow or person entitled to use the Library has lodged with the Librarian an application for the same work. If such application has been made, the book may not be taken out by the original borrower until returned by the second applicant.

4. The privilege of any Fellow or other person to use the Library shall be suspended so long as he retains any book which, under these rules, he is not entitled to retain, or so long as he leaves unpaid any fine which may have been imposed on him under Rules 3, 6 and 7.

5. (a) Books which are valuable on account of their rarity or which belong to a series and which, being out of print, it may be difficult or impossible to replace if lost, or books required for constant reference, shall not be removed from the Library.

(b) A list of the works excluded from removal under this rule shall be drawn up by the Executive Committee, and will be subject to revision and extension from time to time.

6. (a) The Librarian shall report to the Executive Committee all cases in which books have been mutilated, disfigured by writing on the margin or otherwise injured while in the possession of readers.

(b) Any person guilty of such an offence shall be required to replace the injured by an uninjured copy of the book, and shall be liable to the cost of its proper binding and other charges. Further, he shall be fined and suspended from the privileges of the Library at the discretion of the General Committee.

7. (a) A general inspection of the Library and of the record of books, issued and returned, shall be made annually in the first week of April by the Executive Committee.

(b) During this period of inspection the Library shall be closed, and all books whatever and by whomsoever borrowed shall be returned to the Library by the 31st March, of each year.

(c) Any person who fails to return, in accordance with this rule, all books borrowed by him shall be subject to a fine of not less than two rupees for each volume retained; and if such volume is not returned before the expiration of one week after the last day of inspection, a further fine of an equal amount shall be imposed for each volume for each additional week until that volume is returned or until a copy of the same edition and of equal value is placed in the Library in its stead, and all expenses connected therewith paid by the borrower.

8. The Library shall be closed on Sundays and all public holidays and on all days for holding public examinations. Subject to the exception under Rule 7, it shall be open on other days between the hours of 11 A.M. and 5 P.M.

II. The following revised scheme for the Tagore Law Professorship has been adopted by the Senate:—

1. In the month of June in each year, the Faculty of Law shall select not more than three subjects, upon one of which the Professor for the following year shall be required to deliver a course of at least twelve lectures.

2. Immediately after the subject or subjects shall have been thus selected, advertisements shall be published in such newspapers as the Syndicate may think proper, stating the subject or subjects so selected and inviting applications from candidates for the professorship.

3. Candidates shall send in their applications to the Registrar on or before the 1st May following, and each candidate shall forward with his application one hundred copies of a brief synopsis of his proposed lectures, and, if he so pleases, the same number of copies of his introductory lecture.

4. The copies of the introductory lecture and the brief synopsis so sent shall be referred to a Committee of the Faculty of Law, consisting of five members to be chosen by the Faculty, who shall consider the same and report thereon to the Faculty, who shall recommend a candidate to the Senate for election.

5. The election of the Professor shall take place in the month of August.

6. The Professor shall, not later than the month of August following his election, forward to the Registrar, a complete copy (manuscript or typewritten) of the lectures which he proposes to deliver. The copy shall be referred to a Committee of the Faculty of Law consisting of not more than three members to be chosen by the Faculty, who shall examine the same and before the 1st November report to the Faculty whether the work is complete and ready for the press. If upon such report the Faculty are satisfied that the work is complete, the Professor shall commence to deliver his lectures in the month of December, and complete the delivery thereof in the following February. The copy of the lectures delivered shall remain in the custody of the Registrar, and shall be sent to press as soon as practicable after delivery thereof.

7. If the Professor fails to submit the copy of the lectures as required by Rule 6 or, if the copy submitted be found, on examination, to be incomplete and not ready for the press, the matter shall be referred to the Faculty of Law, upon whose recommendation the Senate may either extend the time or cancel the appointment. In the event of the appointment being cancelled, the Senate shall take fresh steps for the appointment of a Professor.

8. The salary of the Professor shall be paid in twelve equal monthly instalments; the first instalment to be paid on the first day of the month following that in which the first lecture is delivered.

III. The following scheme for the institution of scholarships for post-graduate study or research in Literary or Scientific subjects, framed under section 18, Chapter IV of the new Regulations, has been adopted by the Senate and is published for general information:—

(1) For the encouragement of post-graduate study in accordance with the new Regulations, in the Faculties of Arts and Science, twelve University Scholarships shall be established.

(2) Each scholarship shall be of the value of Rs. 32 per month, and shall be tenable for a term of two years.

(3) The scholarships shall be awarded annually upon the results of the B. A. and B. Sc. Examinations.

(4) One scholarship shall ordinarily be awarded to each candidate whose name stands first in the Honours list in each of the subjects for the B. A. and B. Sc. Examinations, provided that—

(i) he has obtained first-class Honours in that subject,

(ii) he does not accept any other University scholarship, or any Government or College Scholarship, and

(iii) he undertakes to prosecute a regular course of study for the degree of Master of Arts or Science either under one or more University Lecturers or in a College duly affiliated for the examination in the subject which he takes up.

No candidate, however, shall be entitled to more than one scholarship on the ground that he stands first in the first class in more than one subject.

(5) If a candidate in any subject is disqualified under provisos (ii) and (iii) of Rule (4), the scholarship in that subject shall be awarded to the next candidate in the first

class who may be duly qualified, provided that all the other candidates who stand first in the first class in any subject and are qualified for a scholarship have received the same.

(6) If in any year the number of candidates qualified for a scholarship under the preceding rules exceeds the number of scholarships available, the Syndicate may, with the sanction of the Senate, award additional scholarships.

(7) A candidate who obtains Honours at the B. Sc. Examination under the old Regulations will be deemed to have obtained first-class Honours in a subject within the meaning of Rule (4), provided he has obtained a first-class in subject (II) or in any two subjects taken together from among subjects III to IX (Secs. 6 and 7 of the B. Sc. Regulations, Calendar for 1906, p. 58).

(8) As a condition of the continuance of his scholarships, each scholar must produce at the end of every three months from the University Lecturer whose classes he is attending or from the Principal of his College certificates of good conduct, diligence and satisfactory progress in his studies.

(9) The first award of the scholarships shall be made upon the results of the last B. A. and B. Sc. Examinations.

G. THIBAUT,

*Registrar, Calcutta University.*

SENATE HOUSE,

*The 10th August 1907.*

### MATRICULATION EXAMINATION.

#### ELEMENTARY MECHANICS.

THE following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination:—

- Plumb-line and Level.
- Simple Lever (including brass slotted weights).
- Roman Steelyard.
- Lecture apparatus for experiments on moments.
- George's New Atwood's Machine.
- Stop-watch.
- Glazebrooke's apparatus (to demonstrate movement of a body).
- Hick's Ballistic Balance.
- Compound Wheel and Axle.
- 4 Single Brass Pulleys.
- 2 " " "
- 2 Triple " "
- Weston Differential Pulley Blocks ( $\frac{1}{2}$  ton).
- 16 feet of chain, at 6d. per foot.
- Inclined Plane.
- Parallelogram of Forces Apparatus.
- Wall Crane.
- Becker's New Physical Balance.
- Set of Gramme Weights (200 grams. to 1 mgr.).
- 2 Composition-Ivory Balls.

NOTE.—The above list is not exhaustive, and much of it might be replaced by simpler forms that could probably be made far more cheaply by any clever *mistry* under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list specially for demonstration purposes, and subsequently to develop simplified duplicates, illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual accounts or working in pairs.

G. THIBAUT,

*Registrar, Calcutta University.*

SENATE HOUSE,

*The 10th August 1907.*

### ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The following books are prescribed:—

#### ENTRANCE EXAMINATION, 1909.

GUJRATHI.

*Prose.*

Navalaram ... ... Navala Granthavali, Volume I, pp. 1-220.

*Poetry.*

Kabi Premananda ... .. Nalākhyān.

## ASSAMESE.

*Prose.*

Padmanath Baruya ... .. Sahitya-Sangraha, 1st edition,—The following portions:—

“Anandaram Baruya,” pp. 1-8; “Jiban-Yuddha,” pp. 17-20; “Manab Jatir Savyata,” pp. 31-44; “Atmasiksha,” pp. 81-94; “Jaymati Kumari aru Langi-Gadapani,” pp. 95-101; “Ohetan Prani aru Udvidar Parthakya Ki?” pp. 111-119; “Prani Tattwa,” pp. 139-150; “Manushyar Adi Abastha,” pp. 152-155; “Agar Din,” pp. 159-163.

Satyanath Barah, B.L. ... .. Sahitya-Biohar, 2nd edition,—The following portions:—

“Sahityar Sadharan Lakshan,” pp. 1-15; “Mul Katha,” pp. 31-34; “Padya,” pp. 53-57 and from the third paragraph on page 69, commencing with the word “Etialoike” to the end of the piece, page 80.

*Poetry.*

Rai Madhabohandra Bardalai, Bahadur Ramayana in Assamese, 1st edition,—The following pieces:—

“Guha Chandalar Bittanta,” pp. 47-50; “Viswamitrar Agaman,” pp. 50-52; “Ram Lakshanaka Nidiyata Rishir Kop aru Rama Lakshanaka loi Rishir Gaman,” pp. 52-54; “Tadaka Rakshasi Badh,” pp. 54-56; “Marich Subahu Badh,” pp. 56-57; “Rama Karttrik Haradhanu Vanga,” pp. 70-75; “Batata Parasuramar Saite Ramar Sakshat aru Parasuramar Paravab,” pp. 85-89.

Padmanath Baruya ... .. Sahitya-Sangraha, 1st edition,—The following pieces:—

“Drupadir Bilap,” pp. 15-16; “Puba” pp. 56-58; “Sukha Git,” pp. 67-68; “Jiban Sangit,” pp. 79-81; “Dhumuha” pp. 94-95; “Naba-Barsha,” pp. 101-104.

## TAMIL.

*Poetry.*

Tamil Poetical Anthology, No. II, page 15 to the end.

*Prose.*

The Panchatantra ... .. Parts I, II and III.

## URIYA.

M. S. Rao ... .. Prabandhamala, pages 1-115.

Ram Narayan Ray ... .. Kabita-Sangraha.

## BURMESE.

*Poetry.*

Yeo Wun Sin ... .. Lokasara.

*Prose.*

M. Awbatha ... .. Janaka Jataka Vattha.

## KHASI.

The books of Genesis and Proverbs, as in the Khasi version of the Bible.

SENATE HOUSE,

G. THIBAUT,

The 10th August 1907.

Registrar, Calcutta University.

## ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

I. The following standard works are to be read as models of style at the Intermediate Examinations in Arts and Science, 1909 :—

### ASSAMESE.

*Selections from Katha Bhagavat.*

1. Brahmar Moha-nasa.
2. Samanta Harana.

*Selections from Jonaki.*

1. Jivaner Amiya.
2. Manava-mahatva.

*Selections from Usha.*

1. Sarai Ghater Yuddha.
2. Dhana aru dhanar vyavahara.
3. Jivarer uddesya ki?

*Urdu.*

Tau bat-un-Nasuh, Abi Hayat, Hayat-i-Sadi.

### PHYSIOLOGY.

Hill ... .. Manual of Human Physiology.

INTERMEDIATE EXAMINATION IN ARTS, 1909.

Bengali has been included in the list of Second Languages for the female candidates at the above-named examination.

INTERMEDIATE EXAMINATIONS IN ARTS AND SCIENCE, 1909.

### Zoology.

|                   |     |     |  |
|-------------------|-----|-----|--|
| J. Arthur Thomson | ... | ... | Outlines of Zoology (such portions of it as are required in the Syllabus).   |
| Huxley and Martin | ... | ... | A course of Elementary Instruction in Practical Biology (revised and extended by Professors G. B. Howes and D. H. Scott, Ph.D.). |

SENATE HOUSE,  
The 10th August 1907.

G. THIBAUT,  
Registrar, Calcutta University.

## ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

I.—Chapters 2—9 of Macdonell's History of Sanskrit Literature have been omitted from the Pass course in Sanskrit at the B. A. examination in 1909.

II.—The following standard works in Assamese are to be read as presenting ideals of character and models of style at the B. A. examination in 1909 :—

*Selections from Katha Bhagavat.*

1. Sri Krishner Janma.
2. Kaliya-damana.
3. Varsha aru Sarat Varnana

*Selections from Jonaki.*

1. Samsara pravaha.
  2. Atma-Samyama.
- Sakuntala, by Lambodar Bora (the whole).

III.—The following standard works in Urdu are to be read as presenting ideals of character and models of style at the B. A. examination in 1909 :—

1. Tuzibul Akhlaqi.
2. Ibn-ul-Waqt.
3. Tarikhi Undulus.

## B.A. AND B.Sc. EXAMINATIONS, 1909.

## PHYSIOLOGY.

*Pass Course.*

Starling ... .. Elements of Human Physiology (latest edition),

Or

Noel Paton ... .. Essentials of Human Physiology (second edition).

*Practical.*

Schafer ... .. Essentials of Histology.

And

{ Halliburton ... .. Essentials of Chemical Physiology.

{ Brodie ... .. Essentials of Experimental Physiology,

Or

Beddard, Edkins, }  
Hill, Pembrey and } ... .. Practical Physiology.  
Macleod }

*(Honour Course.)*

Halliburton ... .. Handbook of Physiology.

Stewart ... .. Manual of Physiology.

*Practical.*

The same as for the Pass Course.

*Syllabus in Experimental Physiology—**(Pass Course.)*

The induction coil; single shocks; short circuiting key; effect of single shocks on the tongue; break-shock is stronger than the make-shock. Helmholtz's Modification; Neef's Hammer.

Pithing a frog; nerve-muscle preparation. Mechanical, chemical, thermal and electrical stimulation of muscle and nerve.

The Graphic method: Simple lever; crank lever (myograph); moist chamber. Minimal and maximal excitation with single induction shocks (make and break). Stimulation by constant current: contraction of muscle only at make and break.

The muscle curve:—Single contraction of a frog's muscle: the latent period, the period of contraction and the period of relaxation. Time tracing by tuning-fork. Method of after-loading. The influence of temperature and of load on muscular contraction. The work performed by a muscle during a twitch.

Elasticity and extensibility of muscle.

Summation of muscular contraction: tetanus.

Fatigue of muscle.

Thickening of a muscle on contraction.

Bernard's curare experiment.

Stimulation of a motor nerve; unequal excitability (greater nearer the centre of a motor nerve); excitability of flexor and extensor nerves.

Velocity of nerve-impulse (myographic method).

Electro-physiology:—Galvani's experiment of contraction with metals; Galvani's experiment of contraction without metals.

The Frog's heart—Beating of the heart; effect of heat and cold (heart *in situ*); section of the heart: effect of heat and cold on excised heart.

Stannius' experiment.

Graphic record of the beat of the heart (suspension method and also direct registration with heart-lever).

Pulse—Sphygmographic tracing.

Blood-pressure in man: Sphygmometer (Hill and Bernard's).

Reflex action (simple experiments on a pithed frog).

Vision:—Accommodation; Scheiner's experiment; near and far points;

Purkinje-sanson images: Phakoscope; Blind spot; yellow spot; Colour vision: Complementary colours.

*(HONOUR COURSE.)**Additional Experiments—*

The Induction Coil—Break-extracurrent of Faraday.

The Rheonome: Effect of sudden variation of current.

Isotonic and Isometric contraction.

Influence of veratrine on muscular contraction.

Indefatigability of nerve.

Excitation of muscle by constant current; Polar excitation of a muscle.

**Electrotonus.** Electrotonic changes in excitability and conductivity of a nerve.

**Kuhne's experiment of contraction without metals.**

**Examination of currents in muscle, nerve and heart by means of the reflecting galvanometer.**

**Frog's heart—Minimal stimulus causes maximal contraction. "Staircase effect."**

Single contraction of the ventricle. Tetanisation. Refractory period. Stimulation of the vagus. Action of drugs (Muscarin and Atropin) on the heart.

**Voice and Speech: Laryngoscope.**

**Vision: Ophthalmoscope; Perimeter.**

#### ZOOLOGY.

##### (Pass Course.)

|                               |     |     |  |
|-------------------------------|-----|-----|--|
| Boas                          | ... | ... | Text-book of Zoology.  |

| Ramsay  | ... | ... | ... | Roman Antiquities. |

(c) *History of classical Latin Literature.*

|         |     |     |     |                              |
|---------|-----|-----|-----|------------------------------|
| Mackail | ... | ... | ... | Latin Literature.            |
| Teuffel | ... | ... | ... | History of Latin Literature. |

## M. A. AND M. Sc. EXAMINATIONS, 1909.

## PHYSIOLOGY.

|             |     |     |     |   |
|-------------|-----|-----|-----|---|
| Schafer     | ... | ... | ... | Text-book of Physiology.  |
| Howell      | ... | ... | ... | Ditto.  |
| Halliburton | ... | ... | ... | Text-book of Chemical Physiology and Pathology.                             |
| Stohr       | ... | ... | ... | Text-book of Histology (Edited by Schafer).                                 |
| Mann        | ... | ... | ... | Physiological Histology.  |
| Biedermann  | ... | ... | ... | Electro-Physiology.   |
| Merat       | ... | ... | ... | Physiology of the Nervous System.   |
| V. Noorden  | ... | ... | ... | The Physiology of Metabolism (Vol. I of Metabolism and Practical Medicine). |

N.B.—Advanced students are expected to be in touch with the recent advances in Physiology and, in view of this they are advised to read the Journal of Physiology.

## ZOOLOGY.

No books are recommended. The candidates are expected to find out their own literature.

SENATE HOUSE,

G. THIBAUT,

The 10th August 1907.

Registrar, Calcutta University.

ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE  
OF THE CALCUTTA UNIVERSITY.

## B. A. AND B. Sc. EXAMINATIONS, 1910.

## MATHEMATICS.

## Pass Course.

The following books are recommended :—

1. Higher Plane Trigonometry—  
Todhunter—Plane Trigonometry, edited by Hogg.
2. Plane Analytical Geometry—  
Loney—Elements of Co-ordinate Geometry.  
C. Smith—Elementary Treatise on Conic Sections.

3. Differential Calculus—  
Edwards—Differential Calculus for Beginners.
4. Integral Calculus and Differential Equations—  
Edwards—Integral Calculus for Beginners.  
Taylor—The Differential and Integral Calculus and Differential Equations.
5. Hydrostatics—  
Besant—Elementary Hydrostatics.  
Loney—Elements of Hydrostatics.
6. Astronomy—  
Parker—Elements of Astronomy.

*Honours Course.*

1. Higher Algebra—  
Hall and Knight—Higher Algebra.  
O. Smith—A Treatise on Algebra.
2. Elementary Theory of Equations—  
Hall and Knight—Higher Algebra.  
Cajori—Introduction to Theory of Equations.
3. Higher Plane Trigonometry—  
Todhunter—Plane Trigonometry, edited by Hogg.
4. Plane Analytical Geometry—  
Loney—Elements of Co-ordinate Geometry.  
O. Smith—Elementary Treatise on Conic Sections.
5. Elementary Solid Geometry—  
O. Smith—Elementary Treatise on Solid Geometry.
6. Elementary Principles of Vectors—  
Kelland and Tait—Introduction to Quaternions, 3rd Edition, edited by Knott.  
Henrici and Turner—Vectors and Rotors.
7. Differential Calculus—  
Williamson—Differential Calculus.
8. Integral Calculus and Differential Equations—  
Williamson—Integral Calculus.  
Murray—Introductory Course in Differential Equations.
9. Statics—  
Minchin—Statics, Volume I.
10. Dynamics of a Particle—  
Williamson and Tarleton—Dynamics.
11. Hydrostatics—  
Besant—Elementary Hydrostatics.  
Loney—Elements of Hydrostatics.
12. Astronomy—  
Parker—Elements of Astronomy.

*N.B.*—Candidates who take up Mathematics at the B. A. or B. Sc. Examination are recommended to refer to Saxelby's Practical Mathematics. Candidates who take up Honours in Mathematics at the B. A. or B. Sc. Examination are recommended to refer to Cox's Mechanics.

SENATE HOUSE,  
The 10th August 1907.

}

G. THIBAUT,  
Registrar, Calcutta University.

ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE  
OF THE CALCUTTA UNIVERSITY.

M. A. EXAMINATION, 1910.

MATHEMATICS.

*Pure Mathematics.*

1. Higher Algebra—  
Hall and Knight—Higher Algebra.  
O. Smith—A Treatise on Algebra.
2. Higher Plane Trigonometry—  
Hobson—Plane Trigonometry.
3. Spherical Trigonometry—  
Casey—Spherical Trigonometry.  
Todhunter—Spherical Trigonometry (Ed. Leathem).
4. Theory of Equations and Algebra of Quantics—  
Burnside and Panton—Theory of Equations.  
Grace and Young—Algebra of Invariants.  
Elliott—Introduction to the Algebra of Quantics.

5. Plane Analytical Geometry, including Higher Plane Curves—  
Salmon—Conic Sections.  
Salmon—Higher Plane Curves.  
Basset—Treatise on Cubics and Quartics.
6. Geometry of Surfaces—  
Salmon—Geometry of Three Dimensions.  
Frost—Solid Geometry.
7. Differential Calculus.  
Edwards—Differential Calculus.
8. Integral Calculus—  
Williamson—Integral Calculus—
9. Differential Equations—  
Forsyth—Differential Equations.
10. Calculus of Variations—  
Bolza—Lectures on the Calculus of Variations.
11. (a) Theory of Functions—  
Forsyth—Theory of Functions, 2nd edition.
- (b) Theory of Groups—  
Burnside—Theory of Groups.  
Campbell—Theory of Continuous Groups.
- (c) Finite Differences and Calculus of Functions—  
Boole—Finite Differences.  
Carmichael—Calculus of Operations.  
Herschel—Examples of Calculus of Finite Differences.  
Babbage—Examples of Functional Equations.  
Whittaker—Modern Analysis.
- (d) Vector Analysis and Quaternions—  
Joly—Quaternions.  
Tait—Quaternions.  
Gibbs and Wilson—Vector Analysis.
- (e) Projective Geometry—  
Cremona—Projective Geometry.  
Scott—Modern Analytical Geometry.  
Reye—Geometry of Position. Tr. Holgate.  
Jessop—Line Complex.  
Russell—Foundations of Geometry.
- (f) Theory of Numbers—  
Matthews—Theory of Numbers.  
Smith—Reports on the Theory of Numbers (Collected papers, Vol. I, pp. 38–364).

*Mixed Mathematics.*

1. Advanced Statics, including Theory of Potential—  
Minchin—Statics.
2. Dynamics of a Particle—  
Routh—Dynamics of a Particle.
3. Rigid Dynamics—  
Routh—Elementary Rigid Dynamics.
4. Hydrostatics, including Capillarity.  
Besant and Ramsey—Hydrodynamics, P. 1 (Hydrostatics).
5. Hydrodynamics—  
Lamb—Hydrodynamics—3rd edition.
6. Spherical Astronomy—  
Newcomb—Spherical Astronomy.
7. (a) Theory of Elasticity—  
Love—Theory of Elasticity, 2nd edition.  
Todhunter and Pearson—History of Theory of Elasticity.
- (b) Advanced Dynamics—  
Whittaker—Analytical Dynamics.  
A. C. Webster—Dynamics.  
Routh—Advanced Rigid Dynamics.  
Hertz—Principles of Mechanics.
- (c) Higher Parts of Spherical Astronomy—  
Chauvenet—Spherical Astronomy.

- 
- (d) Lunar and Planetary Theories —  
Adams—Lectures on Lunar Theory.  
Airy—Mathematical Tracts.  
Cheyne—Earth's Motion of Rotation.  
Brown—Lunar Theory.  
Cheyne—Planetary Theory.  
Moulton—Celestial Mechanics.
- (e) Figure of the Planets—  
Tödhunter—History of the Theory of Attraction and the figure of the Earth.  
Thomson and Tait—Natural Philosophy.  
Airy—Mathematical Tracts.  
Airy—Figure of the Earth. (Enc. Metr.)  
Clarke and Radau—Figure of the Earth. (Enc. Britt. Vols. VII and XXVII.)  
Pratt—Figure of the Earth.
- (f) Theory of Tides—  
Basset—Hydrodynamics.  
Darwin—Tides and Kindred Phenomena. (Murray, 1898.)  
Darwin—Tides. (Enc. Britt. Vols. XXIII and XXXIII.)  
Airy—Tide and Waves. (Enc. Metr.)

G. THIBAUT,

SENATE HOUSE,  
*The 10th August 1907.*

## GOVERNMENT PUBLICATIONS FOR SALE.

BY THE SUPERINTENDENT OF GOVERNMENT PRINTING, INDIA,  
8, HASTINGS STREET, CALCUTTA.

A General Catalogue of all Government Publications may be obtained gratis from the Government Central Press, Calcutta.

All books published by the Superintendent of Government Printing, India, can be purchased either directly or through the following or any other booksellers:—

### AGENTS IN EUROPE.

Mr. E. A. Arnold, 41 and 43, Maddox Street, Bond Street, London, W.  
Messrs. Constable & Co., 10, Orange Street, Leicester Square, W. C.  
Messrs. Kegan Paul, Trench, Trübner & Co., 43, Gerrard Street, Soho, London, W.  
Mr. Bernard Quaritch, 11, Grafton Street, New-bond Street, W.  
Messrs. P. S. King & Son, 2 and 4, Great Smith Street, Westminster.  
Messrs. H. S. King & Co., 65, Cornhill, and 9, Pall Mall, London.  
Messrs. Grindlay & Co., 54, Parliament Street, London, S.W.

Mr. T. Fisher Unwin, 1, Adelphi Terrace, London, W. C.  
Mr. Otto Harrassowitz } Leipzig.  
Mr. Karl Hiersemann }  
Messrs. R. Friedlander & Sohn, Berlin, W. N., Carlstrasse, 11.  
Mr. Ernest Leroux, 28, Rue Bonaparte, Paris.  
Mr. Martinus Nijhoff, Hague, Holland.  
Mr. B. H. Blackwell, 50 and 51, Broad Street, Oxford.  
Messrs. Deighton Bell & Co., Cambridge.  
Mr. Rudolf Haupt, Halle-A.-S., Germany.

### AGENTS IN INDIA.

Messrs. Thacker, Spink & Co., Calcutta and Simla.  
Messrs. Newman & Co., Calcutta.  
Messrs. R. Cambray & Co., Calcutta.  
Messrs. S. K. Lahiri & Co., Calcutta.  
Messrs. Higginbotham & Co., Madras.  
Messrs. V. Kalyanarama Iyer & Co., Madras.  
Messrs. G. A. Natesan & Co., Madras.  
Messrs. S. Murthy & Co., Madras.  
Messrs. Thompson & Co., Madras.  
Messrs. Temple & Co., Madras.  
Messrs. Combridge & Co., Madras.  
P. R. Rama Iyer & Co., Madras.  
Messrs. A. R. Pillai & Co., Trivandrum.  
Messrs. Thacker & Co., Ltd., Bombay.  
Messrs. A. J. Combridge & Co., Bombay.  
Messrs. D. B. Taraporevala, Sons & Co., Bombay.  
Mrs. Radhabai Atmaram Sagoon, Bombay.  
Mr. Sunder Pandurang, Bombay.  
Messrs. Gopal Narayan & Co., Bombay.  
Superintendent, American Baptist Mission Press, Rangoon.  
Rai Sahib M. Gulab Singh & Sons, Mufid-i-Am Press, Lahore.

Mr. N. B. Mathur, Superintendent, Nazair Kanun Hind Press, Allahabad.  
Messrs. A. Chand & Co., Lahore, Punjab.  
Messrs. A. M. & J. Ferguson, Ceylon.  
Evelyn, Hubert & Co., 149, Dhurumtollah Street, Calcutta.\*  
Manager, Educational Book Depôts, Nagpur and Jubbulpore.\*  
Manager of the Imperial Book Depôt, 63, Chandney Chauk Street, Delhi.\*  
Manager, *East Coast News*, Vizagapatam.\*  
Manager, "The Agra Medical Hall and Co-operative Association, Limited" (Successors to A. John & Co., Agra).\*  
Mr. T. K. Seetharama Aiyar, Kumbakonam.\*  
Superintendent, Basel Mission Book and Tract Depository, Mangalore.\*  
Messrs. P. Varadachary & Co., Madras.  
The Mercantile Mission Branch, Calicut.\*  
Mr. H. Liddell, Printer, etc., 7, South Road, Allahabad.\*  
Messrs. D. C. Anand & Sons, Peshawar.\*

\* Agents for sale of the Legislative Department publications.

NOTICE.—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through Local Governments to whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agent to the particular Government under whose orders they were originally issued.

[ The amounts within parentheses are for packing and postage.]

## LIST OF NEW BOOKS PUBLISHED DURING THE CURRENT QUARTER

### LEGISLATIVE DEPARTMENT.

General Rules and Orders made under Enactments in force in British India.\* Vol. II.  
Edition 1907. Rs 5 or 7s. 6d. (12s.)

**Act III of 1907.—Provincial Insolvency.** In Hindi. 1a. 6p. (1a.)

**A Digest of Indian Law Cases containing High Court Reports and Privy Council Reports of Appeals from India, 1904, with an Index of cases by C. E. Grey, Bar.-at-Law, Edition 1907.** Rs or 7s. 6d. (6a.)

**List No. 1 of 1907, dated 1st July 1907, of Addenda and Corrigenda to General Rules and Orders.** Royal 8vo. Stitched. 3p. (1a.)

**Act XVIII of 1850—Judicial Officers' Protection Act with footnotes in Urdu and Hindi.** Royal 8vo. 6p. (1a.)

#### HOME DEPARTMENT.

**Annual Report of Dispensaries in the North-West Frontier Province for the year 1906.** Foolsap. Paper cover. 10a. or 10d. (1a.)

**Fauna of British India.—Butterflies, Vol. II, by Lt.-Col. C. T. Bingham.** Royal 8vo. Cloth. Rs 15 or £1 2½s. (7a.)

**Report on the Sanitary Administration of the North-West Frontier Province for the year 1906.** Foolsap. Paper cover. 10a. or 10d. (1a.)

**Quarterly List of officers in the Departments of the Government of India, July to September 1907.** Foolsap. Paper cover. 4a. or 5d. (1a.)

**Annual Report of the Archæological Survey of India, Frontier Circle, for 1906-07.** Foolsap. Paper cover. 4a. or 4d. (1a.)

#### DEPARTMENT OF REVENUE AND AGRICULTURE.

**Proceedings of the Board of Agriculture in India held at Cawnpore on the 18th February and following days with Appendices.** Foolsap. Paper cover. Rs 1-2 or 1s. 6d. (6a.)

**Records of the Botanical Survey of India, Vol. III, No. 3.—Sapindaceæ Novæ Indiæ Et Malaicæ Ex Herbario Calcuttensi, by L. Radl. Kofler.** Royal 8vo. Paper cover. 2a. or 3d.

**Report on Trials of the South African Locust Fungus in India. (Agricultural Bulletin No. 5 of 1907).** Super Royal 8vo. Paper cover. 2a. or 3d. (1a.)

**The Ticks infesting domesticated Animals in India. (Agricultural Bulletin No. 6 of 1907).** Super Royal 8vo. Paper cover. 4a. or 6d. (6a.)

#### PUBLIC WORKS DEPARTMENT.

**Classified List and Distribution Return of Establishment corrected up to 30th June 1907.** Royal 8vo. Paper cover. Rs 1 or 1s. 6d. (2a.)

#### COMMERCIAL INTELLIGENCE DEPARTMENT.

**Seaborne Trade and Navigation Accounts of British India for the month of May—June 1907. Nos. 2 and 3.** Royal 8vo. Stitched. 8a. or 9d. (2a.) each.

**Note on the Production of Coal in India up to the year 1906.** Foolsap. Stitched. 12a. or 1s. 3d. (1a.)

**Accounts of the External Trade of British India for March—April 1907.** Royal 8vo. Stitched. 8a. or 9d. (2a.) each.

**Financial and Commercial Statistics of British India, 13th issue, 1907.** Super Royal 4to. Board. Rs 4 or 6s. (12a.)

**Review of the Trade of India in 1906-07.** Foolsap. Paper cover. 8a. or 9d. (3a.)

**Notes on Sugar in India by Frederick Noël-Paton, Esq.** Super Royal 8vo. Paper cover. Rs 1-8a. or 2s. 3d. (2a.)

**Accounts relating to the Trade carried by Rail and River in India in the quarter and in the nine months ending December 1906, compared with the corresponding periods of the years 1904 and 1905. No. 3 of 1906-1907.** Foolsap. Paper cover. 8a. or 9d. (2a.)

**Statistics of Cotton Spinning and Weaving in the Indian Mills in May 1907, and in the two months April and May 1907, compared with the corresponding month of 1905 and 1906. No. 2 of 1907-08.** Royal 8vo. Stitched. 2a. or 2d. (1a.)

**Accounts of the External Trade of British India for April 1907. No. 1 of 1907-08** Royal 8vo. Stitched. 8a. or 9d. (2a.)

**Area and Yield of certain Principal Crops in India for various periods from 1892-93 to 1906-07. Nith issue.** Foolsap. Paper cover. 5a. or 6d. (2a.)

**Statistics of Cotton Spinning and Weaving in the Indian Mills in June 1907 and in the three months, April to June 1907, compared with the corresponding period of 1905 and 1906. No. 3 of 1907-08.** Royal 8vo. Stitched. 2a. or 2d. (1a.)

Judicial and Administrative Statistics of British India for 1905-06 and preceding years. Eleventh issue. Foolscap. Board. R2 or 3s. (10a.)

#### ARMY DEPARTMENT.

Papers and Maps set for the Examinations, Subjects (d) to (i) for promotion held in India in March 1907, with remarks by the Examiner. Demy 8vo. Paper cover. R1 or 1s. 6d. (2a.)

Classified List and Distribution Return of the Establishment of the Military Works Services corrected up to 30th June 1907. Royal 8vo. Paper cover. 4a. or 5d. (1a.)

The Quarterly Army List for July 1907. No. 13. Royal 8vo. Paper cover. R2-12 or 4s. 2d. (6a.)

#### RAILWAY BOARD.

Administration Report on the Railways in India for the Calendar year 1906, which includes, as Appendix 38-A. thereto, the Statement of Railway and Tramway projects corrected to 31st December 1906, with a map illustrating the projects hitherto issued under a separate publication under the title of Histories of Railway projects including Tramways. Foolscap. Limp cover. R2 or 2s. 8d. (7a.)

### LIST OF BOOKS PUBLISHED FROM JANUARY TO JUNE 1907.

#### LEGISLATIVE DEPARTMENT.

Digest of Indian Law Cases; containing High Court Reports and Privy Council Reports of Appeals from India, 1901-1903, with an Index of Cases, by F. G. Wigley, 1906. Super Royal 8vo. Cloth. R10 or 15s. (10a.)

The Bengal Code, Volume V, 3rd Edition, 1905. Super Royal 8vo. Cloth. R6 or 9s. (10a.)

Act XIX of 1883, The Land Improvement Loans Act, as modified to September 1906, in Urdu and in Hindi. Royal 8vo. 1a. (1a.) each.

Table showing effect of legislation in the Governor General's Council during 1906. Royal 8vo. Stitched. 3a. 6p. (1a.)

List No. 2 of 1906, dated 31st December 1906, of Addenda et Corrigenda to General Rules and Orders. Royal 8vo. 1a. 9p. (1a.)

The United Provinces Code, Vol. II, 4th Edition, 1906. Royal 8vo. Cloth. For both volumes. R10 or 15s. (R1.)

The Judicial Officers' Protection Act, 1850 (Act No. XVIII of 1850) with footnotes. Royal 8vo. Stitched. 1a. 9p. (1a.)

The Land Acquisition Act, 1894 (Act No. 1 of 1894) with Footnotes. Royal 8vo. Stitched. 7a. or 8d.

Act III of 1864.—Foreigners. As modified up to 1st September 1906. In Urdu and Hindi. 1a. (1a.) each.

General Rules and Orders made under enactments in force in British India. Vol. I. Edition 1907. R5 or 7s. 6d. (12a.)

Act II of 1899.—Indian Stamp Act as modified up to 31st March 1907. R1 or 1s. 6d. (2a.)

Act XI of 1876.—The Presidency Banks Act as modified up to the 1st March 1907. 11a. or 1s. (1a. 9p.)

Act XII of 1896.—The Excise Act as modified up to 1st March 1907. 8a. or 9d. (2a.)

Act III of 1907.—Provincial Insolvency. In Urdu. 1a. 6p. (1a.)

Act IV of 1907.—Repealing and Amending (Rates and Cesses) Act. In Urdu. 3p. (1a.)

Act IV of 1907.—Repealing and Amending Rates and Cesses. In Hindi. 3p. (1a.)

#### HOME DEPARTMENT.

Report on the Working of the Municipalities in the North-West Frontier Province during the year 1905-06. Foolscap. Paper cover. R1 or 1s. 4d. (2a.)

Occasional Reports No. 4, Furlough studies. Royal 8vo. Board. R2 or 3s. (6a.)

Quarterly List of Officers in the Departments of the Government of India, January to March 1907. Foolscap. Paper cover. 4a. or 5d. (1a.)

Fauna of British India—Coleoptera, Vol. I, by C. J. Gahan, Esq. Royal 8vo. Cloth. R7-8a. or 11s. 3d. (4a.)

Annual Report of the Sanitary Commissioner with the Government of India, 1905. Foolscap. Board. R3 or 4s. 6d. (8a.)

List of Civil Officers holding Gazetted appointments under the Government of India, in the Home, Legislative, and Revenue Departments, and Gradation List of members of the Indian Civil Service under the Government of India, corrected to 1st January 1907. Royal 8vo. Board. R1 or 1s. 6d. (3a.)

Linguistic Survey of India, compiled and edited by Dr. G. A. Grierson, C.I.E., Ph.D., D.Litt., I.C.S. (Retired). Vol. IV, Munda and Dravidian Languages. Super Royal, Cloth. R6-8a. or 9s. 9d. (R1-3a.) Paper. R5 or 7s. 6d. (R1.)

Education—"Papers relating to the Technical Education in India, 1886-1904." Foolscap. Board. R3 4a. or 4s. 10d. (8a.)

Report of the Chemical Examiner to Government, North-West Frontier Province, for 1904. 4a. or 4d. (1a.)

Twenty-second Annual Report of the Countess of Dufferin's Fund for the year 1906. Royal 8vo. Paper cover. R1 or 1s. 4d. (4a.)

Scientific Memoirs by the officers of the Medical and Sanitary Departments of the Government of India—Preliminary Report on the development of the Leishman-Donovan Body in the Bed Bug by Captain W. S. Patton, M. B., I.M.S. New series. No. 27. Super Royal 8vo. Board. 8a. or 9d. (3a.)

Ditto Sexual Cycle of Leucocytozoon Canis in the Tick by Captain S. R. Christophers, M.B., I.M.S. New series. No. 28. Super Royal 8vo. Board. 12a. or 1s. 2d. (3a.)

Quarterly List of officers in the departments of the Government of India. April to June 1907. Foolscap. Paper cover. 4a. or 5d. (1a.)

Administration Report of the Jails of the North-West Frontier Province for the year 1906. Foolscap. Paper cover. R1-4a. or 1s. 8d. (1a. 6p.)

Note on the Registration returns of the North-West Frontier for the year 1906. 6a. or 6d. (1a. 6p.)

## DEPARTMENT OF REVENUE AND AGRICULTURE

- Progress Report of Forest Administration in the North-West Frontier Province for 1905-06.** Foolscap. Paper cover. R1-2a or 2s. (2a.)
- Review of Forest Administration in British India for the year 1904-1905.** Foolscap. Paper cover. R1-1a. or 1s. 10d.
- Proceedings of the Conference of Registrars of Co-operative Credit Societies held at Simla in September 1906.** Foolscap. Paper cover. R1 or 1s. 6d. (4a.)
- Summary of Remarks on the Kharif Crop of the North-West Frontier Province for 1906.** As. 4 or 4d. (1a.)
- List of Officers in the Department of Revenue and Agriculture, Government of India, and in the departments under its Administrative control, corrected to 1st January 1907.** Royal 8vo. Board. 8a. or 9d. (2a.)
- Departmental Notes on Insects that affect Forestry, by E. P. Stebbing, Esq.** Super Royal 8vo. Paper cover. No. 1. R2-8a. or 3s. 9d. (2a.); No. 2. R4 or 6s. (3a.); No. 3. R1-4a. or 2s. (3a.)
- Report on the Administration of Land Revenue, Land Records and Agriculture, Estates under the Court of Wards, Government Litigation, Settlement Operations and the Alienation of Land Act in North-West Frontier Province, 1905-06.** R2-4a. or 3s. (3a.)
- Annual Report of the Board of Scientific Advice for India, 1905-06.** Super Royal 8vo. Paper Cover. R1-2a. or 1s. 9d. (3a.)
- A Note on the Duki Fig-Tree Borer of Baluchistan (Batocera Rubus) by E. P. Stebbing, F.L.S., F.Z.S.F.E.S.,** Forest Bulletin No. 10 of 1907. 7a. or 0d. (1a.)
- First Report on the Fruit Experiments at Pusa (Agricultural Bulletin No. 4 of 1906).** Super Royal 8vo. Paper cover. 6a. or 6d. (2a.)

## PUBLIC WORKS DEPARTMENT.

- Classified List and Distribution Return of Establishment, corrected to 31st December 1906.** R1 or 1s. 6d. (2a.)
- Administration Report and Accounts with Statistical Statements for 1905-1906 of the North-West Frontier Province, Public Works Department, Irrigation Branch.** Foolscap. Board. R1-4a. or 2s. (2a.)
- History of Services of the officers of the Engineer and Accounts Establishments, corrected to 31st December 1906.** Royal 8vo. Board. Vols. I and II, complete. R5. (9a.)

## FOREIGN DEPARTMENT

- The Quarterly Civil List of the Foreign Department, No. 1, corrected up to the 1st October 1906.** Super Royal 8vo. Paper cover. R2-8a. or 3s. 9d. (2a.)
- Report on the Administration of the Civil and Military Station of Bangalore for the year 1905-06.** Foolscap. Limp cover. 8a. or 9d. (2a.)
- Report on the Administration of the Baluchistan Agency for 1905-1906.** Foolscap. Board. R2-8a. or 3s. 9d. (5a.)
- Administration Report of the North-West Frontier Province for 1905-06.** Foolscap. Board. As. 12 or 1s. (4a.)
- Report on Sanitation, Dispensaries and Jails in Rajputana for 1905, and on Vaccination for the year 1905-1906.** Foolscap. Board. R1 or 1s. 6d. (4a.)
- Report on the Administration of Ajmere-Merwara for 1905-1906.** Foolscap. Board. R2 or 3s. (4a.)

**The Quarterly Civil List of the Foreign Department, No. 2, corrected up to the 1st January 1907.** Royal 8vo. Paper cover. R2-8a. or 3s. 9d. (3a.)

## FINANCE DEPARTMENT

- Statistics compiled from the Finance and Revenue Accounts of the Government of India Receipts and Disbursements of Home and Indian Accounts from 1st April 1897 to 31st March 1905.** Foolscap. Board. R2 or 3s. (10a.)
- List of Officers appointed by the Government of India in the Finance Department 25th February 1907.** Royal 8vo. Paper cover. 4a. or 5d. (1a.)
- List of officers appointed by the Government of India in the Finance Department, corrected to 25th March and April 1907.** Royal 8vo. Paper cover 4a or 5d. (1a.) each.
- Financial Statement for 1907-1908.** Foolscap. Board. R1-8a. or 2s. 3d. (6a.)

## COMPTROLLER GENERAL.

- Appropriation Report on the Accounts of the Government of India for 1905-06.** Foolscap. Board. As. 8 or 9d. (6a.)
- Finance and Revenue Accounts of the Government for the year 1905-1906.** Foolscap. Board. R2 or 3s. (8a.)

## ACCOUNTANT GENERAL, BENGAL.

- The Bengal Treasury Manual, 2nd Edition, 1906.** Royal 8vo. Board. R1 or 1s. 6d. (4a.)

## DEPARTMENT OF COMMERCE AND INDUSTRY.

- Report of the Ganges Bridge Committee.** Foolscap. Board. R2-12a. or 4s. 2d. (7a.)
- Notification Geology and Minerals No. 3952-36, dated Simla, the 10th May 1907.—Publishing the form of the Annual Return relating to the output of Indian Mines and labour force employed therein.** Foolscap. 6p. (1a.)

## COMMERCIAL INTELLIGENCE DEPARTMENT:

- Sea-borne Trade and Navigation Accounts of British India for the months of November and December 1906 and January 1907.** Nos. 8, 9 and 10. Royal 8vo. Stitched. 8a. or 9d. (2a.) each.
- Accounts of the External Land Trade of British India, Nos. 6, 7 and 8 of 1906-07 for the month of September, October and November 1906.** Royal 8vo. Stitched. 8a. or 9d. (2a.) each.
- Annual Statement of the Sea-borne Trade and Navigation of British India with the British Empire and Foreign Countries for the year ending 31st March 1906.** 40th issue. Vol. I. (Abstract and detailed Tables of Imports and Exports.) Super Royal 4to. Board. R3 or 4s. 6d. (15a.)

HOME DEPARTMENT.

NOTIFICATION.

SANITARY  
PLAGUE

No. 1285.

*Simla, the 19th August 1907.*

The following correspondence is published for general information.

By Order,

H. A. STUART,

*Offg. Secretary to the Government of India.*

---

From His Excellency the Viceroy to the Heads of all local Governments and Administrations, dated Simla, the 16th August 1907.

In reference to the communication which I am addressing to you today, I beg to forward you a letter on the same subject which I have had the honour to receive today from His Majesty the King-Emperor.

From His Majesty the King-Emperor to His Excellency the Viceroy, dated Buckingham Palace, the 13th August 1907.

MY DEAR VICEROY,

I have followed with anxious interest the later course of that epidemic of plague by which India has for eleven years past been so sorely afflicted.

The welfare of my Indian subjects must ever be to me an object of high concern, and I am deeply moved when I think of the misery that has been borne with such silent patience in all those stricken homes.

I am well aware how unremitting have been the efforts of Your Excellency's predecessors and yourself to make out the causes of the pestilence, and to mitigate its effects.

It is my earnest hope and prayer that the further measures now being prepared by Your Excellency, in consultation with zealous and able officers, may be crowned with merciful success.

I desire you to communicate this expression of my heart-felt sympathy to my Indian subjects.

Believe me,

MY DEAR VICEROY,

Sincerely yours,

EDWARD, R. & I.

---

From His Excellency the Viceroy to the Heads of all local Governments and Administrations, dated Simla, the 16th August 1907.

The terrible ravages of plague borne with such touching patience and heroism by the afflicted people of India have caused me the greatest sorrow and concern, and I have been deeply grieved that comparatively so little success has attended our efforts to free the country from this dire scourge.

The difficulties in our way have been enormous, of which the greatest has perhaps been the inability of the classes of the community most affected by the epidemic to understand the sanitary and hygienic measures which we have sought

to induce them to adopt, and which in many cases they have actively resented, and, though our medical and executive officers, and benevolent non-officials all over India, have shown the most courageous self-sacrifice, not a few of them having laid down their lives in fighting the epidemic, the results achieved have fallen far short of what, after such an expenditure of labour and money, we might reasonably have expected.

The first stage of the Plague Commission inquiry is now finished and certain definite conclusions have been reached. These do not perhaps make the problem of effective suppression of the disease much easier than it was when it first appeared, but they at least indicate the lines on which we should proceed in the future with the best hope of ultimate success, and at the same time prove that many expensive and harassing operations carried on in the past may be safely abandoned. Your Administration is being addressed by the Government of India on the subject of the measures that should now be taken, and I do not propose to discuss these in this letter, more particularly as any general line of action dictated by science must be modified to suit the peculiar conditions of the province and the people to be affected by it.

Our whole experience in the past, however, has taught us one important lesson that should never be lost sight of. No measure that can be devised can have any prospect of success unless we secure the co-operation of the very people it is intended to save. The leading principle to be observed in a plague campaign is that the people must to a great degree work out their own salvation, and that, whatever course of action is decided on, it must be carried out with patience, sympathy, and a scrupulous consideration for their wishes and traditions. Indians are by no means contemptuous of sanitary laws; many sections of the community have good rules of their own, and it will only defeat the purpose we have in view if we appear to insist unreasonably upon the acceptance of our ideas of modern hygiene.

The problem is one of exceptional difficulty; questions of expediency only too often prevent the unrestricted application of the restraints which science would impose, but I feel confident that the proposals made to you officially will receive your earnest and sympathetic attention, and I hope that, with the assistance of the people themselves, some distinct advance will now be made towards bringing the ravages of this pestilence under complete control.

NOS. 1275—1284.

„ CHIEF COMMISSIONER OF COORG.

Home Department,  
Sanitary—Plague.

*Simla, the 17th August 1907.*

SIR,

THE scientific commission which was appointed in 1905 to investigate the causation of plague has now completed the first stage of its labours, dealing with the etiology of the disease, and has arrived at conclusions of great practical importance. Some time must elapse before it is possible to publish an account of all the work done by the commission, but I am directed to address you at once on those results of its careful and valuable researches which have a direct bearing on the measures to be taken for dealing with the epidemic.

2. From the point of view indicated above the outstanding conclusions are :—

- (1) that bubonic plague is spread by infected rats;
- (2) that the vehicle of contagion between rat and rat and between rat and man is the rat flea; and
- (3) that the life of the plague germ in soil, the floors and walls of houses and the like is of short duration.

These conclusions show that many troublesome and expensive measures undertaken for the purpose of destroying the germ in houses may be abandoned; and they indicate that effort should be directed to prevent access to man of infected rats and their fleas, and to counteract the effects of the bites of infected fleas.

3. The Government of India recognize that the prevention of contact between man and infected rats and rat fleas is a problem the solution of which presents great difficulties. The construction of the vast majority of Indian houses favours infestation by rats; there is usually an ample food supply for them; and in many cases the people are not only themselves unwilling to destroy rats, but decline to afford any facilities for their destruction by others. These unfavourable conditions, however, are not always present, and there is evidence which indicates that well-devised measures carried out persistently will largely reduce the number of rats and thus retard, if they do not completely prevent, the spread of plague. But it must be remembered that rats breed with great rapidity, and it follows that spasmodic and ill-directed efforts to exterminate them can have little effect on the prevalence of plague and may actually do harm by discrediting not only rat destruction but other measures also.

4. Apart from actual destruction there are other means of keeping down the number of rats. It is impossible to expect in the immediate future much improvement in the structure of houses, but in certain localities something might no doubt be done in this direction, while beneficial results may possibly be obtained by building in selected centres a few houses, suitable for the poorer classes, to serve as models of the type of residence which is best fitted to secure freedom from rats. The provision of such model dwellings may conveniently be undertaken along with schemes for the demolition of insanitary areas and the opening up of congested quarters, measures which the Government of India regard as imperative because they are of value both directly by reducing the facilities for rat-life, and indirectly by their educational effect. Again, a diminution of the food supply of rats by the protection of grain stores and the prompt removal of all garbage has a direct effect on the rat population, which normally is limited only by the available supply of food.

5. The Government of India apprehend, however, that at least for some time to come measures undertaken to reduce the number of rats may have only partial and local results, and it will probably be found in most cases that the only practical way of removing man from contact with infected rat-fleas is by the temporary evacuation of quarters in which plague is prevalent. In the present state of our knowledge evacuation is the most efficient remedy against plague which we can offer to the people and the earlier this measure is adopted and the more completely it is carried out the greater will be the saving of life. It must, of course, be recognized that even in the most favourable circumstances the evacuation of their houses is attended with great inconvenience to the people, and it should be impressed upon district officers that while it is their duty to use their utmost endeavours to influence the leaders of the people and induce them to move into temporary dwellings, it is equally their duty, by affording assistance and making wise rules suited to the circumstances of the community with which they are dealing, to make the measure as little irksome as possible. It is impossible to lay down definite directions which should be followed in every case because conditions vary from place to place. For this reason district officers and their subordinates should be given considerable freedom of action in deciding what help should be afforded, and they should consult their technical advisers regarding any rules that it may seem necessary to prescribe. In one place grants of money may be desirable; in another it may be advisable to supply the materials for the construction of grass huts either free of charge or on payment; in a third the most suitable form of help may be the provision of corrugated iron for the construction of temporary residences. Arrangements for the care of the cattle will often be necessary, and provision should always be made for the safe custody of the property which the people must leave behind them in their houses. Whatever form of aid it is decided to give should be given promptly, with a minimum of preliminary formalities and without undue detail of subsequent audit.

The wishes and even the prejudices of the people must be consulted, and it is important that they should be made to understand the reasons for evacuation and why it is that this measure will save them. If they can be made to appreciate this, the site of the temporary encampment need not be at a greater distance from the evacuated houses than is sufficient to prevent rats following the people; and it will not be necessary to impose any restrictions beyond those which are required to prevent people bringing infected fleas with them from their houses.

6. The next measure to which I am directed to invite attention is inoculation. It has been established beyond doubt that inoculation is a most valuable protective against plague, and even when it does not afford immunity it doubles the chances of recovery. The Governor-General in Council is aware, however, that there is much prejudice on the subject and the claims of inoculation should be advocated with caution and tact. The goal to be aimed at is the provision everywhere of facilities for inoculation. For this purpose the members of the staffs of hospitals and dispensaries should be utilised whenever it is possible to do so, while establishments of special inoculators should be employed where such supplementary assistance is required. Training in the simple process of inoculation is necessary in all cases and can be given at the provincial laboratories and by commissioned medical officers selected for the purpose. I am to suggest that <sup>the Governor in Council</sup> ~~the Lieutenant-Governor~~ <sup>you</sup> should at once take into consideration the needs of the <sup>presidency</sup> ~~province~~ in this respect.

7. It is known that acute plague in men and rats never completely disappears and it is probable that it is in the localities in which it persists throughout the period of abatement that the yearly epidemics have their origin. In each province these localities, which may not be the same from year to year, should be ascertained and special attention should be devoted to them with the object of extirpating plague in them and of preventing it from spreading from them.

8. The Governor-General in Council does not think it necessary to press further upon the attention of local Governments the importance of avoiding any action which excites the opposition of the people. That is clearly recognised, and he desires now, therefore, to dwell rather upon the necessity of urging district officers to take the initiative by explaining to the people what is known about the causes of plague, by teaching them to appreciate the danger of harbouring rats and by stimulating them to adopt measures of protection. They must not be coerced, but on the other hand they must not be left without guidance, advice and help. His Excellency in Council is convinced that the terrible mortality from plague excites the compassion of every officer of Government who is brought in contact with the people, but in the past, sympathy has not infrequently been accompanied by a feeling of helplessness and despair. The problem of combating the disease is still surrounded with many difficulties, but the increased knowledge which has now been gained has made the outlook distinctly more hopeful, and there is every reason to anticipate that persistent and sustained efforts will at least produce appreciable alleviation even though they may not afford complete relief. The Governor-General in Council relies confidently upon the support and co-operation of local Governments in a combined endeavour to grapple with the epidemic and he in turn is ready to afford such administrative assistance as lies in his power.

I have the honour to be,

SIR,

Your most obedient servant,

H. A. STUART,

*Offg. Secretary to the Government of India.*

#### NOTIFICATIONS.

*Simla, the 19th August, 1907.*

**No. 17.**—In exercise of the power conferred by section 17 of the Indian Councils Act, 1861 (24 and 25 Vict., cap. 67), the Governor General in Council is pleased to appoint Friday, the 6th September, 1907, at 11 A.M., as the time, and the Council Chamber in the Viceregal Lodge, Simla, as the place, for a meeting of a Council of the Governor General for the purpose of making Laws and Regulations.

*The 22nd August, 1907.*

**No. 18.**—In exercise of the power conferred by section 10 of the Indian Councils Act, 1861 (24 and 25 Vict., c. 67), and section 1 of the Indian Councils Act, 1892 (55 and 56 Vict., c. 14), the Governor General is pleased to nominate the Hon'ble Mr. T. Gordon Walker, C.S.I., Financial Commissioner of the Punjab, to be an Additional Member of the Council of the Governor General for the purpose of making Laws and Regulations.

*The 23rd August, 1907.*

**No. 19.**—Whereas by resolution passed by the Secretary of State for India in Council on the 16th day of March, 1871, the provisions of section 1 of the Government of India Act, 1870 (33 Vict., c. 3), were declared applicable to Ajmer and Merwara ;

And whereas the Chief Commissioner has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same ;

And whereas the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft and the same has received the assent of the Governor General on the 21st day of August, 1907 ;

In pursuance of the direction contained in the said section, the said Regulation is now published in the *Gazette of India* and in the local Gazette for Ajmer and Merwara :

REGULATION NO. V OF 1907.

*A Regulation further to amend the Ajmer Land and Revenue Regulation, 1877.*

II of 1877. WHEREAS it is expedient further to amend the Ajmer Land and Revenue Regulation, 1877 ; It is hereby enacted as follows :

1. This Regulation may be called the Ajmer Land and Revenue (Amendment) Regulation, 1907.

Short title.

II of 1877. 2. For section 3 of the Ajmer Land and Revenue Regulation, 1877, the following Substitution of new section 3, Regulation II of 1877. shall be substituted, namely :

“ 3. (1) Except in the case of lands in respect of which istimrari sanads have been Rights of Government in regard to mines and granted by the Chief Commissioner with the quarries, previous sanction of the Governor General in Council, the Government shall be presumed, until the contrary is proved—

(a) to be the sole owner of all mines, opened and unopened, of metal, coal and other valuable minerals ;

(b) to be entitled to take free, or authorize persons who have entered into any contract with it to take free, from any quarry, whether previously worked or not, as much stone, kankar, gravel, sand or other like substance as is needed for any public purpose.

(2) In the case of any land wherein any right to minerals is reserved to or otherwise belongs to Government, the Government shall have all powers necessary for the proper enjoyment of such right, and may transfer any such right or power to any persons in such manner as to it may seem fit.

(3) Whenever in the exercise of any such right or power by the Government, or by any person to whom the Government may have transferred such right or power, the rights of any owner or occupier of any such land are infringed by the occupation or disturbance of the surface of such land, the Government shall pay or cause to be paid to such owner or occupier such amount of compensation for any damage so caused as may be determined by the Revenue-officer.

VI of 1874. (4) Nothing herein contained shall affect the concession made in respect of mines and quarries in State-forests by section 6 of the Ajmer Forest Regulation, 1874.”

T. W. RICHARDSON,

*Offg. Secretary to the Government of India.*

No. 1285.—The following correspondence is published for general information.

By order,

H. A. STUART,

*Offg. Secretary to the Government of India.*

---

From His Excellency the Viceroy to the Heads of all local Governments and Administrations, dated Simla, the 16th August 1907.

In reference to the communication which I am addressing to you today, I beg to forward you a letter on the same subject which I have had the honour to receive today from His Majesty the King-Emperor.

---

From His Majesty the King-Emperor to His Excellency the Viceroy, dated Buckingham Palace, the 13th August 1907.

MY DEAR VICEROY,

I have followed with anxious interest the later course of that epidemic of plague by which India has for eleven years past been so sorely afflicted.

The welfare of my Indian subjects must ever be to me an object of high concern, and I am deeply moved when I think of the misery that has been borne with such silent patience in all those stricken homes.

I am well aware how unremitting have been the efforts of Your Excellency's predecessors and yourself to make out the causes of the pestilence, and to mitigate its effects.

It is my earnest hope and prayer that the further measures now being prepared by Your Excellency, in consultation with zealous and able officers, may be crowned with merciful success.

I desire you to communicate this expression of my heartfelt sympathy to my Indian subjects.

Believe me,

MY DEAR VICEROY,

Sincerely yours,

EDWARD, R. & I.

---

From His Excellency the Viceroy to the Heads of all local Governments and Administrations, dated Simla, the 16th August 1907.

The terrible ravages of plague borne with such touching patience and heroism by the afflicted people of India have caused me the greatest sorrow and concern, and I have been deeply grieved that comparatively so little success has attended our efforts to free the country from this dire scourge.

The difficulties in our way have been enormous, of which the greatest has perhaps been the inability of the classes of the community most affected by the epidemic to understand the sanitary and hygienic measures which we have sought to induce them to adopt, and which in many cases they have actively resented, and, though our medical and executive officers, and benevolent non-officials all over India, have shown the most courageous self-sacrifice, not a few of them having laid down their lives in fighting the epidemic, the results achieved have fallen far short of what, after such an expenditure of labour and money, we might reasonably have expected.

The first stage of the Plague Commission inquiry is now finished and certain definite conclusions have been reached. These do not perhaps make the problem of effective suppression of the disease much easier than it was when it first appeared, but they at least indicate the lines on which we should proceed in the future with the best hope of ultimate success, and at the same time prove that many expensive and harassing operations carried on in the past may be safely abandoned. Your Administration is being addressed by the Government of India on the subject of the measures that should now be taken, and I do not propose to discuss these in this letter, more particularly as any general line of action dictated by science must be modified to suit the peculiar conditions of the province and the people to be affected by it.

Our whole experience in the past, however, has taught us one important lesson that should never be lost sight of. No measure that can be devised can have any prospect of success unless we secure the co-operation of the very people it is intended to save. The leading principle to be observed in a plague campaign is that the people must to a great degree work out their own salvation, and that, whatever course of action is decided on, it must be carried out with patience, sympathy, and a scrupulous consideration for their wishes and traditions. Indians are by no means contemptuous of sanitary laws; many sections of the community have good rules of their own, and it will only defeat the purpose we have in view if we appear to insist unreasonably upon the acceptance of our ideas of modern hygiene.

The problem is one of exceptional difficulty; questions of expediency only too often prevent the unrestricted application of the restraints which science would impose, but I feel confident that the proposals made to you officially

will receive your earnest and sympathetic attention, and I hope that, with the assistance of the people themselves, some distinct advance will now be made towards bringing the ravages of this pestilence under complete control.

NOS. 1275—1284.

*Sanitary—Plague.*

*Simla, the 17th August 1907.*

SIR,

THE scientific commission which was appointed in 1905 to investigate the causation of plague has now completed the first stage of its labours, dealing with the etiology of the disease, and has arrived at conclusions of great practical importance. Some time must elapse before it is possible to publish an account of all the work done by the commission, but I am directed to address you at once on those results of its careful and valuable researches which have a direct bearing on the measures to be taken for dealing with the epidemic.

2. From the point of view indicated above the outstanding conclusions are :

- (1) that bubonic plague is spread by infected rats ;
- (2) that the vehicle of contagion between rat and rat and between rat and man is the rat flea ; and
- (3) that the life of the plague germ in soil, the floors and walls of houses and the like is of short duration.

These conclusions show that many troublesome and expensive measures undertaken for the purpose of destroying the germ in houses may be abandoned; and they indicate that effort should be directed to prevent access to man of infected rats and their fleas, and to counteract the effects of the bites of infected fleas.

3. The Government of India recognize that the prevention of contact between man and infected rats and rat fleas is a problem the solution of which presents great difficulties. The construction of the vast majority of Indian houses favours infestation by rats; there is usually an ample food supply for them; and in many cases the people are not only themselves unwilling to destroy rats, but decline to afford any facilities for their destruction by others. These unfavourable conditions, however, are not always present, and there is evidence which indicates that well-devised measures carried out persistently will largely reduce the number of rats and thus retard, if they do not completely prevent, the spread of plague. But it must be remembered that rats breed with great rapidity, and it follows that spasmodic and ill-directed efforts to exterminate them can have little effect on the prevalence of plague and may actually do harm by discrediting not only rat destruction but other measures also.

4. Apart from actual destruction there are other means of keeping down the number of rats. It is impossible to expect in the immediate future much improvement in the structure of houses, but in certain localities something might no doubt be done in this direction, while beneficial results may possibly be obtained by building in selected centres a few houses, suitable for the poorer classes, to serve as models of the type of residence which is best fitted to secure freedom from rats. The provision of such model dwellings may conveniently be undertaken along with schemes for the demolition of insanitary areas and the opening up of congested quarters, measures which the Government of India regard as imperative because they are of value, both directly by reducing the facilities for rat-life, and indirectly by their educational effect. Again, a diminution of the food supply of rats by the protection of grain stores and the prompt removal of all garbage has a direct effect on the rat population, which normally is limited only by the available supply of food.

5. The Government of India apprehend, however, that at least for some time to come measures undertaken to reduce the number of rats may have only partial and local results, and it will probably be found in most cases that the only practical way of removing man from contact with infected rat-fleas is by the temporary evacuation of quarters in which plague is prevalent. In the present state of our knowledge evacuation is the most efficient remedy against plague which we can offer to the people and the earlier this measure is adopted and the more completely it is carried out the greater will be the saving of life. It must, of course, be recognized that even in the most favourable circumstances the evacuation of their houses is attended with great inconvenience to the people, and it should be impressed upon district officers that while it is their duty to use their utmost endeavours to influence the leaders of the people and induce them to move into temporary dwellings, it is equally their duty, by affording assistance and making wise rules suited to the circumstances of the community with which they are dealing, to make the measure as little irksome as possible. It is impossible to lay down definite directions which should be followed in every case because conditions vary from place to place. For this reason district officers and their subordinates should be given considerable freedom of action in deciding what help should be afforded, and they should consult their technical advisers regarding any rules that it may seem necessary to prescribe. In one place grants of money may be desirable; in another it may be advisable to supply the materials for the construction of grass huts either free of charge or on payment; in a third the most suitable form of help may be the provision of corrugated iron for the construction of temporary residences. Arrangements for the care of the cattle will often be necessary, and provision should always be made for the safe custody of the property which the people must leave behind them in their houses. Whatever form of aid it is decided to give should be given promptly, with a minimum of preliminary formalities and without undue delay of subsequent audit.

The wishes and even the prejudices of the people must be consulted, and it is important that they should be made to understand the reasons for evacuation and why it is that this measure will save them. If they can be made to appreciate this, the site of the temporary encampment need not be at a greater distance from the evacuated houses than is sufficient to prevent rats following the people; and it will not be necessary to impose any restrictions beyond those which are required to prevent people bringing infected fleas with them from their houses.

6. The next measure to which I am directed to invite attention is inoculation. It has been established beyond doubt that inoculation is a most valuable protective against plague, and even when it does not afford immunity it doubles the chances of recovery. The Governor-General in Council is aware, however, that there is much prejudice on the subject and the claims of inoculation should be advocated with caution and tact. The goal to be aimed at is the provision everywhere of facilities for inoculation. For this purpose the members of the staffs of hospitals and dispensaries should be utilised whenever it is possible to do so, while establishments of special inoculators should be employed where such supplementary assistance is required. Training in the simple process of inoculation is necessary in all cases and can be given at the provincial laboratories and by commissioned medical officers selected for the purpose. I am to suggest that <sup>the Governor-General in Council</sup> ~~the Lieutenant-Governor~~ <sup>you</sup> should at once take into consideration the needs of the <sup>Presidency</sup> ~~Province~~ in this respect.

7. It is known that acute plague in men and rats never completely disappears and it is probable that it is in the localities in which it persists throughout the period of abatement that the yearly epidemics have their origin. In each province these localities, which may not be the same from year to year, should be ascertained and special attention should be devoted to them with the object of extirpating plague in them and of preventing it from spreading from them.

8. The Governor-General in Council does not think it necessary to press further upon the attention of local Governments the importance of avoiding any action which excites the opposition of the people. That is clearly recognised, and he desires now, therefore, to dwell rather upon the necessity of urging district officers to take the initiative by explaining to the people what is known about the causes of plague, by teaching them to appreciate the danger of harbouring rats and by stimulating them to adopt measures of protection. They must not be coerced, but on the other hand they must not be left without guidance, advice and help. His Excellency in Council is convinced that the terrible mortality from plague excites the compassion of every officer of Government who is brought in contact with the people, but in the past, sympathy has not infrequently been accompanied by a feeling of helplessness and despair. The problem of combating the disease is still surrounded with many difficulties, but the increased knowledge which has now been gained has made the outlook distinctly more hopeful, and there is every reason to anticipate that persistent and sustained efforts will at least produce appreciable alleviation even though they may not afford complete relief. The Governor-General in Council relies confidently upon the support and co-operation of local Governments in a combined endeavour to grapple with the epidemic and he in turn is ready to afford such administrative assistance as lies in his power.

I have the honour to be,

SIR,

Your most obedient servant,

H. A. STUART,

*Offg. Secretary to the Government of India.*

**SANITARY.  
PLAGUE.**

*The 23rd August, 1907.*

**No. 1306.**—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Tirupati in the Chandragiri taluq of the North Arcot district of the Madras presidency, if persons from the Mysore State are permitted to assemble at that place on the occasion of the ensuing Brahmotsavam festival of Sri Vankateswara Swami :

In exercise of the power conferred by section 2, sub-section (1), of the Epidemic Diseases Act, 1897 (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Pakala, Panapakam, Chendragiri, Tirupati West, Tirupati East, Renigunta, Yerpedu, Kalahasti and Yellakuru on the South Indian Railway and Puttur, Taduku, Pudi, Renigunta, Mamanduru, Settigunta and Koduru on the Madras Railway shall be sold from the 5th to the 19th September and from the 3rd to the 17th October 1907 (both days inclusive) within the Mysore State to any person intending or believed to be intending to proceed to the Brahmotsavam festival of Sri Venkateswara Swami at Tirupati.

**JUDICIAL.**

*The 21st August, 1907.*

**No. 1239.**—Under the provisions of section 5 of the Lower Burma Courts Act, 1900 (VI of 1900), the Governor General in Council is pleased to appoint Mr. E. A. Moore, of the Indian Civil Service, to be a temporary additional judge of the Chief Court, Lower Burma, with effect from the 9th November 1907.

**No. 2284-G.B.**—With reference to Notification No. 1853-G.B., dated the 3rd July, 1907, the provisional recognition of the appointment of Don Antonio B. Agacio as Consul for Chili at Calcutta, has been confirmed by His Majesty's Government.

**No. 2288-G.**—Captain H. Stewart, a Political Assistant of the 2nd class, is granted privilege leave for two months and twenty-nine days combined with furlough for nine months, with effect from the 21st August, 1907, under Articles 233 and 308 (a) of the Civil Service Regulations.

*The 23rd August, 1907.*

**No. 3284-I.A.**—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council of 1902, the Governor General in Council is pleased to apply to the Civil and Military Station of Bangalore the provisions, so far as they may be suitable, of the Local Authorities' Loan Act, 1879 (XI of 1879) : Provided that references to " British India " and " the Local Government " shall be construed as referring to the said Civil and Military Station and the Resident in Mysore respectively :

Provided, further, that for the purpose of facilitating the application of the enactment hereby applied, any court in the said Civil and Military Station may construe them with such alterations, not affecting the substance, as may be necessary or proper to adapt them to the matter before the Court.

**No. 3285-I.A.**—In exercise of the powers conferred by section 5 of the Local Authorities' Loan Act, 1879 (XI of 1879), as applied to the Civil and Military Station of Bangalore under Notification No. 3284-I.A., dated the 23rd August 1907, the Governor General in Council is pleased to make the following Rules for the grant of loans to Local Authorities in the said station by the Government :

1. In these rules (i) " the Act " means the Local Authorities' Loan Act, 1879, as applied to the Civil and Military Station of Bangalore ; (ii) " the Local Authority " means the Local Authority applying for or, as the case may be, receiving or having received the loan ; (iii) " loan " means a loan under the Act.

2. A loan must be defined in rupees and not by the sterling or any other foreign standard.

3. (1) No loan shall be granted except for the construction or repair of a work of public utility—

(a) within the local limits of the area subject to the control of the local authority, or

(b) for the benefit of the inhabitants within those limits.

(2) The term of a loan shall not, except with the special sanction of the Government of India, extend over a period exceeding twenty years.

- (3) In the case of loans for works or in connection with works which are mainly ornamental or convenient, such as a town hall, public garden, or market-place, the term shall not, except with the special sanction of the Government of India, exceed ten years.

(NOTE.—In the case of (2) and (3) above, the terms should be calculated from the date on which the loan is completely made.)

- (4) Without the special sanction of the Government of India a loan shall not be made at a lower rate of interest than 4 per cent.

4. An application for a loan shall state—

1st—the work for the construction or repair of which the loan is required and an estimate of the cost of the entire work or of such part of it as it is proposed to meet from loan funds;

2nd—the amount which it is proposed to borrow;

3rd—the fund on the security of which it is proposed to borrow;

4th—the law under which the said fund is levied, received or held;

5th—the period for which the loan is required, the number and amount of the instalments, if any, in which it is proposed that the loan shall be taken, the dates proposed for receiving such instalments, and the instalments, if any, in which it is proposed to repay the loan;

6th—the rate of interest at which it is proposed to borrow;

7th—a detailed account of the revenue and expenditure of the Local Authority for the three last preceding years;

(NOTE.—The receipt side of the account should show only ordinary revenue. Receipts from loans or deposits, or the investments of sinking funds should be excluded as well as items of abnormal character, which should be indicated separately. On the expenditure side interest on debt and any payments to a sinking fund should be included, but all expenditure from loan funds and repayment of advances or deposits should be excluded. A full explanation should be given of all important variations in the amounts of revenue and expenditure.)

8th.—all existing prior charges upon the funds of the Local Authority.

5. The Resident in Mysore shall cause such enquiry as he thinks necessary or expedient to be made into the statements contained in the application and into the use and value of the proposed work.

6. If it appears to the Resident in Mysore that the loan ought not to be granted, he shall reject the application.

7. If it appears to the Resident in Mysore probable that the loan ought to be granted, he shall cause to be published in the official Gazette, and otherwise, as he deems fit, within the local limits of the area subject to the control of the Local Authority, a copy of the application and such particulars in regard to any enquiry made under Rule 5, as he may think necessary.

8. After the expiry of one month from such publication, and after calling for any further information which he may require, and considering any objections which may be preferred, the Resident in Mysore may either reject the application, or refer it for the order of the Governor General in Council.

9. The Resident in Mysore shall make such provision as may seem to be necessary for the proper inspection of all works which are being carried out by means of a loan and for ascertaining and securing that the loan is duly applied to the purposes for which it is made. Every such work, and the accounts connected therewith, shall be open at all times to the inspection of any person who may be authorised to inspect the accounts of the Local Authority, and of any other person specially authorised by the Resident in Mysore in this behalf.

10. If the Governor General in Council considers that the conditions on which a loan was granted have not been fulfilled, or that the Local Authority has failed to comply with any of the requirements of these rules, he may, at any time, order that no further payments shall be made on account of such loan, and recover the amount advanced, with interest thereon, in the manner mentioned in section 6 of the Act.

11. (1) Interest shall be charged half-yearly on each loan at the rate agreed upon; and shall be reckoned and paid on each instalment from the date on which it is received.

(2) A penal rate of compound interest not less than 6 per cent. per annum, shall be payable, at the discretion of the Government of India upon all overdue instalments of interest or of principal and interest.

12. The Local Authority may, at any time with the previous consent of the Resident in Mysore, repay the whole or any part of a loan made from the public Treasury in advance of the period fixed by the conditions of the loan.

13. The cost of any enquiry made under Rule 5 of advertisements published under Rule 7, of inspections made under Rule 9, and of any other proceedings by order of the Governor General in Council or the Resident in Mysore under these Rules, shall be determined by the Governor General in Council or the Resident in Mysore, as the case may be, and shall be paid by the Local Authority.

14. (a) The accounts of every loan shall be kept by the Comptroller of India Treasuries.

(b) The Local Authority shall give to the Comptroller and the Resident in Mysore any information which they may require regarding the expenditure of the loan, and regarding its funds.

15. An annual statement of all loans granted under the Act, repayments due and made during the year, and balances outstanding at the beginning and end of the year shall be prepared and submitted to the Resident in Mysore, with a report of the progress of the works. Such statement shall be published in the official Gazette.

16. An attachment of any funds under section 6 of the Act shall be made by a notice to the Local Authority prohibiting the collection or management of such funds by the Local Authority, and vesting the administration thereof in such officer as the Governor General in Council may appoint. Such notice shall be published in the official Gazette and otherwise, as may be directed by the Governor General in Council, within the local limits of the area subject to the control of the Local Authority. The moneys collected or received under such attachment shall be paid into the Government Treasury; and the accounts of moneys so collected and of the cost of the collection, shall be prepared in such form as the Governor General in Council may from time to time direct. A copy of the accounts shall be delivered to the Local Authority, and published in the official Gazette.

L. W. DANE,

*Secretary to the Government of India.*

**ACCOUNTS AND FINANCE.**  
**ADMINISTRATION OF TREASURIES.**

No. 5183-A.

*The 19th August, 1907.*

Letter from the Comptroller and Auditor General, No. 1079, dated the 16th July 1907, submitting a report on the Cash Balances and Resource Operations of Treasuries for the twelve months from April 1906 to March 1907.

Ordered that the letter and its annexures, be published in the *Gazette of India*.

No. 1079, dated Calcutta, the 16th July 1907.

From—The Comptroller and Auditor General,

To—The Secretary to the Government of India, Finance Department.

I have the honour to submit my report on the Cash Balances and Resource Operations of our Treasuries for the twelve months from April 1906 to March 1907.

**Minimum Balances.**

2. The following table gives the estimated Minimum Balances for all India for each month, from April 1907 to March 1908, and their distribution among the District Treasuries of the several Provinces and the Reserve Treasuries and Presidency Banks. The usual statements, marked A and B, showing the comparison of the estimated minimum balances for 1907-08 with the estimates of previous years, are appended. In the table the total balances at the Presidency towns have been shown as usual in a lump sum in a separate column:

[In lakhs of Rupees.]

3. The figures shown under District Treasuries represent the minimum balances estimated by the local Account Officers on the usual plan. The minimum for 1st December 1907 is higher by 37 lakhs than what was estimated for 1st December 1906. This increase is distributed as follows:—India +17, Burma +10 and Punjab +10. Of the increase under India, 3 lakhs are due to the transfer of the treasury business at Indore to the Bank of Bombay. The other increases are recommended on the ground of absolute requirements and I have for the present allowed them to stand. The balances for all India have been estimated on the basis of the Distributed Budget, the minimum on 1st December being taken at 11,50 lakhs.

4. The following table shows the actual cash balances at the Treasuries on the 1st day of each month during the past year and their distribution between the Reserve and District Treasuries and the Presidency Banks, together with the corresponding figures of the preceding year:

5. The year opened with a balance higher than that of the previous year by 155 lakhs but closed with 218 lakhs less. The principal causes of this decrease of 373 lakhs were as follows. Council Bill payments were heavier than those of the previous year by 909 lakhs, Imperial and Provincial Loans exceeded last year's actuals by 84 lakhs, of which 30 lakhs represented a temporary loan to the Calcutta Port Trust, and remittances of funds through currency between England and India resulted in a net excess payment of 160 lakhs. On the other hand the rupee loan of the year was 50 lakhs more, the purchase and remittance of silver to India against Council Bills exceeded those of last year by 647 lakhs, the net transactions under Deposits and Advances resulted in an improvement in the balances of 39 lakhs and the net Military issues from Civil Treasuries were less by 25 lakhs.

6. The demand for Council Bills became very heavy after November. Money was then in great demand for the requirements of the export trade in jute and cotton, and the allotments made from August to November, though much higher than those in the first four months of the year, failed to satisfy the market. In December the demand became very high, the total amount the Indian Treasuries were called upon to pay in that month being 542 lakhs in Transfers in addition to 208 lakhs in Bills. To meet this heavy call, special measures

had to be taken to reduce the District Treasuries to the balances necessary for absolute requirements, and a temporary advance of 380 lakhs was taken from the silver branch of the Gold Standard Reserve in India. The Indian Treasury balances were also replenished to the extent of 150 lakhs by the Secretary of State transferring an equivalent amount in gold to the currency chest in England against an opposite payment in India towards the close of December and in the beginning of January. The demand for Council Bills and Telegraphic Transfers continued high in January, February and March, the actual payments in these three months amounting to 632, 662 and 587 lakhs respectively. To enable the Government of India to meet these heavy requirements, an arrangement was made with the Secretary of State in February to transfer £2½ millions in gold to the currency chest in England before the close of the financial year. Of this amount however £725,000 or 109 lakhs remained due to India on 31st March, 1907. The whole of the advance obtained from the Gold Standard Reserve in December was repaid in March.

### Absorption of Coin—Silver.

7. The following table compares the monthly consumption and the stock of silver coin (rupees and half-rupees) during the year under report with those of the two preceding years:

[In lakhs of Rupees.]

\* Excluding temporary transfers from the Gold Standard Reserve.

8. The demand for additional rupees during the year exceeded the record figure of last year by 350 lakhs. This was due principally to greater activity in the traffic in jute and jute manufactures, the total value of the export in 1906-07 exceeding that in 1905-06 by about 13 crores of rupees. There was no material variation between the outturn of rupees at the Mints in the two years, but the coinage in 1906-07 was more evenly distributed throughout the year than in 1905-06 and it was possible to meet the large demand with comparative ease.

#### Absorption of Coin—Gold.

9. The following table gives the usual monthly detail of the gold transactions at the treasuries during the year :

[In hundreds of Sterling.]

|                    | Issues to Public. | Receipts from Public. | Net issues. | Closing balance of gold in District Treasuries. | Total closing balance of gold (coin and bullion) in Currency and Treasuries. |

| December „ . . .   | 367,600           | 162,400               | 205,200     | 160,100   | 4,760,800  |
| January 1907 . . . | 329,700           | 251,300               | 78,400      | 260,300   | 4,887,000  |
| February „ . . .   | 370,800           | 230,000               | 140,800     | 277,500   | 4,420,100  |
| March „ . . .      | 535,400           | 252,700               | 282,700     | 206,000   | 3,873,400  |
| TOTAL .            | 4,170,700         | 2,082,200             | 2,088,500   | ...   | ...  |

10. The stock of gold at the beginning of the year in Treasuries and Currency offices amounted to about £4,045,100 inclusive of £13,000 worth of bullion, while that at its end stood at £3,873,400, of which about £25,200 consisted of bullion. The amount of imported sovereigns received at the Currency offices during the period was about £4 millions against about £3 millions received last year, while a sum of £250,000 was remitted to the Home Treasury through the medium of special transfers sold against gold issued in India. The net issues of gold to the public from Currency offices and Treasuries in the twelve months, therefore, amounted to about £4 millions, of which about £2 millions were issued from Treasuries and about £2 millions from Currency.

11. The total net treasury issue of £2,088,500 exceeded that of the previous year by about £659,000 and was distributed among the Provinces as shown below :

| Province.                             | Net receipt. | Net issue. |
|---------------------------------------|--------------|------------|
| India . . . . .                       | .....        | 37,700     |
| Central Provinces and Berar . . . . . | .....        | 80,000     |
| Burma . . . . .                       | .....        | 332,300    |
| Eastern Bengal and Assam . . . . .    | .....        | 76,700     |
| Bengal . . . . .                      | .....        | 57,400     |
| United Provinces . . . . .            | .....        | 745,400    |
| Punjab and N.-W. F. P. . . . .        | .....        | 731,600    |
| Madras . . . . .                      | .....        | 89,100     |
| Bombay . . . . .                      | 61,700       | .....      |
| TOTAL . . . . .                       | 61,700       | 2,150,200  |
|                                       | .....        | 2,088,500  |

The above figures point to a steady growth of the public demand, especially in the United Provinces and the Punjab.

### Movement of Funds.

12. The following table gives the usual details of remittances between the different Provinces and compares the net supplies to and requirements of each Province with those of the previous year :

[In thousands of Rupees]

|   | FOREIGN REMITTANCES.               |                                      |                                      |                                      | FOREIGN SUPPLY BILLS. |          | Comparison with previous year. 13. The figures in the last column of the above table give the variations in the local receipts or disbursements as compared with the preceding year. Column 8 gives the differences in the actual receipts from, or supplies to, other Provinces and the differences between the figures in columns 8 and 11 for each Province are accounted for by the variations in balances entered in columns 9 and 10.

14. As regards the local receipts or disbursements, the net excess receipts (+) or disbursements (—) in each Province as compared with the previous year and the heads under which they occur are exhibited in detail in the table below:

[In lakhs of Rupees.]

15. It will be seen from the above table that in the net result of the Treasury transactions, India showed a worseness of 431 lakhs and Bombay a betterness of 132 lakhs as compared with the preceding year, and that all the other Provinces combined were worse by 69 lakhs. The worseness under India was chiefly due to larger net remittances to England, 748 lakhs, to meet the demands of trade, partly counter-balanced by a saving of 291 lakhs in the payment of coinage profits to the Gold Standard Reserve. This reduction in the payment of coinage profits was occasioned by the fact that while in 1905-06 the whole of the accumulated profits were paid in gold from the Reserve Treasury at Calcutta, almost the whole of the profits which accrued in 1906-07 were in consequence of the formation of a silver branch of the Gold Standard Reserve paid in silver partly at Calcutta and party at Bombay. The other important variations from last year were larger receipts from the new rupee loan of the year, 27 lakhs, smaller net issues to the Military Department, 28 lakhs, and heavier Public Works expenditure owing to a larger programme, 50 lakhs. The betterness in Bombay

was produced mainly by increased receipts of 277 lakhs from silver purchased for coinage, by a smaller demand for payment of Council Bills, 136 lakhs, and by an improvement in the net Civil Revenue, chiefly Land Revenue, of 88 lakhs, partly counterbalanced by a payment of 360 lakhs in coinage profits to the Gold Standard Reserve. As in 1905-06, Bombay took the lead in the competition for the rupee loans, though the share it was able to secure amounted to 305 lakhs out of 450 against 360 lakhs out of 400 in the previous year. The price of Bengal opium was lower in the year under report than in the previous year except in November, December and March and to a small extent in October and February. But as 3,600 chests more were sold, there was on the whole an improvement of 29 lakhs which was supplemented by 24 in consequence of less payments to cultivators. Larger expenditure on collections of Land Revenue, 7 lakhs, on salaries and expenses of Civil Departments 34 lakhs, and on Civil Works 13 lakhs, supplemented by outlay on Famine Relief amounting to 6 lakhs, account mainly for the increase of 99 lakhs in Civil expenditure in Bengal and Eastern Bengal and Assam; of the increase of 53 lakhs under Loans and Advances, 30 lakhs represent the loan granted to the Calcutta Port Trust in March 1907. The decline of 27 lakhs under Opium in the United Provinces was due wholly to larger payments to cultivators. The improvement of 23 lakhs in the Punjab and North-West Frontier Province under Land Revenue and Provincial Rates was almost neutralised by an increase of 20 lakhs in Civil expenditure, chiefly charges for Land Revenue collection and Police, but the net receipts from Public Works Ordinary were better by 17 lakhs and there were minor improvements under other heads. Madras paid 87 lakhs more in Council Bills, but had a set-off of 33 lakhs in higher Loan receipts.

16. Details of the Inter-Provincial remittances shown in the Table under paragraph 12 are given in Statement C annexed to the Report. As compared with the previous year, there was an increase in the total amount of each kind of remittance except actual movement of specie and notes. The decrease in specie remittances was due chiefly to less remittances of withdrawn coins, while that in notes was merely nominal. A portion of the increase under Bills is more apparent than real, as Telegraphic transfers for Rs. 50,000 and upwards issued by the Accountant General, Bengal, on Eastern Bengal treasuries are now treated as "Foreign Remittance" instead of "Local." There was a transfer of 35 lakhs from the India to the Bengal portion of the Government account at the Bank of Bengal in the year under report. This is composed of 3 items, *viz.*, (1) 10 lakhs transferred in April 1905 to raise the balance of the Bengal portion which had been reduced considerably below the minimum on 3rd April, (2) 18 lakhs for payment of a loan of 30 lakhs to the Calcutta Port Trust on 20th March 1907 and (3) 7 lakhs for payment of surplus profits to the Bengal-Nagpur Railway on 22nd March 1907.

17. The following are the principal variations in the remittances by means of Supply, Bills in the two years—

- (1) The larger net payments under India are due to smaller drawings on Bombay and larger drawings by Eastern Bengal and Assam.
- (2) Application for Bills on Treasuries in the Central Provinces fell off by 11 lakhs while Bills for about 3 lakhs were issued by Jubbulpore on Bombay and Calcutta.
- (3) There was an increase of over 8 lakhs in the Bills drawn by the United Provinces, chiefly on the Punjab, of which over 7 lakhs were contributed by Dehra Dun. The other improvement of 9 lakhs in those Provinces in the net transactions of the two years was due mainly to the Bank of Bengal not taking any Bills on Aligarh against 7 lakhs in the preceding year.
- (4) The Bills drawn by the Punjab Treasuries on India and Bombay Treasuries fell off by 18 and 6 lakhs respectively.
- (5) The decline in Bombay was chiefly due to smaller drawings by India and the Punjab.

18. The following statement gives in lakhs of rupees the particulars of the more important Local and Foreign Remittances including Supply Bills :

20. The following points in the Resource operations of each Province may be specially noticed.

21. In *India*, the net amount transferred from the Reserve Treasury to the Bank of Bengal was 380 lakhs more than in the previous year, the increased help being required chiefly to meet larger Council Bill payments. The surplus accumulations at Ajmer and Sambhar amounted to 212 lakhs, of which 201 lakhs were withdrawn to Calcutta through the Currency Department and 3 lakhs in gold were supplied to Indore. The Sambhar surplus consisted entirely of currency notes, and 7 lakhs in specie had to be remitted to the Treasury from Ajmer and 1 lakh from Indore. The remittances of currency notes to the Indore Treasury to meet current requirements amounted to 24 lakhs from Bombay, 1 lakh from the Punjab and 3 lakhs from the United Provinces. 59 lakhs were transferred in aid of the Treasury balances from the Currency chests at Quetta and its sub-treasuries against opposite payments at Calcutta. The Political treasury at Hyderabad was supplied with help to the extent of 26 lakhs in coin and notes from Bombay, 4 lakhs were transferred from Calcutta by Bank and Currency transfers and an exchange amounting to 4 lakhs was made with the Bank of Bengal of Hali Sica Rupees for British coin, the Bank paying the equivalent at Bombay. Nepal was able, as in previous years, to keep itself supplied with funds by drawing Supply Bills on the India Treasuries. Coorg was supplied with 6 lakhs and Nowgong with 9 lakhs from Madras and the United Provinces respectively.

22. In the *Central Provinces and Berar*, 140 lakhs were transferred from Akola and Amraoti to Bombay against 125 lakhs in the previous year. Of this 40 lakhs represented the surplus of Buldana and Yeotmal Treasuries drawn off to Akola and Amraoti by actual remittance amounting to 25 lakhs and by Supply Bills amounting to 15 lakhs. The local remittances to Jubbulpore to meet treasury requirements amounted to 19 lakhs, and 3 lakhs were in addition drawn by Bills on Bombay and Calcutta. Nagpur received remittances of 18 lakhs in specie from non-central treasuries in the Central Provinces.

23. In *Burma*, the amount of treasury surplus withdrawn to Rangoon showed a net decline of 38 lakhs chiefly in consequence of increased expenditure on account of extensions of the Burma Railways, of the Easter Holidays falling on the last three days of the year, and of larger remittances in gold to meet the demands of a growing circulation. The total amount of Supply Bills and Telegraphic transfers sold on Bassein at a premium of 2 annas per cent. was 80 lakhs, which was more than that sold in 1905-06 by 18 lakhs. The increase is attributed to a plentiful harvest and to the opening of new Mills at Bassein. Telegraphic transfers and Bills for an amount equal to that in the previous year were also sold on Henzada at a premium of 1½ annas per cent. The sale of Supply Bills at the Mandalay treasury on Rangoon was larger than in 1905-06.

24. In *Eastern Bengal and Assam*, there was a decline in the amount of local specie remittances through treasury, as surpluses were transferred to currency chests and then made available at other places through the Currency Department. An increase in Foreign Bill receipts also helped to reduce the amount of these remittances. There was practically no local remittance in notes, as all surpluses were sent to Calcutta and the requirements of deficit treasuries met by indents on the Reserve Treasury.

25. In *Bengal*, the specie remittances to the opium-paying treasuries of the Behar Agency amounted to 82 lakhs against 91 in the previous year. Of this 61 lakhs were given through currency and 21 lakhs were sent direct. The total expenditure of the Agency was 24 lakhs less than in the previous year, but the amount of specie remittances was only 9 lakhs less, as receipts from Supply Bills were smaller and there were larger issues to meet Postal demands. Remittances to deficit treasuries and from Calcutta to District Treasuries were about the same as in the previous year.

26. In the *United Provinces*, the treasury remittances of whole rupees were less than in the previous year by 18 lakhs, but the Currency coin remittances, local and foreign, rose from 490 lakhs to 520 lakhs. There was also a decline of 22 lakhs in the local remittances of sovereigns, as they were sent as currency remittances to the local chests and then transferred to treasuries according to local requirements. Foreign Circle Notes were transferred regularly every month to the local chests and subsequently remitted as soon as convenient to the head-quarters currency for final disposal. The former practice was to send them first to the Remittance Treasury through the Allahabad Treasury. The best means of disposing of accumulations of Foreign Circle Notes in treasuries is under consideration.

27. In the *Punjab*, the net amount of aid granted from Calcutta and Bombay amounted to 210 lakhs against 251 in the previous year. There was a decrease of 35 lakhs in the local remittances of coin, but note remittances were higher by 50 lakhs.

28. In *Madras*, there was as compared with last year an increase of 87 lakhs in the amount of the London drawings, but this increase was met to a large extent by increased supplies received net from District Treasuries, 74 lakhs. The net outgoings from the head office of the Bank of Madras also rose by 29 lakhs, chiefly in consequence of larger issues to the Postal Department and the Madras Railway. The net transfers from Calcutta through Currency were less than in the previous year by 119 lakhs, but there was a decrease of 110 lakhs in the net payments of Bank transfers.

29. In *Bombay*, the amount remitted from the Reserve Treasury to the Presidency Bank was less than that remitted in 1905-06 by 15 lakhs. The supplies from Bombay to district treasuries were also less by 63 lakhs. This reduction was due principally to a smaller supply of funds being required for the Ahmedabad and Sind treasuries. The district surplus withdrawn to head-quarters, was more than in the previous year by about 89 lakhs.

30. The table below gives the details of the important movements of specie in the Currency Department to supply the coin requirements of the various Provinces:

[In lakhs of Rupees.]

|  | Gold. | Silver. |

| From Mymensingh to Lucknow . . . . .           | ...   | 16      |

31. The gold remittances were sent to supply local demands. The silver remittances were connected with the usual seasonal demands of coin in the different Provinces. 125 lakhs were supplied to the United Provinces in April and May for opium payments and further remittances amounting to 152 lakhs were sent in March to meet similar requirements in the opening months of 1907-08. The Punjab was supplied with 215 and 50 lakhs respectively for issues in connection with the wheat trade and the spring harvest. The demand in the Madras Presidency in connection with the trade in cereals and groundnut necessitated a total supply of 165 lakhs. The total remittances to Calcutta in the Jute season amounted to 582 lakhs and 50 lakhs were in addition brought down in the closing months of the year to strengthen the reserve. To finance the rice trade, Rangoon was supplied with 175 lakhs during the last four months of the year. Karachi had to be supplied from time to time with over 100 lakhs to meet the demands of the export trade from that port.

#### Small Silver, Copper and Bronze.

32. Statement D annexed to this Report shows the absorption of these coins in the different Provinces during the twelve months under review and in the two preceding years. Taking India as a whole, there was an increase of over 10 lakhs in the absorption of quarter rupees and of over 9 lakhs in that of eighth rupees, as compared with the previous year. The absorption of single pice also increased by over 2 lakhs. This large increase in the net issues to the public was met partly by increased coinage and partly by reduction of balance. Bronze coin instead of copper was issued with effect from July and copper coinage was altogether stopped from 1st August 1906. The coinage of double pice, which has been in abeyance since 1878-79, has been stopped by the new Coinage Act. The special features of each Province as compared with the previous year are noted below.

33. In India, there was an increase of about 1½ lakhs in the absorption of eighth rupees, which is attributed to shorter receipts from the Railway earnings at Ajmer. Single pice, on the other hand, showed a return from circulation, owing partly to the cessation of the employment of famine labour in Rajputana. The very large decrease of about 3½ lakhs in the absorption of single pice in the *Central Provinces and Berar* is ascribed partly to shortage of supply in time of demand. *Burma* shows increases of about ½ a lakh each in the net issues of quarter rupees and single pice. Taking *Eastern Bengal and Assam* and *Bengal* together, there was an increase of about a lakh in the absorption of quarter rupees with a decline of about ½ a lakh in that of eighth rupees. The demand for single pice however shows the very large increase of 4½ lakhs, of which over 2½ lakhs were due to supplies to Darbhanga alone for famine relief expenditure. The increase in the absorption of quarter and eighth rupees in the *United Provinces* was due mainly to large issues to the Opium Department. Previously half-rupees but not small silver were almost exclusively issued in opium payments, but now quarter and eighth rupees also are largely issued. The comparatively smaller absorption of quarter rupees in the *Punjab* in 1905-06 was somewhat exceptional. There were increases of about 1½ lakhs and ½ a lakh respectively in the absorption of eighth rupees and single pice. In *Madras*, the

*Bombay* of small silver, single and double pice is chiefly attributed to the heavy demand for small coin at the Presidency Town in connection with the various works of construction, public and private, *e.g.*, the Alexandra Docks, the Electric Tramways and the Bombay Improvement Trust Works.

#### Shroff-marked and Other Coins.

34. The following statement shows the withdrawal of these coins and their remittance to the Mints for recoinage during the period under review, as compared with the previous four years :

35. The withdrawal of 1840 rupees shows a further drop of over half a crore as compared with the previous year, in consequence no doubt of the amount of these coins in circulation having been reduced by the withdrawals in the previous years. The total withdrawal of these coins to end of March 1907 amounted to about 22,23 lakhs and that of 1835 coins to about 297 lakhs. The receipts of shroff-marked coins continue to be insignificant; but there was a large increase of over 15 lakhs in the amount of defective and light-weight coins withdrawn from circulation. The United Provinces contribute the major portion of this increase.

**Statement showing the estimated Minimum Cash Balances in the District Treasuries of each Province (excluding Head Offices of Presidency Banks and Reserve Treasuries) at the beginning of each month of the years 1899-00 to 1907-08.**

H. A. STUART,  
Offg. Secretary to the Government of India.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 h. on Thursday, the 22nd August 1907, based on the Indian Daily Weather Reports of the period.**

The depression noted in last week's summary advanced from Sambalpur in a north-westerly direction into Rajputana and finally coalesced on the 19th with the usual area of low pressure in northwest India. It caused very heavy rain in northeast Gujarat and south Rajputana, moderately heavy rain in Central India and the northern half of the Central Provinces, and light to moderate rain in the rest of the Central Provinces, of Gujarat and of Rajputana, in the United Provinces, and in the north and east Punjab. A second depression appeared over southwest Bengal on the 18th and developing rapidly was of moderate intensity by the following morning. It then moved slowly in a general west-northwesterly direction and diminished in intensity, and had filled up in the southeast of the United Provinces by the morning of the 22nd. This depression gave heavy rain in Orissa, moderately heavy rain in Chota Nagpur, and light rain in Central India east and the Central Provinces. The Bay current has been weak throughout the whole period, and the Gangetic plain and the greater part of northeast India which were on the northern and eastern sides of the depressions received very little rain from this source; in fact the rainfall in the Gangetic plain occurred when the position of the depressions enabled the Arabian Sea monsoon to penetrate into this area. At the close of the week the Bay current was extremely feeble and the Arabian Sea current considerably below its normal strength.

*Burma.*—Rainfall was general over the whole province on the 17th, 19th and 20th on the remaining days it was general on the coast and local in the interior. Skies were moderately to heavily clouded and temperature was nearly normal.

*Northeast India, including Orissa.*—Abundant rainfall occurred in southwest Bengal, Orissa, Chota Nagpur and south Bihar, being heavy in Orissa on the 20th, but in the rest of the division rainfall was light. Cloud was light to moderate in the northern districts and moderate to heavy in the southern. Temperature was normal except in Orissa on the 20th and 21st, when weather was considerably cooler than usual.

*The United Provinces, Central India and the Central Provinces.*—On the 19th and 20th very little rain was reported from Central India and the Central Provinces but on the other days of the week it was nearly general in those areas. It was local in the United Provinces, except on the 22nd when weather was almost dry. Skies were heavily overcast in the Central Provinces and Central India except on the 18th to 19th; in the United Provinces cloud was only light to moderate. Temperature was low in the south of the Central Provinces on the 16th and 21st but temperature conditions were normal in other parts of the division throughout the week.

*Northwest India.*—Rain occurred in all parts of the division except in the extreme southwest of the Punjab and the adjoining districts of the Frontier Province, and it was very heavy in north Gujarat and south Rajputana, the total fall for the week amounting to 30·81 inches at Deesa and 36·65 inches at Mount Abu. Skies were thickly clouded in the east Punjab, Rajputana, Gujarat and lower Sind and were clear or only lightly clouded elsewhere. Temperature was practically normal in Sind but weather was on the whole cooler than usual in the rest of northwest India.

*The Peninsula.*—During the greater part of the week rainfall was restricted chiefly to the west coast districts: it was local from the 16th to the 18th in the Bombay Deccan and Hyderabad. Skies were almost completely overcast on the west coast and lightly to moderately clouded elsewhere. Temperature was normal except on the 16th when weather was cooler than usual over the greater part of the division.

The rainfall of the week was, generally speaking, above normal in the areas served by the Arabian Sea current, except in the Peninsula, and below normal in the field of the Bay current. The rainfall of the whole period from the 3rd May to the 22nd August is still 20 per cent. or more in defect in the Indo-Gangetic plain (West), the Himalayas and Sub-Himalayas (West), the East Coast (South) and the subdivisions of Burdwan, Darbhanga, Bahraich and Bellary; it is 20 per cent. or more in excess in the subdivisions of Indore, Rajkot, Bijapur and Hyderabad and differs from the normal by less than 20 per cent. elsewhere.

The following summarises the chief rainfall amounts of the week, as reported at 8 h. each day :

- August 16th. Tavoy 4'40", Moulmein 3'89", Saugor Island 2'23", Cuttack 2'13", Jhansi 1'83", Nowgong 2'09", Jubbulpore 3'05", Ambala 3'25", Montgomery 2'81 and Kotah 2'11".
- „ 17th. Akyab 6'12", Jhansi 1'81", Udaipur 2'05", Deesa 5'42", Ahmedabad 5'00" and Mangalore 3'53".
- „ 18th. Saugor Island 5'47", Gaya 1'96", Benares 2'87", Ludhiana 6'03", Ajmer 2'75", Mount Abu 4'32", Deesa 6'07" and Ahmedabad 3'81".
- „ 19th. Moulmein 4'33", Mandalay 0'99", Ranchi 3'48", Ambala 2'25", Sialkot 2'42", Mount Abu 8'80" and Deesa 4'47".
- „ 20th. Gauhati 2'23", Cuttack 8'33", Sambalpur 5'74", Bahraich 1'96", Roorkee 2'15", Mount Abu 16'53" and Deesa 2'65".
- „ 21st. Moulmein 5'31", Minbu 1'41", Allahabad 1'74", Dehra Dun 1'94", Mount Abu 3'99" and Deesa 12'05".
- „ 22nd. Tavoy 4'80", Moulmein 5'97", Myitkyina 2'25" and Neemuch 2'12".

J. PATTERSON,

for Director-General of Observatories,

J. WILSON,

Secretary to the Government of India.

SIMLA;

The 22nd August 1907.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

## Season and Crop Prospects for the week ending Saturday, 17th August 1907.

**Burma.**—In Lower Burma transplanting is in general progress and prospects continue favourable. The rainfall was general in Upper Burma during the week; of the precarious districts Minbu received  $1\frac{1}{2}$  inches; Magwe and Shwebo  $1\frac{1}{4}$  inches; Thayetmyo 1 inch; Mandalay, Sagaing, Lower Chindwin and Yamethin  $\frac{1}{4}$ th of an inch; Pakokku and Myingyan half an inch and Kyaukse and Meiktila received less than  $\frac{1}{4}$  inch. Crops in the Pauk and Seikpyu townships of Pakokku are withering. Cultivation for wet-weather paddy is delayed by want of rain in the unirrigated tracts and in the minor irrigated tracts of Mandalay. More rain is wanted in the north of Shwebo. The standing crops in Sagaing are now reported to be fairly good. Recent showers in Lower Chindwin have done some good but paddy nurseries in the Monywa township are still withering. Cotton in Meiktila is thriving, but rain is still wanted in parts of the district to ensure the success of the wet-weather paddy. More rain is still required in Myingyan and Yamethin. Last week's report that the wet-weather paddy in the Thabeitkyin township of the Ruby Mines District had failed, was wrong; that crop is flourishing but there has been a slight failure of hill side paddy. Prospects generally are slightly improved owing to the recent rain. The price of paddy has decreased considerably in Prome, Pegu, Pyapon and Minon and slightly in Tharrawaddy; it has increased considerably in Katha; elsewhere it is stationary.

**Eastern Bengal and Assam.**—The weather is hot and cloudy. There was slight to moderate rain in all districts. More rain is wanted in Mymensingh, the Chittagong Hill Tracts, Rajshahi, Dinajpur, Rangpur, Bogra, Cachar, Sylhet, the Khasi and Jaintia Hills, Goalpara, Kamrup, Nowgong and in parts of Sibsagar. Plucking and manufacture of tea are in progress; prospects are poor in Cachar owing to prevalence of mosquito blight, they are fair to good elsewhere. Ploughing for and transplantation of winter rice and harvesting of early rice and jute are in progress. Prospects of standing crops are generally good, but late rice is being damaged by insects in parts of Sibsagar and Lakhimpur. Gathering of potatoes in the Khasi Hills is still in progress and the outturn is good. Prices of common rice are:—Manipur  $14\frac{1}{4}$ ; Kohima  $9\frac{1}{4}$ ; Chittagong and Noakhali 9; Comilla  $8\frac{1}{4}$ ; Dacca  $8\frac{1}{4}$ ; Silchar  $8\frac{3}{4}$ ; Faridpur, Bogra and Pabna  $8\frac{1}{4}$ ; Mymensingh, Barisal, Rangumati, Malda, Sylhet, Dhubri and Gauhati 8; Dibrugarh  $7\frac{1}{4}$ ; Dinajpur  $7\frac{3}{8}$ ; Jalpaiguri, Rangpur, Tezpur, Nowgong, Sibsagar and Tura 7; Rampur Boalia  $6\frac{1}{2}$ ; and Shillong  $6\frac{1}{2}$  seers per rupee. Prices have risen in four; have fallen in six; and have remained stationary in the remaining districts.

**Bengal.**—General rain fell over the Province during the week; the fall was heavy in Midnapur, Cuttack, Angul, Sambalpur and Ranchi; moderate in Howrah, the 24 Parganas, Gaya, Balasore, Hazaribagh, Manbhum and Cooch Behar; but light in other districts. Transplantation of paddy is still going on, but rain is urgently needed in many districts for this operation. Harvesting of jute is in progress. The condition of standing crops is on the whole satisfactory. Some damage by floods is reported from Midnapore and Bhagalpur. In Darbhanga the number of persons gratuitously relieved in the undeclared area is 224; and in the famine area 7,013; the number of persons on relief works is 2,393. The fodder and water-supply are generally sufficient. The price of common rice has risen in one and has fallen in eleven districts.

**United Provinces.**—Rain has fallen in all districts, but more is required, especially for rice, in Bijnor, Moradabad, Hardoi, Pilibhit, Bahraich, Bara Banki, Gonda, Basti, Gorakhpur and Ballia. Operations are being retarded by excessive rain in Aligarh, Agra and Jhansi. Sowings are nearing completion and weeding is going on. Transplantation of late rice is in progress and fields are being prepared for spring crops. Some damage has been done to crops by locusts in parts of Dehra Dun and by rats in one pargana of Saharanpore. Fodder is scarce and dear in Hardoi, Kheri, Bara Banki, Unao and Rae Bareilly. Markets are well stocked and prices are stationary.

**Punjab.**—The rainfall was good to moderate. Rain has fallen all over the Province. Prices of food-grains are generally rising in Hissar, Jullundur, Sialkot, Lyallpur and Multan; and are falling in Rawalpindi. Sowings of autumn crops continue. Ploughings for spring crops are in progress in Delhi, Lahore, Shahpur and Multan. Owing to rain very little weeding has been done in Jullundur. Standing crops are good to average, but more rain is wanted in parts of Shahpur. Locusts appeared in Hissar, Amritsar and Multan causing slight damage to indigo crops in the last named district. Rats are damaging crops in parts of Ambala, Lahore and Amritsar. Crops have been damaged by river inundation in parts of Mianwali. The condition of cattle is generally good. Fodder is sufficient except in parts of Mianwali. There are no complaints regarding the water-supply.

**North-West Frontier Province.**—Abundant rain has fallen throughout the Province, ranging from 1 inch in Peshawar to 3 inches in parts of Hazara and Bannu. The standing crops are in good condition owing to irrigation by the Government canal in Peshawar. Owing to certain bunds being washed away by heavy rain, heavy floods have occurred in the Kurram and Gambila rivers in the Bannu district and extensive irrigation from hill torrents and the Paharpur canal in the Dera Ismail Khan district. The water-supply and fodder are sufficient. Cattle are in good condition. Owing to improved prospects prices of wheat and *bajra* are falling slightly. Prices—wheat  $15\frac{3}{8}$  to  $21\frac{1}{4}$ ; maize  $21\frac{7}{8}$  to  $32\frac{1}{2}$ ; gram  $15\frac{1}{8}$  to 23; and *bajra*  $19\frac{1}{4}$  to  $24\frac{1}{2}$  seers per rupee.

**Jammu.**—There was good rain during the week. Prices are fluctuating. Prices—wheat 12 to 20 and maize 18 to 33 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. Land is being prepared for autumn cultivation.

**Kashmir.**—The weather is bright. Prices are almost stationary. The standing crops are in good condition.

**Rajputana.**—The rainfall was general throughout Rajputana; the chief falls were:—2 inches 47 cents in Bikaner; 3 inches 1 cent in Marwar; 1 inch 59 cents in Jaisalmer; 2 inches 24 cents in Mewar; 84 cents in Dungarpur; 5 inches 20 cents in Partabgarh; 6 inches 69 cents in Bundi; 6 inches 96 cents in Tonk; 10 inches 26 cents in Shahpura; 5 inches 80 cents at Kotah; 12 inches 23 cents at Jhalrapatan city; 2 inches 12 cents at Jaipur; 2 inches 18 cents at Kishangarh; 3 inches 35 cents in Alwar; 3 inches 79 cents in Karauli; 2 inches 8 cents at Bharatpur; 3 inches 87 cents in Dholpur; 3 inches 28 cents in Ajmer; and 3 inches 31 cents in Merwara. Crops have been damaged by heavy rain in Marwar, at places in Mewar and Kishangarh, and in Kekri and Kerot in the Ajmer district. In the Ajmer district a break of about two weeks in the rains is urgently needed in some parts to save the autumn crops. Sowing and weeding operations continue except in Bundi, Tonk, Shahpura, Karauli and places in Bharatpur where they are retarded owing to continuous rainfall. Cattle are generally in good condition. Fodder is sufficient. Prices are practically steady throughout.

**Central India.**—There was general rain during the week. Sowings are completed in Indore, Bhopal and Malwa and are continued in Bhopawar; elsewhere weeding is in progress. Agricultural stock and pasturage are fair to good. Prices are high in Bhopal and Baghelkhand; and are steady elsewhere. Crops have been damaged by incessant rainfall in Bhopawar and also by rats in parts of Malwa.

**Central Provinces.**—Light to moderately heavy rain again fell during the week; the principal falls (in inches) were:—Mandla 8; Saugor  $7\frac{3}{4}$ ; Bilaspur  $6\frac{1}{2}$ ; Jubbulpore  $5\frac{1}{2}$ ; Bhandara  $5\frac{1}{4}$ ; Betul and Chanda each 5; and Yeotmal  $4\frac{1}{2}$  inches; elsewhere the rainfall ranged from 4 inches in Wardha to  $1\frac{1}{4}$  inches in Amraoti. A break in the rains is urgently required in the Vindhyan districts and in the Nagpur country and Berar and in the districts of Mandla, Narsinghpur, Hoshangabad and Betul to avert damage to crops and to enable weeding to be carried on. Sowings of *til*, *kutki* and *juar* continue in Saugor, Narsinghpur and Yeotmal. Weeding is in progress in Mandla, Nimar, Betul and Chhindwara. Transplanting and thinning of rice are in full swing. Continuous rain has slightly injured the cotton, *juar*, *tur* and *kodon* crops in some places in Hoshangabad, Nimar, Chanda, Bhandara, Wardha, Drug and in the districts of Berar; and has done considerable damage to cotton, *tur* and *juar* in Nagpur. Fodder and water are sufficient. The standing crops elsewhere are in flourishing condition and prospects so far are generally favourable. Prices—wheat remained stationary in thirteen districts; gram in seventeen; rice in fifteen; and *juar* in eighteen districts: *juar* become dearer by 2 seers in Amraoti; there are slight fluctuations elsewhere. Prices still continue equal to or above the scarcity level in Bhandara, Wardha, Chanda, Balaghat, Seoni, Mandla, Bilaspur, Drug, Buldana and Yeotmal.

**Native States.**—The rainfall measured (in inches) was:—Raigarh 9, Raj-Nandgaon 8, Sakti  $7\frac{1}{4}$ ; Udaipur, Sarangarh and Kanker each  $6\frac{3}{4}$ ; Chhuikhadan and Jashpur each 5; and Kawardha  $2\frac{1}{4}$ . Sowing of rice, *til* and *kutki* still continues in Kawardha, Chhuikhadan, Kanker, Jashpur and Korea. More rain is needed in Korea. Weeding, transplantation and thinning of rice are in progress and germination is reported to be good everywhere. Prospects are generally favourable. Fodder and water are adequate. There are no marked fluctuations in prices.

**Bombay.**—Heavy rain fell during the week in parts of Gujarat, Khandesh, Nasik, Poona, Satara, Palanpur, Cutch, Mahi Kantha and Baroda where a break is urgently needed; and good rain in other districts, except in parts of the Karnatak where more rain is needed. Inundation in Sind is still low but the river is rising and good rain throughout has greatly improved prospects. Autumn sowings have been retarded in parts of Gujarat, West Khandesh, Satara, Belgaum, Baroda and Cutch owing to excessive rain; they continue elsewhere. Transplantation is progressing in parts of Sind, Gujarat, the Konkan, Nasik, Poona and Rewa Kantha. Seedlings have been damaged by excessive rain in parts of Gujarat, Thana, Kanara, East Khandesh, Poona, Satara, Belgaum, Palanpur, Mahi Kantha and Cutch; by crabs in parts of Karachi; by locusts in parts of Hyderabad; and by insects

in parts of the Upper Sind Frontier and Baroda. The fodder-supply is generally adequate. Agricultural stock is in good condition. Drinking water is sufficient. The supply of water for irrigation is sufficient except in parts of Nasik and Bijapur. The quantity of food-grains purchasable per rupee is in the Karnatak 22 to 35 per cent; in the Deccan 2 to 25 per cent; and elsewhere 12 to 36 per cent less than the normal. During the week ending the 10th August 27 persons were relieved gratuitously in Belgaum.

**Hyderabad.**—The rainfall during the week was 4 inches 4 cents. The heavy rainfall has been injurious to the standing autumn crops in parts of nine talukas. Prospects continue generally good. Autumn and early rice are being weeded in parts and early rice sowings continue. Lands are being prepared for spring cultivation. Prices:—wheat 7½; coarse rice 7½; and *juar* 16 seers per rupee.

**Mysore.**—There was good rain in Hassan, Kadur and Shimoga, and slight rain elsewhere. Prices of food-grains are generally steady. The standing crops are in good condition but more rain is needed in parts of Kolar, Mysore and Chitaldroog. The prospects of the season are good. Cattle are healthy. Water and fodder are available.

**Coorg.**—Rainfall 10 inches 2 cents. Transplanting of rice continues. Prices of food-grains are normal. The public health is fair. Water and fodder are sufficient.

**Madras.**—The rainfall was very heavy in South Canara, Malabar, the Vizagapatam Agency and the Nilgiris; heavy in Kistna; good in Ganjam, Godavari, Guntur, Vizagapatam littoral, Kurnool, Bellary and Madras; *nil* in South Arcot, Trichinopoly and Madura; and light to fair elsewhere. Irrigation supplies are sufficient, except in parts of Ganjam, Vizagapatam, the Deccan, the Carnatic, North Arcot, Salem, Madura and Tinnevely. Ploughing, sowing, weeding and transplanting are in progress. The standing crops are generally fair but some in parts of Guntur, Bellary, Cuddapah, Coimbatore, Madura and Tinnevely require more rain; and some in parts of Godavari, Kistna and Malabar have been damaged by heavy rain. Harvests are proceeding except in Godavari, Kistna, Guntur, Kurnool, Bellary, Tanjore, Tinnevely, Malabar and South Kanara with outturn poor to normal. Pasture is sufficient except in parts of Bellary, Nellore, Madura and Tinnevely. Fodder is procurable. The condition of cattle is generally good. The price of rice is stationary in sixteen districts; has fallen in three; and has slightly risen in four. The prices of millets have fluctuated as follows:—*Ragi* is stationary in twelve districts; has fallen in seven; and has slightly risen in two. *Cholam* is stationary in five districts; has fallen in five; and has slightly risen in four. *Cumbu* is stationary in seven districts; has fallen in three; and has slightly risen in five.

The number of persons in receipt of relief during the preceding and present weeks in each province is shown in the following table:

| Name of province.                  | PRECEDING WEEK. (REVISED FIGURES.) |                    |               | PRESENT WEEK. |                    |              | Increase or decrease. |

# The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, AUGUST 24, 1907.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

## PART II.

Notifications by High Court, Comptroller General, etc.

### GAZETTE OF INDIA.

#### NOTICE.

The 26th March 1907.

From the 6th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 30th March all notifications and other matter intended for publication in the *Gazette* should be addressed to the Officiating Publisher, at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India.

#### Rates of subscription.

|  | Per annum. |

No. 397 of 1907.—Albert Lincoln Johnson, civil engineer, a citizen of the United States and a resident of the city of St. Louis and state of Missouri. *Improvement in corrugated bars.*

No. 398 of 1907.—Harry James Allen, telegraphist, Indian Telegraph Department, 74 Dalhousie street, Rangoon, Burma. *Interlocking blocks.*

No. 399 of 1907.—Gilbert William Sutton, civil engineer, of Crofton Cottage, in the county of Hertfordshire, England. *Means of constructing floors or racks for fermenting rolled tea leaf on.*

No. 400 of 1907.—"Z" Electric Lamp Syndicate, Limited, of 20 St. Helens Place, London, E. C., England. *Improvements relating to the manufacture of filaments for electric incandescent lamps.*

No. 401 of 1907.—"Z" Electric Lamp Syndicate, Limited, of 20 St. Helens Place, London, E. C., England. *Improvements in the manufacture of filaments for incandescence electric lamps.*

No. 402 of 1907.—Francis Lawrence Lane and The Leeds Forge Company, Limited, engineers, of The Leeds Forge, Leeds, in the county of York, England. *Improvements in bogies for railway carriages and other vehicles.*

No. 403 of 1907.—George James Gibbs, engineer, of Brownedge, Bamber Bridge near Preston, in the county of Lancaster, in the kingdom of England. *Improvements in apparatus for indicating mean solar time.*

No. 404 of 1907.—Arno Shuman, mechanical engineer, of the Hotel Marietta, Connelville, Fayette county, state of Pennsylvania, United States of America. *Machines for crimping meshed wire.*

No. 405 of 1907.—Dinshah Pestonji Ffarnji Ghadiali, medical electrician, electrical and mechanical engineer, etc., of the city of Surat. *Preventing accidents to life and property, caused by the falling of aerial wires carrying electrical currents of high tension.*

No. 3135 P.—AN application for leave to file an amended specification in respect of the undermentioned invention has been filed, under the provision of the Inventions and

Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 19th August 1907.

No. 250 of 1906.—Frank Osborne Maxwell, Superintendent of The Salvation Army Loom Department, 181 and 181a Hornby road, Bombay. *A new direct action automatic hand loom.*

No. 3136 P.—THE undermentioned design has been registered, under the provisions of the Inventions and Designs Act, 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma. This and other designs are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office, 2 Bankshall street, Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

No. 19-D. of 1907.—Jesse Alexander, manufacturer, of 879 Glenmore Avenue in the Borough of Brooklyn, county of Kings, city of New York, state of New York, United States of America. *A typewriter machine frame.*

No. 3137 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office, 2 Bankshall street, Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

No. 455 of 1906.—The Merrell-Soule Company, a corporation of New York, of Syracuse, New York, United States of America. *Process and apparatus for recovering solids of liquids.* (Specification filed 3 August 1907.)

No. 458 of 1906.—J. H. Rivett & Sons, carriage builders, cabinet makers, upholsterers and timber merchants, of Simla and Ambala, British India. *Improvements in carts and the like.* (Specification filed 17 April 1907.)

No. 599 of 1906.—The Hibberd Prepayment Machine Syndicate, Limited, a Company duly incorporated in the Company's Act, 1882, in New Zealand, and its amendments and having its registered office at Mercantile Chambers, Queen street, Auckland, in the Provincial District of Auckland, in the Colony of New Zealand. *An improved coin-freed machine.* (Specification filed 9 August 1907.)

No. 605 of 1906.—Harry Wilson Elliott, mechanical engineer, of Prescott, Territory of Arizona, United States of America. *Improvements in lubricating systems.* (Specification filed 9 August 1907.)

No. 7 of 1907.—John Hines, sanitary engineer, of 20 Victoria street, Westminster, London, S. W., England, and Thomas Coleman, engineer, of Alfreton road, Derby, in the county of Derby, England. *Improvements in or relating to apparatus for distributing liquids on roads.* (Specification filed 10 August 1907.)

No. 8 of 1907.—Norman Faichnie, Major, specialist sanitary officer of the Northern Command, of Norval Cottage, Fulford, York, in the county of York, England. *Improvements in and relating to water bottles for use in the army, or the like.* (Specification filed 9 August 1907.)

No. 9 of 1907.—Frank Bailey, chief engineer, and Frederick Henry Jackson, assistant engineer, to the city of London, Electric Lighting Company, Limited, of 64 Bankside, in the county of London, England. *Improvements in clutching devices adapted for use in communicating rotary motion and in controlling the transmission thereof.* (Specification filed 9 August 1907.)

No. 18 of 1907.—Henry Braby, engineer, of 96 Harris street, Sydney, in the state of New South Wales, commonwealth of Australia. *Improvements in and relating to atomisers or burners for liquid fuel.* (Specification filed 9 August 1907.)

No. 30 of 1907.—Harry Schofield, engineer, and Oliver Prescott Macfarlane, accountant, both of 118 Leadenhall street, E.C., in the city and county of London. *Improvements in apparatus for promoting circulation in steam boilers having cross tubes.* (Specification filed 9 August 1907.)

- No. 32 of 1907.—William Lindsay, mill manager, of 5 Baxter Park Terrace, Saunders MacKenzie, preparing overseer, of 32 Carmichael street, and John Arthur, foreman mechanic, of 3 Gibson Terrace, all of Dundee, in the county of Forfar, Scotland. *Improvements in bobbin drivers for roving frames.* (Specification filed 9 August 1907.)
- No. 33 of 1907.—Albert Edward Hodgson, a director of the "Relyante" Motor Works, Limited, manufacturers, of Blackhorse road, Walthamstow, in the county of Essex, England. *Improvements in seats and bodies of motor cars and other carriages.* (Specification filed 10 August 1907.)
- No. 34 of 1907.—Moses Lazar Krimer, merchant, of 2 Springdale road, Stoke Newington, London, England. *A depilatory or hair removing preparation.* (Specification filed 9 August 1907.)
- No. 41 of 1907.—James Blair, manager, Surma Valley Saw Mills, Limited, of Bhanga Bazar, South Sylhet, in the province of Eastern Bengal and Assam, India. *Improvements in tea chests.* (Specification filed 8 August 1907.)
- No. 294 of 1907.—Frederick George Richards, foreman carriage finisher, of 139 Clifton street, Swindon, Wilts, England. *Improvements in or relating to ventilators for railway and tramway vehicles.* (Specification filed 12 August 1907.)
- No. 314 of 1907.—Frank Swales, gentleman, of Palewell Lodge, East Sheen, in the county of Surrey, England. *Improvements in or relating to bits.* (Specification filed 9 August 1907.)
- No. 318 of 1907.—Motilal Chhotalal Mehta, weaving master, and The Sayajee Loom Works Limited, manufacturers, both of Baroda, India. *Improvements in take-up motions for looms.* (Specification filed 10 August 1907.)
- No. 320 of 1907.—Haus Carl Albrecht, gentleman, of Chaussee Strasse 24a, Berlin, Empire of Germany. *Improvements in the method of producing incandescent mantles.* (Specification filed 12 August 1907.)
- No. 327 of 1907.—Edvard Ludvigsen, manufacturer, of No. 27 Ryesgade, Copenhagen, Denmark. *Improvements in and connected with tills.* (Specification filed 9 August 1907.)
- No. 155 of 1907.—Charles Heyland Fox, engineer, of Alderman's house, Bishopsgate, in the city of London, England. *Improvements relating to railway wagons and like vehicles.* (Specification filed 14th August 1907.)
- No. 278 of 1907.—John Bunyan Wright, mechanic, and Frans Oscar Lawson, accountant, both of Arcade Benbow, Greensboro, in the county of Gilford, state of North Carolina, United States of America. *Improvements in mechanism for automatically operating air brakes.* (Specification filed 15 August 1907.)
- No. 312 of 1907.—Thomas Oswald Mein, engineer, of 6 Wallwood road, Leytonstone, in the county of Essex, England. *Improvements in mechanism for controlling the action of railway wagon and other fall down doors and flaps.* (Specification filed 14 August 1907.)
- No. 315 of 1907.—William James Gell, Managing Director of Wright, Bindley and Gell, Limited, manufacturers, of Armstrong Works, Chester street, Aston road, Birmingham, in the county of Warwick, England, and Joseph Frederick Boham, Manager of Works at Wright, Bindley and Gell, Limited, aforesaid. *Improvements in closing umbrellas and parasols.* (Specification filed 14 August 1907.)
- No. 332 of 1907.—William Charles Stephens, engineer, of Endsleigh, Camborne, and "Climax" Rock Drill Works, Carn Brea, both in Cornwall, England. *Improvements in adjustable guides or slides for rock drills and other tools or machines.* (Specification filed 15 August 1907.)

No. 3138 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 377 of 1895.—Herbert Arnaud Taylor. *Improvements in telegraph transmitters.* (From 13 August 1907 to 13 August 1908.)

No. 168 of 1896.—Economical Refrigerating Company. *Improvement in refrigerating apparatus.* (From 15 August 1907 to 15 August 1908.)

- No. 5 of 1900.—Henry James Kimman. *Improvements in and relating to pneumatic drills and the like.* (From 13 August 1907 to 13 August 1908.)
- No. 335 of 1901.—The Talbot Continuous Steel Process, Limited. *Improvements in the art of manufacturing iron and steel.* (From 22 November 1907 to 22 November 1908.)
- No. 357 of 1901.—Robert Buchanan. *Improvements in and connected with flour-milling and apparatus therefor.* (From 12 August 1907 to 12 August 1908.)
- No. 419 of 1901.—Christopher Rawson. *Improvements in the oxidising process of indigo manufacture.* (From 12 August 1907 to 12 August 1908.)
- No. 214 of 1902.—Thermal Storage Limited. *Thermal storage apparatus in connection with steam boilers.* (From 13 August 1907 to 13 August 1908.)
- No. 456 of 1902.—Frederic Fowler Farlow. *An improved automatic wash away signalling apparatus for railway bridges, culverts, and blocked tunnels.* (From 25 August 1907 to 25 August 1908.)
- No. 520 of 1902.—Charles Hodgson. *Improvements in apparatus for working and locking railway points.* (From 25 September 1907 to 25 September 1908.)
- No. 102 of 1903.—George Harry Hayes. *Improvements in pneumatic drills and like machines.* (From 17 August 1907 to 17 August 1908.)
- No. 178 of 1904.—Chaimsonovitz Prosper Elieson. *Electric accumulator plate.* (From 22 November 1908 to 22 November 1909.)

No. 3139 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorizing others so to do, has ceased:—

- No. 270 of 1902.—George Lewis Gowlland. *Improvements in current meters.* (Specification filed 12 May 1903.)
- No. 289 of 1902.—Suraj Narayan Verma. *A graduated water level.* (Specification filed 14 May 1903.)
- No. 384 of 1902.—Russell Hugh Worthington Biggs. *An improved method of and apparatus for, driving the cutter in machine sheep shears and other like machines.* (Specification filed 14 May 1903.)
- No. 385 of 1902.—William Henry Perkin, junior and Whipp Brothers and Tod, Limited. *Improvements in the treatment of raw cotton and cotton goods to reduce the inflammability thereof.* (Specification filed 14 May 1903.)
- No. 386 of 1902.—William Henry Perkin, junior and Whipp Brothers and Tod, Limited. *Improvements in the treatment of raw cotton and flax, and cotton and linen goods, to reduce the inflammability thereof.* (Specification filed 14 May 1903.)
- No. 410 of 1902.—George Westinghouse. *Improvements relating to the linings of vessels for metallurgical work.* (Specification filed 12 May 1903.)
- No. 412 of 1902.—John Cowan. *Improvements relating to water tube boilers.* (Specification filed 12 May 1903.)
- No. 415 of 1902.—The American Tobacco Company. *Improvements in sealed cans and means for opening the same.* (Specification filed 12 May 1903.)
- No. 486 of 1902.—Murray Corrington. *Improvements in variable speed safety valves.* (Specification filed 11 May 1903.)
- No. 515 of 1902.—William Daniel McSwiney. *An adaptable girth.* (Specification filed 11 May 1903.)
- No. 516 of 1902.—Harry Howlett Young. *Improvements in obtaining oscillatory or reciprocatory motion.* (Specification filed 11 May 1903.)
- No. 519 of 1902.—James Harris. *Improved construction of door and like bolt.* (Specification filed 11 May 1903.)
- No. 10 of 1903.—Harry Howlett Young. *Improvements in converting circular into reciprocating motion.* (Specification filed 11 May 1903.)

No. 26 of 1903.—Francis James Fletcher. *Improvements in apparatus for aerating or carbonating liquids.* (Specification filed 12 May 1903.)

No. 27 of 1903.—Francis James Fletcher. *Improvements in and connected with apparatus for filling bottles or other vessels with liquid and stoppering them.* (Specification filed 12 May 1903.)

No. 45 of 1903.—Joseph Fletcher. *Improvements in apparatus for drawing off or dispensing aerated and other liquids.* (Specification filed 12 May 1903.)

No. 50 of 1903.—John Edwin Davidson. *Improvements in horse shoes or the like shoes.* (Specification filed 12 May 1903.)

No. 56 of 1903.—Harry Howlett Young. *Improvements in reducing gear.* (Specification filed 12 May 1903.)

No. 104 of 1903.—Percy Hulburd. *Improvements in or connected with lubricators.* (Specification filed 12 May 1903.)

No. 119 of 1903.—Charles Henry Jerrard. *Improved apparatus for cleansing tram rails and the like.* (Specification filed 12 May 1903.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

No. 376 of 1899.—Augustus Christian Kley. *Improvements in printing or marking apparatus.* (Specification filed 11 May 1900.)

No. 377 of 1899.—Augustus Christian Kley. *Improvements in inking-pads.* (Specification filed 11 May 1900.)

No. 378 of 1899.—George Consider Hale and Morton Wollman. *Improvements in fire alarm systems and apparatus.* (Specification filed 11 May 1900.)

Fee in respect of the continuance of an exclusive privilege—

4 (d) After the expiration of the sixth year and before the expiration of the seventh year from the date of the filing of the specification—

The sum of Rs 50 for each of the above inventions.

### NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not “designs” within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively. Consolidated indexes for 1905 and for 1906, entitled “Inventions and Designs,” are also on sale, price one rupee each. They contain a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in the year, together with lists of designs applications.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. A new and revised edition is now on sale. Royal 8vo volumes, paper cover, price one rupee or 1s. 6d. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Office, 2, Bankshall Street, Calcutta.

P. J. BRÜHL,

Offg. Secretary under the Inventions and  
Designs Act, V of 1888.

## BOARD OF EXAMINERS.

### NOTICES.

Specimens of Persian Manuscripts for the use of candidates for the Degree of Honour and High Proficiency examinations in Persian, published in facsimile by the Board of Examiners, Fort William, under the authority of the Government of India. Price ₹6. Forwarded V.-P. P., on application to the Secretary, Board of Examiners, 4, Park Street.

For the convenience of Civil and Military officers desirous of appearing for examination in oriental languages, the Board of Examiners will in future publish periodically a collection of specimen papers set for the examination held by them.\* Collections of papers for 1902-1903, 1903-1904, 1904-1905 and 1905-1906 are ready for sale. Price ₹3 per copy and may be obtained on application to the Secretary, Board of Examiners, 4, Park Street.

Diwan-i-Sarkhush (official edition), one of the books recommended for the High Proficiency examinations in Persian; obtainable from Board of Examiners' office, price ₹3 per copy.

The Kalam-i-Urdu, the text-book for the new Proficiency Standard in Urdu, is now ready for issue, price ₹2-12.

Qaāni, one of the books recommended for the Degree of Honour examination in Persian; obtainable from the Board of Examiners' office, price ₹7-8 per copy.

\* N.B.—The languages in which specimen papers are published are :—  
Arabic, Bengali, Hindi, Persian, Sanskrit, Urdu.

D. C. PHILLOTT, Lieut.-Col.,  
Secretary, Board of Examiners.

## EMPLOYMENT BUREAU—CIVIL ENGINEERING COLLEGE, SIBPUR.

Sibpur, the 27th June 1907.

An Employment Bureau or Register has been started at this College for the supply of the following classes of employés :—

- |                              |                          |
|------------------------------|--------------------------|
| 1. Assistant Engineers.      | 5. Lower Subordinates.   |
| 2. Surveyors.                | 6. Electrical Engineers. |
| 3. Estimators and Draftsmen. | 7. Mining Engineers.     |
| 4. Upper Subordinates.       |                          |

At first it will be confined to ex-students of the College, later others may be registered. Forms of application for registration and copies of the Rules of the Bureau may be had on application at the Principal's office.

All old records are being destroyed; it is therefore necessary that candidates wishing to have their names registered should apply without delay.

B. HEATON,  
Principal, C. E. College.

**CINCHONA FEBRIFUGE.**

Cinchona Febrifuge can be purchased for cash only by Government officers and the general public, from the Superintendent, Royal Botanic Garden, Calcutta.

The rates for Government officers are :—

|            |   | <i>R</i> | <i>a.</i> | <i>p.</i> | Post-free.<br><i>R</i> | <i>a.</i> | <i>p.</i> |
|------------|---|----------|-----------|-----------|------------------------|-----------|-----------|
| 16-oz. tin | . | 7        | 8         | 0         | 8                      | 0         | 0         |
| 8 " "      | . | 3        | 12        | 0         | 4                      | 2         | 0         |
| 4 " "      | . | 1        | 14        | 0         | 2                      | 2         | 0         |

The rates for the general public taking 5 lbs. and upwards at a time are the same as for Government officers. For any quantity below five pounds, the rates are :—

|            |   | <i>R</i> | <i>a.</i> | <i>p.</i> | Post-free.<br><i>R</i> | <i>a.</i> | <i>p.</i> |

| 8 " "      | . | 4        | 8         | 0         | 4                      | 14        | 0         |
| 4 " "      | . | 2        | 4         | 0         | 2                      | 8         | 0         |

Cinchona Febrifuge is sold also by the principal druggists in Calcutta.

**THOMASON CIVIL ENGINEERING COLLEGE, ROORKEE.****NOTIFICATION.**

Roorkee, the 4th December 1901.

A Registry Office for men of the undermentioned grades is kept up by the Principal, Thomason College, Roorkee. Officers and employers of labour requiring men are requested to apply to the Principal :—

- |                   |                              |
|-------------------|------------------------------|
| 1. Engineers.     | 5. Press workers.            |
| 2. Overseers.     | 6. Photo-Mechanical workers. |
| 3. Sub-Overseers. | 7. Mechanical apprentices.   |
| 4. Draftsmen.     | 8. Metal and wood carvers.   |

E. ATKINSON, Major, R.E.,  
Principal, Thomason College.

**SULPHATE OF QUININE AND SULPHATE OF CINCHONIDINE.**

Manufactured at the Bengal Government Cinchona Plantation.

These articles are guaranteed to be free from wilful admixture with other Cinchona Alkaloids. Quinine is for sale only to Government officers. Cinchonidine is for sale to Government officers and to dealers. Both Quinine and Cinchonidine are for sale for cash only and may be obtained from the Superintendent, Royal Botanic Garden, Sibpur, near Calcutta.

The rates from 1st April 1907 are as follows :—

*To Government officers.*

| Quinine.   |   |          |           |           | Post-free. |           |           |

\* There was no transfer of Gold between the Paper Currency Reserve and the Gold Standard Reserve during the week ending 15th August 1907.  
† In addition to amounts shown in columns 6 and 10 about 18 lakhs of tolas of silver have been purchased from treasury funds.  
The Silver held in the Gold Standard Reserve (which is quite distinct from the Paper Currency Reserve) amounted on the 15th August 1907 to 600 lakhs in coined rupees.

O. T. BARROW,  
Head Commissioner of Paper Currency

**CALCUTTA UNIVERSITY.**

**NOTICE.**

Pandeya Ramavatara Sarma, M.A., Sree Gopal Basu Mallik Fellow for 1907, will hold classes three times a week from the month of September 1907, with a view to give tutorial assistance to students of Sanskrit generally and to students of Vedanta Philosophy in particular.

Graduates who have passed the B.A. Examination with Honours in Sanskrit and Masters of Arts in Sanskrit, as well as those who have passed the Sanskrit Title Examinations of Calcutta or the Acharyya Examination of Benares or the Sastri Examination of the Punjab, will be admitted to these classes without any test or further examination. Other students not so qualified will also be admitted to the classes provided they satisfy the Fellow by passing a preliminary test to be held by him in each of the following subjects :—

- (a) Speaking and writing Sanskrit correctly.
- (b) Nyaya Sidhanta Muktabali.
- (c) Sankhyatattwa Kaumudi.
- (d) Vedanta Sara.

The above examination will be held at the Senate House, College Square, on Saturday, the 31st August 1907, at 12 noon.

Students who desire to attend the classes are required to apply in writing to the Registrar, on or before the 28th August 1907, stating fully their qualifications.

The Fellow will select from among the applicants the twelve best qualified students whom he will recommend to the Syndicate for a monthly stipend of Rs 10 each to be paid during good conduct and upon satisfactory progress made in their studies.

G. THIBAUT,  
Registrar.

Khalifa Fazl Hussain, superintendent of post offices, 4th grade, is appointed to act in the 3rd grade ;

Mr. C. J. Hennessey, superintendent of post offices, 5th grade, is appointed to act in the 4th grade.

C. STEWART-WILSON,  
Director-General of the Post Office of India.

## SURVEY OF INDIA.

### NOTIFICATION.

Calcutta, the 21st August 1907.

The following Rules and Regulations relating to the Mathematical Instrument Office are published for the information and guidance of public officers. They have retrospective effect from the 1st July 1907.

J. M. FLEMING, Lt.-Colonel, I.A.,  
for Surveyor General of India.

[Approved by the Government of India, Department of Revenue and Agriculture (Land Surveys),  
in No. 1061-52-5, dated 8th July 1907.]

## SURVEY OF INDIA.

RULES AND REGULATIONS OF THE MATHEMATICAL INSTRUMENT OFFICE,  
15, WOOD STREET, CALCUTTA.

1. The Mathematical Instrument Office is a Dépôt, for the supply, repair, and adjustment of mathematical and other instruments, etc., employed in various Government Departments and Offices. The instruments issued may be new or second-hand at the discretion of the Officer in charge; as a rule, new instruments are not supplied if serviceable second-hand ones of the class required are available. Instruments, when no longer required, are also taken into store, from Government Departments and authorised offices, at a valuation which is given for each instrument returned.
2. All transactions between the Mathematical Instrument Office and other Government Departments and offices are adjusted by "book transfer."
3. Instruments, etc., when they can be conveniently spared, may be issued on "cash payment" to District Boards and Municipalities, Native States, and individual officers of Government for their official use. With the approval of the Officer in charge, instruments may also be sent to the Mathematical Instrument Office "for repairs" on similar terms. Instruments, etc., cannot be issued to nor repaired for private firms or individuals.
4. Instruments, etc., will be issued at their book value to and repairs will be executed at cost price for, Public Service Departments of Government, but 25 per cent. will be added to the book value of issues to, and 10 per cent. will be added to the cost price of repairs executed for, *quasi*-Commercial Departments of Government or on "cash payment."
5. The Mathematical Instrument Office cannot undertake the supply or repair of any description of electrical or telegraphic instrument, nor does it issue type, stationery or drawing materials.
6. All correspondence and all instruments sent to the Mathematical Instrument Office should be addressed to the Officer in charge, Mathematical Instrument Office, 15, Wood Street, Calcutta. Telegrams should be addressed to "Surveys, Inst.," Calcutta.
7. All indents for instruments, etc., should be submitted on the annexed form A. and every indent for instruments, etc., required on "book transfer" must be duly approved and countersigned, in accordance with the instructions printed on the back of the form, before the indent can be complied with. An indent sent by telegram should be subsequently confirmed by the submission by post of the usual countersigned indent, with a note on the form intimating that the instruments have already been indented for by telegram.
8. The nomenclature and price of the different instruments, etc., generally kept in stock are given in a price list. The prices are the approximate prices of new instruments, etc. An indenting officer should enter the approximate price of each description of instrument required in the column of the indent allotted for that purpose, so as to enable the officer who countersigns and finally passes the indent to know the probable expense it involves, and also to guide the Mathematical Instrument Office in selecting instruments to meet the demand. If the prices entered in an indent are not to be exceeded, this fact should be clearly stated.
9. In order to prevent misunderstandings, indenting officers should invariably state, on their indents, the size and class of the instrument required, and when ordering a scale particular care should be taken to note its length, how divided, and the purpose for which it is required.
10. All instruments sent to the Mathematical Instrument Office for repair or adjustment should be despatched *freight prepaid*, and at the same time, under separate cover,

a requisition "for repairs" should be sent on the annexed form B. No instrument will be repaired unless the Officer in charge considers it worth the cost of the work.

11. Indents should be submitted *as early as possible* to enable arrangements to be made to meet the demand in case the articles are not in stock, and all instruments requiring repairs should be forwarded to the Mathematical Instrument Office *as soon as* they are available. It is particularly requested that when a large supply of instruments is likely to be wanted for railway surveys or other large projects, the Mathematical Instrument Office should receive as long prior notice as possible of the probable number and description of articles required.

12. The mode of transit and address to which instruments, etc., are to be consigned by the Mathematical Instrument Office, as well as the address to which correspondence regarding the case is to be sent, must invariably be specified in full on the indent or requisition form; when instruments, etc., are to be despatched by post the name of the Post Office, as well as of the District in which it is situated, should be given, and when by railway the nearest Railway Station should be distinctly stated.

13. When issuing instruments, etc., which are required on "book transfer" or despatching them after repair, the Mathematical Instrument Office sends an "invoice" in *triplicate* showing the amount due; one copy should be signed and returned without delay as it is required, for submission with the monthly accounts of the Mathematical Instrument Office, for adjustment by the Comptroller, India Treasuries; the other copies should be dealt with as laid down in Article 96, Volume I, Civil Account Code (7th Edition). In the case of instruments, etc., issued or repaired on "cash payment" *prepayment* is necessary, and, whenever it is possible, they, or the railway receipt for them, will be sent by V.-P. P.

14. All Government instruments, when no longer required, should be at once despatched to the Mathematical Instrument Office, *freight prepaid*, and at the same time, under separate cover, a list of the instruments deposited as "no longer required" should be sent on the annexed form C. It is particularly requested that surplus instruments may not be retained in any Government Office as they only deteriorate and become obsolete, while, if despatched as soon as they are no longer required, to the Mathematical Instrument Office, they can be overhauled, put into serviceable condition, and made available for issue to other officers requiring them. The Mathematical Instrument Office is, as a rule, unable to receive instruments for deposit as "no longer required" from Departments or officers who are not entitled to deal by means of "book transfer," and it is essential before sending such instruments to enquire if it will be convenient to receive them.

15. When Government instruments are received by the Mathematical Instrument Office for deposit as "no longer required" they are valued according to their condition and a "valuation statement" is then sent to the officer depositing them; the amount of this valuation is credited to his department or office in the monthly accounts of the Mathematical Instrument Office, for adjustment by "book transfer" through the Comptroller, India Treasuries.

16. When an officer considers that Government instruments are unserviceable and that their transit charges may nearly equal or exceed their actual value as material a survey should be held on them by a committee of Government Officers, whose report in duplicate should be forwarded to the Officer in charge, Mathematical Instrument Office, who will return one copy with instructions entered on it as to which of the instruments should be forwarded to the Mathematical Instrument Office. Unserviceable chains, staves, tapes, etc., are seldom worth their transit charges.

17. As indents, requisitions "for repairs," and list of instruments "no longer required" are dealt with in separate sections in the Mathematical Instrument Office, they should be kept *quite distinct* and should not be mixed up on the same form. In all cases reference should be made to any previous correspondence on the subject dealt with, and, when instruments are forwarded to the Mathematical Instrument Office, it should be clearly stated whether they are "for repairs" or "no longer required." The forms are *not* required in *duplicate* and should not be accompanied by forwarding letters unless more explanation is necessary than can be given on the face of the forms.

18. The carriage of instruments, etc., is *not* paid by the Mathematical Instrument Office; consequently all consignments sent to it must be *prepaid* by the officers sending them, and the freight, etc., on those despatched by the Mathematical Instrument Office must be paid by the officers receiving them. Incidental charges for packing cases, etc., are included in the "invoices" or "bills."

19. Owing to the very rough treatment which boxes, etc., often receive in transit, particular attention is drawn to the importance of packing all instruments with great care; delicate instruments should, if possible, be despatched *insured*. Each package of a consignment of instruments despatched to the Mathematical Instrument Office should bear the address of the consignor with a distinctive mark and also a serial number, which should be given to each package of such consignment; this information should be recorded on railway receipts or bills of lading. Every package should contain a packing note giving a full list of contents and the address of the consignor.

20. The accounts kept by the Mathematical Instrument Office do not permit of "loans" or "exchanges" and instruments cannot be sent "on approval." When instruments are required on "Government Service" for a limited time, however short, two distinct "book transfer" transactions are necessary; the instruments must be properly indented for and, when finished with, they must be returned as "no longer required."

21. In all dealings with the Mathematical Instrument Office the official forms in use in that Office should be used, but military officers should submit indents and requisitions "for repairs" on I. A. Forms Z2117 and Z2118 respectively. The Mathematical Instrument Office is conducted under Civil rules, and all references to Army Regulations, Equipment Tables, etc., should therefore invariably be supplemented by a clear statement of what is required.

22. These rules and regulations, the price list, and forms A, B, and C can be obtained *gratis* on application from the Officer in charge, Mathematical Instrument Office.

J. M. FLEMING, *Lieut.-Col., I.A.*,  
In charge, Mathematical Instrument Office.

1st July, 1907.

Form A.

SURVEY OF INDIA.  
MATHEMATICAL INSTRUMENT OFFICE.

Duplicate not required.

INDENT No. \_\_\_\_\_ on the Mathematical Instrument Office, 15, Wood Street, Calcutta, for Instruments, etc., required for the use of \_\_\_\_\_ dated \_\_\_\_\_ 190 .

| Description of Instruments, etc.,<br>with the reference number as<br>per Price List. | Quantity or<br>number in use<br>or Store. | Quantity or<br>number now<br>indented for. | Purpose for which required. | *Whether<br>required on<br>"book trans-<br>fer", or on<br>"cash pay-<br>ment." | †Probable price<br>as per Price List. |    | Name<br>of Accounts<br>Office in which<br>price is to be<br>adjusted. | How and where to be<br>despatched. |
|--|---|--|-----------------------------|--|---------------------------------------|----|---|------------------------------------|
|  |   |  |                             |  | R                                     | a. |   |                                    |
| (1)  | (2)                                       | (3)  | (4)                         | (5)  | (6)                                   |    | (7)   | (8)                                |
|  |   |  |                             |  |                                       |    |   |                                    |

I here by certify that the articles specified on this Indent are indispensably necessary for the purposes set forth to the best of my knowledge and belief, after the most careful examination.

RECOMMENDED.

Countersignature of approving authority.

\*The price of Instruments, etc., issued on "Government Service" must be adjusted by "book transfer" and by "cash payment" on all other occasions.  
†All instruments, etc., issued to quasi-Commercial Departments of Government or on "cash payment," will be charged at their book value plus 25 per cent.  
See instructions on reverse.

Signature of Indenting Officer.

## INSTRUCTIONS FOR INDENTING OFFICERS.

1. All indents, correspondence, etc., should be addressed to the Officer in charge, Mathematical Instrument Office, 15, Wood Street Calcutta. Telegrams should be addressed to "Surveys, Inst.," Calcutta. An indent sent by telegram should be subsequently confirmed by the submission by post of the usual countersigned indent, with a note on the form intimating that the instruments have already been indented for by telegram.

2. The nomenclature and cost of the different instruments, etc., generally kept in stock are given in a price list; the prices are the approximate prices of new instruments, but, as a rule, new instruments are not supplied if serviceable second-hand ones of the class required are available.

3. The Mathematical Instrument Office cannot supply any description of electrical or telegraphic instrument, nor does it issue type, stationery, or drawing materials.

4. It is particularly requested that the sizes and sorts of instruments, lengths of scales, how divided, and purpose for which required, and generally any information, which will guide the Mathematical Instrument Office in knowing, without further reference, the exact wants of the indenting officer, be entered, as far as possible, in columns (1) and (4) instead of in a covering letter. The nomenclature and reference number given in the price list should, if possible, be used.

5. Especial attention is requested to the filling up correctly of columns (5) and (7).

6. An indenting officer should enter in column (6) the approximate price of each description of instrument required, so as to enable the officer who countersigns and finally passes the indent to know the probable expense it involves, and also to guide the Mathematical Instrument Office in selecting instruments to meet the demand. If the prices entered in an indent are not to be exceeded the fact should be clearly stated.

7. The mode of transit and address to which instruments are to be consigned by the Mathematical Instrument Office, as well as the address to which correspondence is to be sent, must invariably be specified in full in column (8). (Abbreviations sometimes lead to mistakes). When instruments are to be sent by post, the name of the Post Town as well as the District in which it is situated should be given, and when by railway, the nearest Railway Station should be distinctly stated. Indents should not be accompanied by forwarding letters unless more explanation is necessary than can be given on the face of the forms.

8. In the case of instruments issued on "cash payment" *prepayment* is necessary, and, whenever it is possible, they, or the railway receipt for them, will be sent by V. P. P.

9. The carriage of instruments, etc., is *not* paid by the Mathematical Instrument Office, consequently the freight, etc., on all consignments despatched by this office must be paid by the officers receiving them.

10. The forms for indent, A; for requisition "for repairs," B; and for deposit of instruments "no longer required," C; as well as the rules and regulations and the price list can be obtained *gratis* on application from the officer in charge, Mathematical Instrument Office.

11. All indents for instruments, etc., required on "book transfer" must be duly approved and countersigned, *vis.*—

## INSTRUCTIONS FOR REQUISITIONING OFFICERS.

1. All requisitions "for repairs," correspondence and instruments should be addressed to the Officer in charge, Mathematical Instrument Office, 15, Wood Street, Calcutta. Telegrams should be addressed to "Surveys, Inst.," Calcutta.
2. Owing to the very rough treatment which boxes, etc., often receive in transit, particular attention is drawn to the importance of packing all instruments with great care; delicate instruments should, if possible, be despatched *insured*. Each package of a consignment of instruments despatched to the Mathematical Instrument Office should bear the address of the consignor with a distinctive mark and also a serial number which should be given to each package of such consignment; this information should be recorded on railway receipts or bills of lading. Every package should contain a packing note giving a full list of contents and the address of the consignor.
3. The Mathematical Instrument Office cannot undertake the repair of any description of electrical or telegraphic instrument.
4. It is particularly requested that the nature of the repairs required should be entered, as far as possible, in column (3) instead of in a covering letter. No instrument will be repaired unless the Officer in charge considers it worth the cost of the work.
5. Special attention is requested to the filling up correctly of columns (4) and (5).
6. The mode of transit and address to which instruments are to be consigned by the Mathematical Instrument Office, as well as the address to which correspondence is to be sent, must invariably be specified in full in column (7). (Abbreviations sometimes lead to mistakes). When instruments are to be sent by post, the name of the Post Office as well as the District in which it is situated should be given, and when by railway, the nearest Railway Station should be distinctly stated. Requisitions "for repairs" should not be accompanied by forwarding letters unless more explanation is necessary than can be given on the face of the forms.
7. In the case of instruments repaired on "cash payment" *prepayment* is necessary, and, whenever it is possible, they, or the railway receipt for them, will be sent by V.-P. P.
8. The carriage of instruments is *not* paid by the Mathematical Instrument Office, consequently all consignments sent to it must be *prépaid* by the officers sending them and the freight, etc., on those despatched by the Mathematical Instrument Office must be paid by the officers receiving them.
9. The forms for indent, A; for requisition "for repairs" B; and for deposit of instruments "no longer required" C; as well as the rules and regulations and the price list can be obtained *gratis* on application from the Officer in charge, Mathematical Instrument Office.

## INSTRUCTIONS FOR DEPOSITING OFFICERS.

1. All lists of instruments deposited as "no longer required," correspondence and instruments should be addressed to the Officer in charge, Mathematical Instrument Office, 15, Wood Street, Calcutta. Telegrams should be addressed to "Surveys, Inst.," Calcutta.
2. Owing to the very rough treatment which boxes, &c., often receive in transit, particular attention is drawn to the importance of packing all instruments with great care; delicate instruments should, if possible, be despatched *insured*. Each package of a consignment of instruments despatched to the Mathematical Instrument Office should bear the address of the consignor with a distinctive mark and also a serial number which should be given to each package of such consignment; this information should be recorded on railway receipts or bills of lading. Every package should contain a packing note giving a full list of contents and the address of the consignor.
3. The carriage of instruments is *not* paid by the Mathematical Instrument Office, consequently all consignments sent to it must be *prepaid* by the officers sending them.
4. The Mathematical Instrument Office cannot receive for deposit any description of electrical or telegraphic instrument.
5. It is particularly requested that all the columns on the reverse may be filled in as far as possible.
6. When column (5) is filled in in the negative, a report should be submitted separately.
7. Instruments cannot, as a rule, be received for deposit as "no longer required" from Departments or officers who are not entitled to deal by means of "book transfer," and it is essential before sending such instruments to enquire if it will be convenient to receive them.
8. The forms for indent, A; for requisition for "repairs," B; and for deposit of instruments "no longer required," C; as well as the rules and regulations and the price list can be obtained *gratis* on application from the Officer in charge, Mathematical Instrument Office.

Small Causes Court, Bombay.

### Estate Mrs. S. M. Pearson deceased.

PURSUANT TO SECTION 42, ACT 28 OF 1866,

Notice is hereby given that all persons having claims against the late Susannah Mary Pearson, of Elton Lodge, Selden Road, Worthing, Sussex, who died at West Ealing, Middlesex, on 6th April 1906, Letters of Administration to whose Estate have been granted to Joseph Carstairs Roberts Johnston, of Messrs. Grindlay & Co., Calcutta, are required to

---

send in the same on or before 1st November next to the said Messrs. Grindlay & Co., Calcutta, after which date the said Administrator will proceed to administer the assets having regard only to the claims of which he shall then have received notice, and no claims sent in subsequently will be recognized, and all persons indebted to or holding any securities or property belonging to the said Estate are also hereby requested to pay without delay the amount owing by them, or deliver the said securities or property to the said Administrator whose receipt alone is valid for the same.

J. C. R. JOHNSTON,

Administrator to Estate

Mrs. S. M. Pearson deceased.

CALCUTTA ;

The 15th August 1907.

SUPPLEMENT TO

# The Gazette of India.

---

No. 34.}

CALCUTTA, SATURDAY, AUGUST 24, 1907.

---

## OFFICIAL PAPERS.

*A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.*

*Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

*No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.*

Captain R. H. Chenevix-Trench, a Political Assistant of the 2nd class substantive *pro tempore*, is confirmed in that grade.

These arrangements are made without prejudice to superior acting appointments, if any, held by either of the officers named on the dates specified.

**No. 3228 E.B.**—The following orders of His Majesty in Council, published in the *London Gazette* of the 9th July, 1907, are republished for general information :

## NORWAY EXTRADITION ORDER IN COUNCIL, 1907.

**A**t the Court at *Buckingham Palace*, the 6th day of *July*, 1907.

## PRESENT:

The KING'S Most Excellent Majesty.

|                    |                         |
|--------------------|-------------------------|
| Lord President.    | Sir W. Brampton Gurdon. |
| Lord Chamberlain.  | Mr. Eugene Watson.      |
| Lord Shuttleworth. | Mr. R. Spence Watson.   |
| Mr. McKenna.       |                         |

**W**HEREAS by the Extradition Acts, 1870 to 1906, it was amongst other things enacted that, where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, His Majesty may, by Order in Council, direct that the said Acts shall apply in the case of such foreign State; and that His Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to fugitive criminals who are in or suspected of being in the part of His Majesty's dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient :

And whereas a Treaty was concluded on the twenty-sixth day of June, one thousand eight hundred and seventy-three, between Her late Majesty Queen Victoria and His Majesty the King of Sweden and Norway, for the mutual extradition of fugitive criminals, in the case of which Treaty the Extradition Acts of 1870 and 1873 were applied by Order in Council of the thirtieth September, one thousand eight hundred and seventy-three :

And whereas an Agreement was concluded on the eighteenth day of February, one thousand nine hundred and seven, between the British and Norwegian Governments, providing that the said Treaty shall remain in force between the United Kingdom of Great Britain and Ireland and the Kingdom of Norway, in so far as its provisions apply to the Kingdom of Norway alone; and also declaring that certain additions shall be made to the offences set out in Article II of the said Treaty, which Agreement is in the terms following :

The British and Norwegian Governments, who agree that the Treaty signed at Stockholm on the 26th June, 1873, between the United Kingdom of Great Britain and Ireland and the Kingdoms of Sweden and Norway for the mutual surrender of fugitive criminals shall remain in force between the United Kingdom of Great Britain and Ireland and the Kingdom of Norway in so far as its provisions apply to the Kingdom of Norway alone, and who deem it desirable to make certain additions to the said Treaty, have authorized the Undersigned to declare that the following additions should be made to the offences set out in Article II of the said Treaty for which, under the circumstances and conditions stated in the said Treaty, extradition is to be granted :—

Den Britiske og den Norske Regjering, som er enige om, at den i Stockholm den 26 juni 1873 undertegnede traktat mellem det Forenede Kongerige Storbritannien og Irland og Kongerigerne Sverige og Norge angaaende gjensidig udlevering af unilvegne forbrydere skal forblive i kraft mellem det Forenede Kongerige Storbritannien og Irland og Kongeriget Norge, forsaavidt angaar de bestemmelser, som gjælder Kongeriget Norge alene, og som finder det ønskeligt, at der gjøres visse tilføjelser til den nævnte traktat, har befuld-  
mægtiget undertegnede til at fastslaa, at der skal ske følgende tilføjelser til tallet af de forbrydelser, som opregnes i den nævnte traktats 2<sup>den</sup> artikel, og for hvilke udlevering indrømmes under de i traktaten nævnte omstændigheder og betingelser :

19. Perjury and subornation of perjury.
20. Receiving any money, valuable security, or other property, knowing the same to have been stolen or embezzled.
21. Malicious wounding or inflicting grievous bodily harm.

19. Mened og forledelse til mened.
20. Modtagelse af penge, værdipapirer eller andre formuesgjenstande med kjendskab til, at de er stjaalne eller underslaet.
21. Forsøetlig tilføjelse af saar eller betydelig legemlig skade.

22. Unlawful carnal knowledge, or any attempt to have unlawful carnal knowledge, of a girl under the age of sixteen years.

Any offence which, by the laws of both countries, is for the time being an extradition offence.

In witness whereof the undersigned have signed the present Agreement and have affixed thereto the seals of their arms.

Done at Kristiania this 18th day of February, 1907.

22. Samleie eller forsøg paa at opnaa samleie med kvinde under 16 aar.

En hvilkensomhelst lovovertrædelse, som efter begge landes love for tiden begrunder udlevering.

Til bekræftelse heraf har de undertegnede underskrevet nærværende overenskomst og forsynet den med sine segl.

Udfærdiget i Kristiania den 18 februar, 1907.

(L.S.) ARTHUR HERBERT.

(L.S.) J. LOVLAND.

Now, therefore, His Majesty, by and with the advice of His Privy Council, and in virtue of the authority committed to him by the said Extradition Acts, 1870 to 1906, doth order, and it is hereby ordered, that from and after the nineteenth day of July, 1907, the said Acts shall apply in the case of Norway under and in accordance with the said Treaty as supplemented by the said Agreement above set forth :

Provided always that the operation of the said Acts shall be and remain suspended within the Dominion of Canada so long as an Act of the Parliament of Canada, being Part I of chapter 155 of the Revised Statutes of Canada, 1906, and entitled " An Act respecting the Extradition of Fugitive Criminals," shall continue in force there, and no longer.

A. W. FitzRoy.

## BELGIUM EXTRADITION ORDER IN COUNCIL, 1907.

AT the Court at *Buckingham Palace*, the 6th day of July, 1907.

### PRESENT :

The KING'S Most Excellent Majesty.

|                    |                         |
|--------------------|-------------------------|
| Lord President.    | Sir W. Brampton Gurdon. |
| Lord Chamberlain.  | Mr. Eugene Wason.       |
| Lord Shuttleworth. | Mr. R. Spence Watson.   |
| Mr. McKenna.       |                         |

WHEREAS by the Extradition Acts, 1870 to 1906, it was amongst other things enacted that, where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, His Majesty may, by Order in Council, direct that the said Acts shall apply in the case of such foreign State ; and that His Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to fugitive criminals who are in or suspected of being in the part of His Majesty's dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient :

And whereas a Treaty was concluded on the twenty-ninth day of October, one thousand nine hundred and one, between Us and His Majesty the King of the Belgians, for the mutual extradition of fugitive criminals, in the case of which Treaty the Extradition Acts, 1870 to 1895, were applied by Order in Council of the sixth March, one thousand nine hundred and two.

And whereas a Supplementary Convention was concluded on the fifth day of March, one thousand nine hundred and seven, between Us and His Majesty the King of the Belgians, for the purpose of completing Article XIV of the said Treaty of the twenty-ninth October, one thousand nine hundred and one, for the mutual extradition of fugitive criminals, which Supplementary Convention is in the terms following :—

THE Government of His Majesty the King of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, Emperor of India, and the Government of His Majesty the King of the Belgians, having deemed it necessary to complete Article XIV of the Treaty of Extradition between Great

LE Gouvernement de Sa Majesté li Roi du Royaume-Uni de la Grande-Bretagne et d'Irlande et des Territoires Britanniques au delà des Mers, Empereur des Indes, et le Gouvernement de Sa Majesté le Roi des Belges, ayant jugé nécessaire de compléter l'Article XIV du Traité d'Extradition entre la Grande-Bretagne et la Belgique

Britain and Belgium of the 29th October, 1901, relative to the application of the stipulations of the Treaty to the extra-European Colonies and foreign Possessions of the two States, the Undersigned, duly authorized to that effect by their respective Governments, have agreed as follows :—

## ARTICLE I.

In the relations of each of the High Contracting Parties with the extra-European Colonies and foreign Possessions of the other, the periods fixed by Articles IV, paragraph 1, and V of the Treaty of the 29th October, 1901, shall be extended as follows :—

1. A fugitive criminal arrested under the terms of Article IV shall be discharged in the dominions of His Britannic Majesty if, within the period of two months from the date of his arrest, a request for his extradition shall not have been made by the Government of the requisitioning State.

The fugitive criminal may be discharged in the dominions of His Majesty the King of the Belgians if within the same period a request for his extradition has not been made by the Government of the requisitioning State; he shall be released if within seven days following the expiration of his period the warrant issued by the competent authority shall not have been communicated to the fugitive criminal.

2. The person arrested shall be set at liberty if, within the three months, counting from the date of arrest, sufficient evidence in support of the demand for extradition shall not have been produced.

## ARTICLE II.

The present Convention shall be ratified and the ratifications shall be exchanged at London as soon as possible. It shall come into force ten days after its publication, in conformity with the laws of the High Contracting Parties, and it shall have the same force and duration as the Treaty of Extradition to which it relates.

In witness whereof the Undersigned have signed the present Convention, and have affixed their seals thereto.

Done in duplicate at London, the 5th March, 1907.

du 29 Octobre, 1901, relatif à l'application aux Colonies et Possessions étrangères des deux États hors d'Europe des stipulations du Traité, les Soussignés, dûment autorisés à cet effet par leurs Gouvernements respectifs, sont convenus de ce qui suit :

## ARTICLE I.

Dans les rapports de chacune des Hautes Parties Contractantes avec les Colonies et Possessions étrangères de l'autre, situées hors d'Europe, les délais prévus par les Articles IV, alinéa 1, et V du Traité du 29 Octobre, 1901, seront prolongés comme suit :

1. Le criminel fugitif arrêté aux termes de l'Article IV sera relâché dans les États de Sa Majesté Britannique si, dans le délai de deux mois à dater de son arrestation, une demande d'extradition n'a pas été faite par le Gouvernement du pays requérant.

Le criminel fugitif pourra être relâché dans les États de Sa Majesté le Roi des Belges si, dans le même délai, une demande d'extradition n'a pas été faite par le Gouvernement du pays requérant ; il devra l'être si, dans les sept jours qui suivent l'expiration de ce délai, il ne reçoit communication du mandat délivré par l'autorité compétente.

2. L'individu arrêté sera mis en liberté si, endéans les trois mois à partir de la date de l'arrestation, les documents suffisants à l'appui de la demande d'extradition n'ont pas été produits.

## ARTICLE II.

La présente Convention sera ratifiée et les instruments de ratification en seront échangés à Londres aussitôt que possible. Elle entrera en vigueur dix jours après sa publication, conformément aux lois des Hautes Parties Contractantes, et elle aura la même force et la même durée que le Traité d'Extradition auquel elle réfère.

En foi de quoi les Soussignés ont signé la présente Convention, et y ont opposé leurs sceaux.

Fait en double original à Londres, le 5 Mars, 1907.

(L.S.) E. GREY.

(L.S.) LALAING.

And whereas the ratifications of the said Supplementary Convention were exchanged at London on the seventeenth day of April, one thousand nine hundred and seven.

Now, therefore, His Majesty, by and with the advice of His Privy Council, and in virtue of the authority committed to him by the said Extradition Acts, 1870 to 1906, doth order, and it is hereby ordered, that from and after the nineteenth day of July, one thousand nine hundred and seven, the said acts shall apply in the case of Belgium under and in accordance with the said Treaty as supplemented by the said Convention above set forth :

Provided always that the operation of the said Acts shall be and remain suspended within the Dominion of Canada so long as an Act of the Parliament of Canada, being Part I of chapter 155 of the Revised Statutes of Canada, 1906, and entitled "An Act respecting the Extradition of Fugitive Criminals," shall continue in force there, and no longer.

No. 560, dated the 23rd May 1873, the Governor General in Council directs the publication of the following documents regarding the condition of the Indian Military Service Family Pension Fund as on the 31st March 1903:

**Financial (Funds).**

**No. 6.**

**India Office, London,**

**9th August 1907.**

**To His Excellency the Right Honourable the Governor General of India in Council.**

*Mr. Secretary,*

In continuation of my Despatch dated the 14th ultimo, No. 4, I forward herewith, Indian Military Service Family Pensions. Valuation for your information and publication in the *Gazette of India*, copies of the valuation and report by Mr. Willis Browne, F.I.A., on the assets and liabilities arising under Indian Military Service Family Pension Regulations as on the 31st of March 1903, with the further report thereon by Mr. Stanley Day, F.I.A.

2. The consolidated accounts for the five years ended on the 31st March 1903 are also transmitted.

3. The valuation has been made on the basis of interest at  $4\frac{1}{2}$  per cent., and at this rate Mr. Browne estimates that the assets exceed the liabilities by the sum of 212,050*l*.

4. In considering the method in which an abatement may be made of the contributions under these Regulations, it must be borne in mind that the rate of interest assumed in these valuations may be fixed from time to time by the Secretary of State in Council. The result of any actuarial valuation depends, to a very great extent, upon the rate of interest assumed, and any modification of rates of contribution must consequently be of a temporary character and liable to alteration on the publication of each valuation. At present the estimated surplus is sufficient to allow of a temporary reduction of 25 per cent. on all subscriptions and donations, and I authorise such a reduction to take effect from the beginning of the month following the date the Actuaries' Reports and this Despatch are published in the *Gazette of India* to the date of the publication of the next valuation.

5. Passing to the recommendations made in Mr. Willis Browne's Report, the scales of marriage donations proposed by him should be adopted from the date of the publication of his Report, but they will be subject to the temporary abatement of 25 per cent. The new tables of monthly recoveries of instalments of donations should also be brought into force, and as they comprise interest as well as principal the computation of interest in each individual case will be discontinued.

6. I have carefully considered Mr. Stanley Day's valuable report, and specially the portion relating to a new scale of contributions for children, but I do not think that the

time has yet arrived for a revision of the principles on which contributions were originally fixed and under which many officers have been subscribing for years. Should the result of the next quinquennial valuation show that material changes are required, I am disposed to think that all rates of subscription should be revised and the system of charging donations on the occurrence of certain events should cease.

7. In preparing the half-yearly accounts of receipts and expenditure the donations from married officers should be separated into Marriage, Promotion, Disparity and Excess Age Donations, with effect from the 1st of April 1908.

8. The date on which the reports are published in the *Gazette of India* should be communicated to me by telegram.

I have the honour to be

My Lord,

Your Lordship's most obedient humble Servant,

(Signed) JOHN MORLEY.

ENCLOSURES.

Enclosure No. 1.

REPORT by Mr. Willis Browne, F.I.A., dated 15th August 1906.

# INDIAN MILITARY SERVICE FAMILY PENSIONS.

## VALUATION AS AT 31ST MARCH 1903.

I annex hereto an abstract of a valuation, at  $4\frac{1}{2}$  per cent. interest, of the assets and liabilities of the Indian Military Service Family Pension Fund as at 31st March 1903.

For purposes of comparison, I endeavoured to calculate approximately the result of a valuation at  $3\frac{1}{2}$  per cent. interest, but the intricacies involved were so numerous and the results so exceedingly doubtful, that I abandoned the attempt feeling quite convinced that there could be no approximation except by accident. The last valuation of the fund was made on a  $3\frac{1}{2}$  per cent. basis and, by request, I sent in a so-called "approximate" valuation at  $4\frac{1}{2}$  per cent. interest. The result showed that the assets and liabilities were nearly equivalent. Now, however, by the  $4\frac{1}{2}$  per cent. tables just completed for the present valuation (1903), it is apparent that the result should have shown a very considerable surplus. So much for "approximate" valuations.

## Tables

The only alteration in the Life tables I have felt justified in making is that relating to the lives of the officers themselves. Of course this alteration affects the whole of the Annuity, Survivorship, etc., tables with the exception of those for incumbents. I have, on previous occasions, referred to the fact that as the experience extends further into the advanced ages, so it becomes apparent that the mortality rates adopted in the original scheme are too stringent. The present experience extends five years further into the older ages than at date of last valuation. Thus I am now in possession of statistics that I consider to be reliable up to the age of 55, and of such a character as to indicate the rates of mortality likely to prevail between the ages of 55 and 65 and, in a less degree, between 65 and 70.

When first I considered this question relating to the rates of mortality for our Indian military, etc., officers, I was in possession of statistics that enabled me to bring the experience up to 1892; then, at date of last valuation up to 1897, and now up to 1902.

The present experience now covers a period of 30 years, and is therefore worthy of being accepted, at any rate in great part, as a foundation upon which to construct new tables. The experience shows that the total number of officers, excluding natives, entered at all ages was 4,933, the number of subscribers living on 31st March 1902 being 3,980. The total number under observation was 65,992, and the number exposed to risk 63,425, the number of withdrawals and deaths being respectively 202 and 751.

On the above data the following rates obtain :

| Ages.    |     |     |     |     | Exposed to risk. | No. of Deaths. | Death-rate. |
|----------|-----|-----|-----|-----|------------------|----------------|-------------|
| 20 to 23 | ... | ... | ... | ... | 2,807            | 31             | '0110       |
| 24 to 28 | ... | ... | ... | ... | 14,216           | 170            | '0120       |
| 29 to 33 | ... | ... | ... | ... | 15,658           | 176            | 0112        |
| 34 to 38 | ... | ... | ... | ... | 11,971           | 119            | '0100       |
| 39 to 43 | ... | ... | ... | ... | 8,269            | 96             | '0116       |
| 44 to 48 | ... | ... | ... | ... | 5,159            | 64             | '0125       |
| 49 to 53 | ... | ... | ... | ... | 3,088            | 50             | '0162       |
| 49 to 55 | ... | ... | ... | ... | 3,852            | 62             | .0161       |
| 56 to 60 | ... | ... | ... | ... | 1,024            | 22             | '0215       |
| 61 to 65 | ... | ... | ... | ... | 338              | 7              | '0207       |
| 66 to 70 | ... | ... | ... | ... | 103              | 5              | '0485       |
| 61 to 70 | ... | ... | ... | ... | 441              | 12             | '0272       |

The foregoing rates compare with former results as follows :—

| Ages.    |     |     |     |     | Rates on experience up to |        |        | The heaviest of the three experiences to age 48, and afterwards the heavier of the two last for reasons given below.* |
|----------|-----|-----|-----|-----|---------------------------|--------|--------|---|
|          |     |     |     |     | 1892.                     | 1897.  | 1902.  |   |
| 20 to 23 | ..  | ... | ... | ... | '0116                     | '0137  | '0110  | '0137   |
| 24 to 28 | ... | ... | ... | ... | '0114                     | '0127  | '0120  | '0127   |
| 29 to 33 | ... | ... | ... | ... | '0117                     | '0112  | '0112  | '0117   |
| 34 to 38 | ... | ... | ... | ... | '0116                     | '0106  | '0100  | '0116   |
| 39 to 43 | ... | ... | ... | ... | '0110                     | '0113  | '0116  | '0116   |
| 44 to 48 | ... | ... | ... | ... | '0148                     | '0118  | '0125  | '0148   |
| 49 to 55 | ... | ... | ... | ... | '0220*                    | '0156* | '0161* | '0161   |
| 56 to 60 | ... | ... | ... | ... | ...                       | '0204  | '0215  | '0215   |
| 61 to 65 | ... | ... | ... | ... | ...                       | ...    | '0207  | '0207   |
| 61 to 70 | ... | ... | ... | ... | ...                       | ...    | '0272  | '0272   |

\* On the 1892 experience there were only 864 lives exposed to risk, whilst up to 1897 there were 2,182 and up to 1902, 3,852.

The last column of the above compares with the old Government Annuity table and with the table I adopted in the last valuation as follows :

| Ages.    |     |     |     |     | Experience<br>above<br>Unadjusted. | Government<br>Annuityants,<br>Old table,<br>Unadjusted. | Rates used<br>in last<br>valuation. |
|----------|-----|-----|-----|-----|------------------------------------|---|-------------------------------------|
| 20 to 23 | ... | ... | ... | ... | '0137                              | '0139   | '0176                               |
| 24 to 28 | ... | ... | ... | ... | '0127                              | '0130   | '0127                               |
| 39 to 33 | ... | ... | ... | ... | '0117                              | '0121   | '0123                               |
| 24 to 38 | ... | ... | ... | ... | '0116                              | 0114  | '0136                               |
| 39 to 43 | ... | ... | ... | ... | '0116                              | '0145 } 0136  | '0147                               |
| 44 to 48 | ... | ... | ... | ... | '0148                              |   | '0173                               |
| 49 to 55 | ... | ... | ... | ... | '0161                              | '0199   | '0224                               |
| 56 to 60 | ... | ... | ... | ... | 0215                               | '0263   | '0282                               |
| 61 to 65 | ... | ... | ... | ... | '0207                              | '0340   | '0379                               |
| 61 to 70 | ... | ... | ... | ... | '0272                              | 0123  | '0452                               |

It will be observed that the rates based on the experience of the Fund compare very favourably with those contained in the old table for Government Annuityants. (Perhaps I may here explain that the new Government Annuity table is more favourable than the old.) For ages 20 to 23, the experience rates are practically the same as the rates for Government annuityants. At these younger ages, however, the rates vary from year to year in a much greater degree than at the older ages. The cause of this variation I attribute to the difficulties with which the medical examiners have to contend in coming to a correct decision as to whether the lives they examine are really fit to master the climate. A great improvement in this respect has been made in recent years, as may be seen from the low death rates now ruling compared with the rates ruling in former years. Under the circumstances, and looking at both sides of the question, I have considered it safer to retain the rates used in the last valuation for these ages. For ages 24 to 33, the experience rates differ but little from those for Government annuityants, and but very little from those adopted in the last valuation. These latter, therefore, I have also retained. For ages 34 to 48, the experience rates and Government annuityant rates are very similar. They are however less than those used in the 1898 valuation, and I felt rather inclined to slightly reduce the latter, but, in view of some allowance being made for war risks, etc., I considered it advisable to make no change. It will be seen that the experience rates at all ages are lower than those of Government annuityants, whilst the latter are lower than those hitherto used in the calculations. It seems to me, therefore, that after the age of 48, when retirement is near at hand, and when only a few officers are likely to be subject to war risk, there is no reason for supposing that the lives of our Indian military officers will be of less value than those of Government annuityants generally (old table). Indeed they may be as good as those upon which the new table is based. The experience is, I know, scanty after the age of 60, but scanty as it is, it is sufficient to indicate that, as at the younger ages, the rates will be very considerably lower than those upon which previous valuations have been based and probably lower than the Government annuityant rates. Under these circumstances I think I am justified in accepting the latter rates after the age of 54. Up to the age of 46, I have assumed the rates used in the 1897 valuation, the rates for the intervening ages 47 to 54 being adjusted rates uniting the two experiences. The effect on the valuation is to increase the value of the

subscriptions, married and unmarried, and to diminish the value of the pensions. The complete table is here given :

| Age. | Rate. | Age. | Rate.  |
|------|-------|------|--------|
| 20   | ·0178 | 60   | ·0285  |
| 21   | ·0194 | 61   | ·0301  |
| 22   | ·0174 | 62   | ·0322  |
| 23   | ·0157 | 63   | ·0346  |
| 24   | ·0142 | 64   | ·0374  |
| 25   | ·0132 | 65   | ·0407  |
| 26   | ·0123 | 66   | ·0443  |
| 27   | ·0117 | 67   | ·0482  |
| 28   | ·0118 | 68   | ·0524  |
| 29   | ·0119 | 69   | ·0569  |
| 30   | ·0120 | 70   | ·0615  |
| 31   | ·0122 | 71   | ·0660  |
| 32   | ·0125 | 72   | ·0706  |
| 33   | ·0128 | 73   | ·0753  |
| 34   | ·0131 | 74   | ·0813  |
| 35   | ·0134 | 75   | ·0865  |
| 36   | ·0136 | 76   | ·0928  |
| 37   | ·0138 | 77   | ·1008  |
| 38   | ·0140 | 78   | ·1100  |
| 39   | ·0142 | 79   | ·1200  |
| 40   | ·0144 | 80   | ·1305  |
| 41   | ·0146 | 81   | ·1412  |
| 42   | ·0150 | 82   | ·1518  |
| 43   | ·0154 | 83   | ·1624  |
| 44   | ·0160 | 84   | ·1728  |
| 45   | ·0166 | 85   | ·1834  |
| 46   | ·0172 | 86   | ·1945  |
| 47   | ·0178 | 87   | ·2063  |
| 48   | ·0184 | 88   | ·2195  |
| 49   | ·0190 | 89   | ·2349  |
| 50   | ·0196 | 90   | ·2504  |
| 51   | ·0202 | 91   | ·2694  |
| 52   | ·0209 | 92   | ·3200  |
| 53   | ·0216 | 93   | ·3700  |
| 54   | ·0223 | 94   | ·4419  |
| 55   | ·0230 | 95   | ·5139  |
| 56   | ·0240 | 96   | ·5999  |
| 57   | ·0250 | 97   | ·7143  |
| 58   | ·0260 | 98   | ·7499  |
| 59   | ·0271 | 99   | 1·0000 |

Differences of Age between Husband and Wife.

As affecting the valuation, I have made but one other change, viz, that in regard to the assumed differences of age between husband and wife. In previous valuations I retained the differences assumed by the late General Hannington in his Report of 1870, but, from a detailed investigation covering the whole period of the existence of the fund, I find that some alteration is necessary to suit existing circumstances. The following statement shows the differences (1) as originally used, (2) as obtained from the investigation, and (3) as used in the present valuation :

| Class. | DIFFERENCES OF AGE. HUSBAND THE ELDER. |                     |                               |
|--------|--|---------------------|-------------------------------|
|        | As originally used.                    | From Investigation. | As used in Present Valuation. |
| V.     | 5                                      | 2                   | 3                             |
| IV.    | 6                                      | 4                   | 5                             |
| III.   | 7                                      | 6½                  | 7                             |
| II.    | 8                                      | 7½                  | 8                             |
| I.     | 10                                     | 8                   | 10                            |

The number of married officers in Class I, being comparatively small, I have made no change in that class. The results in Classes II, and III, are nearly the same as the original assumed differences. I have thus retained the latter. The changes in Classes IV and V from 6 and 5 years to 3 and 5 years respectively affect the result of the valuation favourably, increasing slightly the value of the contributions and diminishing the value of the pensions.

Disparity Donations.

In a reference paper from the Director of Funds, dated 7th March 1904, my attention was drawn to certain hardships in the application of the disparity table to officers whose ages exceeded that of their wives by 12 years or more. In reply, I explained that the apparent hardships arose from the fact that the late General Hannington, in his original scheme, found it necessary, in regard to the ordinary marriage donations, to base his calculations upon the averages ruling in each class. Now, of the subscribers for whom General Hannington was providing at the time nearly all were officers of the Staff Corps and Medical Service. Thus the averages ruling in the several classes were expected to remain fairly constant and were assumed to be as under :

- Up to 32 for Class V.
- 32 to 40 for Class IV.
- 40 to 46 for Class III.
- 46 to 51 for Class II.
- 51 and over for Class I.

The calculations of the ordinary marriage donations were then based on the assumption that, of the marriages in each class, all would be contracted at a given average age as follows :

|         |     |     |     |     |          |
|---------|-----|-----|-----|-----|----------|
| Class V | ... | ... | ... | ... | 28       |
| " IV    | ... | ... | ... | ... | 35 or 36 |
| " III   | ... | ... | ... | ... | 42       |
| " II    | ... | ... | ... | ... | 48       |

The differences of age between husband and wife in the respective classes were, for the purpose of fixing the ordinary marriage donations, assumed to be as follows, male the elder :

|         |     |     |     |     |    |
|---------|-----|-----|-----|-----|----|
| Class V | ... | ... | ... | ... | 5  |
| " IV    | ... | ... | ... | ... | 6  |
| " III   | ... | ... | ... | ... | 7  |
| " II    | ... | ... | ... | ... | 8  |
| " I     | ... | ... | ... | ... | 10 |

The disparity values were then calculated according as the actual differences were in excess of the assumed differences as above.

In later years, marine officers and others have been admitted as subscribers and the ages on promotion from class to class have in some instances been altered. Moreover, the life tables now in use are entirely different from the original tables, the former being more favourable to the officer. Thus the original assumptions no longer hold good. Considering the number of years that some officers remain in the junior classes in excess of the assumed period, it has seemed to me that the ordinary marriage donations should be calculated according to the officer's age, the same as in the Civil Service Family Pension Fund. An officer marrying late in life, towards the end of his service, a lady, say 11 years his junior, should, I think, be required to pay more than a much younger officer. Let me take, as an example, the case brought to my notice in the reference of the Director of Funds. The officer was in Class IV, and his age was 47, which exceeded that of his wife by just over, 12 years. The disparity donation was 157%. Had the disparity been a little under 12 years the marriage donation would have been 48%. This sum of 48% was the result of a calculation based on the average of the ages ruling in Class IV., *viz.*, 35 or 36, whilst the disparity donation of 157% was calculated on the actual ages of husband and wife, thus representing the value of the whole risk less the value of the subscriptions. If it be fair to base the marriage donation for any particular class on a given average age, it would seem to follow that the disparity donation should be so fixed as to represent the value, not of the whole risk brought on, but of the additional risk in excess of the calculated average risk. This value would of course be in addition to the ordinary marriage donation. But then the two together would not, in most cases, be equal to the value of the whole risk. Thus the fund would sustain a loss, as it does already on marriages where the disparity between husband and wife is less than 12 years and the husband's age considerably in excess of the assumed age. Under existing rules, the officer, whose age exceeds that of his wife by 12 or more years, pays for the whole loss, whilst the officer whose age is considerably above the assumed average but does not exceed that of his wife by 12 years, pays nothing beyond the ordinary class donation which, at his age, is quite inadequate. In other words, the former pays too much and the latter too little.

I refer again to the case alluded to above in Class IV. An officer aged 47 may marry a lady aged 44, and is consequently charged the ordinary donation only, *viz.*, 48%. Well, as a matter of fact, the reversionary pension is some 34% less in value than that of an officer of 27 years of age marrying a lady three years his junior. But, on the other hand, owing to his advanced age, the value of his subscriptions is less than that of the younger officer by 116%. So it will be seen that, in each class, due account should be taken of the number of years in advance of the average age on marriage in the particular class. It is this fact that has suggested to me the justice of making some addition, in the respective classes, for each year of age in excess of the average age. This is certainly not an unfair arrangement, for I have not based my calculations on any extreme case. Nor do I propose that an officer marrying at an age at which his subscriptions are worth nothing, should pay for the whole value of the pension brought on; for I have taken into consideration that, in the case of bachelors, they have already contributed largely towards the funds in the form of unmarried subscription. On the other hand, we must not overlook the case of an officer who, having been married during the greater portion of his service, and having lost his wife, remarries at an advanced age. He might indeed marry at a very advanced age, in which case the fund would become responsible for the value of the pensions with practically nothing to provide for them beyond the marriage donation which would represent but a very small percentage of the value of the liabilities brought on. I have no doubt that such cases are rare and I have therefore omitted them in the calculations. But it is clear that, the more elderly a man is on marriage in any class, the less is the asset accruing from his subscriptions; and, considering the question from this point of view, I think I am justified in proposing a moderate addition for each year of age in advance of the ages specified below for the five classes. This, if sanctioned, will, I think, minimise the inequalities now existing, and give some relief to officers who may exceed the present 12 years limit.

The additions I propose are as follows:

- Class V.—1%. 10s. for each year of age exceeding 30.
- „ IV.—3% for each year of age exceeding 35.
- „ III.—6% for each year of age exceeding 42.
- „ II.—9% for each year of age exceeding 48.
- „ I.—12% for each year of age exceeding 53.

The additions might be termed "Excess Age Donations," and would apply to all officers alike whatever might be the disparity of age between husband and wife. Then, for officers of an age exceeding that of their wives by 12 years or more, I propose a scale of additional donations varying with age and disparity of age. Thus in some cases there would be three donations payable by an officer on marriage. One or two illustrative examples may be of interest. First, I will take the case previously referred to, *viz.*, that of an officer, aged 47, in Class IV., with a disparity of 12 years, and compare it with that of an officer in the same class, and of the same age, but with a disparity of 11 years and 11 months.

## Class IV.—Officer's age 47. Disparity 12 years :

| <i>Existing Method.</i> |       | <i>Proposed Method.</i>              |            |
|-------------------------|-------|--------------------------------------|------------|
| Disparity donation ...  | £ 157 | Ordinary marriage donation ...       | £ 48       |
|                         |       | Excess age (12 years) donation ...   | 35         |
|                         |       | Additional donation as per table ... | 29         |
|                         |       |                                      | <u>113</u> |

The same as above, but disparity 11 years and 11 months :

| <i>Existing Method.</i>        |      | <i>Proposed Method.</i>            |           |
|--------------------------------|------|------------------------------------|-----------|
| Ordinary marriage donation ... | £ 48 | Ordinary marriage donation ...     | £ 48      |
|                                |      | Excess age (12 years) donation ... | 36        |
|                                |      |                                    | <u>84</u> |

It will be seen from the above that the two cases are almost identical, and yet, under existing rules, the one officer pays 48£., and the other 157£., whilst, under the proposed method the one will pay 84£., and the other 113£.

## Class V.—Officer's age 60. Disparity 12 years.

| <i>Existing Method.</i> |       | <i>Proposed Method.</i>            |           |
|-------------------------|-------|------------------------------------|-----------|
| Disparity donation ...  | £ 144 | Ordinary marriage donation ...     | £ 24      |
|                         |       | Excess age (30 years) donation ... | 45        |
|                         |       | Additional donation ...            | 26        |
|                         |       |                                    | <u>95</u> |

Same as above, but with disparity 11 years and 11 months :

| <i>Existing Method.</i>        |      | <i>Proposed Method.</i>            |           |
|--------------------------------|------|------------------------------------|-----------|
| Ordinary marriage donation ... | £ 24 | Ordinary marriage donation ...     | £ 24      |
|                                |      | Excess age donation (30 years) ... | 45        |
|                                |      |                                    | <u>69</u> |

So that, under present rules, a difference of one month = 144£.—24£. = 120£.

Whilst under the proposed method a difference of one month = 95£.—69£. = 26£.

and in like manner, throughout, it will be seen that the inequalities so glaringly apparent in the existing tables will, under the plan I now propose, be reduced to a minimum without disturbing existing arrangements. Thus I recommend these additional donations chargeable under the conditions named for the favourable consideration of the Secretary of State for India in Council. Of course, if, at any time, it be found that irregularities still exist, there will be no difficulty in revising the tables; for the principles upon which they are constructed leave them open to revision, and to a further process of smoothing.

The result of the valuation shows the very respectable balance of 212,056£. in favour of the Fund, representing rather over 6 per cent. of the total value of the liabilities. The question now arises as to the disposal of this surplus.

May I take it as an instruction of the Secretary of State that, as regarding existing subscribers, the present favourable rate of interest, *viz.*, 4½ per cent., will not be reduced? If the Secretary of State for India in Council should so decide, a very considerable advantage will be enjoyed by the subscribers who, no doubt, will fully appreciate the concession.

On this assumption, I have calculated the effect on the balance sheet of an all round reduction of 10 per cent. on the donations and subscriptions, both contingent and potential; and, after providing for such reduction, I find I am still left with a balance in hand of 11,272£. Now, as I have valued every possible asset and liability, contingent and potential, pertaining to every subscribing member from the date at which the valuation is made to the date of death of the last surviving beneficiary, this 10 per cent. reduction may be accepted as a permanent reduction, assuming always that there will be no change in the rate of interest. But I do not consider that any permanent reduction, of whatever amount, would act fairly to the subscribers who have, by their overpayments, created the surplus, because, from the fact of its being a permanent reduction, it is spread throughout to the date of death of the last surviving subscriber, thus embracing liabilities for future wives and children.

There are of course extreme points between which the surplus could be disposed of, *viz*, a permanent 10 per cent. reduction of contribution to date of death of last surviving subscriber, and an immediate distribution of the surplus between existing subscribers, such as an increase of pensions. I feel hardly justified in recommending the latter, but a course steered between the extremes might perhaps give satisfaction. With this end in view, the surplus should, in my opinion, be so distributed as to compensate existing subscribers for past overpayments on account of existing wives and children, leaving for future consideration the scale of contributions that might *hereafter* be required when the contingent list shall have become considerably augmented by recruitment from the potential list. In this case, the reduction must be considered as a temporary measure only, *i.e.*, until such time as the surplus may be shown to be approaching extinction. As a temporary measure any reduction of contributions for existing wives and children may with perfect safety be extended to wives and children coming on between now and the date of publication of the next quinquennial valuation. Until the fund at 4½ per cent. interest be closed to future entrants, there is no reason why the present scale of contributions for future wives and children should not create a surplus proportionate to that created in the past. It follows that, until such closure, the contributions for wives and children coming on in the interval should be subject to reduction equally with those now in course of payment. When the fund is closed, or, in other words, the rate of interest reduced, then will be the time for a reconsideration of this particular point; for unmarried contributions will from that time quickly diminish for want of new entrants to the list of bachelors, but not before then. That is why I propose that the reduction calculated on the contingent contributions be allowed on all payments until the date of publication of the next quinquennial valuation.

Now, it is probable that no reduction of contributions can be effected much earlier than May or June next, and my surplus of 212,000*l.* will by then, at 4½ per cent. interest per annum payable half yearly, have accumulated to about 255,000*l.* This sum would provide for a reduction of the contributions for existing wives and children, including the subscriptions of unmarried officers, of between 23 and 24 per cent. In addition, there are the payments in excess of requirements that will have been made between the date at which this valuation is calculated (31st March 1903) and the date of its publication.

In these circumstances, I recommend, for the consideration of the Secretary of State for India in Council, a reduction on the contributions of 25 per cent. until the date of publication of the next quinquennial valuation.

#### ASSURANCE BRANCH.

As in previous years, the result of the valuation is satisfactory. The following is an abstract thereof:—

| <u>Assets.</u>           |     |          | <u>Liabilities.</u>     |     |          |
|--------------------------|-----|----------|-------------------------|-----|----------|
|                          |     | Rs.      |                         |     | Rs.      |
| Balance, 31st March 1903 | ... | 1,58,476 | Valuation of assurances | ... | 1,86,390 |
| Outstanding premiums     | ... | 38,181   | Outstanding assurances  | ... | 1,500    |
|                          |     |          | Surplus                 | ... | 8,767    |
|                          |     | <hr/>    |                         |     | <hr/>    |
|                          |     | 1,96,657 |                         |     | 1,96,657 |
|                          |     | <hr/>    |                         |     | <hr/>    |

The surplus represents about 4½ per cent. on the liabilities.

A table of additional donations on marriage according to the officer's age and to the difference of age between husband and wife in each class is hereto annexed.

On the supposition of the Secretary of State's approval of the proposed alterations, Table III, of the Regulations would be followed by Table III, A., as under:

#### Table III, A. Excess age Donations.

In addition to the marriage donations payable under Table III., the following "Excess age" donations will be chargeable according to the officer's age in each class:

Class V., 1*l.* 10*s.* for each year of age exceeding 30.

Class IV., 3*l.* for each year of age exceeding 35.

Class III, 6*l.* for each year of age exceeding 42.

Class II., 9*l.* for each year of age exceeding 48.

Class I., 12*l.* for each year of age exceeding 53.

Also the note headed "Disparity of Age" at the foot of Table III, of the Regulations would require to be altered as follows :

"Disparity of Age."

"If the age of the husband exceed that of the wife by 12 or more years, an additional donation will be required as shown in Table IV."

The existing disparity table would, of course, be of no further use.

With reference to the payment of donations in 12 monthly instalments, there appears to be some considerable waste of time in the process of adding interest each month on the unpaid instalments. This may be entirely avoided by showing in the Rules the equivalent monthly payments. The following alterations would then become necessary :

Regulation II should read :

"Donations may be paid in one sum or in 12 equal monthly instalments as per Tables III, and V. The balance of any contribution due at an officer's death will be recovered rateably from the pensions of his widow and orphans in 12 monthly instalments in India or four quarterly instalments in England."

Table III, should read as under :

Table III.—Donations of Married Officers.

| Class of Contributor. |     |     |     | On entering the service of the Government of India, or on Marriage or Re-marriage. |                                 | On promotion to a higher Class. |                                 |
|-----------------------|-----|-----|-----|--|---------------------------------|---------------------------------|---------------------------------|
|                       |     |     |     | Donation.  | Or in 12 monthly Instalments of | Donation.                       | Or in 12 monthly Instalments of |
|                       |     |     |     | £  | £ s. d.                         | £                               | £ s. d.                         |
| I                     | ... | ... | ... | 3 <sup>s</sup> 4   | 3 <sup>s</sup> 13 4             | 7 <sup>s</sup> 6                | 6 3 0                           |
| II                    | ... | ... | ... | 10 2   | 16 6 8                          | 30                              | 3 1 3                           |
| III                   | ... | ... | ... | 56   | 8 3 4                           | 24                              | 2 0 10                          |
| IV                    | ... | ... | ... | 48   | 4 1 8                           | 12                              | 1 0 5                           |
| V                     | ... | ... | ... | 24   | 2 0 10                          | —                               | —                               |

\* Up to the age of 56, increasing by 3*l.* for every year or fraction of a year beyond that age.

† Up to the age of 56, increasing by 5*s.* 1*d.* for every year or fraction of a year beyond that age.

Table V.—Donation, payable by all classes alike, on the birth of a child and, on entering the service of the Government of India, for each child then living :

|                |     |     |     | Donation. | Or by 12 monthly instalments of |
|----------------|-----|-----|-----|-----------|---------------------------------|
|                |     |     |     | £ s. d.   | £ s. d.                         |
| For a son      | ... | ... | ... | 15 0 0    | 1 5 6                           |
| For a daughter | ... | ... | ... | 24 0 0    | 2 0 10                          |

All officers who, on admission as subscribers, bring on liabilities for daughters exceeding the age of one year, are required to pay an extra donation as specified below :

|  | Between the<br>ages of | Donation. |    |    | Or by 12 monthly<br>instalments of |    |    |
|--|------------------------|-----------|----|----|------------------------------------|----|----|
|  |                        | £         | s. | d. | £                                  | s. | d. |
|  | 1 and 2                | 4         | 10 | 0  | 0                                  | 7  | 8  |
|  | 2 „ 3                  | 6         | 15 | 0  | 0                                  | 11 | 6  |
|  | 3 „ 4                  | 8         | 5  | 0  | 0                                  | 14 | 0  |
|  | 4 „ 5                  | 9         | 5  | 0  | 0                                  | 15 | 9  |
|  | 5 „ 6                  | 10        | 0  | 0  | 0                                  | 17 | 0  |
|  | 6 „ 7                  | 10        | 5  | 0  | 0                                  | 17 | 5  |
|  | 7 „ 8                  | 10        | 10 | 0  | 0                                  | 17 | 10 |
|  | 8 „ 9                  | 10        | 15 | 0  | 0                                  | 18 | 3  |
|  | 9 „ 10                 | 10        | 15 | 0  | 0                                  | 18 | 3  |
|  | 10 „ 11                | 10        | 15 | 0  | 0                                  | 18 | 3  |
|  | 11 „ 12                | 10        | 15 | 0  | 0                                  | 18 | 3  |

WILLIS BROWNE.

15th August 1906.

INDIAN MILITARY SERVICE FAMILY PENSIONS.

Valuation as at 31st March 1903.

WILLIS BROWNE.

15th August 1906.

## Enclosure No. 2.

REPORT by Mr. Stanley Day, F.I.A., dated 15th April 1907.

## Indian Military Service Family Pensions.

1. In accordance with instructions received from the Secretary of State for India in Council, dated 5th December 1906, I have carefully perused and examined Mr. Willis Browne's Report on, and Valuation of, the Assets and Liabilities of the Indian Military Service Family Pension Scheme as at the 31st March 1903.

2. I note with satisfaction, from Sir Arthur Godley's letter of 16th November 1906, that for the purposes of this valuation interest at the rate of  $4\frac{1}{2}$  per cent. per annum may be assumed instead of  $3\frac{1}{2}$  per cent. as at the last two quinquennial valuations. This makes the valuation much easier and the results more logical, as the contributions and donations for the benefits have all been calculated on a  $4\frac{1}{2}$  per cent. basis; but, while we are allowed to assume the rate of  $4\frac{1}{2}$  per cent. in the valuation for the present, it is my duty to point out that the valuation as made assumes that  $4\frac{1}{2}$  per cent. interest will be credited until the termination of the last reversionary annuity to be granted under the regulations to the widow or child of any existing subscriber. In plain language, we are looking a very long time ahead.

3. It is difficult to see how a change from  $4\frac{1}{2}$  per cent. to  $3\frac{1}{2}$  per cent. can ever be satisfactorily effected in such a scheme as we are dealing with.

The regulations provide, amongst other things,—

That the contributions shall be made as exact as possible, neither too large nor too small;

That if they are found to be insufficient, no retrospective payments shall be required;

That the benefits of the scheme are not to be at the cost of the Government; and •

That the rates of interest and exchange to be allowed are to be fixed by the Secretary of State for India in Council on consideration of the market rates of the day.

Now if the rates of contribution are raised all round sufficiently to allow of their accumulations at  $3\frac{1}{2}$  per cent. interest being equated to the benefits contemplated, there must still be the deficit on past short payments. This deficit (being really a debt) will grow at cumulative interest, and neither the Government nor the contributors can be required to set it right. To raise future contributions to such a level as would meet future benefits on a  $3\frac{1}{2}$  per cent. scale, and also pay up arrears, would not only appear to be contrary to the regulations but would place the Government in the position of demanding enforced contributions on an excessive scale.

4. I see that Mr. Willis Browne has, with one exception, adopted the rates of marriage and mortality used in the valuation of 1898, the exception being the mortality of officers contributing, where the fuller experience of the five additional years justifies the alteration. The rate of mortality of the officers contributing has, of course, a very important bearing on the scheme, and an alteration in it necessitates the recalculation of nearly all the monetary tables used. All questions of mortality in such a pension scheme as this are of great interest, but the variations of mortality tables are as nothing in their effect on the fund when compared with the effect of an alteration in the rate of interest from  $3\frac{1}{2}$  per cent. to  $4\frac{1}{2}$  per cent. or *vice versa*.

5. Mr. Willis Browne's assumptions and methods of working are sound and cautious, and I desire to express at once my general agreement with the results he has obtained.

6. The surplus shown of 212,056*l*. is indeed handsome when compared with the deficits shown on the last two investigations, but it must be remembered that these deficits were shown on the assumption of 3½ per cent. interest only.

7. The surplus arrived at is obtained after bringing into account the assets and liabilities in respect of what are known as "Potential Benefits," and while I see no reason to distrust the figures for these, I do not think that the same attention should be paid to calculations for very distant benefits (which may never come into operation at all) as to the calculations for immediate and contingent pensions.

8. I have not been content with looking at the scheme as one combined scheme for wives and children. I was anxious to see whether each branch were self-supporting, and have therefore taken out the Quinquennial Accounts of Receipts and Payments for the last 15 years, dividing them under their respective headings for wives and children. The figures in the following schedule are very instructive. They are not to be taken as absolutely accurate, but they are a close approximation.

#### INDIAN MILITARY PENSIONS.—QUINQUENNIAL REVENUE ACCOUNTS.

##### *Wives.*

| Period ... ..   | 1888-93. | 1893-98. | 1898-1903. |

9. This division between wives and children shows on the 31st March 1903 a balance of 1,053,249*l.* for wives, and 438,766*l.* for children, and if we distinguish in Mr. Willis Browne's valuation balance sheet between wives and children, allotting to each the proper proportion of expenses, amounts due, etc., we shall find that for wives there is a surplus of 336,334*l.*, while for children there is a deficiency of 124,278*l.* Deducting from the wives' surplus the children's deficiency, we have, of course, Mr. Willis Browne's net surplus of 212,056*l.*

10. The contributions for children, even on a 4½ per cent. basis, are insufficient to meet the liabilities, and seriously threaten the permanency of the scheme. Five years ago a reversion to the full rates of donation and subscription (previously reduced by 16½ per cent.) was sanctioned, but more remains to be done, and an increase of the contributions must be faced, especially if the bachelor subscribers are to enjoy with the married officers some relief by the reduction of their subscriptions.

11. These subscriptions of bachelors are of great importance to the children's section and a reference to the consolidated revenue account of the past 15 years will show that the bachelors' subscriptions are of approximately the same amount as the donations and subscriptions from the fathers.

12. A great blot in the regulations appears in requiring fathers of all ages to pay identical donations and subscriptions for their children. This will be seen to be wrong on a

moment's reflection, for not only is the cost of the reversionary pension to a newly born child greater when the father is advanced in years, but the value of the contributions at the moment of birth is also the less owing to the father's increased age.

13. The present contributions required from a father of any age are, for a male infant, a subscription (for 21 years or until the death of either) of 1*l.* 3*s.* a year and a donation of 15*l.*; and, for a female infant, a subscription of 2*l.* 18*s.* a year during their joint lives or until the daughter's marriage) and a donation of 24*l.* After making due allowance for contributions in aid from the bachelor subscribers, and retaining the same annual subscriptions as above, I find that, for a son just born, a donation of 10*l.* should be paid by a father of 25 years of age, while a donation of 38*l.* should be paid by a father of 55 years of age; for a daughter just born the donation should be 30*l.* from a father of 25 years of age, and 101*l.* from a father of 55 years of age.

14. From this it appears that, on account of sons, young fathers are required to make over-payments for the benefit of older fathers who are naturally in a better pecuniary position. For daughters, this same unsatisfactory anomaly exists, but with this modification, that no father, however young, appears to pay enough to prevent a liability being thrown on the fund by the birth of a child.

15. I append a schedule showing the donations which should be required from fathers of various ages if the present rates of subscription are retained.—

| Father's Age. | FOR SONS.                    |                   |                                   | FOR DAUGHTERS.               |                   |                                   |
|---------------|------------------------------|-------------------|-----------------------------------|------------------------------|-------------------|-----------------------------------|
|               | Present Yearly Subscription. | Present Donation. | Donation that should be required. | Present Yearly Subscription. | Present Donation. | Donation that should be required. |
| Years.        | £ s. d.                      | £                 | £                                 | £ s. d.                      | £                 | £                                 |
| 25            | 1 3 0                        | 15                | 10                                | 2 18 0                       | 24                | 30                                |

| 40            | 1 3 0                        | 15                | 16                                | 2 18 0                       | 24                | 51                                |
| 45            | 1 3 0                        | 15                | 22                                | 2 18 0                       | 24                | 65                                |
| 50            | 1 3 0                        | 15                | 28                                | 2 18 0                       | 24                | 80                                |
| 55            | 1 3 0                        | 15                | 38                                | 2 18 0                       | 24                | 101                               |

16. The old donations and subscription for sons do not appear to be far wrong in the aggregate, and if the new donations, in accordance with the father's age are charged, as above, the old subscriptions might be retained.

17. For girls I suggest that the subscriptions should be raised from 2*l.* 18*s.* to 4*l.* 2*s.* and donations charged in accordance with the father's age, as follows :—

| Father's Aged. |     | Donation. |     |     |     |    |
|----------------|-----|-----------|-----|-----|-----|----|
| Years.         |     |           |     |     |     | £  |
| 25             | ... | ...       | ... | ... | ... | 13 |
| 30             | ... | ...       | ... | ... | ... | 19 |
| 35             | ... | ...       | ... | ... | ... | 24 |
| 40             | ... | ...       | ... | ... | ... | 37 |
| 45             | ... | ...       | ... | ... | ... | 52 |
| 50             | ... | ...       | ... | ... | ... | 68 |
| 55             | ... | ...       | ... | ... | ... | 90 |

It will be noticed that at age 35 (about the average age of a father at the birth of a child) the old donation for a girl is retained.

This increase in the subscriptions for daughters seems to be convenient, as it lightens the donation to be required from young fathers.

18. I suggest that these new rates be made applicable to existing as well as to new subscriptions, and any small excess donations paid by existing subscribers may properly go towards the reduction of the deficit shown in the children's section. The new subscriptions and donations set out above are only intended to keep the fund right for the future, they will not extinguish the existing deficit. This deficit, unless taken in hand at once, must continue to grow, and to meet it recourse must be had to the surplus shown in the wives' section.

19. In the above, I have assumed  $4\frac{1}{2}$  per cent. interest, the experience of the fund as to mortality and marriage, and that the bachelors' subscriptions will provide one-third part of the cost of the pensions. Interpolation will supply the rates for intermediate ages.

20. It is interesting to note that the cost of a reversionary pension to a girl at birth is approximately three times the cost of a pension to a boy, for all ages of the father.

21. I should much like to see the "Potentials" excluded from the valuation balance sheet, and with them the values of future subscriptions from bachelors; it appears to me that with these new rates this may safely be done as long as (1) the present rate of interest is maintained; (2) the rates of marriage and mortality do not differ widely from those assumed; and (3) the contributions from bachelors are not less than one-half of the subscriptions and donations receivable year by year from the fathers.

22. In respect of wives, also, "Potentials" might be omitted with advantage so long as the rate of interest is maintained and the rates of marriage and mortality are not greatly varied.

23. Turning to the wives' section, Mr. Willis Browne's new disparity table, making allowance for difference of age between husband and wife, is undoubtedly an improvement, as is also the charge on marriage for excess of age of the husband over the average of his class.

24. On a future valuation an additional reserve should be made in respect of the disparity donations paid. The husband's age is the dominant factor in the valuation during married life, the wife's age being assumed to differ from his by not more than a certain number of years. If the difference is great a disparity donation is required on marriage, and this should be held in reserve and accumulated during their joint existences.

25. In keeping the half-yearly accounts, the donations received from married officers should be separated into marriage, promotion, disparity, and excess age donations, for the actuary's guidance.

26. I assume that the new rates of subscription and donation suggested for children will be adopted, or, at any rate, that some improvement will be made on the present ill-adjusted (and, for the girls, inadequate) contributions, otherwise there will be little justification for reducing the bachelors' subscriptions as I should desire. On this assumption, it appears to me that a reduction could be made in the subscriptions and donations of married officers, and in the subscriptions of bachelors, of 10 per cent., and, as long as the scheme is maintained on the present basis of  $4\frac{1}{2}$  per cent. interest, this reduction might be expected to be permanent, though I am aware from the regulations that all contributions

are subject to revision from time to time. I estimate that this reduction would absorb about 160,000% of the surplus shown. A further reduction of 15 per cent. of these contributions could be made for the next five years, which I estimate would cost about 74,000% ; but this further reduction must be looked upon as of a temporary nature only.

27. The cost of this relief to subscribers will therefore be about 234,000% ; and while it is in excess of the valuation surplus of 212,056% shown, it is well within the amount to which that surplus must have grown at interest since the nominal date of the valuation, *vis.*, 31st March 1903.

28. Summarising, I recommend :—

- (1) A new scale of contributions for children, with a donation in accordance with the age of the father, to take effect as soon as may be convenient.
- (2) A reduction of 25 per cent. in the annual subscriptions of husbands and bachelors, and in the promotion and marriage donations, to take effect forthwith and to continue until the publication of the next Quinquennial Report.

STANLEY DAY.

Financial (Funds) Despatch of the 17th May 1901, No. 3, published in the Gazette of India of the 22nd June 1901, ordered the reversion to the original rates of donations and subscriptions, from which a temporary reduction of 16½ per cent. had been allowed since the 1st August 1890. The original rates were reverted to from the 1st July 1901.

## DEPARTMENT OF COMMERCE AND INDUSTRY.

## NOTIFICATIONS.

## RAILWAYS.

*Simla, the 26th August, 1907.*

**No. 7235.**—In exercise of the powers conferred by section 135, clause (1) of the Indian Railways Act, 1890 (IX of 1890), the Governor General in Council is pleased to declare that the Madras Railway Company shall be liable to pay, in aid of the funds of the Coimbatore Municipality, with effect from the 1st October 1907, a tax on buildings under the provisions of section 47, clause (ii), and section 63 of the Madras District Municipalities Act, 1884 (Madras Act No. IV of 1884 as amended by Madras Act III of 1897), in respect of the railway buildings situated within the limits of the said Municipality.

## POST OFFICE.

*The 27th August, 1907.*

**No. 7263—246.**—In exercise of the power conferred by section 36, sub-section (1), of the Indian Post Office Act, 1898 (VI of 1898), the Governor General in Council is pleased to direct that the following rule shall be substituted for rule 56 of the rules published with the Notification of the Government of India in the Finance and Commerce Department, No. 1429-C.S.R., dated the 30th March 1899, as amended by the Notification in the Department of Commerce and Industry, No. 2648-C., dated the 9th June 1905:

56. The prepayment of all charges on insured foreign registered letters and parcels shall be compulsory. Payment in all cases shall be made by means of postage stamps affixed to the letters or parcels. The stamps must be placed apart from one another, so that they may not serve to conceal injuries to the cover of the letter or parcel. No label of any kind shall be affixed by the sender to the cover of a letter intended for insurance.

T., dated the 5th July 1907, and published under their notification No. 183, dated the 22nd July 1907; and of the addendum to rule II (2) (c), and amendments in rule II (6) of Appendix A to Part II, promulgated under the Railway Board's circular No. 683 R. T., dated the 19th July 1907, and published under their notification No. 185, dated the 25th July 1907, of the revised General Rules of 1906 for working open lines of railway in British India which were promulgated under the Railway Board's circular No. R. T.  $\frac{57-A}{2}$ , dated the 8th September 1906, and published under their notification No. 183, dated the 8th September 1906.

2. In the exercise of the powers conferred by the notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, read in the preamble above, the Railway Board sanction, under section 47, sub-section (4), of the Indian Railways Act, 1890 (IX of 1890), the adoption on the Assam-Bengal railway system of the amendments in, the revised Appendix B, and the addendum to, the General Rules of 1906 for working open lines of railway, cited in paragraph 1 above.

**ORDER.**—Ordered that this resolution be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3), of the Indian Railways Act, 1890 (IX of 1890), also that the amendments, the revised Appendix B, and the addendum, cited in paragraph 1, which have already been published in the *Gazette of India*, be kept at railway stations as directed by sub-section (6) of the same section, and that this resolution be communicated to the Consulting Engineer to the Government of India for Railways, Calcutta, for information.

W. OGDEN,

*Offg. Secretary, Railway Board.*

GOVERNMENT OF INDIA.  
HOME DEPARTMENT.

## SANITARY.

## PLAGUE.

*Simla, the 26th August, 1907.*

The following statement of plague seizures and deaths reported in India, during the week ending the 24th August 1907, is published for general information:

| Presidency or Province.    | Division. | Districts and States and Towns of 50,000 or more inhabitants. | Traversed by what railways.          | Plague cases. | Plague deaths. |

H. A. STUART,  
Offg. Secretary to the Government of India.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 29th August 1907, based on the Indian Daily Weather Reports of the period.**

The most important feature in the meteorological conditions during the past week was the moving of the trough of low pressure close against the Himalayas and the consequent break in the rains in the central portions of the country and in northwest India. An area of low pressure appeared over Central Burma on the 24th and on the same date the eastern end of the trough of low pressure extended over the head of the Bay: they had coalesced by the following morning and then developed into a depression of moderate intensity. This depression travelled very slowly and disappeared after moving a short distance inland. It caused moderately heavy rain in Orissa and light to moderate rain in the Central Provinces and Central India east on the 26th and 27th. Both branches of the monsoon were weak throughout the period, but on the 28th the Bay current strengthened and gave widespread rain over northeast India and the eastern half of the United Provinces.

*Burma.*—Rainfall was nearly general and heavy on the coast, and in the interior it was local except on the 23rd and 28th when rain fell only in the coast districts. Skies were moderately clouded and temperature was normal.

*Northeast India, including Orissa.*—On most days rain fell locally, but it occurred in all parts of the division during the week and was fairly widespread on the 24th, 25th and 29th. Cloud was generally thick in Chota Nagpur and Orissa, and light to moderate elsewhere, and temperature was nearly normal.

*The United Provinces, Central India and the Central Provinces.*—There was nearly general and in some parts moderately heavy rain on the 26th and 27th in the Central Provinces and on the 29th in the eastern half of the United Provinces; but during the rest of the week the rainfall that occurred in the division was light and local in character. Cloud was light to moderate in the United Provinces and moderate to heavy elsewhere. Temperature was normal except on the 26th and 27th when weather was cooler than usual in parts of the Central Provinces.

*Northwest India.*—At the commencement of the week rain was falling in parts of the Punjab, of Rajputana and of Gujarat, but it gradually decreased and from the 26th to the end of the week weather was dry in northwest India with the exception of some precipitation along the hills. Skies were lightly to moderately clouded in Rajputana and Gujarat, and cloud occasionally appeared in Kashmir and parts of the Punjab, but elsewhere skies were almost completely free from cloud. Temperature was normal or in defect, the deficiency occurring chiefly in Gujarat and the extreme north.

*The Peninsula.*—Rainfall was nearly general on the west coast, except on the 23rd, 25th and 28th and occurred locally in the north Deccan on the 26th and 27th. Skies were moderately to heavily clouded on the 26th, 27th and 28th, but during the rest of the week cloud was only light to moderate except on the west coast. Temperature was low in parts of the division on the 27th and 28th, and practically normal on the remaining days.

The rainfall of the past week was below the average over the greater part of the country especially in Bengal, the northern districts of the United Provinces, the west of the Central Provinces and the greater part of Madras. For the whole period from the 3rd May to the 29th August rainfall is 20 per cent. or more in excess in the subdivisions of Rajkot, Indore and Bijapur; is 20 per cent. or more in defect in the Himalayas and Sub-Himalayas (West), the Indo Gangetic plain (West), the East Coast (South) and the subdivisions of Burdwan, Darbhanga, Jaipur, Bellary and Madura; and differs by less than 20 per cent. from the normal in the rest of the country.

The following summarises the chief rainfall amounts of the week, as reported at 8 hrs. each day:

|              |   |
|--------------|---|
| August 23rd. | Mergui 3'90", Tavoy 6'80", Moulmein 5'54", Dehra Dun 2'85", and Sambhar 2'19".                                  |
| " 24th.      | Tavoy 6'38", Diamond Island 3'98", Jalpaiguri 3'33", Gaya 3'45", Ranchi 2'05", Sirsa 2'02" and Mount Abu 2'05". |
| " 25th.      | Gaya 2'38", Hazaribagh 2'89" and Sutna 2'33".   |
| " 26th.      | False Point 3'93", Nowgong 2'23" and Saugor 4'90".  |
| " 27th.      | Sambalpur 3'02", Dehra Dun 2'17", Pachmarhi 2'39", Simla 2'64" and Hyderabad (Deccan) 2'23".                    |
| " 28th.      | Tavoy 3'85".  |
| " 29th.      | Silchar 2'17", Darbhanga 2'48", Benares 2'58", Gorakhpur 1'25", Allahabad 1'64" and Lucknow 2'05".              |

J. PATTERSON,  
for Director-General of Observatories.

J. WILSON,  
Secretary to the Government of India.

SIMLA;  
The 29th August 1907.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

## Season and Crop Prospects for the week ending Saturday, 24th August 1907.

**Burma.**—Transplantation has been completed in Tharrawaddy. Slight damage by floods is reported from two townships of Amherst; elsewhere prospects in Lower Burma are favourable to good. Rain fell generally in Upper Burma during the week; of the precarious districts Minbu received 2 inches; Mandalay 1 inch; Shwebo  $2\frac{1}{2}$  inches; Sagaing  $1\frac{1}{2}$  inches; Meiktila and Yamethin  $1\frac{1}{2}$  inches; Magwe  $\frac{3}{4}$  inch; Lower Chindwin  $\frac{1}{2}$  inch and Myingyan  $\frac{1}{2}$  inch. In Thayetmyo sesamum is withering in parts and the cultivation of paddy is retarded, except in parts of the Kama and Allanmyo townships for want of rain. Crops in the Gangaw, Saw and Tilin townships of Pakokku are promising; but they are withering in parts of the other townships except in the canal tract. Operations are greatly retarded in Mandalay for want of rain and in parts by inundation. In Shwebo crops are withering in parts of the Kanbalu sub-division; elsewhere they are fair, but more rain is still required in the north of the district. Prospects are said to have improved in Lower Chindwin owing to the recent general and timely rain; the rainfall reported however is scanty. Crops are fading in the Sagaing township of Kyaukse for want of rain. The standing crops in Yamethin are fair but prospects are poor in Myingyan. Sesamum and cotton are withering in some parts and have failed in others. In districts not specially mentioned the prospects are good to fair. The price of paddy has fallen slightly in Tharrawaddy and Myingyan; it has risen slightly in Prome and Toungoo; elsewhere it is stationary.

**Eastern Bengal and Assam.**—The weather is hot and cloudy. There was slight to moderate rain in all districts. More rain is wanted in Mymensingh, Faridpur, the Chittagong Hill Tracts, Rajshahi, Dinajpur, Rangpur and Bogra; and in most of the plains districts of Assam. Plucking and manufacture of tea are in progress and prospects are generally fair to good, but mosquito blight is still prevalent in Cachar. Ploughing for and transplantation of winter rice and harvesting of early rice and jute are in progress. Prospects of standing crops are generally good, but late rice is being damaged by insects in parts of Dacca, Sibsagar and Lakhimpur. Gathering of potatoes in the Khasi Hills is nearly finished and the outturn is good. Prices of common rice are:—Manipur 15; Kohima 10; Chittagong 9; Comilla and Dinajpur  $8\frac{1}{2}$ ; Silchar  $8\frac{1}{2}$ ; Dacca, Bogra and Pabna  $8\frac{1}{2}$ ; Faridpur,  $8\frac{1}{2}$ ; Mymensingh, Barisal, Noakhali, Rangamati, Rampur Boalia, Jalpaiguri, Malda, Sylhet, Dhubri and Gauhati 8; Dibrugarh  $7\frac{1}{2}$ ; Rangpur, Tezpur, Nowgong, Sibsagar and Tura 7; and Shillong  $6\frac{3}{4}$  seers per rupee. Prices have risen in five; have fallen in five; and have remained stationary in the remaining districts.

**Bengal.**—General rain fell over the Province during the week; the fall was heavy in Gaya, Cuttack, Angul, Sambalpur, Ranchi, Palamau and Cooch Behar and in parts of Shahabad; moderate in Birbhum, Hooghly, Balasore, Puri, Hazaribagh and Singhbhum; and light in other districts. Transplantation of paddy has not yet been completed; it is being retarded in several districts for want of rain. Crops are suffering from absence of good rain in parts of Burdwan, Bhagalpur and Purnea. The Ganges and Sone floods have done some injury to crops in Shahabad. There have been floods in Puri and Balasore also, but the extent of the damage done has not been reported. Crops have been attacked by insects in the 24-Parganas and Nadia, but prospects are still fair. In Darbhanga the number of persons gratuitously relieved in the undeclared area is 200; and in the famine area 3,472; the number of persons on relief works is 1,572. Fodder and water are generally insufficient. The price of common rice has risen in eight and has fallen in five districts.

**United Provinces.**—Rain has fallen throughout the Provinces, but more rain is wanted in some districts. The condition of the standing crops throughout the Provinces generally is good. Sowings are being retarded by continuous rain in Etawah, but elsewhere they are nearing completion. Weeding continues and transplantation of rice is going on, except in Basti and Gorakhpur where operations are being delayed for want of more rain. Preparation of fields for spring crops is in progress. Some slight damage has been done by locusts in Dehra Dun; and by insects in parts of Ballia. Fodder is scarce and dear in Hardoi, Kheri, Unao, Rae Bareilly and Fyzabad. Supplies are adequate and prices continue stationary.

**Punjab.**—Good to moderate rain has fallen in all districts, except Multan where it has been light. Prices of food-grains are generally rising in Rawalpindi, Lyallpur and Multan; and falling in Sialkot, and Shahpur. Sowings of autumn crops and ploughings for the next spring crops continue. Weeding is in progress in Jullundur and Sialkot. The standing crops are in good to average condition. Crops are turning yellow for want of fine weather in Gurgaon and are withering in Delhi owing to high westerly winds. Locusts appeared and did slight damage to the indigo crop in parts of Multan; young locusts have been destroyed in parts of Rohtak. Rats are damaging the standing crops in Ambala,

Lahore and Sialkot. The condition of cattle is generally good. Fodder is sufficient. There are no complaints regarding the water-supply.

**North-West Frontier Province.**—Good rain has fallen throughout the Province, ranging from half inch in Peshawar, Hazara and Dera Ismail Khan to one inch in Bannu and Kohat, which has facilitated further sowing. The standing crops are in good condition. Irrigation by the Government canal in the Peshawar district was stopped from the 14th August, owing to certain dams having been washed away by heavy rain. Heavy floods have occurred in the Kurram and Tochi rivers in the Bannu district and extensive irrigation from hill torrents in the Daman tract of the Dera Ismail Khan district and from the Paharpur canal. The water-supply and fodder are sufficient. Prices of food-grains are stationary. Prices—wheat 15 to 21½; maize 21½ to 32½; gram 15½ to 23; and *bajra* 19½ to 23½ seers per rupee.

**Jammu.**—There was slight rain during the week. Prices are fluctuating. Prices—wheat 10 to 20 and maize 14 to 26 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. Land is being prepared for autumn cultivation.

**Kashmir.**—The weather is bright. Prices are almost stationary. The standing crops are in good condition.

**Rajputana.**—The rainfall was general throughout Rajputana; the chief falls were:—2 inches 19 cents in Bikaner; 5 inches 31 cents in Marwar; 1 inch 87 cents at Jaisalmer; 11 inches 33 cents at Sirohi; 1 inch 21 cents in Mewar; 1 inch 85 cents in the hill tracts of Mewar; 3 inches 78 cents in Dungarpur; 1 inch 74 cents in Partabgarh; 1 inch 17 cents in Bundi; 4 inches 78 cents in Tonk; 6 inches 43 cents in Shahpura; 1 inch 65 cents at Kotah; 1 inch 34 cents at Jhalrapatan city; 2 inches 30 cents in Jaipur; 1 inch 27 cents in Kishangarh; 1 inch 5 cents in Alwar; 70 cents in Karauli; 83 cents at Bharatpur; 64 cents in Dholpur; 4 inches 4 cents in Ajmer and 3 inches 62 cents in Merwara. The crops in Marwar, Mewar, Partabgarh, Dungarpur, parts of Jaipur and Kishangarh and in certain localities in Ajmer-Merwara have been damaged by heavy rains. Owing to excessive rainfall, agricultural operations are at a stand-still in places in Kotah and Jhalawar. In the Ajmer district a break in the rains is urgently needed to save the autumn crops. Young locusts appeared in Marwar but are being destroyed. Cattle are generally in good condition except in parts of Mewar. Fodder is sufficient. Prices are practically steady throughout.

**Central India.**—There was general rain during the week. Sowings are completed in Bhopawar; are retarded in Bundelkhand; and are in progress elsewhere. Weeding is in progress in parts of Indore, Bhopal, Malwa and Bhopawar. Agricultural stock and pasture are fair to good. Prices are high in Bhopal and Baghelkhand; and are steady elsewhere. The condition of the crops is good in most parts and fair elsewhere.

**Central Provinces.**—Moderately heavy rain fell during the week in Hoshangabad, Balaghat, Bilaspur and the Vindhyan districts; in the remaining districts the rainfall ranged from 3½ inches in Narsinghpur to 35 cents in Amraoti. A break in the rains is needed now. Sowings of autumn crops have been completed all over the Provinces except in parts of Damoh, Nimar, Chanda and Narsinghpur where operations are retarded owing to continuous rain. Some resowing of *til* and *juar* in Saugor and Yeotmal respectively, is also in progress. Weeding is in full swing. Thinning and transplantation in rice districts are approaching completion. Preparation of land for spring sowings continues in the districts of Berar, Saugor and Betul. Excessive rain has slightly damaged the *til*, cotton and *juar* crops in parts of the Vindhyan districts, Berar, Chhindwara, Wardha and Chanda. Fodder and water are adequate. The standing crops are in good condition and prospects continue generally favourable. Prices of food-grains have fluctuated slightly in seven districts and remained stationary elsewhere.

**Native States.**—Raj-Nandgaon and Sakti each had 6 inches of rain; Raigarh and Sarangarh each 4; Kanker 2½; Sirguja 2½; Chhuikhadan and Khairagarh each 1½ inches; and Kawardha 65 cents. Sowing of autumn crops is still in progress in some places. Preparation of land for spring sowings and weeding, thinning and transplantation in rice tracts are progressing rapidly. Germination of cotton is reported defective in Raj-Nandgaon owing to excessive rain; the standing crops elsewhere are in good condition. Prospects are generally favourable. Fodder and water are sufficient. Wheat became dearer in Sarangarh and rice cheaper in Raigarh and Sarangarh by 2 seers.

**Bombay.**—Heavy rain fell during the week in parts of Gujarat, Nasik, Poona, Satara, Baroda, Palanpur, Cutch, Mahi Kantha and Rewa Kantha; and good rain in other districts, except in parts of the Karnatak where more rain is needed. Inundation in Sind is still low but prospects are generally satisfactory. Autumn sowings have been retarded in parts of Gujarat and Cutch owing to excessive rain; they have been completed in Kanara, East Khandesh and Sholapur; and continue elsewhere. Transplantation is progressing in parts of Sind, Gujarat, the Konkan, Nasik, Poona and Baroda. Seedlings have been damaged by excessive rain in parts of Gujarat, Nasik, Poona, Satara, Baroda, Palanpur, Cutch, Mahi Kantha and Rewa Kantha; by crabs or rats in parts of Karachi; and by insects in parts of the Upper Sind Frontier. The fodder-supply is generally adequate. Agricultural stock is in good condition. Drinking water is sufficient. The supply of water for irrigation is sufficient except in parts of Nasik and Bijapur. The quantity of food-grains purchasable per rupee is in the Karnatak 22 to 33 per cent; in the Deccan 2 to 25 per cent; and elsewhere 14 to 36 per cent less than the normal. During the week ending the 17th August 27 persons were relieved gratuitously in Belgaum.

**Hyderabad.**—The rainfall during the week was 35 cents. Prospects continue good. More rain is required in parts of the Mahbubnagar and Raichur districts. Autumn and early rice crops are being weeded and early rice sowings continue in parts. Lands are being prepared for spring cultivation. Prices:—wheat 7½; coarse rice 7½; and *juar* 16 seers per rupee.

**Mysore.**—There was good rain in Kadur and Shimoga; and slight rain elsewhere. Prices of food-grains are steady. The standing crops are in good condition but more rain is generally needed. Prospects of the season are good. Cattle are healthy. Water and fodder are available.

**Coorg.**—Transplanting of rice continues. Prices of food-grains are normal. Water and fodder are sufficient.

**Madras.**—The rainfall was very heavy in South Canara and Malabar; heavy in the Vizagapatam Agency; good in South Arcot, the Nilgiris and Ganjam; *nil* in Kurnool and Nellore; and light to fair elsewhere. Irrigation supplies are sufficient, except in parts of Ganjam, Vizagapatam, the Deccan, the Carnatic, North Arcot, Salem, Madura and Tinnevely. Ploughing, sowing, weeding and transplanting are in progress. The standing crops are generally fair but some in parts of Godavari and Malabar have been damaged by heavy rain; and some in parts of Guntur, Cuddapah, North Arcot, Coimbatore, Madura and Tinnevely require more rain. Harvests are proceeding except in Godavari, Guntur, Kurnool, Tanjore, Malabar and South Kanara with outturn poor to normal. Pasture is sufficient except in parts of Guntur, Bellary, Nellore, Madura and Tinnevely. Fodder is scanty in parts of Godavari. The condition of cattle is generally good. The price of rice is stationary in seventeen districts; has fallen in two, and has slightly risen in four. The prices of millets have fluctuated as follows:—*Ragi* is stationary in thirteen districts; has fallen in four; and has slightly risen in four. *Cholam* is stationary in one district; has fallen in four; and has slightly risen in nine. *Cumbu* is stationary in four districts; has fallen in six; and has slightly risen in five.

The number of persons in receipt of relief during the preceding and present weeks in each province is shown in the following table:

| Name of province.           | PRECEDING WEEK. (REVISED FIGURES.) |                    |        | PRESENT WEEK. |                    |        | Increase or decrease. |

CIVIL WORKS.

Irrigation.

Simla, the 15th August 1907.

### Review of Irrigation in India in 1905-06.

READ—

NOTE by W. F. O'Donoghue, Esq., Accountant General, Public Works Department, upon the accounts of Revenue and Expenditure of Irrigation Works in India for 1905-06.

Provincial Revenue and Administration Reports of Irrigation Works for 1905-06.

Irrigation Works are divided into two main classes—Major and Minor Works—the former being sub-divided into (I) Productive and (II) Protective Works. Capital and Revenue Accounts are kept for all Major Works and the revenue due to them, whether directly in the form of water-rates and miscellaneous receipts, or, indirectly, on account of enhancements of land revenue due to irrigation, is shown in the Annual Finance Accounts.

#### A—MAJOR WORKS.

##### *I.—Productive Works.*

2. The most important irrigation works in India are those classed as Productive Works, or works the capital cost of which has been wholly or mainly provided from loan funds in the expectation that they would prove directly remunerative, and that the net revenue derived from them would fully cover all charges for interest within a reasonable time after their completion. This expectation is never likely to be realized in respect of any of the four works constructed in Bengal, of the seven in Bombay (Deccan and Gujarat) and of the Kurnool-Cuddapah Canal and Barur Tank in Madras. The capital outlay recorded against these thirteen works to the end of the year under review amounted to Rs. 9,82,93,196, on which the net revenue realised during the year yielded a return of 1.53 per cent. compared with 1.32, 0.81, and 0.80, the averages of the past three triennia; the interest charges to the end of the year exceeded the net revenue by Rs. 9,94,90,980, the excess for the year being Rs. 23,27,532; and the area irrigated by these works during the year was 911,728 acres.

3. These unfavourable financial results are, however, more than counter-balanced by those attained on the 28 remaining productive works now in operation, the net revenue on which during the year was equivalent to a return of 9.36 per cent. on the capital outlay. The general financial results of all the works of this class are shown separately by provinces in the following statement. The totals are brought into comparison with those of the two previous years.

*Financial results of Productive Works in operation.*

| Province.                                | Number of works. | Area irrigated. | Capital outlay to end of 1905-06. | Net revenue in 1905-06. | Percentage of net revenue on capital outlay. |
|--|------------------|-----------------|-----------------------------------|-------------------------|--|
| <i>Irrigation.</i>                       |                  | Acres.          | Rs.                               | Rs.                     |  |

| 1904-05 ... ..                           | 41               | 12,616,767      | 38,95,91,897                      | 2,95,99,182             | 7.60   |
| 1903-04 ... ..                           | 41               | 12,989,801      | 38,19,40,850                      | 2,85,71,105             | 7.42   |

\*Hijli Tidal Canal, which is a purely navigation work.

†Part of the works in the Punjab.

Of the increase of Rs. 33,02,135 in the capital outlay as compared with 1904-05, Rs. 13,63,373 was spent in the Punjab, Rs. 9,84,601 in the United Provinces, Rs. 7,74,067 in Madras, and the balance in the other provinces.

The net revenue in the Punjab was less than that of the preceding year by Rs. 12,76,559 and was due to the heavy remissions granted on account of the failure of the cotton crop in that Province. In the United Provinces also there was a falling off of Rs. 13,63,075 in the net revenue, due to a serious reduction in the area under sugarcane in consequence of the extensive damage done to the cane seed by the severe frosts in March 1905. Owing, however, to a very material improvement in the revenue realised in the other provinces, the total net revenue is only Rs. 10,37,860 less than that of the preceding year.

4 The irrigated area has been the largest recorded, the increase compared with the preceding year being over two million acres. The steady increase of the area irrigated by the Productive Works in the several provinces is shown in the following table, in which the areas for the year under consideration are compared with those of 1904-05 and the averages of the last three triennia, i.e., 1904-05 to 1896-97. Every province shows a marked increase with the exception of Bombay and Burma, in which provinces there was a very slight decrease as compared with 1904-05 only.

### Productive Major Works.

\* Lower Sohag and Para only.

† Transferred from Minor Works in 1903-04.

The areas irrigated by the Western Jumna, Upper Bari Doab, and Lower Jhelum canals were the largest on record. Taken collectively also, the area irrigated by the productive works in the Punjab was the largest yet recorded.

The percentages of net revenue on capital outlay for the year are compared in the following statement with those of 1904-05 and of the three triennia, 1904-05 to 1896-97 :

| Name of Canal.  | PERCENTAGE. |          |                           |                             |                           |
|---|-------------|----------|---------------------------|-----------------------------|---------------------------|

\* Lower Sohag and Para only.

† Transferred from Minor Works in 1903-04.

The Lower Jhelum canal, on which there had been an annual loss in working since it was opened in 1901-02, earned for the first time in the year under review a net revenue of Rs. 1,62,274, equivalent to 1.09 per cent. on the capital outlay. Had it not been for the heavy remissions granted during the year on account of the destruction of the cotton crops by the boll-worm the net revenue would have amounted to Rs. 4,73,094 or 3.2 per cent. on the capital outlay. This canal is not yet fully completed and its irrigation has not reached its normal development.

The total net revenue of the Productive Works in the Punjab fell from Rs. 1,33,72,729 in 1904-05 to Rs. 1,20,96,170 in the year under review, which represents a return of 10.98 per cent. on the capital outlay, the decrease being principally due to the remissions of revenue on account of the failure of cotton crop. In spite of these remissions the Western Jumna canal paid 9.62 per cent. on its capital outlay and the Upper Bari Doab 11.29 per cent. The most remunerative work in the Punjab is, however, the Lower Chenab canal on which the net revenue realised represented a return of 20.79 per cent. against 24.48 per cent. in 1904-05. This canal has still to show developments due to recent extensions and the ultimate percentage of profit has not yet been reached.

6. In the United Provinces of Agra and Oudh the areas irrigated are as below :

| Name of Canal.                              | AREA IRRIGATED.    |                    |                           |                             |                           |
|---|--------------------|--------------------|---------------------------|-----------------------------|---------------------------|

| Lower Ganges, including<br>Fatehpur Branch. | 1,151,644          | 627,925            | 794,548                   | 732,136                     | 871,130                   |
| Agra ... ..                                 | 343,599            | 185,297            | 227,309                   | 238,414                     | 214,442                   |
| Eastern Jumna...                            | 369,930            | 277,543            | 288,933                   | 306,733                     | 307,432                   |
| Total ... ..                                | 3,234,566          | 1,909,316          | 2,200,145                 | 2,308,119                   | 2,359,290                 |

Collectively as well as individually the area irrigated by these works was the highest ever recorded. The net revenue, however, from these canals was less than that of the preceding year by Rs. 13,63,075, and represented a return of 5·95 against 7·58, 7·17, and 7·41 per cent., respectively, in 1904-05, 1903-04, and 1902-03.

The relative percentages of profit compared with those of 1904-05 and the past three triennia are given in the following table :—

| Name of Canal.          | PERCENTAGE. |          |                           |                             |                           |
|-------------------------|-------------|----------|---------------------------|-----------------------------|---------------------------|
|                         | 1905-06.    | 1904-05. | AVERAGE OF TRIENNium.     |                             |                           |
|                         |             |          | 1902-03<br>to<br>1904-05. | 1899-1900<br>to<br>1901-02. | 1896-97<br>to<br>1898-99. |
| Ganges Canal ... ..     | 7·99        | 9·63     | 10·01                     | 10·26                       | 9·84                      |
| Lower Ganges Canal ...  | 4·13        | 4·66     | 4·10                      | 3·55                        | 5·01                      |
| Agra Canal ... ..       | 2·02        | 5·75     | 5·79                      | 5·52                        | 6·06                      |
| Eastern Jumna Canal ... | 18·53       | 22·82    | 23·18                     | 25·31                       | 29·66                     |

As in other years, the highest percentage was yielded by the Eastern Jumna Canal, which is the most remunerative work in the United Provinces.

7. The following statement shows the area irrigated in the Madras Presidency in 1905-06, compared with that of the previous year and the averages of the past three triennia :

| Name of Canal.          | AREA IRRIGATED.    |                    |                           |                             |                           |

The area irrigated in the year under review exceeded all previous records.

The percentage of net revenue on the capital outlay was 9.46 compared with 8.79 in 1904-05 and 8.18 in 1903-04.

The percentages of net revenue on capital outlay of the different systems for the year compared with the previous year and the past three triennia are—

| Name of Canal.       | PERCENTAGE. |          |                           |                             |                           |

| Periyar ...          | 4.06        | 4.08     | 3.86                      | 3.25                        | ...                       |

The most unremunerative works in the province are the Kurnool-Cuddapah Canal and the Barur Tank, and it is not expected that they will ever become remunerative. A steady improvement is noticeable in the case of the Periyar Project, and it is anticipated that its return will still further improve when the distributing works are completed.

The net revenue on the Penner River Canals was 5·14 per cent. on the capital outlay compared with 0·13 per cent. in 1904-05, the increase being due to the large decrease under remissions. The highest percentages were yielded by the Cauvery and the Godavari Delta systems which are the most remunerative works in the Madras Presidency. The accumulated net revenue of all the Productive Works in the province up to the end of the year under review after paying off the interest charges amounted to Rs. 9,00,14,043 against the capital outlay of Rs. 7,26,40,205 incurred on those works.

8. For the canals in Sind the figures are :

| Name of Canal.      | AREA IRRIGATED.    |                    |                           |                             |                           |
|---------------------|--------------------|--------------------|---------------------------|-----------------------------|---------------------------|

| Nasrat ... ..       | 98,735             | 77,033             | 43,035                    | Nil.                        | Nil.                      |
| Total ... ..        | 1,393,932          | 1,201,889          | 1,178,932                 | 912,594                     | 690,835                   |

The total area irrigated was the largest on record.

The net revenue from these canals amounted to Rs. 19,41,965 against Rs. 13,03,352 in the preceding year and was equivalent to a return of 7·66 per cent. on the capital outlay compared with a return of between 5 and 6 per cent. in the four previous years. There was a loss in working of Rs. 43,677 on the Mahiwah Project against a net revenue of Rs. 41,936 in the previous year. The net revenue on the Nasrat Canal was Rs. 73,883 against Rs. 11,471 in 1904-05 and Rs. 54,079 in 1903-04, in which latter year the canal was brought into operation.

Percentage returns on capital outlay are :

| Name of Canal.      | PERCENTAGE. |          |                           |                             |                           |
|---------------------|-------------|----------|---------------------------|-----------------------------|---------------------------|
|                     | 1905-06.    | 1904-05. | AVERAGE OF TRIENNium.     |                             |                           |
|                     |             |          | 1902-03<br>to<br>1904-05. | 1899-1900<br>to<br>1901-02. | 1896-97<br>to<br>1898-99. |
| Jamrao ... ..       | 7.22        | 3.85     | 4.25                      | 2.46                        | ...                       |
| Desert ... ..       | 8.68        | 7.17     | 4.71                      | 7.08                        | 5.45                      |
| Unharwah ... ..     | 19.69       | 9.54     | 11.07                     | 17.96                       | 16.47                     |
| Begari ... ..       | 22.13       | 17.23    | 17.13                     | 21.00                       | 17.51                     |
| Eastern Nara ... .. | 8.60        | 6.26     | 6.61                      | 7.32                        | 6.68                      |

As will be seen from the above table, the highest percentages were obtained in the year under review as compared with the previous year and the last three triennia.

9. In Bombay (Deccan and Gujarat), there was a satisfactory improvement in the return on the capital expenditure, which was 3 per cent. compared with 1.87 per cent. in 1904-05 and with 2.06, 1.84, and 1.69 for the three triennia 1904-05 to 1896-97. The works are small compared with those of other provinces; the extent of the area irrigated by them continues steady with slight variations.

10. In Bengal, the areas irrigated are as follows —

| Name of Canal.  | AREA IRRIGATED     |                    |                           |                             |                           |
|-----------------|--------------------|--------------------|---------------------------|-----------------------------|---------------------------|
|                 | During<br>1905-06. | During<br>1904-05. | AVERAGE OF TRIENNium.     |                             |                           |
|                 |                    |                    | 1902-03<br>to<br>1904-05. | 1899-1900<br>to<br>1901-02. | 1896-97<br>to<br>1898-99. |
|                 | Aeres.             | Aeres.             | Aeres.                    | Aeres.                      | Aeres.                    |
| Sono ... ..     | 502,817            | 492,265            | 493,878                   | 481,333                     | 476,466                   |
| Midnapur ... .. | 71,268             | 85,892             | 88,938                    | 78,190                      | 71,322                    |
| Orissa ... ..   | 235,123            | 222,070            | 219,076                   | 201,955                     | 191,832                   |
| Total ... ..    | 812,208            | 800,227            | 801,862                   | 761,478                     | 739,620                   |

The percentage of net revenue on capital outlay on the Hijili Canal, which is a purely navigation channel, was 0.87 compared with —0.17 in 1904-05 and 0.22, 0.53 and 1.62, the averages of the past three triennia. The navigation receipts on the Bengal canals have suffered from the competition of the railways.

11. In Burma the Mandalay Canal, which was opened in 1902-03, yielded a net revenue of Rs. 1,14,076 against Rs. 12,221 in 1904-05.

12. In addition to the 41 Productive Works now in operation, nine new works were under construction during the year, *viz.*, the Shwebo, Mon,

and Y-eu Canals in Upper Burma, the Naulakhi Canal in Sind, the Upper Chenab and Upper Jhelum Canals in the Punjab, the Paharpur Inundation Canal in the North-West Frontier Province, and the Nagavalli River project and Divi Island Pumping project in the Madras Presidency. The total outlay on these works to the end of the year (excluding interest charges) amounted to Rs. 1,00,10,352, of which Rs. 55,82,652 were expended during the year. In addition, Rs. 32,98,713 were spent on works now in operation, principally on extensions or improvements which are likely to prove remunerative and to increase the efficiency of the systems. The total capital expenditure on irrigation works during the year, therefore, amounted to Rs. 88,81,365 against Rs. 57,41,839 in the previous year.

No capital expenditure was incurred during the year on navigation works.

### II.—Protective Works.

13. Protective irrigation works are those which have been sanctioned in consideration of their value as famine protective works, but without any expectation of their becoming directly remunerative. The cost of their construction has been met from the Famine Insurance Grant. There are at present six of these works in operation, particulars of which are shown in the statement below :

#### *Financial results of Protective Works in operation.*

The Lower Swat River Canal, although sanctioned as a protective work, has proved a highly remunerative one and has, therefore, been transferred to the class of Productive Public Works with effect from 1st April 1906. The remaining five works are not likely to prove remunerative. The Betwa Canal, which has so far only paid its working expenses in the years 1897-98 and 1898-99 in which the net revenue was Rs. 22,876 and Rs. 477, respectively, has, in 1903-04, in 1904-05, and in the year under review, earned a net revenue of Rs. 25,568, Rs. 41,048, and Rs. 52,006, respectively, a result which is due to certain improvements made in its distributary system. The construction of

an additional reservoir, which was sanctioned by the Government of India in April 1904, will provide additional storage for 1,481 million cubic feet of water, which, it is anticipated, will make the canal more remunerative. The area irrigated by this canal in the year under review was higher than that of any other year.

The Rushikulya project irrigated 102,244 acres and yielded a net revenue of Rs. 57,641 against an area of irrigation of 96,274 acres and a net revenue of Rs. 37,110 in 1904-05.

On the Nira Canal, notwithstanding the decrease in the area irrigated from 48,822 acres in 1904-05 to 36,912 acres, the net revenue was Rs. 87,321 against Rs. 45,350 in 1904-05. This increase was due to water-rates being charged for 12 months over the greater part of the cane area, while rates for short periods only were charged in the preceding year on account of damage by locusts.

The area irrigated during the year exceeded that of the previous year as well as the averages of the past three triennia, as is shown by the following statement :

*Protective Works.*

| Total 1905-06 ...             | 15,162,440      | 45,50,54,102              | 30·0                             | 3·5  | 1·1  | 32·8   |
| „ 1904-05 ...                 | 13,050,590      | 36,51,74,650              | 28·0                             | 3·6  | 1·2  | 31·5   |
| „ 1903-04 ...                 | 13,373,791      | 35,61,70,380              | 26·6                             | 3·5  | 1·1  | 30·6   |

The total irrigated area exceeded that of the previous year by more than two million acres, and the estimated value of crops was higher than that of 1904-05 by about nine crores of rupees; in other respects, compared with the year 1904-05, the general results are almost identical, but there are considerable variations in some of the provinces, the most important of which are noted below.

In respect of the average value of the crops, the United Provinces have increased from Rs. 34·4 per acre, owing principally to increase in the value of sugar and wheat, Madras from Rs. 26·5 on account of increase in the price of rice, Sind from Rs. 19·1 owing to a general increase in the value of the outturn, and Bombay from Rs. 82 per acre on account of higher prices for sugar. Punjab Imperial has decreased from Rs. 27·1, Punjab Native States from Rs. 25·6, and Bengal from Rs. 32.

In Bombay the assessment has increased from Rs. 5·8 per acre owing principally to increase of sugarcane cultivation on the Nira and Mutha Canals.

There has been an increase in the working expenses in Bombay and Burma in the year under review as compared with the previous year.

There is a remarkable agreement between the percentage of working expenses on gross revenue and the acreage rates of revenue and working expenses in the case of the North-West Frontier Province, Punjab Imperial, Madras, Sind and Burma.

15. Fifteen Protective irrigation reservoirs were under construction in the Central Provinces and Rs. 17,67,724 was the total sum spent to the end of the year.

B.—MINOR WORKS.

III.—Works for which Capital and Revenue Accounts are kept.

16. All expenditure incurred in the construction and development of minor irrigation works is met from revenue. These works are treated wholly as provincial in all provinces except Sind, Bombay, Baluchistan, Rajputana, North-West Frontier Province and the Punjab, in which all but a few works are Imperial. Capital and Revenue Accounts are kept for 89 of the larger and more important minor works, and the financial results attained during the year under review are shown in the following statement:

*Financial results of Minor Works in operation for which Capital and Revenue Accounts are kept.*

| Province.                     | Number of works.* | Area irrigated. | Capital outlay to end of 1905-06. | Net revenue in 1905-06. | Percentage of net revenue on capital outlay. | Rate of revenue assessed per acre. |

\* Includes works under construction.

17. The capital outlay during the year on these Minor works amounted to Rs. 19,71,503. The expenditure in the North-West Frontier Province was Rs. 2,69,194; in the United Provinces, Rs. 2,19,872; in Madras, Rs. 3,83,944; in Deccan and Gujarat, Rs. 2,07,001; in Sind, Rs. 2,22,257; in Rajputana, Rs. 77,185; in Baluchistan, Rs. 10,859; and in Bengal, Rs. 5,81,161. There was no expenditure in the Punjab and Burma.

18. Comparison of the area irrigated during the year and the preceding year and the average of three previous triennia gives :

| Province.                    | AREA IRRIGATED.    |                    |                           |                             |                           |

| GRAND TOTAL ...              | 2,142,178          | 1,987,990          | 2,148,915                 | 2,531,417                   | 2,685,034                 |

The gradual reduction in the area irrigated in the past three triennia is due mainly to the transfer of the Lower Sutlej and Chenab Inundation Canals in 1900-01, from Minor Works for which Capital and Revenue Accounts are kept to Minor Works for which only Revenue Accounts are kept, and of the Upper Sutlej Inundation Canals in 1902-03 and of the Indus Inundation Canals in 1903-04 to Productive Works. In comparison with the previous year, however, there was an increase of 151,188 acres in the year under review.

The total net revenue from the Irrigation Works amounted to Rs. 27,87,516 during the year under review, against Rs. 28,07,281 in 1904-05, and Rs. 31,26,421 in 1903-04, the percentage on capital outlay being 6·96, 7·27, and 8·46, respectively, in the three years referred to. The decrease in 1905-06, as compared with the preceding year, was due to a falling off in net revenue in all the provinces except Bombay (Deccan and Gujarat and Sind).

In the North-West Frontier Province, the net revenue, from the Kabul River Canal fell from 14.10 per cent. on the Capital outlay in 1904-05 to 5.76 per cent. in 1905-06, the decrease being due to increased working expenses and to the increase in the Capital Account owing to the construction of the Hazar Khani Branch.

In the Punjab the loss in working amounted to Rs. 8,054 against a net revenue of Rs. 49 in 1904-05.

In the case of the United Provinces the net revenue was 0.90 per cent., compared with 3.73 in 1904-05 and 3.18, 3.23, and 5.61, the averages of the three triennia, 1904-05 to 1893-97.

Rajputana gave a return of 1.53 per cent. against 3.35 in 1904-05 and 2.14—1.37, and 3.06, averages of the three triennia, 1904-05 to 1893-97.

The works in Bombay earned a net revenue of Rs. 46,319 against Rs. 39,517 in 1904-05 and Rs. 64,557 in 1903-04.

In Sind the net revenue amounted to Rs. 12,14,100 or 25.42 per cent. on the Capital outlay against 19.48 per cent. in 1904-05. One of the works, namely, the Ghar Canal, paid a return of 103.03 per cent. on the Capital outlay during the year under review, and two others, the Marak Great and Fuleli Canals, 27.22 and 22.80 per cent., respectively.

In Baluchistan, against Rs. 20,712 in 1903-04, and Rs. 46,852 in 1904-05, the net revenue in the year under review amounted to Rs. 34,557.

The working expenses exceeded the gross revenue in Bengal by Rs. 3,172.

The area shown in Burma is not under irrigation, but represents the area of cultivation on lands reclaimed by river flood embankments, the revenue of which is credited to the Capital Account of the works. This area in 1905-06 was less than that of 1904-05 by 3,572 acres.

#### *IV.—Works for which only Revenue Accounts are kept.*

19. There are numerous Minor Works for which separate Capital Accounts are not kept, either because the works are too small, or because they have not been constructed by the British Government, which has simply undertaken their improvement and maintenance. For such works only Revenue Accounts are maintained; they are credited with a share of the land revenue depending on their maintenance, and are debited with all expenditure incurred on construction, extension, improvements, and maintenance. Particulars for the year 1905-06 are shown by provinces in the statement below:

#### *Financial Results of Minor Works for which only Revenue Accounts are kept.*

| Province                      | Area irrigated. | Revenue receipts. | Charges.  | Net revenue. |
|-------------------------------|-----------------|-------------------|-----------|--------------|
|                               | Acres.          | Rs.               | Rs.       | Rs.          |
| Burma ... ..                  | 450,132         | 13,82,305         | 10,79,264 | 3,03,041     |
| Bengal ... ..                 | ...             | 1,07,184          | 1,32,679  | —25,495      |
| Punjab ... ..                 | 702,190         | 13,56,221         | 9,34,851  | 4,21,373     |
| Bombay, including Sind        | 1,164,129       | 29,65,820         | 11,46,813 | 18,19,007    |
| North-West Frontier Province. | ...             | ...               | 3,306     | —3,306       |
| Total 1905-06 ...             | 2,317,051       | 58,11,533         | 32,96,913 | 25,14,620    |
| „ 1904-05 ...                 | 2,075,135       | 54,12,282         | 35,42,389 | 18,69,893    |
| „ 1903-04 ...                 | 2,293,991       | 54,23,360         | 33,39,104 | 20,83,956    |

The improvement in net revenue is very satisfactory.

*V.—Works for which neither Capital nor Revenue Accounts are kept.*

20. There is a third important class of Minor Works in the Madras Presidency for which neither Capital nor Revenue Accounts are kept. These include over 28,000 tanks and 6,000 irrigation channels, the improvements and repairs of which are executed by the Public Works Department, or, in the case of the smaller works, by civil officers: the expenditure during 1905-06 amounted to Rs. 29,25,383, of which about one-fifth was spent by civil officers. The areas charged as irrigated by these small works in 1905-06 aggregated 3,303,579 acres, or more than the area irrigated by all the Major Works in the Presidency taken together, compared with 2,938,076 acres in 1904-05 and 3,323,141, 3,111,902, and 3,114,652 acres, averages of the triennia 1904-05 to 1896-97. The revenue derived therefrom amounted to Rs. 83,15,977 compared with Rs. 64,85,078 in 1904-05, the increase being due to the favourable character of the season.

21. The following table summarizes the results of irrigation for all India during 1905-06 and compares them with those of the two previous years:

*Financial and Irrigational Results of Irrigation Works in operation in India.*

| Class of work.  | Capital outlay to end of year on works in operation. | Gross revenue during the year. | Net revenue during the year. | Percentage of net revenue on capital outlay to end of year. | Area irrigated. |
|---|--|--------------------------------|------------------------------|---|-----------------|
|   | Rs.  | Rs.                            | Rs.                          | Per cent.   | Acres.          |
| I and II.—Major Works. } I.—Productive }<br>} II.—Protective }    | 11,60,10,166   | 1,12,39,161                    | 2,91,61,551                  | 7.01  | 15,162,140      |
| III.—Minor Works for which Capital and Revenue Accounts are kept. | 6,24,69,309  | 19,83,188                      | 28,27,517                    | 4.53  | 2,139,154       |
| IV.—Minor Works for which only Revenue Accounts are kept.         | ...  | 58,11,533                      | 25,14,620                    | ...   | 2,317,051       |
| V.—Works for which neither Capital nor Revenue Accounts are kept. | ...  | 81,85,513                      | 38,96,012                    | ...   | 3,369,118       |
| Total 1905-06   | 47,81,79,766   | 6,35,19,698                    | 3,81,02,730                  | (a) 6.69  | 22,988,062      |
| „ 1904-05   | 17,25,78,389   | 6,15,07,128                    | 3,71,73,034                  | (a) 7.01  | 20,107,510      |
| „ 1903-04   | 16,53,80,970   | 6,35,53,007                    | 4,02,65,830                  | (a) 6.97  | 21,596,670      |

(a) Percentages calculated on works of classes I, II, and III.

The total area was nearly 23 million acres, while the value of the crops raised by the works for which capital accounts are kept is estimated at Rs. 51·6 crores, or nearly 108 per cent. of the capital outlay expended on them.

**ORDER.**—Ordered that this Review, with a copy of the note by the Accountant

The Governments of Madras, Bombay, Bengal, the United Provinces of Agra and Oudh, the Punjab, Burma and Eastern Bengal and Assam.

The Honourable the Chief Commissioner of the Central Provinces.

The Chief Commissioner of Coorg.

The Honourable the Resident at Hyderabad.

The Honourable the Agents to the Governor-General for Central India, Rajputana and Baluchistan.

The Honourable the Agent to the Governor-General and Chief Commissioner, North-West Frontier Province.

The Accountant General, Public Works Department.

General, Public Works Department, be forwarded to the Finance and Revenue and Agricultural Departments and to the Local Governments and Administrations in the

Public Works Department noted on the margin, for information.

Ordered, also, that the Review and the note be published in the Supplement to the *Gazette of India*.

Ordered, further, that a copy of the Review and note be forwarded to His Majesty's Secretary of State for India, for information.

L. M. JACOB,

Secretary to the Government of India.

No. 7213—7217—24.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

MERCHANT SHIPPING.

*Simla, the 26th August 1907.*

**RESOLUTION—**By the Government of India, Department of Commerce and Industry.

A question having arisen as to the correct interpretation of the existing entries relating to the supply of fish, meat and vegetables, in the daily scale of provisions for lascars and other native seamen serving on foreign-going ships, prescribed in the form of agreement for the engagement of such seamen in India, as notified in Resolution No. 1096-S.R., dated 25th February 1903 of the Government of India in the Department of Finance and Commerce, the Governor General in Council is pleased to direct under section 27 (1) of the Indian Merchant Shipping Act, 1883 (V of 1883), that for the entries in question, the following shall be substituted, namely :

DAILY SCALE OF PROVISIONS FOR LASCARS AND OTHER NATIVE SEAMEN.

|   |   |   |   |   |   | SCALE. |      |      |
|---|---|---|---|---|---|--------|------|------|
|   |   |   |   |   |   | lb     | ozs. | drs. |
| (a) For Home-trade Ships—                       |   |   |   |   |   |        |      |      |
| *   | * | * | * | * | * |        |      |      |
| (b) For Foreign-going Ships—                    |   |   |   |   |   |        |      |      |
| *   | * | * | * | * | * |        |      |      |
| At sea, on five days in the week, dry fish ...  |   |   |   |   |   | 0      | 4    | 0    |
| „ „ „ two „ „ „ „ meat ...                      |   |   |   |   |   | 0      | 4    | 0    |
| In harbour, fresh meat every day ...            |   |   |   |   |   | 0      | 4    | 0    |
| Vegetables, dry at sea and fresh in harbour ... |   |   |   |   |   | 0      | 6    | 0    |
| *   | * | * | * | * | * |        |      |      |

Ordered that the Resolution be published in the Supplement to the *Gazette of India*, for general information.

B. ROBERTSON,  
Offg. Secretary to the Government of India.

## STATEMENT OF APPROXIMATE GROSS EARNINGS OF INDIAN RAILWAYS.

N.R.—As regards the figures in column *Total earnings*, audited figures have been used as far as possible.

| RAILWAYS.  | AVERAGE EARNINGS PER MILE PER WEEK. |     |                               | RESULTS OF WORKING DURING 2ND-HALF OF YEAR. |           |                                 | RESULTS OF WORKING FOR OFFICIAL YEAR. |                                  |             |                                  |           |           |     |           |              |                                   |             |           |     |           |  |

# The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, AUGUST 31, 1907.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

## PART II.

Notifications by High Court, Comptroller General, etc.

### GAZETTE OF INDIA.

#### NOTICE.

The 26th March 1907.

From the 6th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 30th March all notifications and other matter intended for publication in the *Gazette* should be addressed to the Officiating Publisher, at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901 :—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette*, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*."

J. P. HEWETT,

Secretary to the Government of India

No. 3243 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office, 2 Bankshall street, Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 80 of 1907.—James Robinson Hatmaker, gentleman, of No. 25 Rue de la Faisanderie, Paris, France. *Eggs and egg-containing substances in dry form and process for obtaining same.* (Specification filed 19 August 1907.)

No. 170 of 1907.—Richard Harrington, civil engineer, South Indian Railway, Head Quarters Offices, Trichinopoly, South India. *Improvements in and relating to railway train electric lighting apparatus.* (Specification filed 19 August 1907.)

No. 257 of 1907.—Richard Edwin Davis, engineer, of 23 Solon New road, Bedford road, Clapham, London, England. *Improved method of and means for locking nuts to bolts or studs.* (Specification filed 17 August 1907.)

No. 300 of 1907.—Owen Westall Marden, at present of Weston Priory, Bath. *An improvement in boots and shoes.* (Specification filed 14 August 1907.)

No. 3244 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 130 of 1896.—Harry Dain Hinks. *Improvements in tubular or hurricane lanterns.* (From 21 August 1907 to 21 August 1908.)

No. 145 of 1897.—Roland H. Gahagan. *An improved urinal plate and bucket attachment.* (From 16 September 1907 to 16 September 1908.)

No. 220 of 1897.—William Augustus Bailey. *Improvements in portable latrines.* (From 24 August 1907 to 24 August 1908.)

No. 9 of 1899.—Wynford Brierley. *Improvements in and connected with apparatus for signalling on railways.* (From 21 August 1907 to 21 August 1908.)

No. 59 of 1900.—Ernest Robert Godward. *Improvements in hair pins and the like.* (From 25 August 1907 to 25 August 1908.)

No. 25 of 1901.—Shamboo Nath. *An improved method of testing gold, called the "Shamboo gold testing scheme."* (From 19 August 1907 to 19 August 1908.)

No. 53 of 1901.—James Henry Apjohn. *A new or improved hydraulic weigh-bridge.* (From 20 September 1907 to 20 September 1908.)

No. 73 of 1901.—Thomas Alva Edison. *Improvements in storage batteries.* (From 30 September 1907 to 30 September 1908.)

No. 52 of 1902.—Ernest John Wood. *Improvements in axle boxes.* (From 27 August 1907 to 27 August 1908.)

No. 258 of 1902.—Moffett Bearing Company. *Improvements in roller bearings.* (From 20 August 1907 to 20 August 1908.)

No. 274 of 1902.—The Automatic Aerator Patents, Limited. *Improvements in or relating to the aeration and bottling of liquids.* (From 23 August 1907 to 23 August 1908.)

No. 355 of 1902.—Strowager Automatic Telephone Exchange. *Automatic telephone exchange.* (From 25 November 1907 to 25 November 1908.)

No. 365 of 1902.—Allison Dalrymple Smith. *Improvements in or connected with automatic couplings for railway and other rolling stock.* (From 26 November 1907 to 26 November 1908.)

No. 387 of 1902.—Charles William Ansell. *An improved portable shooting range outfit.* (From 24 August 1907 to 24 August 1908.)

No. 291 of 1903.—Balfour Fraser McTear and Henry Cecil William Gibson. *Improvements in and connected with piercing and forging machinery for the manufacture of tubes or tubular articles.* (From 26 August 1907 to 26 August 1908.)

No. 331 of 1903.—Wallace Fairweather. *Rotary take-up for sewing machines.* (From 10 October 1907 to 10 October 1908.)

No. 3245 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorizing others so to do, has ceased:—

No. 404 of 1902.—J. F. Young. *An improved means of applying power to machines used for various purposes.* (Specification filed 23 May 1903.)

No. 428 of 1902.—Robert Henry Cave. *Improvements in the process of indigo manufacture.* (Specification filed 18 May 1903.)

No. 517 of 1902.—Thomas George Stevens. *Improvements in or connected with springs for vehicles.* (Specification filed 19 May 1903.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

No. 247 of 1899.—Edward Locke Elliot. *Improvements in saddles for horses.* (Specification filed 23 May 1900.)

Fee in respect of the continuance of an exclusive privilege—

4 (d) After the expiration of the sixth year and before the expiration of the seventh year from the date of the filing of the specification—

The sum of Rs 50 for the above invention.

### NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not “designs” within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable at Calcutta to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively. Consolidated indexes for 1905 and for 1906, entitled “Inventions and Designs,” are also on sale, price one rupee each. They contain a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in the year, together with lists of designs applications.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified : or, if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. A new and revised edition is now on sale. Royal 8vo volumes, paper cover, price one rupee or 1s. 6d. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Office, 2, Bankshall Street, Calcutta.

P. J. BRÜHL,

Offg. Secretary under the Inventions and  
Designs Act, V of 1888.

D. C. PHILLOTT, Lieut.-Col.,  
Secretary, Board of Examiners.

## EMPLOYMENT BUREAU—CIVIL ENGINEERING COLLEGE, SIBPUR.

Sibpur, the 27th June 1907.

An Employment Bureau or Register has been started at this College for the supply of the following classes of employés :—

- |                              |                          |
|------------------------------|--------------------------|
| 1. Assistant Engineers.      | 5. Lower Subordinates.   |
| 2. Surveyors.                | 6. Electrical Engineers. |
| 3. Estimators and Draftsmen. | 7. Mining Engineers.     |
| 4. Upper Subordinates.       |                          |

At first it will be confined to ex-students of the College, later others may be registered. Forms of application for registration and copies of the Rules of the Bureau may be had on application at the Principal's office.

All old records are being destroyed ; it is therefore necessary that candidates wishing to have their names registered should apply without delay.

B. HEATON,  
Principal, C. E. College.

**NOTIFICATION.**

Calcutta, the 24th August 1907.

**No. 249.**—Captain H. L. Crosthwait, R.E., Deputy Superintendent, 2nd grade, is granted privilege leave for 18 days under Article 260 of the Civil Service Regulations, with effect from 15th September 1907 or the subsequent date on which he may avail himself of it.

F. B. LONGE, Colonel, R.E.,  
Surveyor General of India.

---

**CALCUTTA UNIVERSITY.**

---

**NOTICE.**

The Senate will proceed in the month of August 1908, to the election of a Tagore Professor of Law for the term of one year, to commence on the 1st of August 1909.

The salary of the Professorship is Rs. 9,000 per annum, and the Professor will be expected to deliver a course of not less than twelve lectures on one of the following subjects:—

- (i) Mercantile Law and Usage, including the Law of Sale of Goods, with special reference to British India.
- (ii) Codification in British India.
- (iii) The General Principles of Hindu Jurisprudence.

The salary of the Professor shall be paid in twelve equal monthly instalments, the first instalment to be paid on the first day of the month following that in which the first lecture is delivered.

Candidates for the professorship are requested to forward their applications to the Registrar on or before the 1st May 1908, stating on which of the abovenamed three subjects they are prepared to lecture. Each candidate will forward with his application one hundred copies of a brief Synopsis of his proposed lectures; and, if he so pleases, the same number of copies of his Introductory Lecture.

The Professor will not later than the month of August following his election, forward to the Registrar a complete copy (manuscript or type-written) of the Lectures which he proposes to deliver. The copy will be referred to a Committee of the Faculty of Law consisting of not more than three members to be chosen by the Faculty, who will examine the same and before the 1st November report to the Faculty whether the work is complete and ready for the press. If upon such report the Faculty are satisfied that the work is complete, the Professor will commence to deliver his lectures in the month of December, and complete the delivery thereof in the following February. The copy of the lectures delivered will remain in the custody of the Registrar, and will be sent to press as soon as practicable, after delivery thereof.

If the Professor fails to submit the copy of the Lectures, or if the copy submitted be found, on examination to be incomplete and not ready for the press, the matter will be referred to the Faculty of Law, upon whose recommendation the Senate may either extend the time or cancel the appointment.

G. THIBAUT,  
Registrar.

SENATE HOUSE ;  
The 227th August, 1907.

**DEPARTMENT OF COMMERCE AND INDUSTRY.**

Dr. N. Annandale, Offg. Superintendent, Natural History Section, Indian Museum, is granted three months' privilege leave with effect from 27th August 1907 or such later date as may prove convenient.

N. ANNANDALE,  
Secretary to the Trustees, Indian Museum,  
Natural History Section.

**THE HON'BLE THE AGENT TO THE GOVERNOR GENERAL IN  
BALUCHISTAN.****NOTIFICATIONS.**

Ziarat, the 19th August 1907.

**No. 831.**—In exercise of the powers conferred by section 103 of the Quetta Municipal Law, the Honourable the Agent to the Governor General in Baluchistan is pleased to make the following rules for the suppression of mendicancy and of loitering or importuning for the purpose of prostitution, and for the removal and exclusion of certain persons from the Quetta Municipality:—

1. Within the limits of the Quetta Municipality no person shall in any street or public place (a) loiter, or beg for alms as a mendicant, (b) loiter, or importune any person, for the purpose of prostitution.

2. (i) The Political Agent, Quetta, on receiving information that any person, whether resident within or frequenting the Quetta Municipal limits,

(a) is a disorderly person keeping or frequenting a common gaming house, a disorderly drinking shop, or a disorderly house of any other description, or

(b) has been convicted more than once, either within the Quetta Municipal limits or elsewhere, of an offence punishable under Chapter XVII of the Indian Penal Code, or

(c) has been ordered under Chapter VIII of the Code of Criminal Procedure, 1898, either within the Quetta Municipal limits or elsewhere, to execute a bond for his good behaviour,

may make an order in writing, setting forth the substance of the information received, and issue a summons requiring such person to show cause why he should not be removed from the Quetta Municipal limits and be prohibited from re-entering them.

(ii) Every summons issued under sub-section (1) shall be accompanied by a copy of such order as aforesaid, and the copy shall be delivered by the officer serving the summons to the person served with the same.

(iii) The Political Agent shall, when the person so summoned, appears before him proceed to enquire into the truth of the information received, and take such further evidence as may appear necessary, and if on such enquiry it appears to him to be necessary for the maintenance of good order that the person should be required to remove from the Municipal limits and be prohibited from re-entering them, the Political Agent shall report the matter to the Honourable the Agent to the Governor General in Baluchistan, and, if the Honourable the Agent to the Governor General so directs, shall issue a notice in writing, requiring the person to remove from the Quetta Municipal limits within a time to be specified in the notice and prohibiting him from re-entering them without written permission from the Honourable the Agent to the Governor-General in Baluchistan.

3. Whenever the Honourable the Agent to the Governor-General in Baluchistan thinks it expedient to exclude any person from the limits of the Quetta Municipality, whether with or without assigning any reason therefore, he shall send or cause to be sent to the Political Agent, Quetta, an order in writing to that effect, and the Political Agent shall cause a copy of the order to be served on the person, together with a notice in writing requiring him to remove from the Municipal limits within a time to be specified in the notice, and prohibiting him from re-entering them without the permission in writing of the Honourable the Agent to the Governor General.

Provided that no such order shall be made if the only reason for making it is that such person:—

(i) is disorderly, or

(ii) has been convicted of any offence punishable under Chapter XVII of the Indian Penal Code, or

(iii) has been ordered under the Code of Criminal Procedure, 1898, to execute a bond for his good behaviour.

4. When any person has, under either of the two last foregoing rules, been directed to remove from the Quetta Municipal limits, and has not obtained the written permission mentioned in such rule to re-enter the Quetta Municipal limits, no person who has knowledge of those facts shall harbour or conceal him in the Quetta Municipal limits.

5. Whoever, (a) having under rule 2 or 3 been prohibited from remaining in or re-entering the Quetta Municipal limits, remains in or re-enters them without the written permission of the Honourable the Agent to the Governor General in Baluchistan, or (b) commits a breach of rule 1 or 4, shall be liable to be arrested on a warrant issued by the District Magistrate, Quetta, and shall on conviction by a Magistrate be punishable with

fine which may extend to fifty rupees, and, when the breach is a continuing breach, with a further fine which may extend to five rupees for every day after the date of such conviction during which the breach is proved before a Magistrate to have been persisted in.

6. Any member of the Police force employed in the Quetta Municipal limits may arrest without warrant any person committing or charged with having committed an offence punishable under clause (a) or clause (b) of the last foregoing rule :

Provided as follows :—

- (i) No person shall be so arrested whose name and address are known to the arresting officer.
- (ii) No person shall be so arrested who consents to give his name and address unless there is reasonable ground for doubting the accuracy of the name or address so given, the burden of proof of which shall be on the arresting officer.
- (iii) No person so arrested shall be detained after his name and address have been ascertained.
- (iv) No person so arrested shall, except under the orders of the Political Agent, Quetta, be detained longer than may be necessary for bringing him before the Political Agent.

By order,

A. L. JACOB, Captain,

First Assistant.

Ziarat, the 21st August 1907.

SUPPLEMENT TO

# The Gazette of India.

No. 35.}

CALCUTTA, SATURDAY, AUGUST 31, 1907.

## OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

FREDERICK NOËL-PATON

Director-General of Commercial Intelligence

B. ROBERTSON

Offg. Secretary to the Government of India

Calcutta, August 29, 1907

GOVERNMENT OF INDIA.  
PUBLIC WORKS DEPARTMENT.

[Accompaniment to Government of India, P. W. D. Review No. 1364 I., dated 15th August 1907.]

Note by W. F. O'Donoghue, Esq., Accountant General, Public Works Department, upon the accounts of Revenue and Expenditure of Irrigation Works in India for 1905-1906.

(The figures in the statements embodied in this note are taken from the Finance and Revenue Accounts of the Government of India, Administrative Accounts of Irrigation Works, and the statement of Financial results of Irrigation operations in India.)

1. Irrigation Works in India are divided into Major and Minor Works; Major Works being further sub-divided into Productive, or those which are expected to pay the cost of up-keep and also interest on capital outlay, and Protective, which are calculated to guard against a probable future expenditure in relief of distress. For the purposes of this note Minor Works are sub-divided into—

- (a) Works for which Capital and Revenue Accounts are kept.  
(b) Works for which Capital Accounts are not kept.

*Works for which Capital and Revenue Accounts are kept.*

2. The general financial result of all works—both Irrigation and Navigation—for which Capital and Revenue Accounts are kept, is as follows :—

|  | Productive Works. | Protective Works. | Minor Works.    | TOTAL.       |
|--|-------------------|-------------------|-----------------|--------------|
|  | Rs.               | Rs.               | Rs.             | Rs.          |
| CAPITAL OUTLAY—  |                   |                   |                 |              |
| During 1905-1906 . . . . .   | 88,81,365         | 36,16,750         | 19,71,503       | 1,44,69,618  |
| To end of 1905-1906 . . . . .  | (a) 38,76,55,188  | (b) 3,12,88,246   | (c) 6,21,69,300 | 48,14,12,734 |
| REVENUE ACCOUNT, 1905-1906—  |                   |                   |                 |              |
| Gross Revenue . . . . .  | 4,15,95,240       | 9,73,779          | 49,83,188       | 4,75,52,207  |
| Maintenance and working . . . . .  | 1,39,30,834       | 3,70,044          | 21,55,671       | 1,64,56,549  |
| Net Revenue . . . . .  | 2,76,64,406       | 6,03,735          | 28,27,517       | 3,10,95,658  |
| Interest . . . . .   | 1,45,19,532       | 11,02,310         | ...             | 1,56,21,842  |
| Net profit after paying interest on Capital . . . . .                                    | 1,31,44,874       | —4,98,575         | ...             | 1,26,46,299  |
| Percentage of net revenue of the year on the Capital outlay to end of the year . . . . . | 7.14              | 1.93              | 4.74            | 6.46         |
| Against in 1904-1905 . . . . .   | 7.61              | 1.97              | 4.93            | 6.93         |
| „ „ 1903-1904 . . . . .  | 7.43              | 2.90              | 5.42            | 6.93         |

(a) Includes Rs. 2,29,324, brought on as previous outlay during the year as follows :—

|   |          |
|---|----------|
|   | Rs.      |
| Burma—Yeu Canal—Expenditure on surveys (43) . . . . .           | 54,505   |
| Punjab—Upper Chenab Canal—Expenditure on surveys (43) . . . . . | 1,07,871 |
| Upper Jhelum Canal Ditto do. (43) . . . . .                     | 66,948   |
|   | 1,74,819 |
| Total . . . . .   | 2,29,324 |

(b) Includes Rs. 4,68,074, brought on as previous outlay during the year as follows :—

|   |          |
|---|----------|
|   | Rs.      |
| Central Provinces—Rumal tank (33) . . . . .                       | 5,220    |
| United Provinces—Dassan Canal—Preliminary expenses (35) . . . . . | 7,734    |
| Bombay—Budhihal tank—Normal outlay on famine work (33) . . . . .  | 4,25,283 |
| Outlay on agricultural works (43) . . . . .                       | 29,837   |
|   | 4,55,120 |
| Total . . . . .   | 4,68,074 |

(c) Includes Rs. 51,483, brought on as previous outlay during the year in Bombay as follows :—

|  |        |        |
|--|--------|--------|
|  | Rs.    | Rs.    |
| Victoria tank—Normal outlay on famine work (33) . . . . .                            | 44,704 |        |
| Outlay on agricultural works (43) . . . . .  | 4,062  |        |
|  |        | 48,766 |
| Savli tank—Outlay on works for which "Revenue Accounts only are kept" (43) . . . . . |        | 2,727  |
| Total . . . . .  |        | 51,483 |

## PRODUCTIVE WORKS.

3. There are 50 works so classed, one of which, the Hijili Tidal canal in Bengal, is a purely navigation work.

4. Of the 50 Works classed as Productive, nine\* were not open for irrigation by the end of 1905-1906, and thirteen, that is all the canals in Bengal and in the Deccan and Gujarat, as also the Kurnool canal and Barur tank in Madras, have failed to fulfil the conditions of Productive Works.

\* Shwebo Canal.  
 Mon " "  
 Y-su " "  
 Upper Chenab Canal.  
 Upper Jhelum " "  
 Paharpur Inundation Canal.  
 Nagavalli River project.  
 Divi Island pumping project.  
 Naulakhi Canal.

5. The Capital invested on the construction of Productive Works at the end of 1905-1906, amounted to Rs. 38,76,55,188, and the net revenue derived from them during that year was Rs. 2,76,64,406, or a return of 7.14 per cent. on the Capital outlay, against 7.61 per cent. in the previous year. The decrease was principally due to heavy remissions of revenue granted on account of failure of the cotton crop in the Punjab, and to a falling off in revenue in the United Provinces due to a smaller area irrigated for sugarcane, owing to frost and bad seed.

6. No new canals were opened for irrigation during the year, but as irrigation from the canals under construction and those partially opened, becomes fully developed, the net profit from Productive Works may be expected to show a further increase.

7. At the end of 1905-1906 there were 35,730 miles of open Productive Irrigation canals, against 35,090 miles open at the end of the previous year, the increase being chiefly in the Punjab, United Provinces, and Bombay. The acreage irrigated during 1905-1906 amounted to 14,205,158 acres against 12,207,283 acres in the previous year.

8. Statements I and II show in detail the financial results of individual Productive Works, the irrigated area, and the mileage open. It will be seen from Statement No. I that the net revenue from these works up to the end of 1905-1906 exceeded the accumulated interest charges by Rs. 15,57,07,042; the highest net profit during 1905-1906 was obtained from the projects in the Punjab; next follow Madras, Sind and the United Provinces. The works in the other Provinces have not yet paid off the interest charges.

## PROTECTIVE WORKS.

9. As the term implies, canals, tanks, etc., so classed are constructed on a consideration of the protection they give against famine without any expectation of a return sufficient to pay interest and working expenses. There are 30 works so classed, 23 of which are still under construction.

10. The Capital expenditure on these works to the end of 1905-1906 amounted to Rs. 3,12,88,246 or to Rs. 2,31,16,431 on the six works earning revenue and exclusive of the expenditure on the Gokak canal. These works gave a net revenue of Rs. 6,03,229 of which the Nira canal in Bombay accounted for Rs. 87,321 and the Lower Swat River canal in the North-West Frontier Province for Rs. 3,97,200. The latter canal paid the maintenance and interest charges of the year and returned a net profit of Rs. 2,36,213, the percentage of net revenue on the Capital invested in it being 9.50; it has been transferred to the category of Productive Public Works with effect from 1st April 1906.

11. At the end of the year there were 1,351 miles of open protective canals, against 1,350 miles at the end of the previous year. The area irrigated during the year amounted to 471,372 acres, of which 158,808 acres were irrigated by the Lower Swat River canal. The acreage irrigated during the year was in excess of that irrigated in 1904-1905 by 37,549 acres, the United Provinces showing an increase of 45,620 acres and Bombay a falling off of 13,437 acres.

12. Statements III and IV show in detail the financial results of individual Protective Works, the irrigated area, and the mileage open of each.

## MINOR WORKS.

*Works for which Capital and Revenue Accounts are kept.*

13. There were 91 works so classed in 1905-1906, 39 of which are in Bombay and 34 in Madras. Of these 91, six are purely navigation works, four being in Madras and two in Bengal.

14. The expenditure incurred on the construction of Irrigation Works alone amounted to Rs. 4,00,69,156 at the end of 1905-1906, and the net revenue during that year to Rs. 27,87,516, or a return of 6·96 per cent. on the Capital outlay, against 7·27 per cent. in the previous year. The decrease is due to the net revenue being less in 1905-1906 in all the provinces except Bombay, where there is an increase of Rs. 3,33,816. Although these works are constructed for the general improvement of the country, and not as remunerative works, yet many of them are paying considerably over 4 per cent. on the Capital invested in them; and one, *viz.*, the Ghar canal in Sind, has paid 103·03 per cent. during the year under review on the capital sunk in it by the British Government.

15. Excluding the area shown under Burma, *viz.*, 442,288 acres, which is not under irrigation, but represents the area of cultivation on lands reclaimed by river flood embankments, the area irrigated by Minor Irrigation Works during 1905-1906 was 1,696,866 acres, against 1,531,118 acres in the previous year, or an increase of 10·82 per cent. This is accounted for principally by larger areas being irrigated in Bombay, the United Provinces and Madras.

16. The Capital outlay to end of 1905-1906 on the six navigation canals amounted to Rs. 2,24,00,144, and the net revenue during that year to Rs. 40,001. The whole of this was brought in by the Calcutta and Eastern canals, which gave a return of Rs. 1·29 per cent. on the Capital outlay. All the other navigation canals worked at a loss.

17. Statements V and VI show the financial results, the irrigated area, and the open mileage of individual works.

*Works for which Capital Accounts are not kept.*

18. The works under this head are numerous and are all small works, many of which were constructed at the time of Native rule in India. The cost of their construction cannot now be ascertained, and separate Capital and Revenue accounts are not therefore kept for them. The enhanced land revenue due to these works is assessed and collected along with the ordinary land revenue, and accounted for in the Civil Accounts.

19. The following statement shows the direct receipts from and expenditure on works of this class and compares the transactions of the year 1905-1906 with those of the previous four years:—

|                                    | IMPERIAL.        |              | PROVINCIAL.      |              | LOCAL.           |              | TOTAL.           |              |

| 1901-1902 .                        | 2,74,919         | 22,25,721    | 4,54,966         | 50,56,120    | 94,641           | 46,351       | 8,24,526         | 79,28,192    |

20. The receipts during 1905-1906 fell short of those of the previous year by Rs. 1,22,087, the decrease occurring entirely under Imperial. The expenditure during 1905-1906 exceeds that of the previous year by Rs. 70,997, and occurs under Provincial and Local. The large increase under Provincial is due chiefly to the introduction of the new Provincial Settlement in Bombay, under which all outlay under this head is borne equally by Imperial and Provincial funds, (which also accounts for the large decrease under Imperial), and to larger outlay on agricultural works in Bengal and the United Provinces.

*General.*

21. The general result of Irrigation Works for which Capital and Revenue Accounts are kept, exclusive of purely navigation canals, is brought out in Statement VII. At the end of 1905-1906 the State had spent Rs. 45,63,97,436 on the construction of these works and received a net revenue of Rs. 3,10,32,806 during the year, which is equivalent to 6·80 per cent. on the Capital invested. The area irrigated and the area of cultivation on lands reclaimed by river flood embankments in Burma amounted to 16,815,684 acres, or 26,274 square miles.

(b) In the case of projects in Bombay, the figures are from 1874-75 only.

GOVERNMENT OF INDIA.  
FINANCE DEPARTMENT.

REPORT UPON THE OPERATIONS OF THE PAPER CURRENCY DEPARTMENT  
DURING THE YEARS 1906-07.

No. 115, dated Calcutta, the 16th July 1907.

From—O. T. BARROW, Esq., Head Commissioner of Paper Currency, Calcutta,  
To—The Secretary to the Government of India, Finance Department.

I have the honour to submit a report upon the operations of the Paper Currency Department during the year 1906-07.

2. The Statement No. I in the Appendix gives a general view of the progress made during the last three years in the circulation of Currency notes. It shows what it has been usual to call the *gross*, the *net*, and the *active* circulation on the last day of each month of those years, and also the average of each year. By *gross* circulation is meant the value of all notes that have been issued and not yet paid off: the *net* circulation is this sum less the value of notes held by Government in its treasuries: and the *active* circulation is the *net* reduced by the value of notes held by the Presidency Banks at their head offices, which is subject to large variations dependent upon the condition of trade. Of these three kinds of circulation the *active* is the most important for it shows to what extent paper money is used by the people in their pecuniary transactions. It is satisfactory to find that the annual average *active* circulation which was 26,34 lakhs in 1903-04, has increased from 28,11 lakhs in 1904-05 to 30,52 lakhs in 1905-06 and 33,93 lakhs in 1906-07. The progress has been rapid and regular, and contrasts favourably with the slower and rather variable advances made during the preceding eight years as shown in the margin.

Advance made during the last four years.

|         |       |
|---------|-------|
| 1895-96 | 20,24 |
| 1896-97 | 19,87 |
| 1897-98 | 18,93 |
| 1898-99 | 19,09 |
| 1899-00 | 21,27 |
| 1900-01 | 22,05 |
| 1901-02 | 21,19 |
| 1902-03 | 23,49 |

26,34 lakhs in 1903-04, has increased from 28,11 lakhs in 1904-05 to 30,52 lakhs in 1905-06 and 33,93 lakhs in 1906-07. The progress has been rapid and regular, and contrasts favourably with the slower and rather variable advances made during the preceding eight years as shown

3. The variations in the gross circulation of Currency notes are in the following statement distributed among the various Circles in thousands of rupees:—

The gross circulation distributed among the Currency Circles.

| February "                      | 20,63,46  | 1,81,36    | 3,02,54 | 10,53,93 | 1,00,58  | 5,44,52 | 12,13    | 2,90,02  | 45,48,54 |
| March "                         | 21,88,82  | 1,63,94    | 3,13,75 | 10,84,27 | 1,04,09  | 5,56,89 | 12,09    | 2,71,34  | 46,95,19 |
| Average for last twelve figures | 19,53,02  | 1,91,49    | 3,09,50 | 12,04,96 | 1,12,18  | 4,97,88 | 21,76    | 2,23,08  | 45,13,87 |
| Average for 1905-06.            | 17,46,31  | 2,26,11    | 3,06,32 | 11,27,15 | 1,08,36  | 4,41,75 | 17,30    | 1,78,06  | 41,81,66 |
| " for 1904-05.                  | 16,31,74  | 1,97,09    | 2,87,90 | 11,33,09 | 88,00    | 4,07,76 | 19,09    | 1,55,46  | 39,20,13 |

All the Circles except Allahabad have contributed towards the increase, the largest contributions being those of Calcutta and Bombay while the percentage of increase in Madras and Rangoon has been noticeably high. In both the Calcutta and Bombay Circles the rise was chiefly in R10 notes but Bombay also showed a large improvement in R5 notes and in Madras and Rangoon there was a considerable increase in the circulation of the R100 denomination.

4. The details of the gross circulation as on 31st March 1907 for each denomination and in each Circle are as follows :—

Details of gross circulation according to denomination of notes for each Circle.

|                                 | NUMBER OF NOTES FOR RUPEES. |            |         |         |           |        |        |        | TOTAL.     |              |

5. Dividing the gross circulation between notes of R500 and upwards and notes below R500, the values at the end of each of the last three years have been in thousands of rupees :—

|               | Notes of R100 and under. | Percentage of total. | Notes of R500 and upwards. | Percentage of total. | TOTAL.   |
|---------------|--------------------------|----------------------|----------------------------|----------------------|----------|
|               | Value.                   |                      | Value.                     |                      | Value.   |
|               | R                        |                      | R                          |                      | R        |
| 1904-05 . . . | 20,42,67                 | 52                   | 18,74,93                   | 48                   | 39,17,60 |
| 1905-06 . . . | 23,60,32                 | 53                   | 21,05,34                   | 47                   | 44,65,66 |
| 1906-07 . . . | 27,23,58                 | 58                   | 19,71,61                   | 42                   | 46,95,19 |

The increase in the percentage of notes of the lower values must be attributed to the more general use of paper money by the ordinary public and to the special privilege newly given to R5 notes. The decrease under the higher value notes is due to the reduced number of notes of R10,000, the circulation of which is inconstant.

6. The varying proportions in which notes of each denomination have circulated in the various Circles during the last two years are shown below :—

| Denomination of Notes. | CALCUTTA. |          | ALLAHABAD. |          | LAHORE.  |          | BOMBAY.  |          | KARACHI. |          | MADRAS.  |          | CALICUT. |          | RANGOON. |          | TOTAL.   |

| All India       | 27       | 29       | 30       | 32       |

to be evidently accidental. It is remarkable how year after year each Circle shows the same preference for particular denominations of notes. The average value during the last four years of the notes in circulation in each Circle on the last day of the year is given in the margin, notes of ₹10,000 being

excluded, as their high value and irregular use only tend to mislead.

Except in Rangoon where there has been an increase, owing chiefly to the increase in the use of ₹100 denomination, there has been throughout India either no change or a decrease in the average value of notes in circulation. This is satisfactory as indicating that Paper Currency is being gradually more largely used for the smaller monetary transactions of the people.

The figure for Rangoon would be larger but for a local rule which restricts the supply of notes of higher values than ₹100 to District Treasuries. No complaint appears to have come in from the public, while officials do not require currency notes for remittance so long as they are allowed, as at present, to cash their Salary Bills at Rangoon. The most remarkable feature of the year as of last year, however, has perhaps been the large increase in the use of ₹10 notes in the Calcutta Circle. The following figures illustrate this:—

Gross circulation of Calcutta ten rupees notes—

|                        |           |
|------------------------|-----------|
| On 31st March 1907     | 7,467,648 |
| Percentage of increase | + 24      |
| On 31st March 1906     | 5,993,240 |
| Percentage of increase | + 27      |
| On 31st March 1905     | 4,718,424 |

So heavy indeed was the demand that on several occasions the currency office supply of this value nearly ran out and it was only by special measures and by hastening the home production and remittance to this country that an exhaustion of the stock was avoided.

8. It is not possible to bring out by the method employed in Statement No. I of the Appendix the *active* circulation of each Circle during the year because both Treasuries and Presidency Banks hold notes issued in circles other than their own. The Reserve Treasuries, however, hold practically the whole of their balances in home-circle notes, and in the following table the *gross* circulation is accordingly reduced by the note balances of the Reserve Treasuries, and is compared with the corresponding figures of the two previous years, in lakhs of rupees:—

The active circulation according to Circles.

| LAST DAY OF | CALCUTTA. |          |          | BOMBAY.  |          |          | MADRAS.  |          |          | OTHER CIRCLES. |          |          | TOTAL.   |          |          |

| November    | 14.72     | 16.70    | 18.23    | 10.45    | 0.19     | 10.04    | 3.82     | 4.53     | 4.90     | 6.78           | 7.71     | 8.17     | 35.67    | 38.20    | 41.34    |
| December    | 15.60     | 16.09    | 20.49    | 11.08    | 9.24     | 10.94    | 3.91     | 4.31     | 4.84     | 6.70           | 7.76     | 7.65     | 37.29    | 37.40    | 43.02    |
| January     | 15.48     | 16.08    | 19.65    | 10.23    | 8.79     | 10.94    | 3.81     | 4.28     | 4.80     | 6.71           | 8.04     | 8.26     | 36.23    | 37.19    | 42.84    |
| February    | 15.62     | 16.70    | 19.35    | 9.31     | 9.07     | 10.02    | 3.96     | 4.33     | 5.13     | 6.84           | 8.59     | 8.87     | 35.73    | 38.69    | 43.37    |
| March       | 15.18     | 17.03    | 19.35    | 10.11    | 9.79     | 10.39    | 3.93     | 4.62     | 5.25     | 7.08           | 8.58     | 8.65     | 36.30    | 40.62    | 43.64    |
| AVERAGE     | 14.38     | 15.72    | 17.93    | 9.75     | 9.72     | 10.27    | 3.72     | 4.15     | 4.70     | 7.43           | 8.36     | 8.58     | 35.33    | 37.95    | 41.48    |

The increase appears in all the Circles but mainly in Calcutta, where it occurred in every month of the year. In Bombay there was a falling off in April, May and June, but there was a steady increase from July to March as compared with those months in the previous year.

Circulation of  
the universal  
five-rupee note.

9. The table in paragraph 4 shows that a very large increase has again taken place in the circulation of the universal five-rupee note. The circulation of these notes on 31st March 1907 was about 19 per cent. and about 39 per cent. more than what it was on 31st March 1906 and 31st March 1905, respectively. As these small-value notes are not held in any large quantities in the balances of treasuries or Presidency Banks, the increase represents practically an expansion of their *active* circulation among the public. The growing popularity of the universal five-rupee note is also apparent from a comparison of the average *gross* circulation of five-rupee notes of the several circles excepting Rangoon during the past five years. The figures are given in the margin in lakhs of rupees.

|         |   |   |   |      |
|---------|---|---|---|------|
| 1902-03 | . | . | . | 40'7 |
| 1903-04 | . | . | . | 46'7 |
| 1904-05 | . | . | . | 52'2 |
| 1905-06 | . | . | . | 57'9 |
| 1906-07 | . | . | . | 68'3 |

It is also satisfactory to observe that the decline in the use of these notes for remittance purposes noticed last year apparently continued in the year under report, as issues in bundles of 2,000 and over amounted to only about  $4\frac{1}{2}$  lakhs of rupees, which is only  $\frac{1}{2}$  lakh more than similar issues in the previous year. These issues represent no doubt remittances by small traders whose operations are not large enough for them to use the system of currency transfers.

Gold transactions.

10. The year 1906-07 opened with a stock of gold in the Currency Reserve and Treasuries in India valued at £4,045,129'7 and the closing balance was worth £3,873,441'4\*. The monthly transactions are shown below together with those relating to the Gold Standard Reserve:—

| I.—CURRENCY AND TREASURY. |                                 |  |                         |                   | II.—GOLD STANDARD RESERVE.             |                         |                   |

| GRAND TOTAL .             | 4,045,129'7                   | + 100,036'7                                      | ...  | - 250,000'0                            | 3,895,166'4                   |

The net transactions with the public in the year under report resulted in the aggregate in a receipt of about £100,000 against about £95,000 in the previous year. The receipts at the currency offices from imports were higher by over £1 million, but almost the whole of the additional receipts was issued in the course of the year for circulation in the country. The following statement compares the receipts from imported sovereigns during the two years:—

|                     |   |   |   |   |   | (The figures are in hundreds of pounds sterling.) |           |
|---------------------|---|---|---|---|---|---|-----------|
|                     |   |   |   |   |   | 1905-06.  | 1906-07.  |
|                     |   |   |   |   |   | £   | £         |
| April . . . . .     | . | . | . | . | . | 213,000   | 11,200    |
| May . . . . .       | . | . | . | . | . | 159,000   | 800       |
| June . . . . .      | . | . | . | . | . | 1,000   | ...       |
| July . . . . .      | . | . | . | . | . | 304,000   | 1,200     |
| August . . . . .    | . | . | . | . | . | 305,000   | 210,000   |
| September . . . . . | . | . | . | . | . | 296,000   | 1,287,600 |
| October . . . . .   | . | . | . | . | . | 435,000   | 742,000   |
| November . . . . .  | . | . | . | . | . | 425,000   | 846,700   |
| December . . . . .  | . | . | . | . | . | 747,000   | 803,900   |
| January . . . . .   | . | . | . | . | . | 70,000  | 182,000   |
| February . . . . .  | . | . | . | . | . | 10,000  | 39,100    |
| March . . . . .     | . | . | . | . | . | ...   | 40,000    |
| TOTAL .             |   |   |   |   |   | 2,965,000   | 4,164,500 |

It will be seen from the above table that the receipts in September 1906 were about a million higher than in September 1905 and that those in October and November 1906 were also considerably in excess of the receipts in the corresponding months of 1905-06. It may also be remarked that the greater portion of these additional tenders were made at Calcutta, probably in connection with the demand for rupees for the jute trade. The receipts in December in the two years do not differ materially from each other in the aggregate, an increase at Calcutta to the extent of about £300,000 having been neutralized by an almost equivalent reduction in Bombay. The imports in the earlier and later months of the year were kept down by the sale by the Secretary of State of telegraphic transfers against Australian gold.

The figures in the margin show the net absorption of sovereigns in Treasuries and Currency offices in each of the five years ending 1906-07. The absorption in the year under report has so far been the highest on record, the United Provinces and the Punjab showing the largest demand.

The details of the gold held in India on the last day of the year are as follows :—

|  | Currency.<br>£ | Treasury and<br>Mint.<br>£ | Total.<br>£ |
|--|----------------|----------------------------|-------------|
| Current weight sovereigns and half-sovereigns  | 3,572,368·5    | 206,964·0                  | 3,779,332·5 |
| Light weight do. do.                           | 68,504·0       | 400·2                      | 68,904·2    |
| Gold from Indian Mines . . . . .               | 20,960·7       | 4,233·0                    | 25,193·7    |
| Bazar gold bullion and miscellaneous . . . . . | 7·5            | 3·5                        | 11·0        |
| TOTAL . . . . .                                | 3,661,840·7    | 211,600·7                  | 3,873,441·4 |

The receipt at the Indian Mints of gold bullion and gold coins other than sovereigns and half-sovereigns has been stopped with effect from 1st April 1907 by the Government of India Notification No. 6908-A, dated 11th December 1906.

the Gold Standard  
Reserve.

11. As explained in paras. 97 to 112 of the Financial Statement for 1907-08 there has been a change in the constitution of the Reserve into which the net profits on rupee coinage are paid. The designation has been changed to Gold Standard Reserve and a portion of the balance at its credit is now held in separate chests in India outside the Treasury and Currency balances in the form of coined rupees. The building up of the silver portion of the Reserve was commenced from the beginning of the year, and shortly before the end of March the stock of rupees in the Reserve reached the maximum of 6 crores which Government had decided to accumulate in silver.

The balance of the Reserve at the beginning of the year stood at £12,451,911 made up as follows :—

|   | £                 |
|---|-------------------|
| Purchase value of Sterling Securities . . . . .   | 12,165,032        |
| Gold held in India . . . . .                      | ...               |
| Outstanding debt from treasury balances . . . . . | 286,879           |
|   | <u>12,451,911</u> |

The net profit on the new rupee coinage of the year amounted to £4,014,426 and a sum of £21,725 was received as interest on a temporary loan of R3,80,25,000 taken from the Reserve by the Government of India. This loan was taken from the Silver Branch of the Reserve to meet the very heavy telegraphic transfers drawn by the Secretary of State during December 1906 and the following months; it carried interest at  $3\frac{1}{2}$  per cent. and was fully repaid by the 31st March 1907. The total amount which accrued to the credit of the Reserve from time to time together with the outstanding debt from treasury balances at the beginning of the year thus stood at £4,323,030, of which £4,000,000 or R6 crores were paid to the Reserve in coined rupees, £21,725 was paid in gold and £301,305 remained due to the Reserve from treasury balances on 31st March 1907.

The income in England arising from dividends on investment and the discounts obtained in the purchase of Treasury Bills amounted to £353,481, which was invested in sterling securities of the nominal value of £386,677. The balance of the Reserve held in England at the end of the year was thus £12,518,512-18s.-7d.—namely, in even sterling, opening balance of sterling securities £12,165,032 + purchase value of new securities £353,481 = £12,518,513, which was invested as follows :—

|   | Nominal Value. |    |    | Cost of Investment. |    |    |
|---|----------------|----|----|---------------------|----|----|
|   | £              | s. | d. | £                   | s. | d. |

On the corresponding date in 1906 the silver coin balance amounted to ₹13,58,06,010, the silver bullion under coinage and in transit to ₹2,76,89,980 and the gold coin and bullion in India and England to ₹16,30,69,874. There has therefore been an increase of 14 lakhs and 2,44 lakhs respectively in the balances of silver coin and silver bullion. But there has been a decrease of 27 lakhs in the balance of gold coin and bullion.

the Paper Currency Chest in England.

the Currency Investment.

15. The total investment on 31st March 1907 stood as follows :—

|  | Nominal value.<br>R | Cost price.<br>R | a. | p. |
|--|---------------------|------------------|----|----|
| In Rupee Securities—                             |                     |                  |    |    |
| 3½ per cent. Loan of 1842-43 . . . . .           | 8,15,95,000         | 8,00,00,000      | 0  | 0  |
| 3 per cent. Loan of 1896-97 . . . . .            | 2,04,86,500         | 1,99,99,945      | 10 | 0  |
|  | 10,20,81,500        | 9,99,99,945      | 10 | 0  |
|  | £                   | £                | s. | d. |
| In Sterling Securities—                          |                     |                  |    |    |
| 2½ per cent. Consols . . . . .                   | 958,534 3 2         | 869,340          | 7  | 0  |
| 2¾ per cent. Exchequer Bonds (1906—15) . . . . . | 468,000 0 0         | 463,992          | 19 | 8  |
|  | 1,426,534 3 2       | 1,333,333        | 6  | 8  |

On the 18th April, 1906, Exchequer Bonds for £32,000 held by the Secretary of State on account of the Paper Currency Reserve were repaid at par. The cost price at which these bonds had been purchased was £31,726 os. 4d. and this sum was re-invested in consols of the nominal value of £34,887 13s. 3d. the balance of £273 19s. 8d. being treated as interest on the Paper Currency Investment and credited to revenue.

\* Differs from the corresponding figure in the Table in para. 22 by 15,00 owing to adjustment in India in April 1906 of a transfer in England on 31st March 1906 (Vide para. 15 of last year's Report)  
† The balances in the Paper Currency chest in England consisted entirely of gold.

The interest realised and credited to revenue during the year was as follows:—

|                   |            |
|-------------------|------------|
| India . . . . .   | R34,70,420 |
| England . . . . . | £37,110    |

16. The following statements show the value of notes written off the circulation under the Indian Currency Act of 1905:— Writing off of Old Notes.

*Notes written off under Section 17 of Act III of 1905 during the year 1906-07.*

|                                    | 5   | 10    | 20    | 50  | 100 | 500 | 1,000 | 10,000 | Total Pieces. | Total Value. |

17. The following have been the issues and receipts of notes during the year:— Issue and Receipt of Notes.

| ISSUES.  |                | RECEIPTS.  |                |
|--|----------------|--|----------------|
|  | R              |  | R              |
| Circulation* 1st April 1906  | 45,42,83,680   | Over the Counter . . . . .                                       | 1,73,88,52,820 |
| Over the Counter . . . . .   | 1,92,90,59,875 | At Agencies . . . . .  | 74,86,020      |
| At Agencies . . . . .  | 1,55,67,685    | From other Currency Circles . . . . .                            | 13,17,45,200   |
| <i>In Remittance Transactions—</i>   |                | <i>In Remittance Transactions—</i>                               |                |
| Between Head Offices and Agencies . . . . .  | 28,24,26,795   | Between Head Offices and Agencies . . . . .                      | 31,14,19,645   |
| Between Circles . . . . .  | 42,32,56,500   | Between Circles . . . . .  | 43,06,81,550   |
| Refund of value of Notes written off under Section 17 of Act III of 1905 . . . . . | 40             | Notes written off under Section 17 of Act. III of 1905 . . . . . | 1,50,920       |
| Refund of the value of Notes twice paid . . . . .                                  | 30             | Balance being Circulation* on the 31st March 1907 . . . . .      | 48,42,58,450   |
|  | 2,65,03,10,925 |  |                |
| <b>TOTAL</b> . . . . .   | 3,10,45,94,605 | <b>TOTAL</b> . . . . .   | 3,10,45,94,605 |

The issues of notes over the Counter were greater than those of the previous year by 27.43 lakhs and the receipts by 23.95 lakhs. The transactions between Head Offices and Agencies were more by 5.23 lakhs in the case of issues, and by 7.56 lakhs in the case of receipts. These transactions vary with the amount of telegraphic transfers issued for Resource purposes.

The total issues and receipts for the last three years are as follows:—

|                   | Issues.<br>R   | Receipts.<br>R |
|-------------------|----------------|----------------|
| 1904-05 . . . . . | 1,97,56,17,710 | 1,96,55,06,965 |
| 1905-06 . . . . . | 2,25,02,84,670 | 2,19,43,00,405 |
| 1906-07 . . . . . | 2,65,03,10,925 | 2,62,03,36,155 |

\* Including notes which have been paid off in some other Circle than their own.

The issues have increased by about 40,00 lakhs, and the receipts by 42,60 lakhs as compared with the previous year, the difference being made up as follows:—

|                                       | Issues.<br>₹ | Receipts.<br>₹ |
|---------------------------------------|--------------|----------------|
| Over the Counter . . . . .            | + 27,43      | + 23,95        |
| Remittance transactions . . . . .     | + 14,48      | + 17,40        |
| From other Currency Circles . . . . . | ...          | + 1,12         |
| Other heads . . . . .                 | — 1,91       | + 13           |
|                                       | <u>40,00</u> | <u>42,60</u>   |

18. The following table gives the circulation of the six larger circles, and the mean value of their receipts and issues during the year, with the percentage of the former to the latter during the last three years. As usual the transactions in Burma are very high, compared with the average circulation, because of the large operations there during about three months of each year in connection with the export of rice:—

| NAME OF CIRCLE.     | IN LAKHS OF RUPEES.                       |                                    | PERCENTAGE OF AMOUNT IN COLUMN 2 ON THAT IN COLUMN 3. |          |          |
|---------------------|---|------------------------------------|---|----------|----------|
|                     | Average circulation on last day of month. | Mean value of Receipts and Issues. | 1905-07.  | 1905-06. | 1904-05. |
| Calcutta . . . . .  | 19,53                                     | 1,15,74                            | 17  | 19       | 21       |
| Allahabad . . . . . | 1,91                                      | 14,04                              | 13  | 18       | 21       |
| Lahore . . . . .    | 3,09                                      | 18,72                              | 16  | 20       | 20       |
| Bombay . . . . .    | 12,05                                     | 59,59                              | 20  | 21       | 23       |
| Madras . . . . .    | 4,98                                      | 27,86                              | 18  | 19       | 18       |
| Rangoon . . . . .   | 2,23                                      | 24,19                              | 9   | 8        | 7        |

19. The aggregate issues and receipts of the several denominations of notes, both at offices of Issue and at Agencies during the year, were as follows:—

|                       | NUMBER OF NOTES FOR RUPEES. |            |           |         |           |         |         |         | TOTAL.     |                |
|-----------------------|-----------------------------|------------|-----------|---------|-----------|---------|---------|---------|------------|----------------|
|                       | 5                           | 10         | 20        | 50      | 100       | 500     | 1,000   | 10,000  | Number.    | Value.         |
| Issues . . . . .      | 3,138,555                   | 13,347,809 | 1,165,233 | 493,574 | 3,509,157 | 254,696 | 559,033 | 141,536 | 22,609,643 | 2,65,03,10,925 |
| Receipts . . . . .    | 2,890,683                   | 11,433,639 | 1,140,680 | 496,131 | 3,305,827 | 252,789 | 556,499 | 143,045 | 20,219,293 | 2,62,03,36,155 |
| More Issues . . . . . | 247,372                     | 1,914,170  | 24,553    | ...     | 203,330   | 1,907   | 2,534   | ...     | 2,394,366  | 4,46,92,620    |
| „ Receipts . . . . .  | ...                         | ...        | ...       | 2,557   | ...       | ...     | ...     | 1,459   | 4,016      | 1,47,17,850    |

The average number of notes passed over the Counters at each Head Office on each working day during the past three years, and the daily average of cancellations, are given in the following table:—

|                       | NOTES CASHED. |          |          | NOTES ISSUED. |          |          | NOTES CANCELLED. |          |          |
|-----------------------|---------------|----------|----------|---------------|----------|----------|------------------|----------|----------|
|                       | 1904-05.      | 1905-06. | 1906-07. | 1904-05.      | 1905-06. | 1906-07. | 1904-05.         | 1905-06. | 1906-07. |
| At Calcutta . . . . . | 20,005        | 22,361   | 30,426   | 23,889        | 29,831   | 36,565   | 16,099           | 17,745   | 21,837   |
| „ Bombay . . . . .    | 14,902        | 14,445   | 17,182   | 14,894        | 15,454   | 18,359   | 9,082            | 7,792    | 8,539    |
| „ Madras . . . . .    | 8,031         | 8,642    | 9,686    | 8,062         | 8,780    | 10,261   | 8,460            | 8,272    | 8,623    |
| „ Rangoon . . . . .   | 4,777         | 5,208    | 5,520    | 5,228         | 5,500    | 6,073    | 4,722            | 4,586    | 4,983    |

The growth of the work at Calcutta is very noticeable.

The numbers of the total issues and cancellations for the year, in thousands of pieces, are given below and compared with the previous year's figures.

|                   | CIRCLES.  |           |         |         |          |         |          |          |        |

| Remitted to Circles concerned . . .  |              | 12,89,47,000 |                                     |
| Balance on 31st March 1907 . . .     |              | 1,47,39,190  |                                     |
| TOTAL . . .                          |              | 14,36,86,190 |                                     |

The increase in the balance was chiefly at Allahabad where a number of notes received from agencies remained undisposed of at the close of the year.

21. The details by Circles of the values of Foreign Circle Notes received over the Counter, as shown above, are as follows :—

| CIRCLE.                | CASHED BY   |             |             |             |             |           |          |          | TOTAL.       |              |             |             |

The total encashments of Foreign Circle Notes were more than those of the last year by about 97 lakhs, the increase being the net result of increases of 76 lakhs at Calcutta, 26 lakhs at Lahore, 9 lakhs at Bombay, 23 lakhs at Karachi, and 3 lakhs at Madras against a decrease of 40 lakhs at Allahabad.

The most important variations from the preceding years occurred in the Foreign encashment of Allahabad and Lahore Notes. During the year the encashment of Allahabad and Lahore notes increased at Calcutta by 49 lakhs and 33 lakhs respectively. Elsewhere the variations were not so marked. The cause is to be found in the varying trade demand which leads to the transfer of funds from those provinces in which trade is comparatively dull to those in which it is brisk. The following statement shows in lakhs of rupees the net transfers by means of Foreign Circle Notes between each of the circles during the last two years. The plus figures indicate that transfers *to* the circle exceeded those *from* it, and the minus figures represent an opposite movement :—

|                     | 1905-06. | 1906-07. | Difference. |
|---------------------|----------|----------|-------------|

The net result was an increase in the coin and bullion reserve of 2,31 lakhs. This increase after deducting one lakh and a half received at Bombay but not paid at Madras until after the 31st March 1907 exactly corresponds with the increase in the circulation as shown in paragraph 4, there having been no addi-

tion to the investment of the Reserve during the year. The receipts and issues were more than those of the previous year by 10 lakhs and 1,27 lakhs, respectively, the increase being made up as follows :—

|                                   | Lakhs of Rupees. |         |
|-----------------------------------|------------------|---------|

bearing the dates 1835 and 1840 are shown in the margin in thousands of rupees. The withdrawals of uncurrent coin increased from last year by over 15 lakhs, the major portion of the increase occurring in the United Provinces. The total amount of 1835 coins withdrawn to the end of the year is about 2,97 lakhs, and that of 1840 coins 22,23 lakhs.

24. The Indian Coinage Act of 1906 contemplated certain alterations in the rules about the receipt of light-weight and defaced coin. Cutting of light-weight coin. The supplemental rules under the Act were however not published till the 8th March, 1907, and the old rules remained in force. The number of light-weight coins cut and broken during the year in the several provinces are shown below :—

| NAME OF PROVINCE.                            | RUPEES AND HALF RUPEES.   |          |  |        |  |     | Small Silver coin reduced in weight otherwise than by reasonable wear. |     |
|--|---|----------|--|--------|--|-----|--|-----|
|  | Reduced in weight over 2 per cent. but not more than 6½ per cent. |          | Reduced in weight over 6½ per cent. but not more than 25 per cent. |        | Reduced in weight more than 25 per cent. |     |  |     |
|  | ₹   | ½₹       | ₹  | ½₹     | ₹  | ½₹  | ½₹   | ¼₹  |
| India . . . . .                              | 1,32,065  | 21,225   | 4,254  | 5,907  | 2,573                                    | 705 | 657  | 649 |
| Central Provinces and Berar . . . . .        | 3,244   | 205      | 58   | 4      | 43                                       | ... | ...  | ... |
| Burma . . . . .                              | 1,20,515  | 128      | 125  | 4      | 316                                      | 1   | 1  | ... |
| Eastern Bengal and Assam . . . . .           | 28,726  | 164      | 163  | 11     | 58                                       | 3   | ...  | ... |

| United Provinces of Agra and Oudh . . . . .  | 10,09,187   | 1,05,201 | 6,232  | 5,007  | 771                                      | 57  | 98   | 104 |
| Punjab and N.-W. Frontier Province . . . . . | 31,854  | 17,614   | 3,187  | 5,681  | 429                                      | ... | ...  | ... |
| Madras . . . . .                             | 3,40,593  | 41,014   | 858  | 149    | 196                                      | 4   | ...  | ... |
| Bombay . . . . .                             | 1,76,679  | 1,01,336 | 1,853  | 1,109  | 425                                      | 1   | 105  | 198 |
| TOTAL . . . . .                              | 18,58,391   | 2,87,577 | 17,013   | 17,960 | 5,025                                    | 773 | 861  | 951 |

The total amount of light-weight rupees received and paid for during the year was more than double that of the previous year. The very large increase in the number cut in Burma and the United Provinces is attributed to greater attention being now paid to the rules on the subject.

The work done at the five large Currency offices as regards the examination of coins presented was again tested in May 1907 by fresh examination at the Mints. In accordance with the decision embodied in the Government of India letter No. 5565-A., dated 3rd October 1906, instructions were issued for conducting this examination on a basis different from that hitherto followed. The

previous practice was to send to the Mints the entire accumulations of a particular period up to a certain maximum amount. This practice was altered last year and it was decided that the portions to be examined should be chosen at random by the Currency Officer concerned, care being taken that coin specially examined for the purpose is not selected. The operation was at the same time extended to the Currency Office, Rangoon. The result of the re-examination at the Mints is shown in the following table:—

| Amount examined.           | Calcutta.           | Bombay.             | Madras.             | Allahabad.          | Lahore.             | Rangoon.            |
|----------------------------|---------------------|---------------------|---------------------|---------------------|---------------------|---------------------|
|                            | Rs. 10,00,000.      | Rs. 8,84,808.       | Rs. 4,35,999.       | Rs. 2,00,000.       | Rs. 1,44,180.       | Rs. 3,00,000.       |
|                            | Discovered by Mint. | Discovered by Mint. | Discovered by Mint. | Discovered by Mint. | Discovered by Mint. | Discovered by Mint. |
| Counterfeits . . . .       | 87                  | 70                  | 24                  | 1                   | 13                  | 23                  |
| Lost between 2 % and 4 % . | 11,139              | 6,584               | 2,040               | 218                 | 3,573               | 2,489               |
| „ „ 6½ % „ 12½ % .         | 190                 | 126                 | 40                  | 4                   | 22                  | 57                  |
| „ „ 12½ % „ 18½ % .        | 16                  | 10                  | 4                   | 1                   | 1                   | 2                   |
| „ „ 18½ % „ 25 % .         | ...                 | 1                   | ...                 | ...                 | ...                 | ...                 |
| TOTAL .                    | 11,432              | 6,791               | 2,108               | 224                 | 3,609               | 2,571               |

The following statement compares for the last three years the total percentage of light weights detected at the Mints in the remittances mentioned above:—

|                     | Percentage detected at the mints. |          |          |
|---------------------|-----------------------------------|----------|----------|
|                     | 1904-05.                          | 1905-06. | 1905-07. |
| Calcutta . . . . .  | 1'670                             | 1'478    | 1'134    |
| Bombay . . . . .    | '600                              | '779     | '682     |
| Madras . . . . .    | '401                              | '303     | '478     |
| Allahabad . . . . . | 2'257                             | '410     | '112     |
| Lahore . . . . .    | 1'720                             | '912     | 2'494    |

The above is not exactly a true comparison, as a different principle of selection was followed in 1906-07, but is interesting as showing the results obtained under the two systems. Judging from the above figures it would seem that the work done at Calcutta and Allahabad in the year under report was better than in previous years, while that done at Bombay and Madras was not quite as satisfactory, but the latter was probably due to the operation of the new system. Through an oversight at the Currency Office the new procedure was not intro-

duced at Lahore in the year under report, the old system being followed. The result was disappointing and points to an inefficient examination at the Lahore Office of coins light between 2 and 6½ per cent.

| PROVINCE.                                       | R      | ½R    | ¼R    | ⅛R    |
